

The background of the slide is composed of 100 overlapping, irregular, rounded shapes (blobs) in various shades of green and blue. The colors range from a very light, pale green in the center to a dark, deep blue at the outer edges, creating a sense of depth and organic growth. The shapes are somewhat amorphous and fluid, resembling natural forms like leaves or cells.

# 100 random blobs

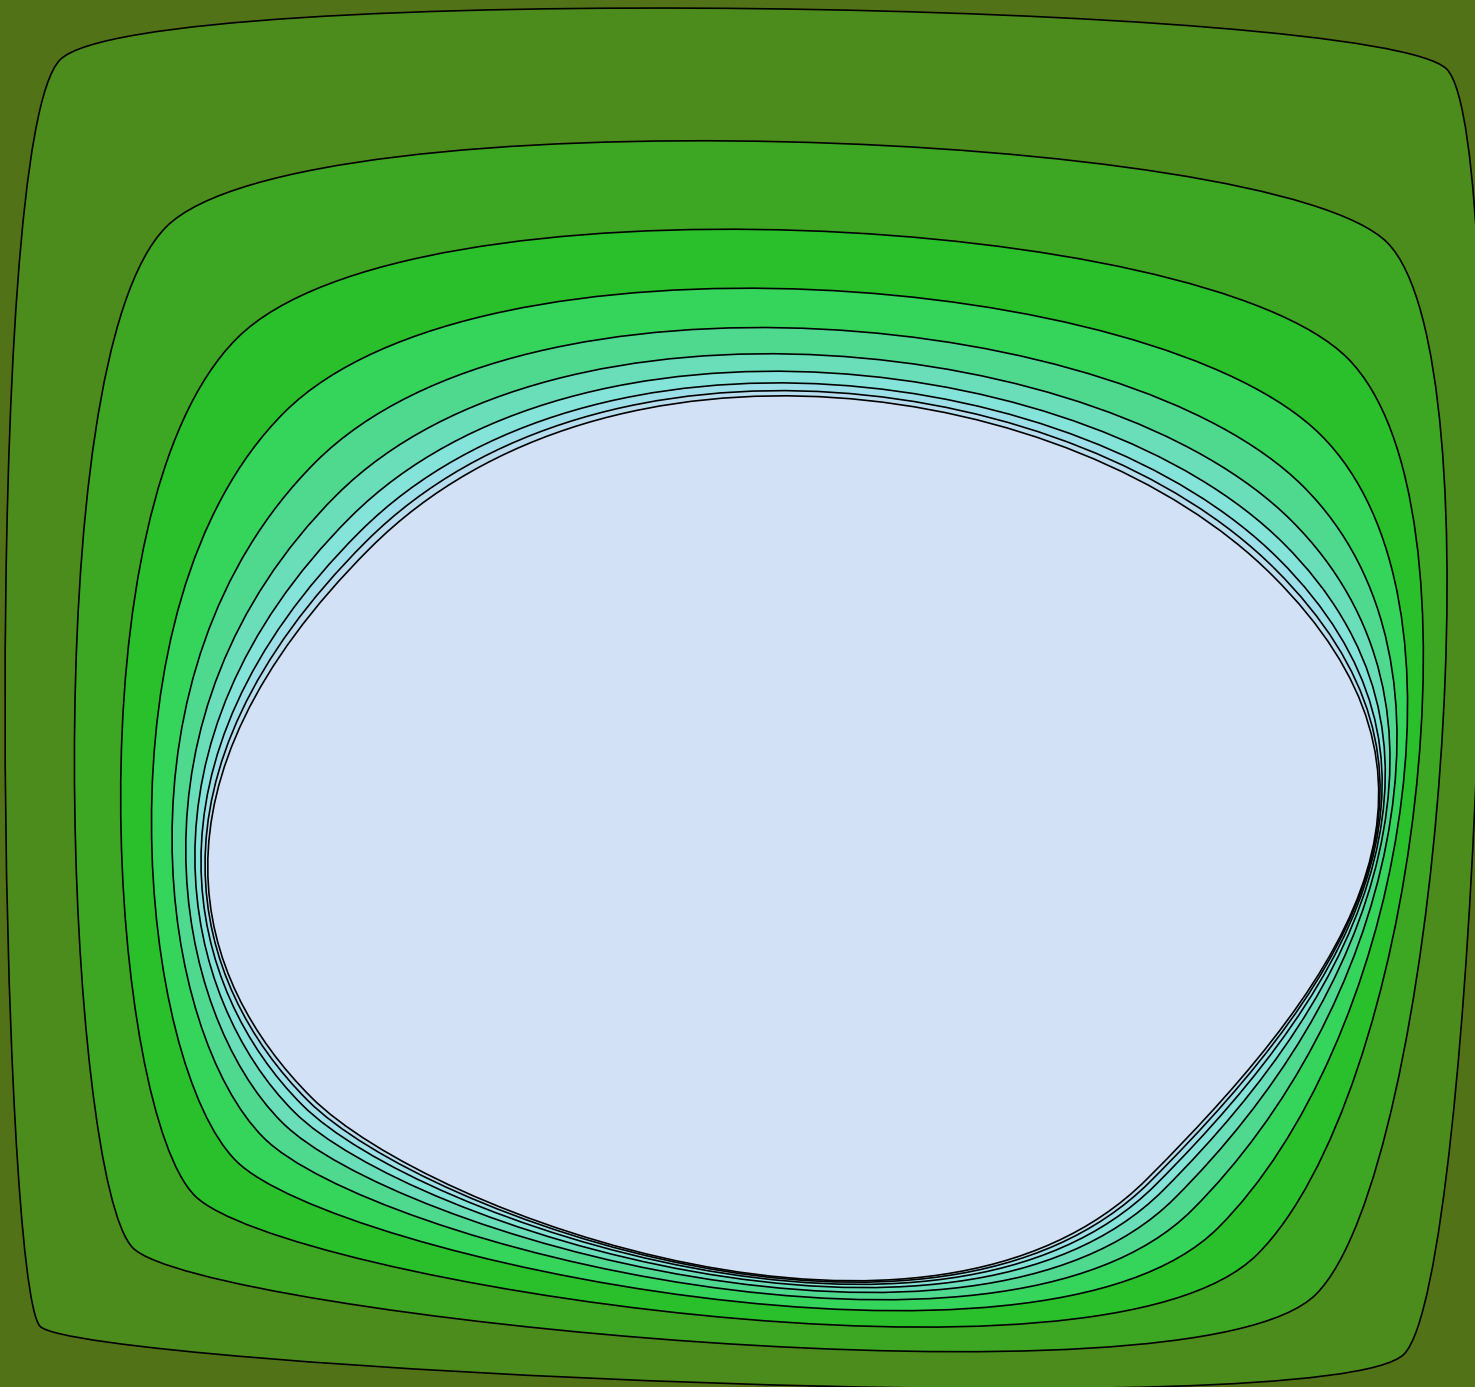

November the 19th, 2015 — Vasilis van Gemert

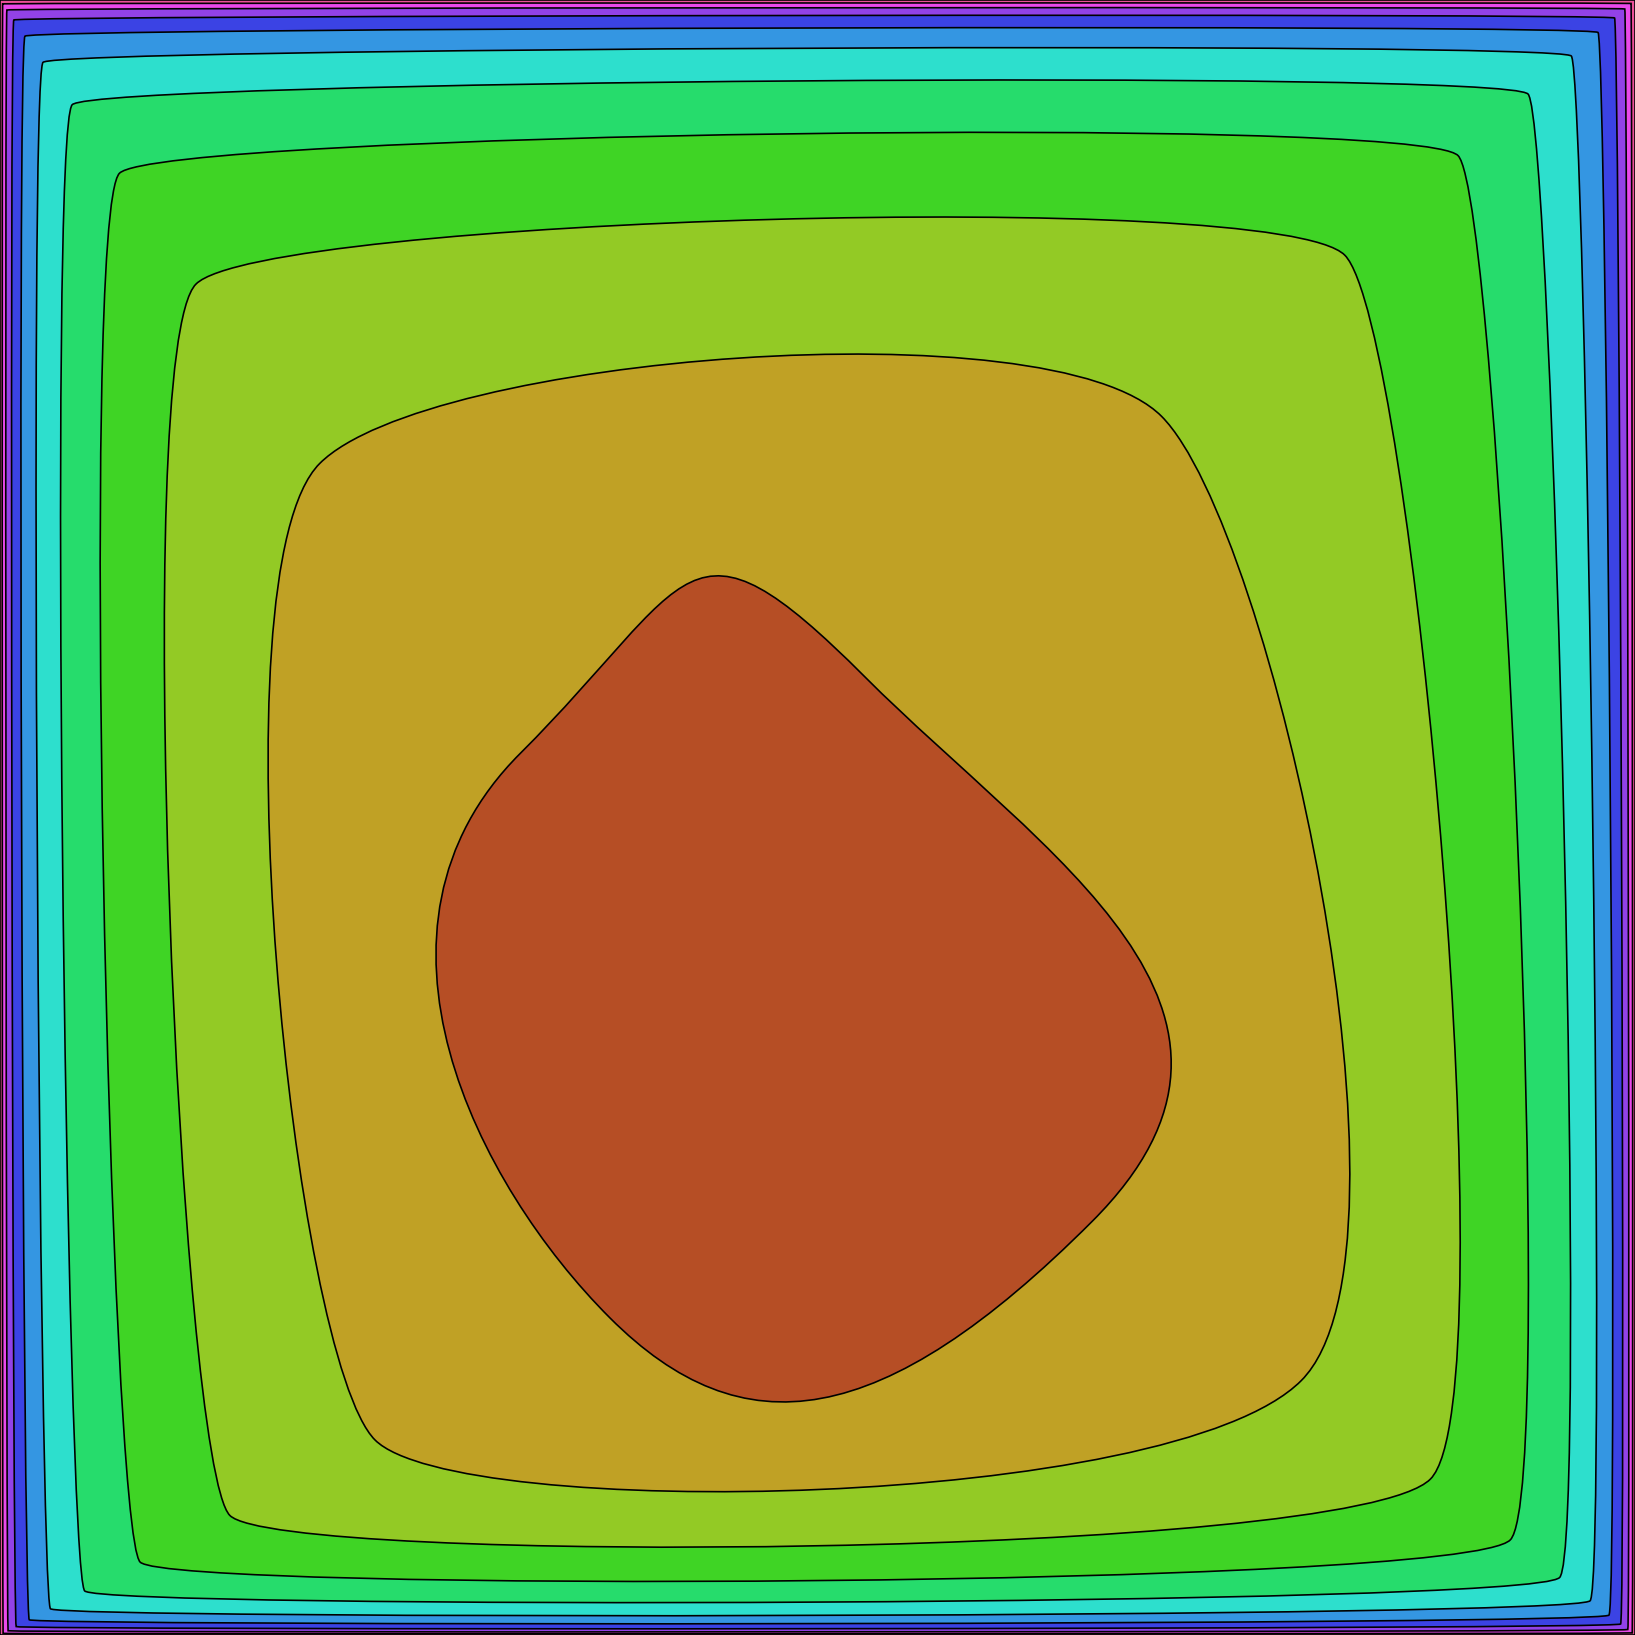

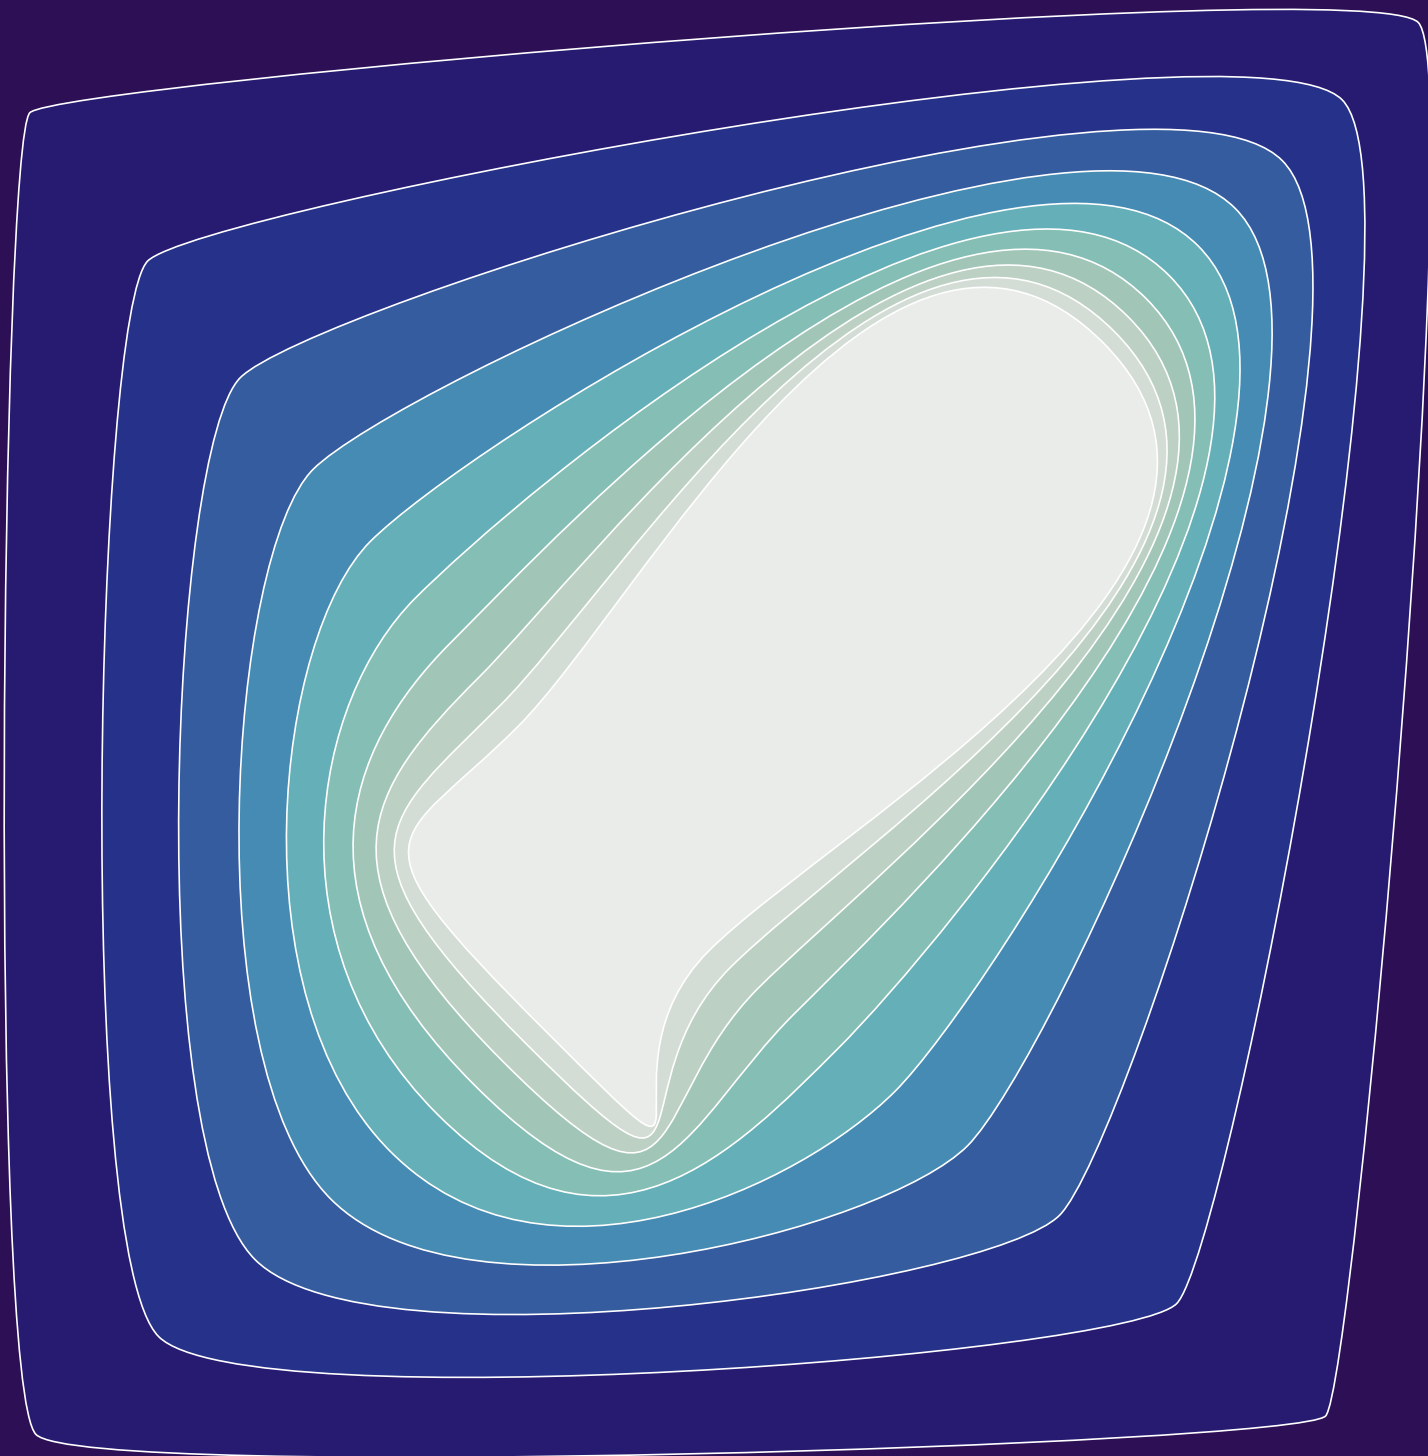

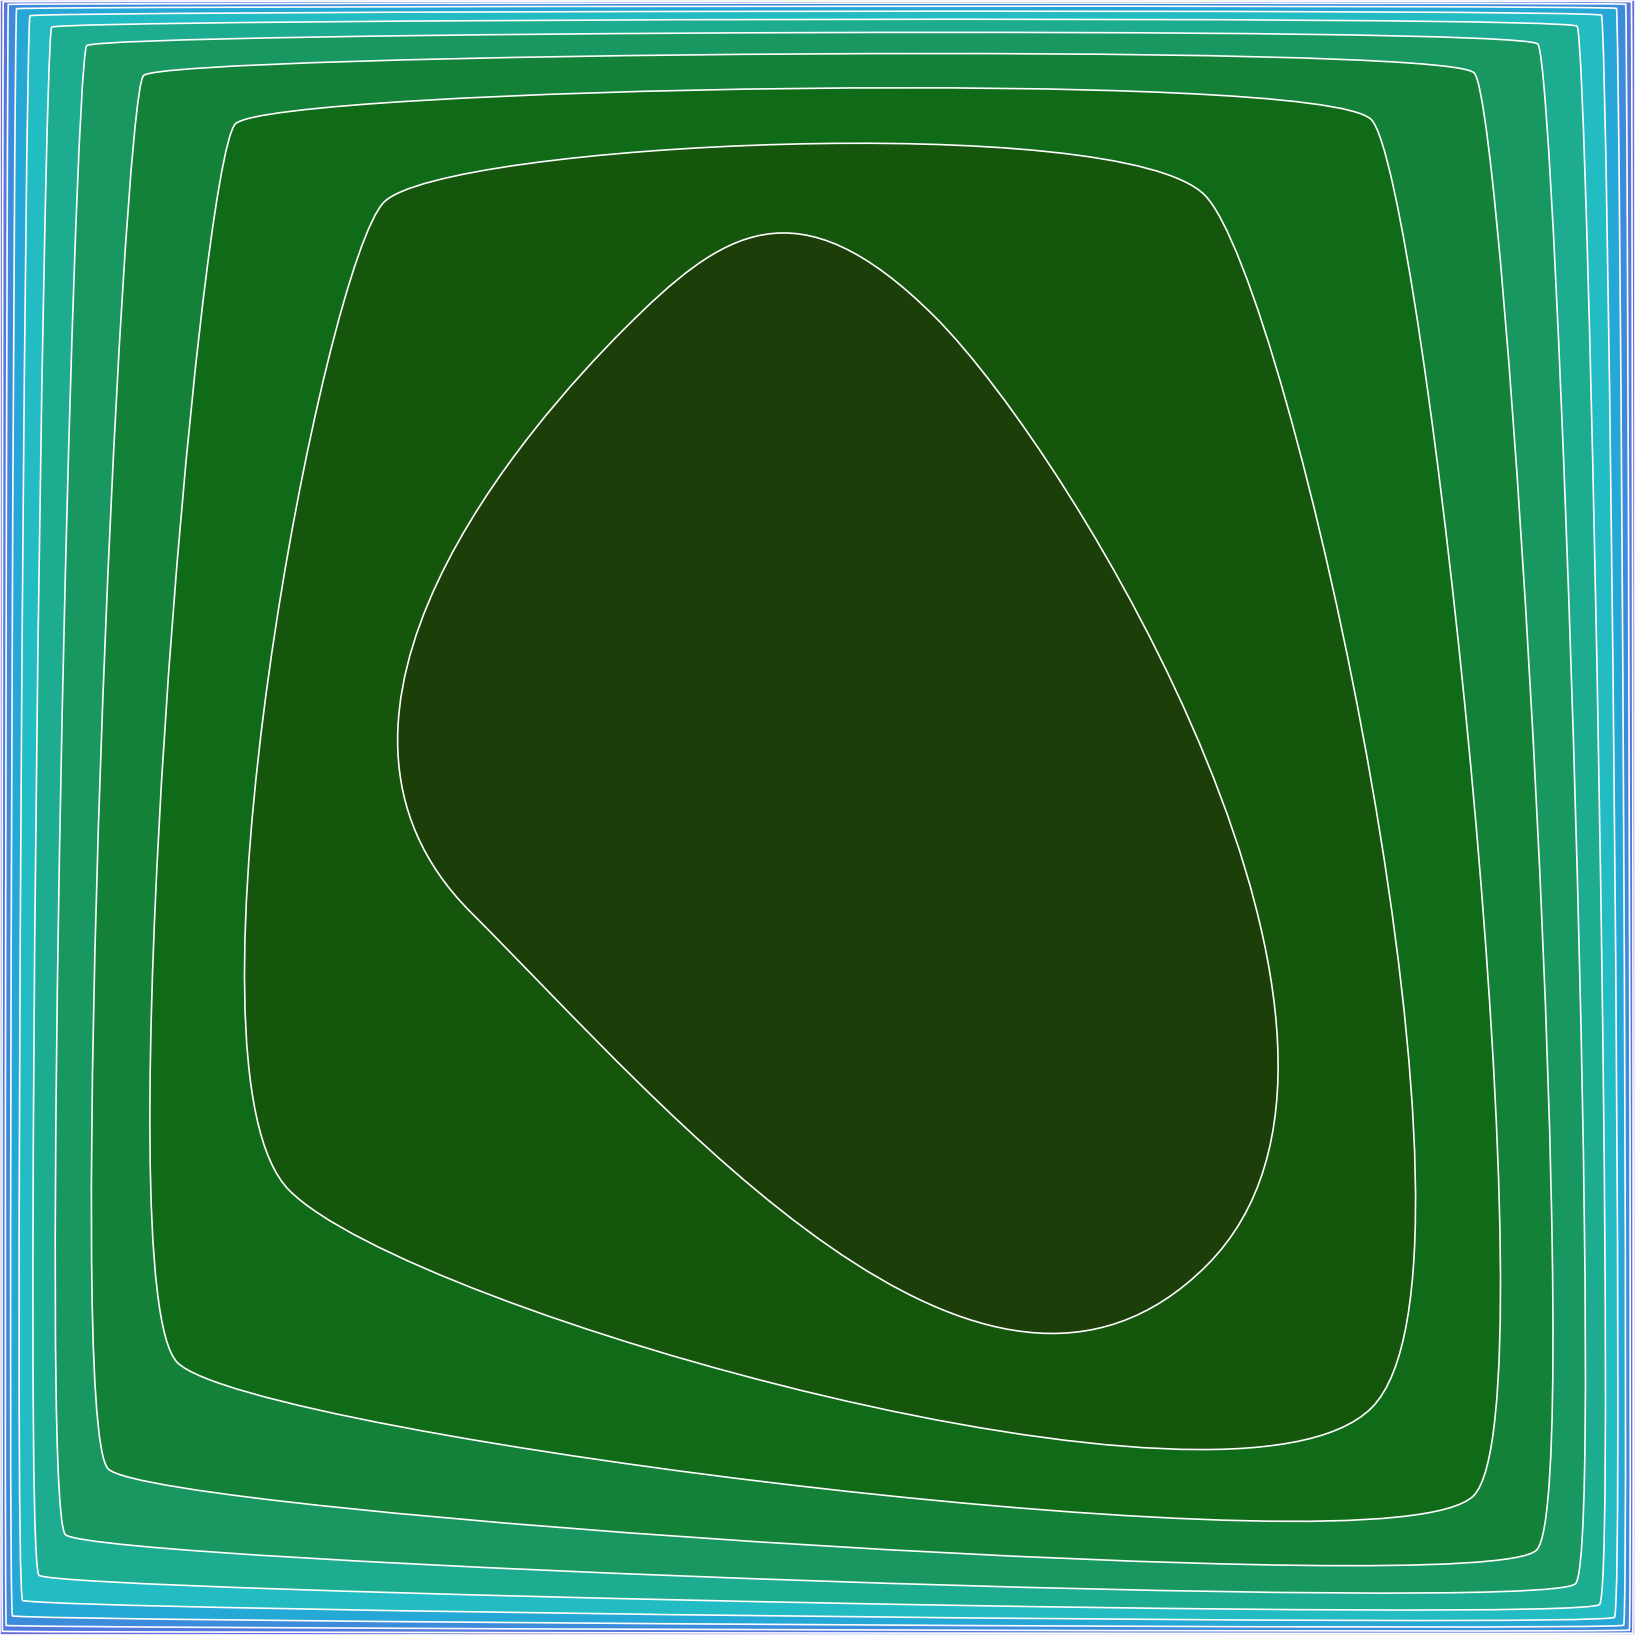

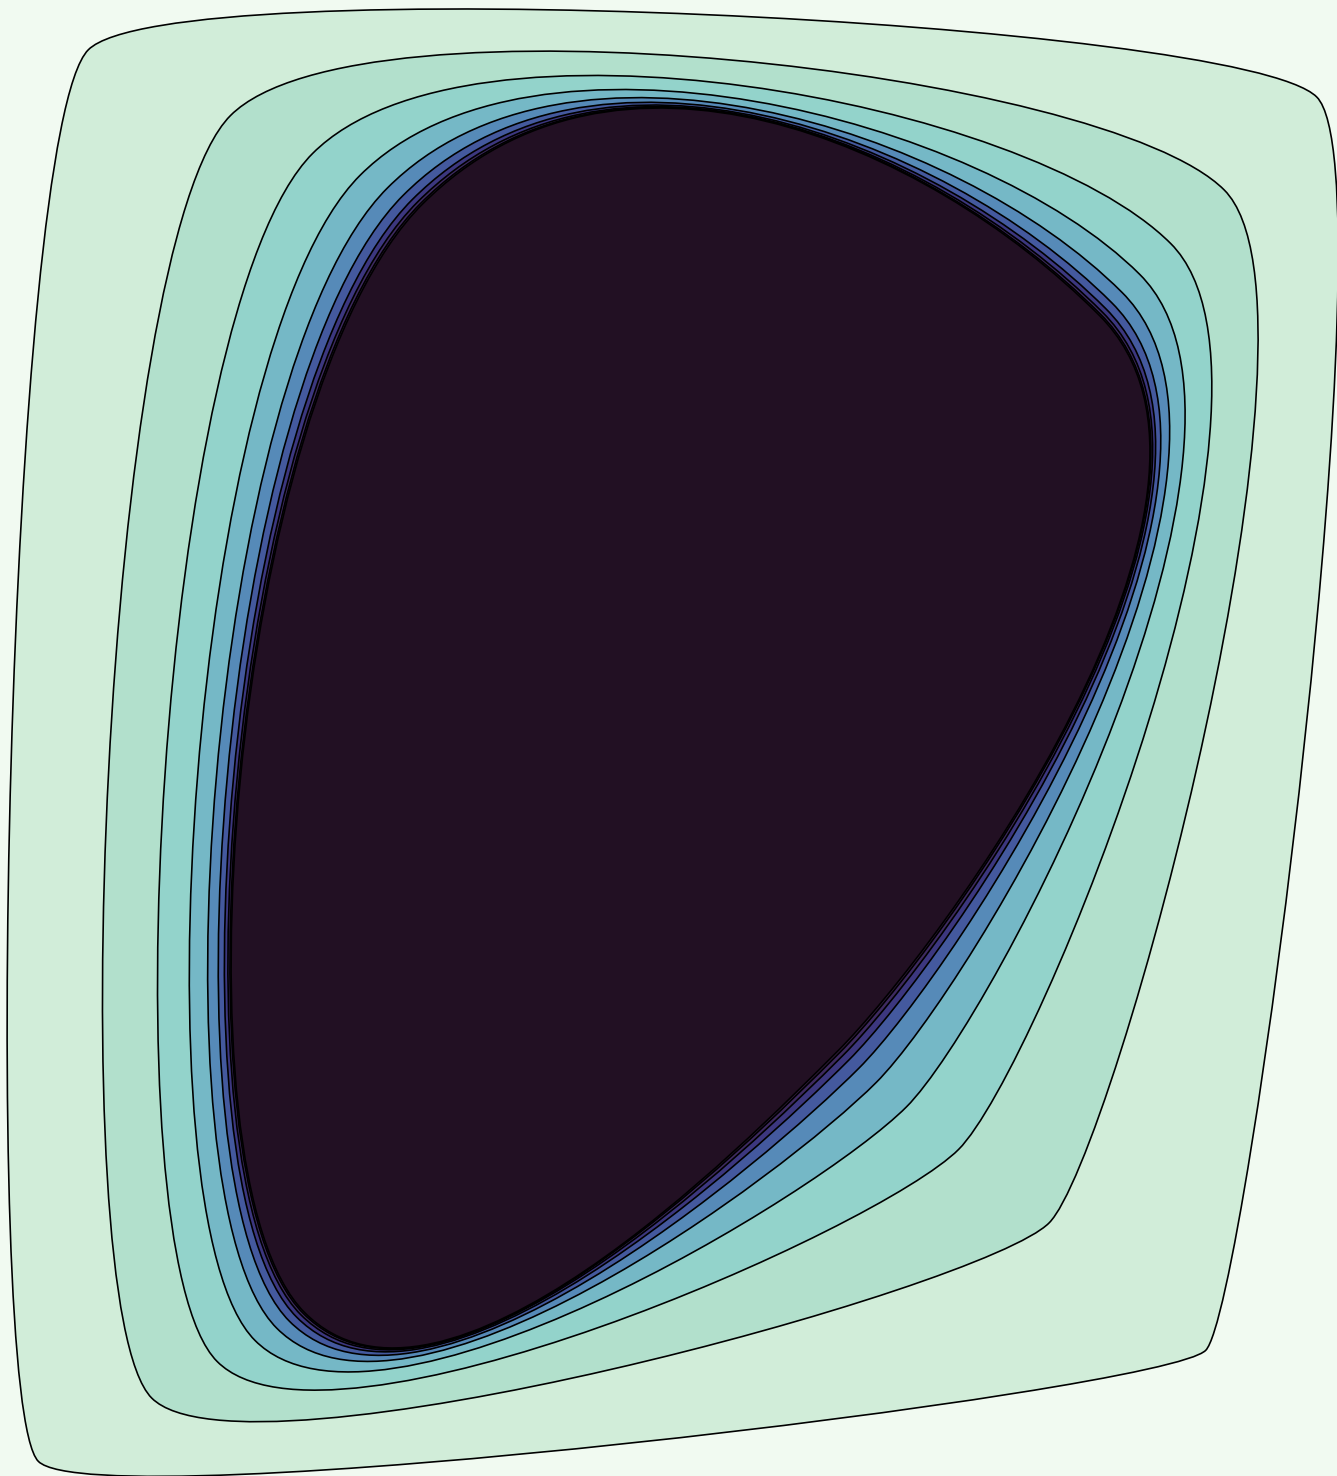

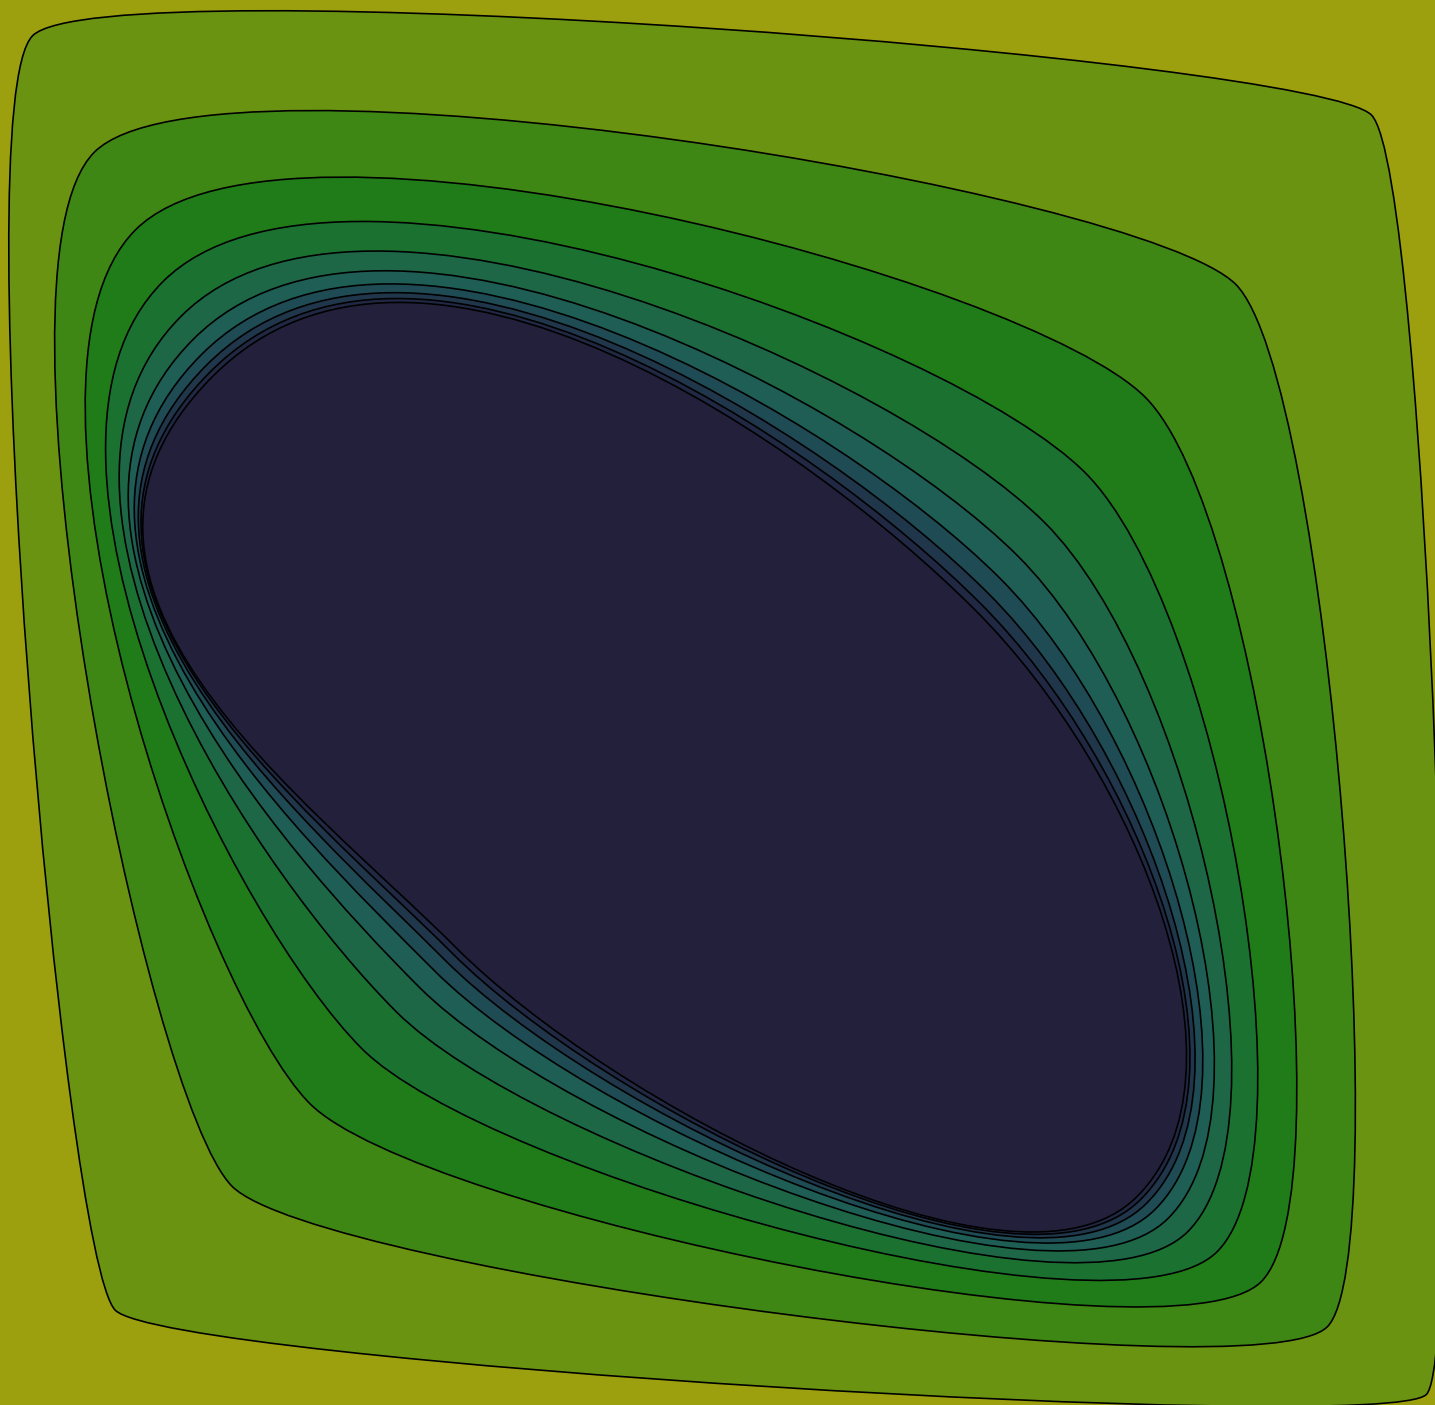

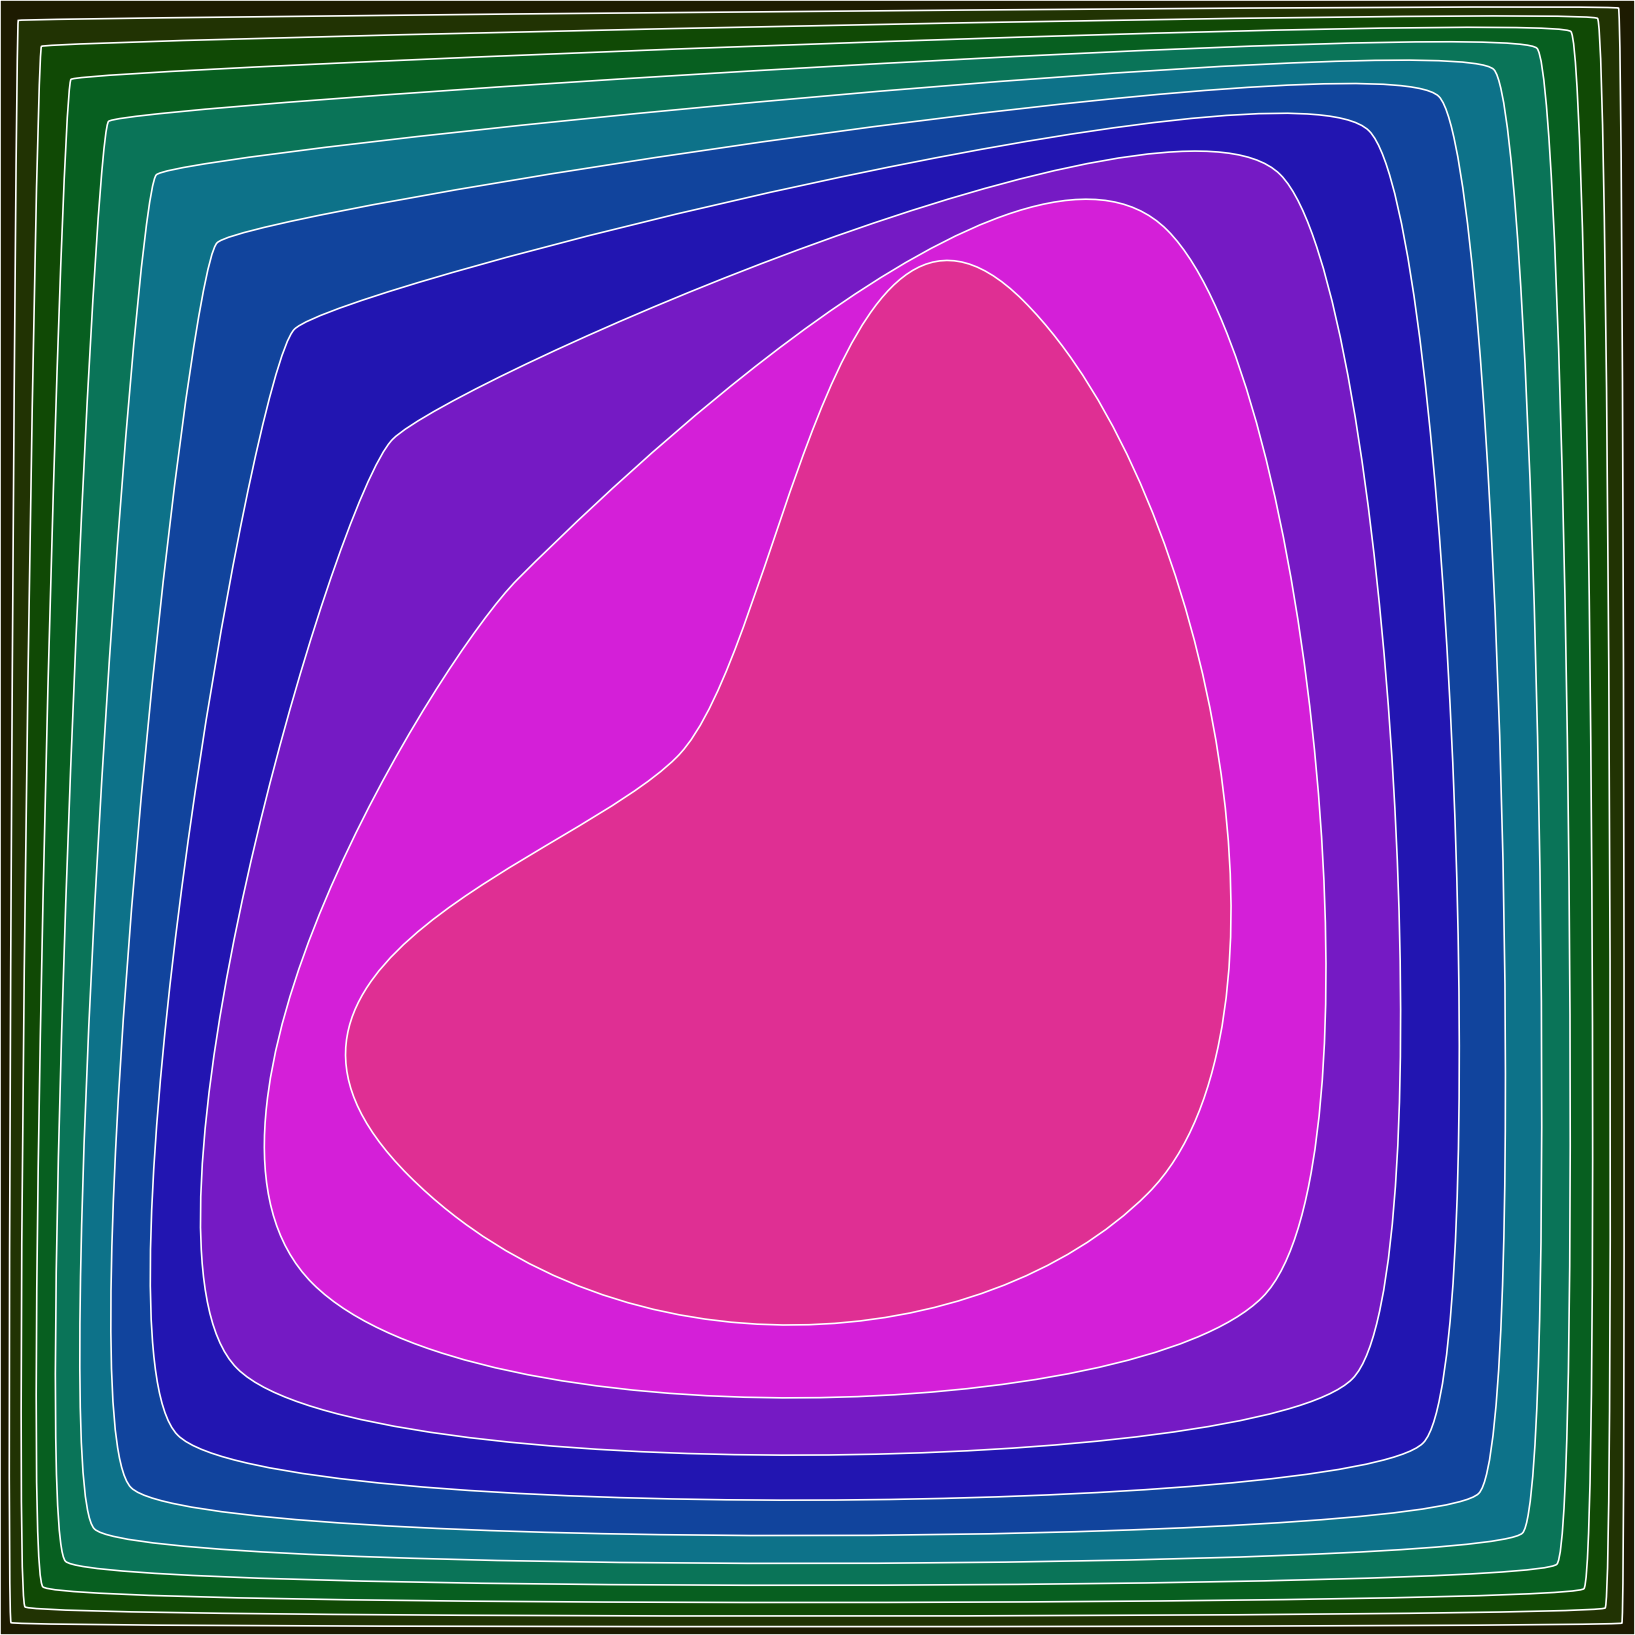

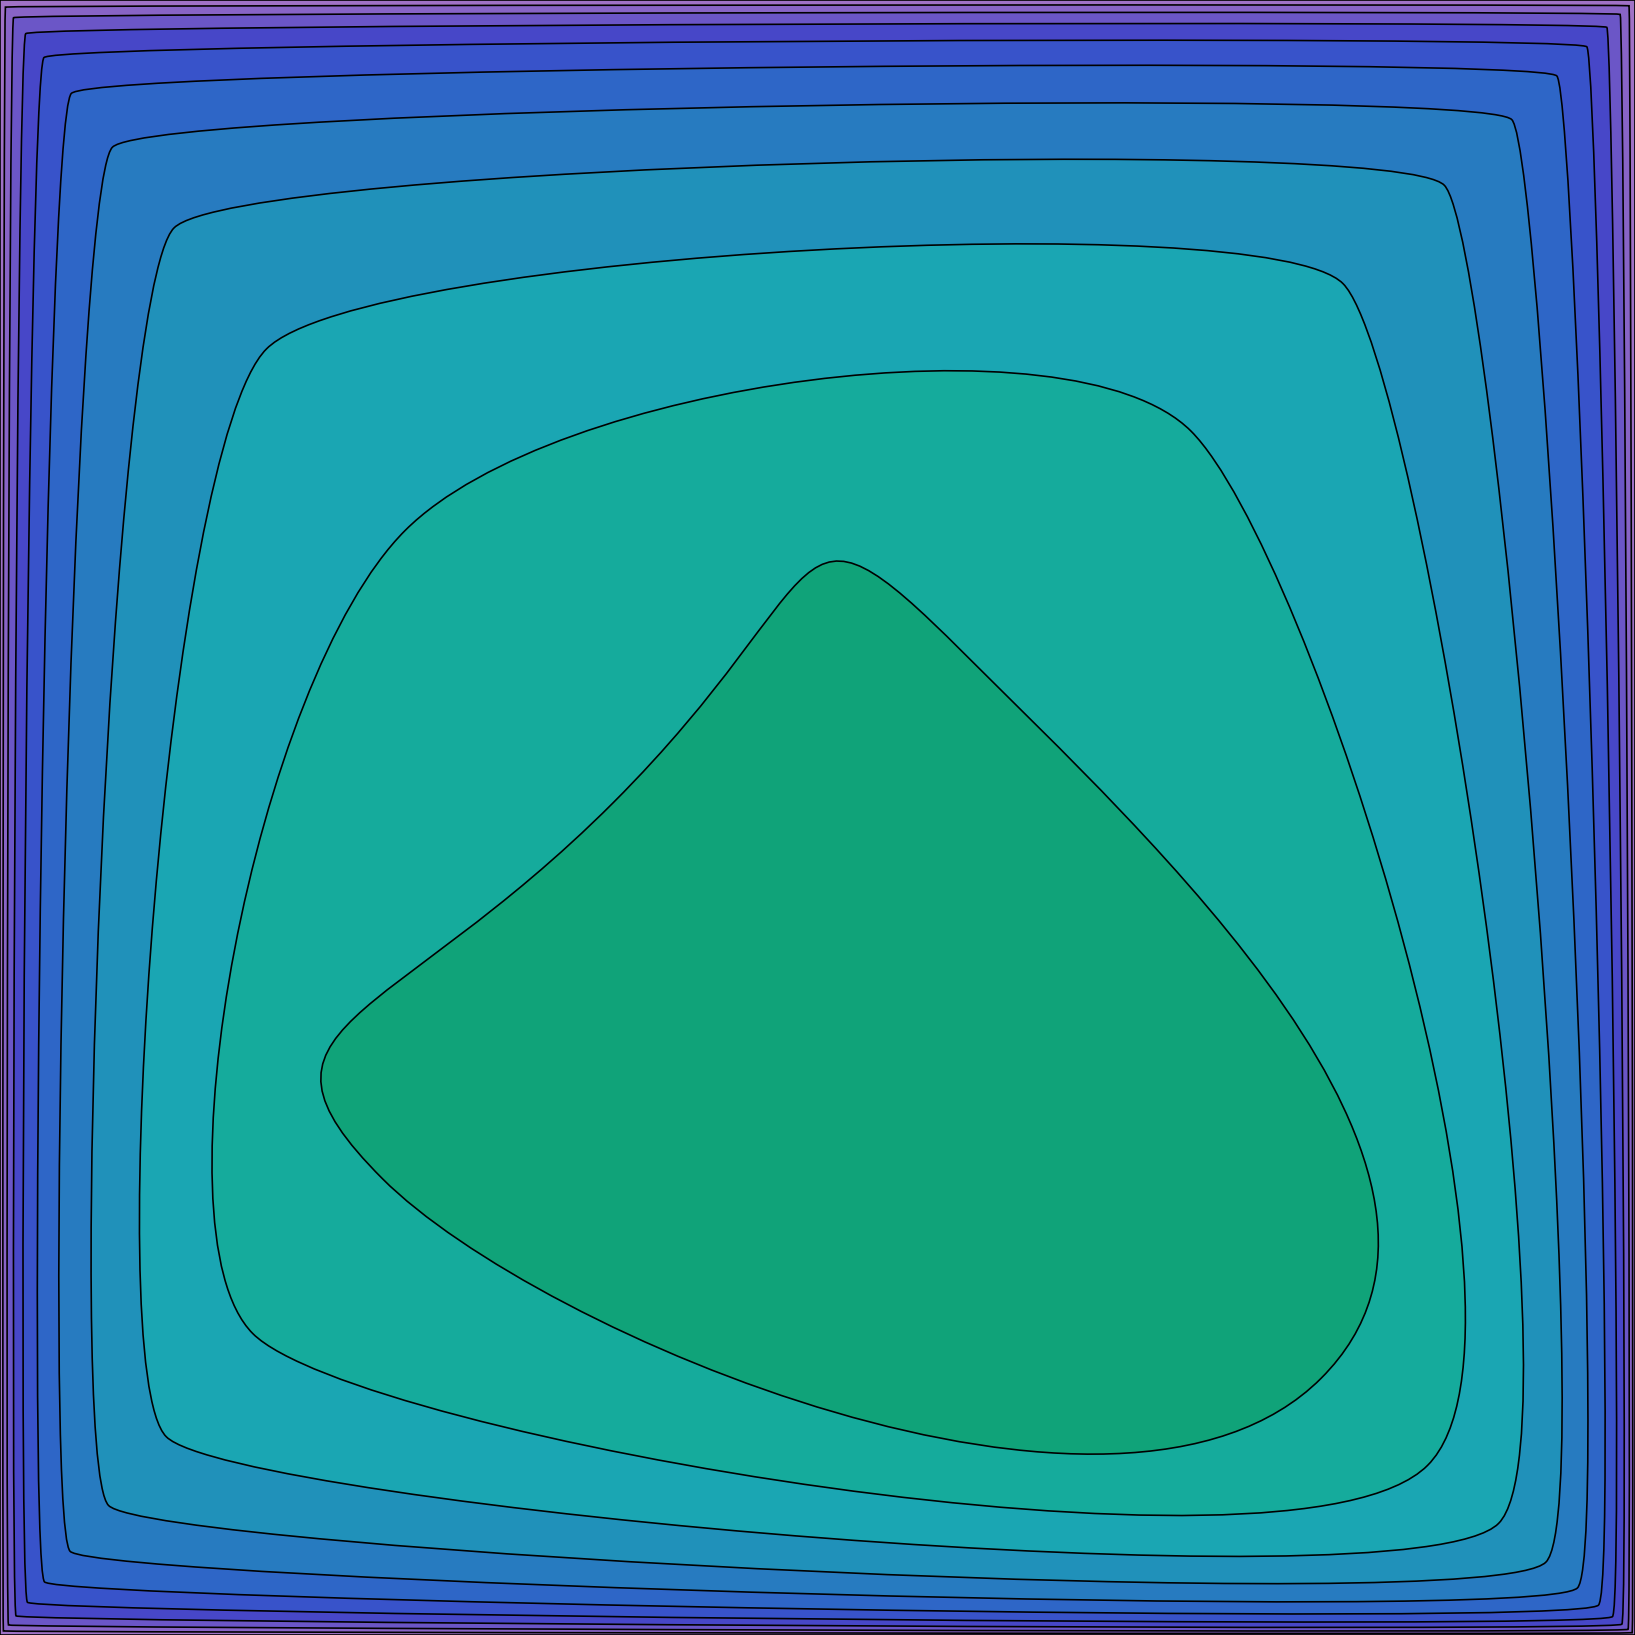

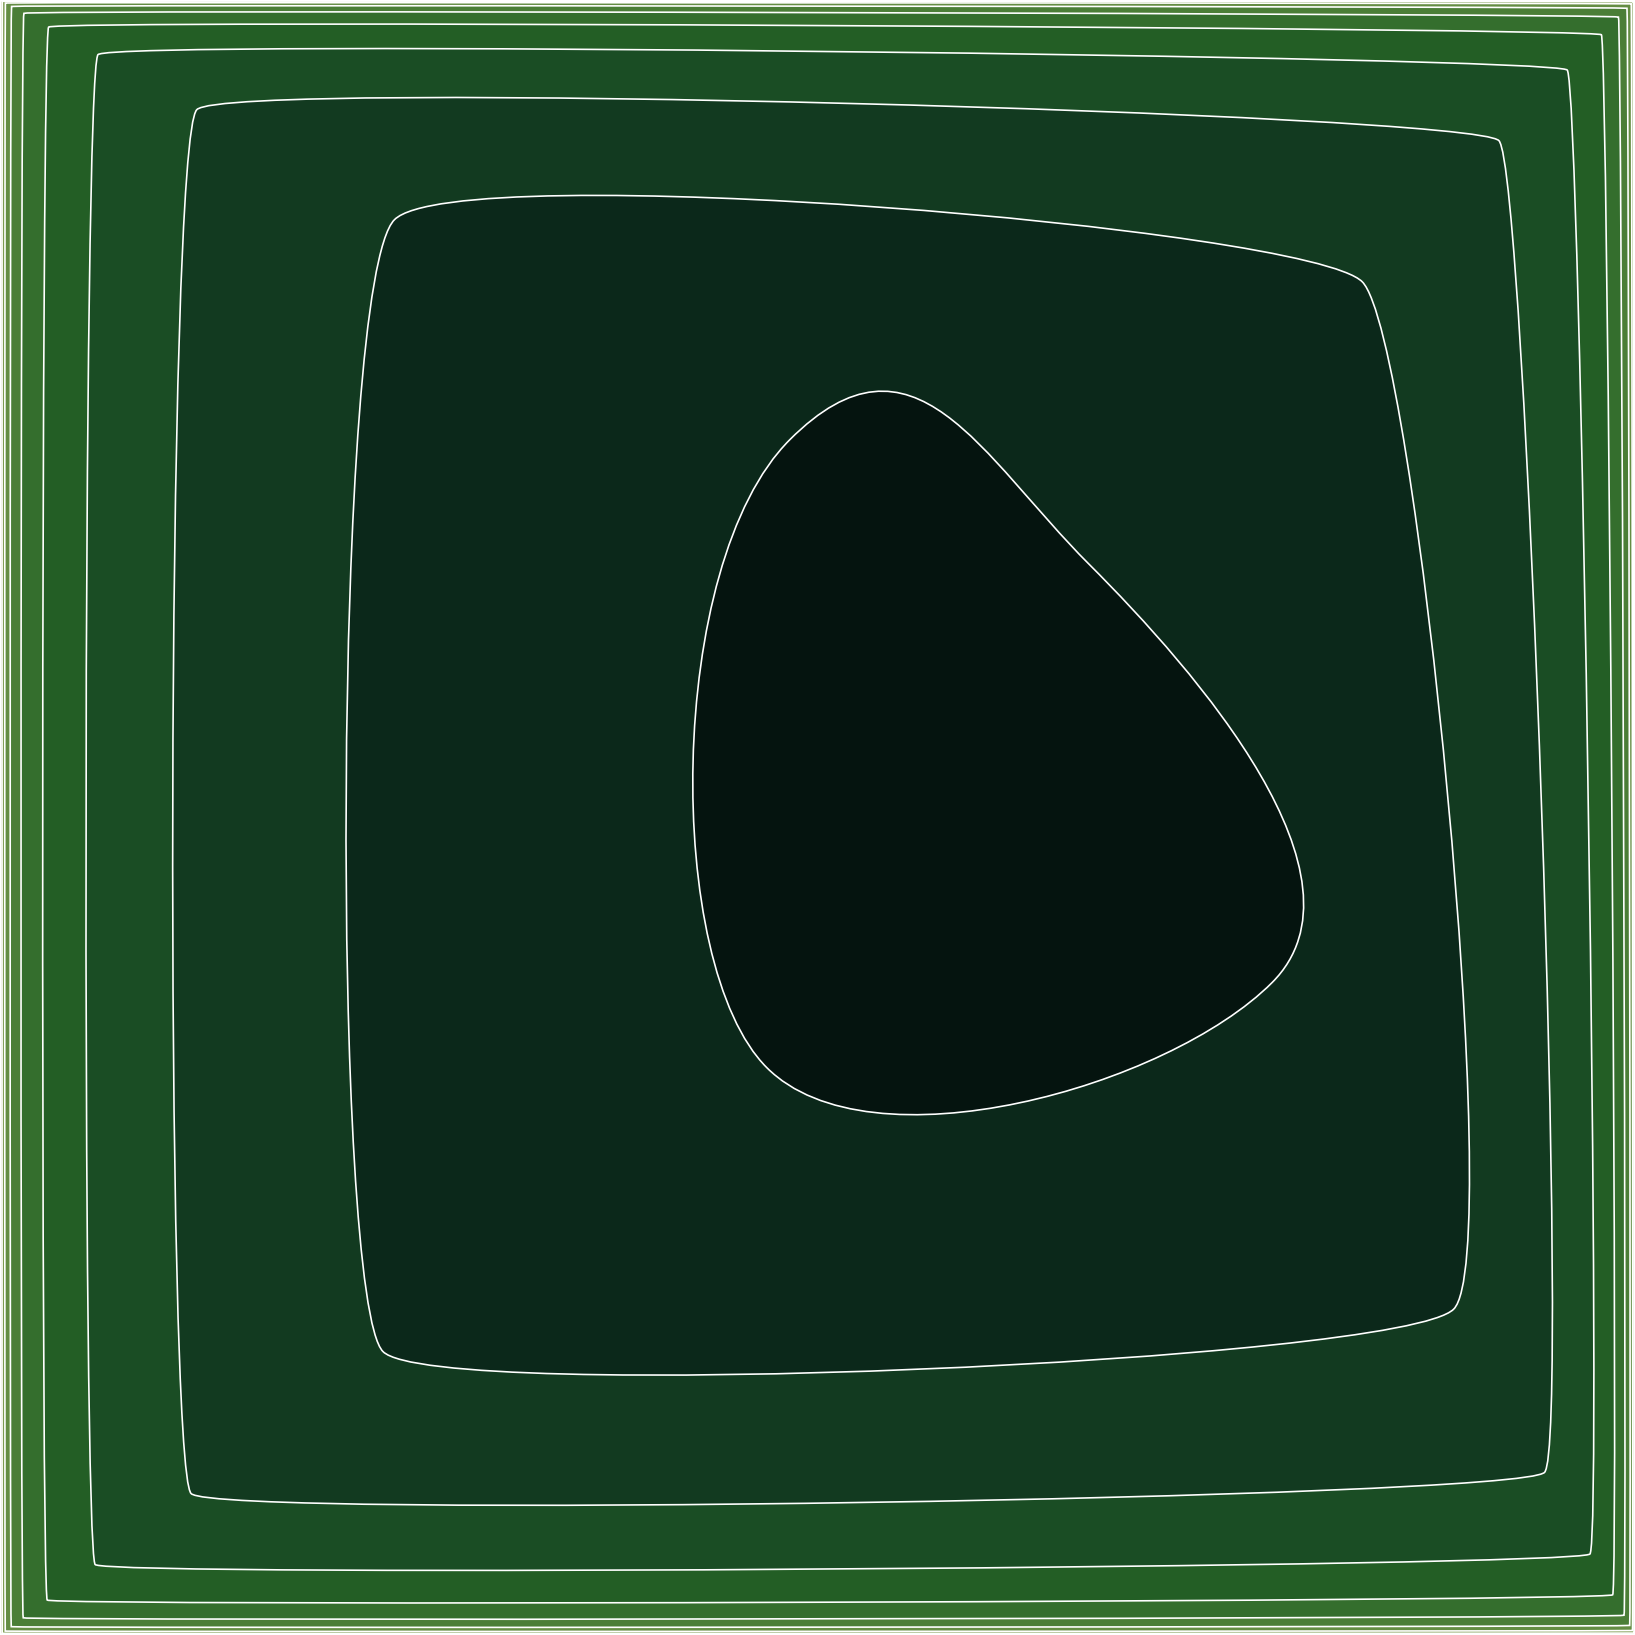

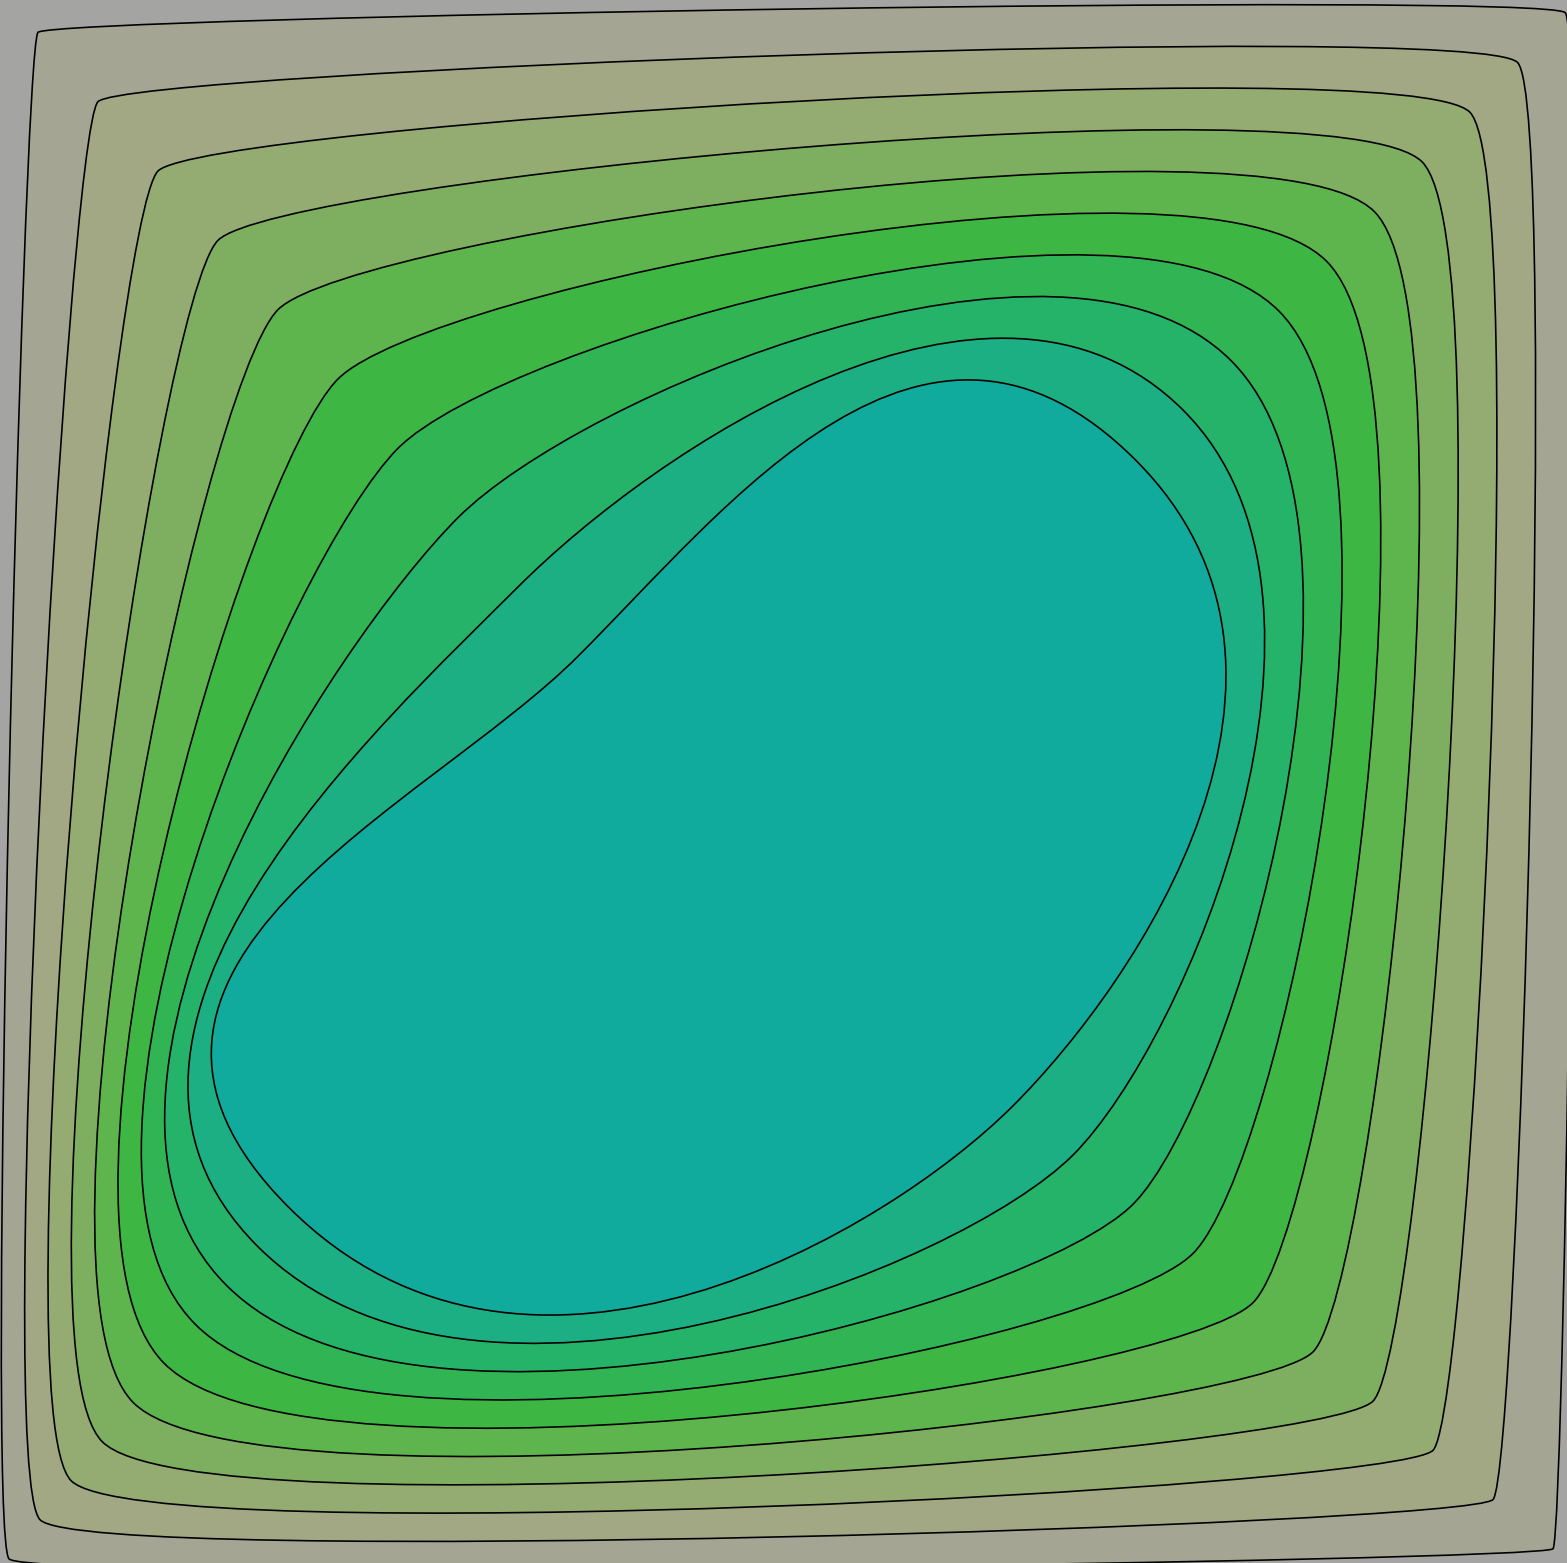

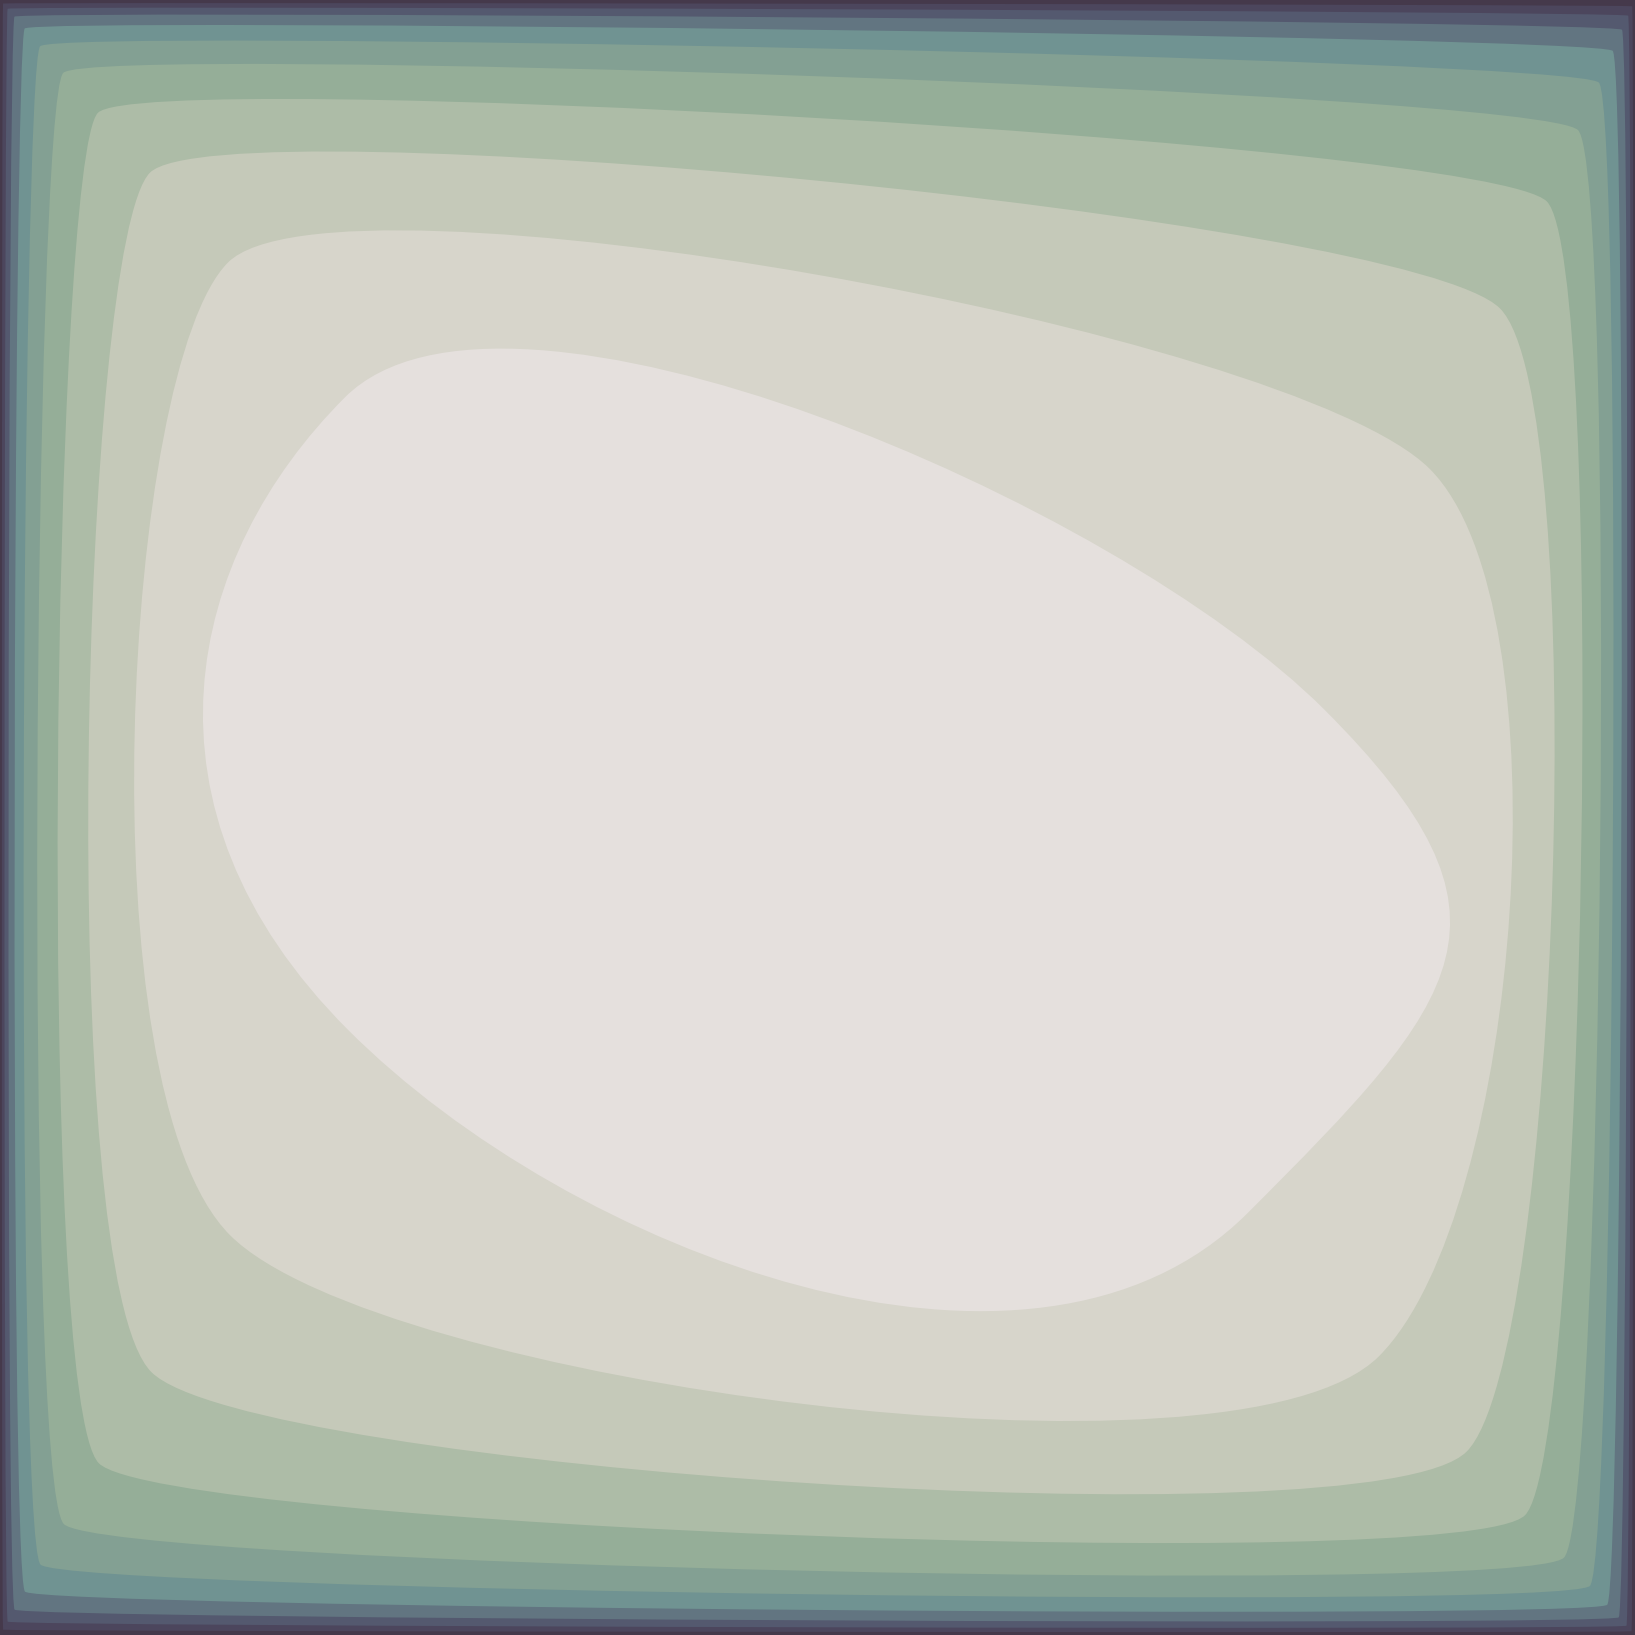

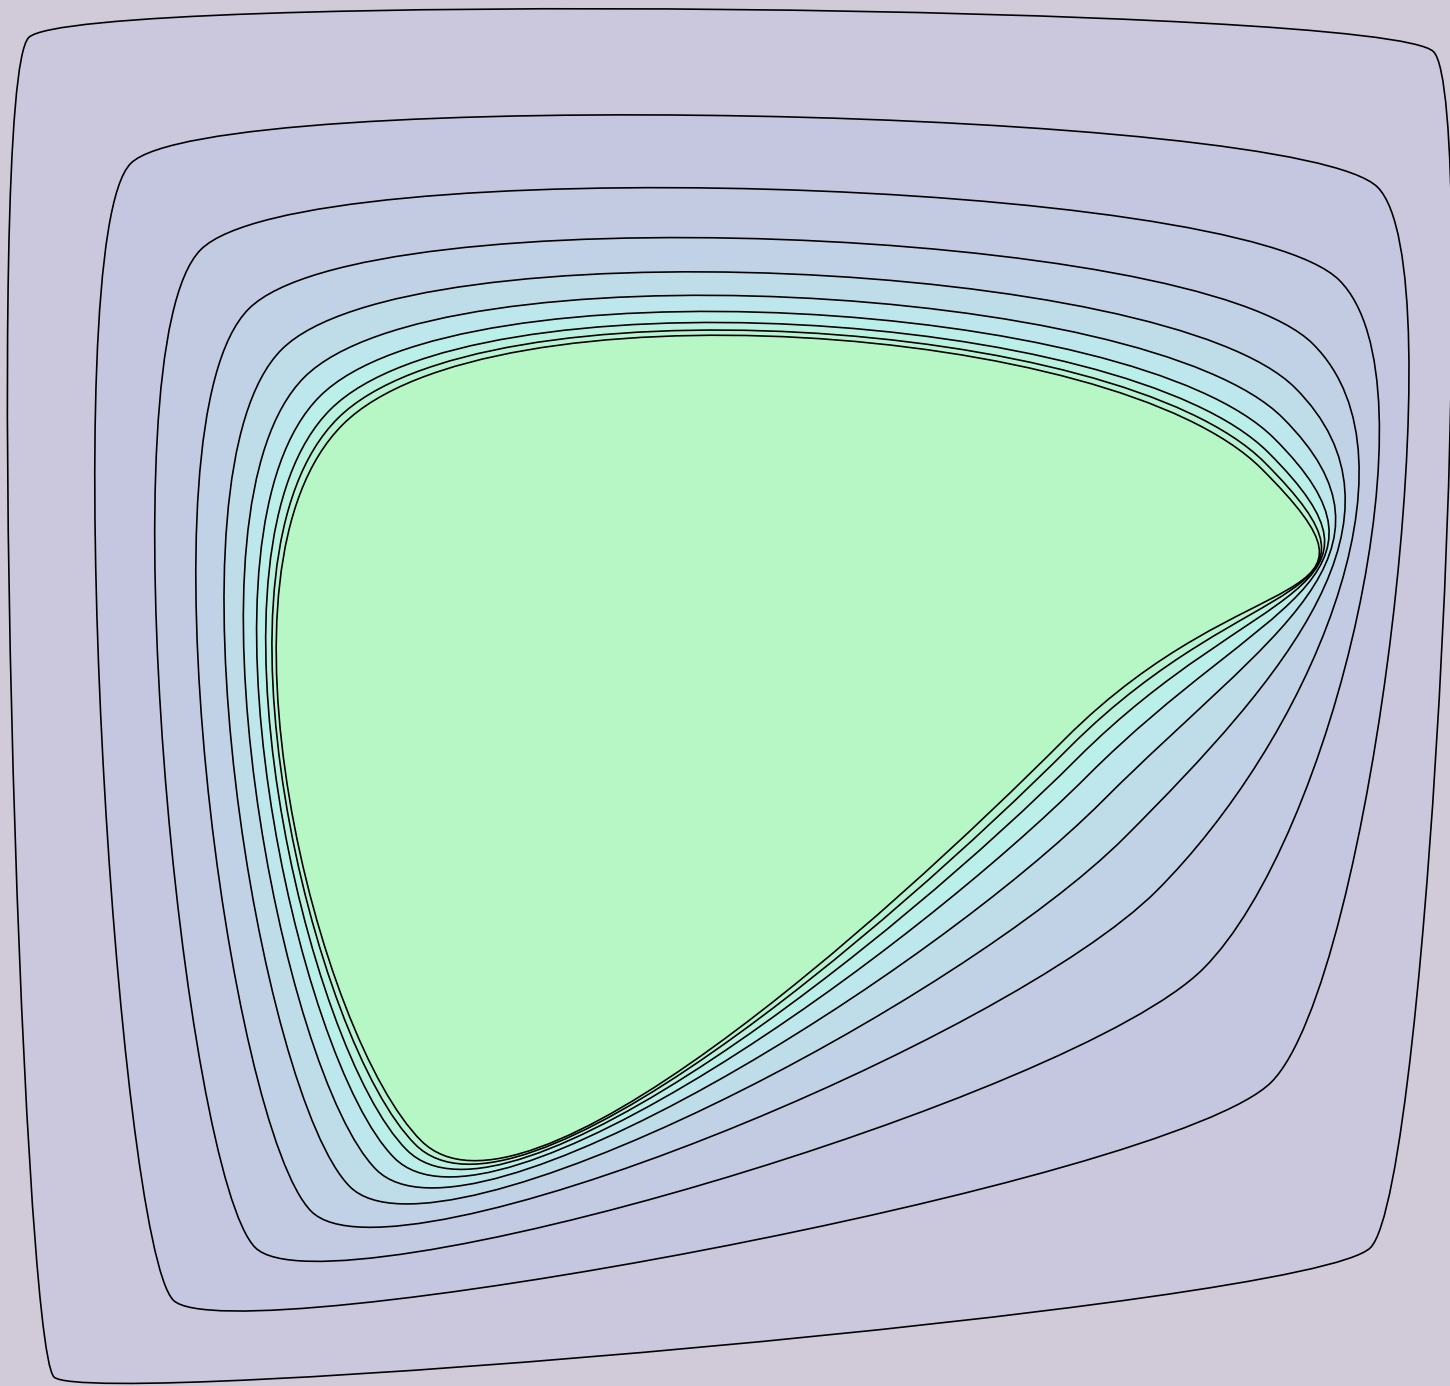

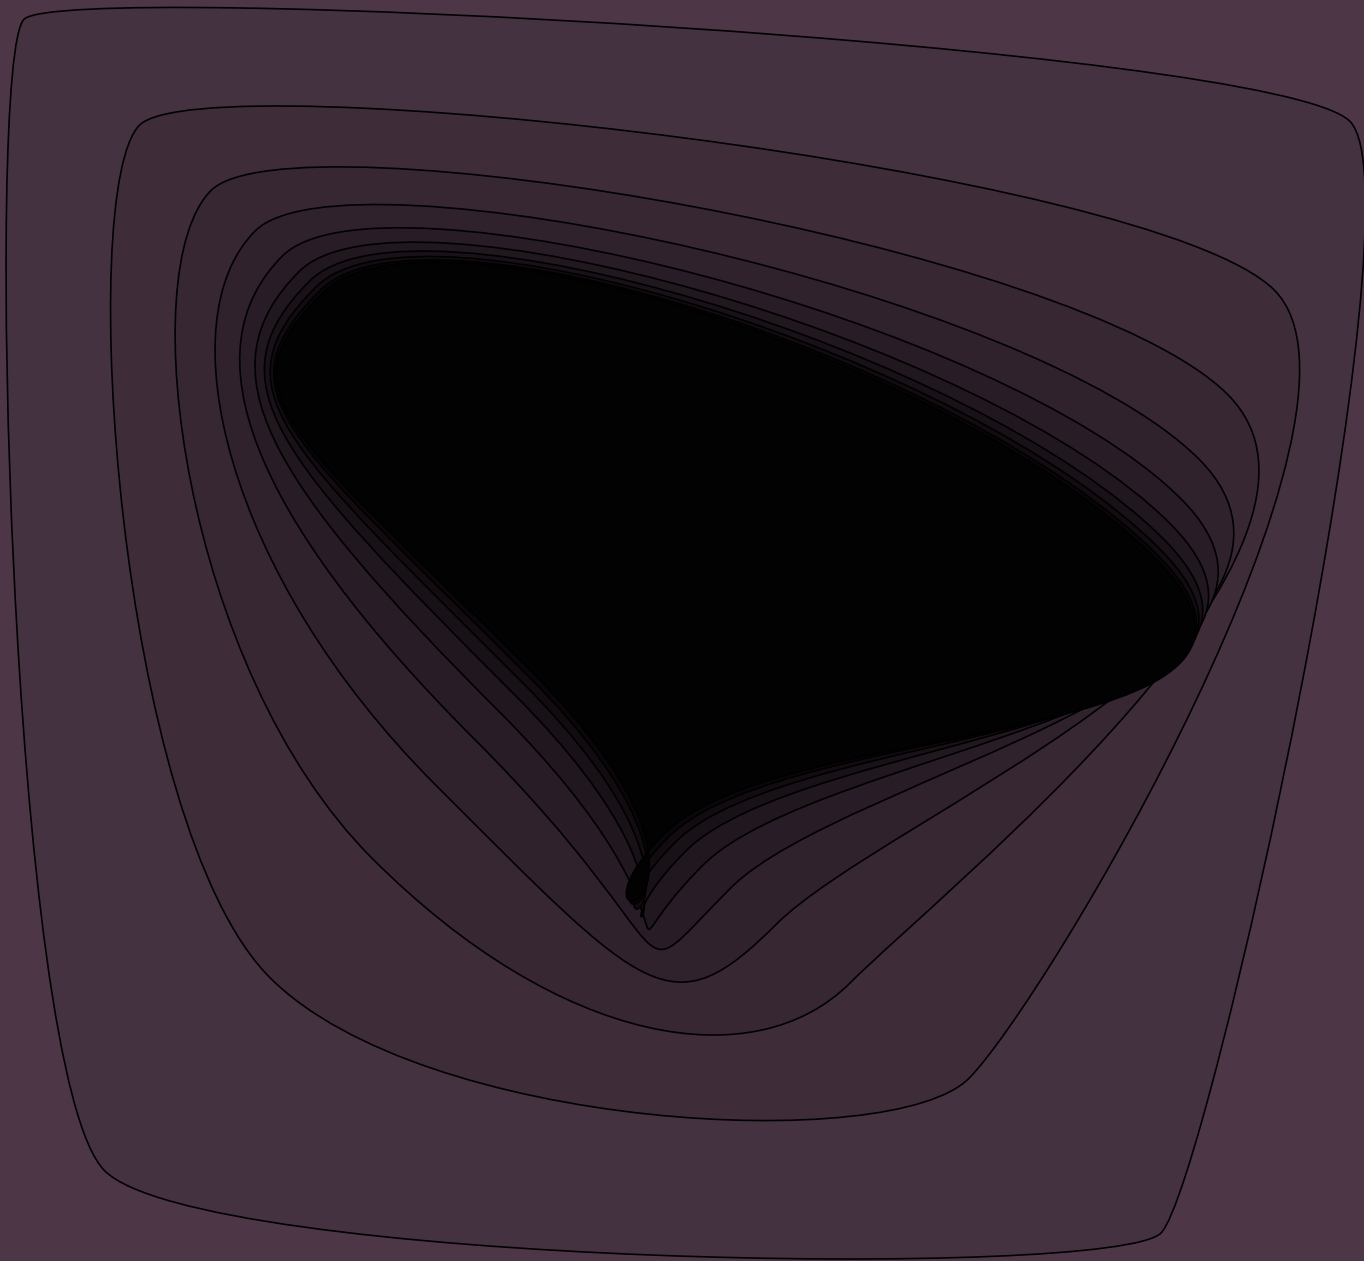

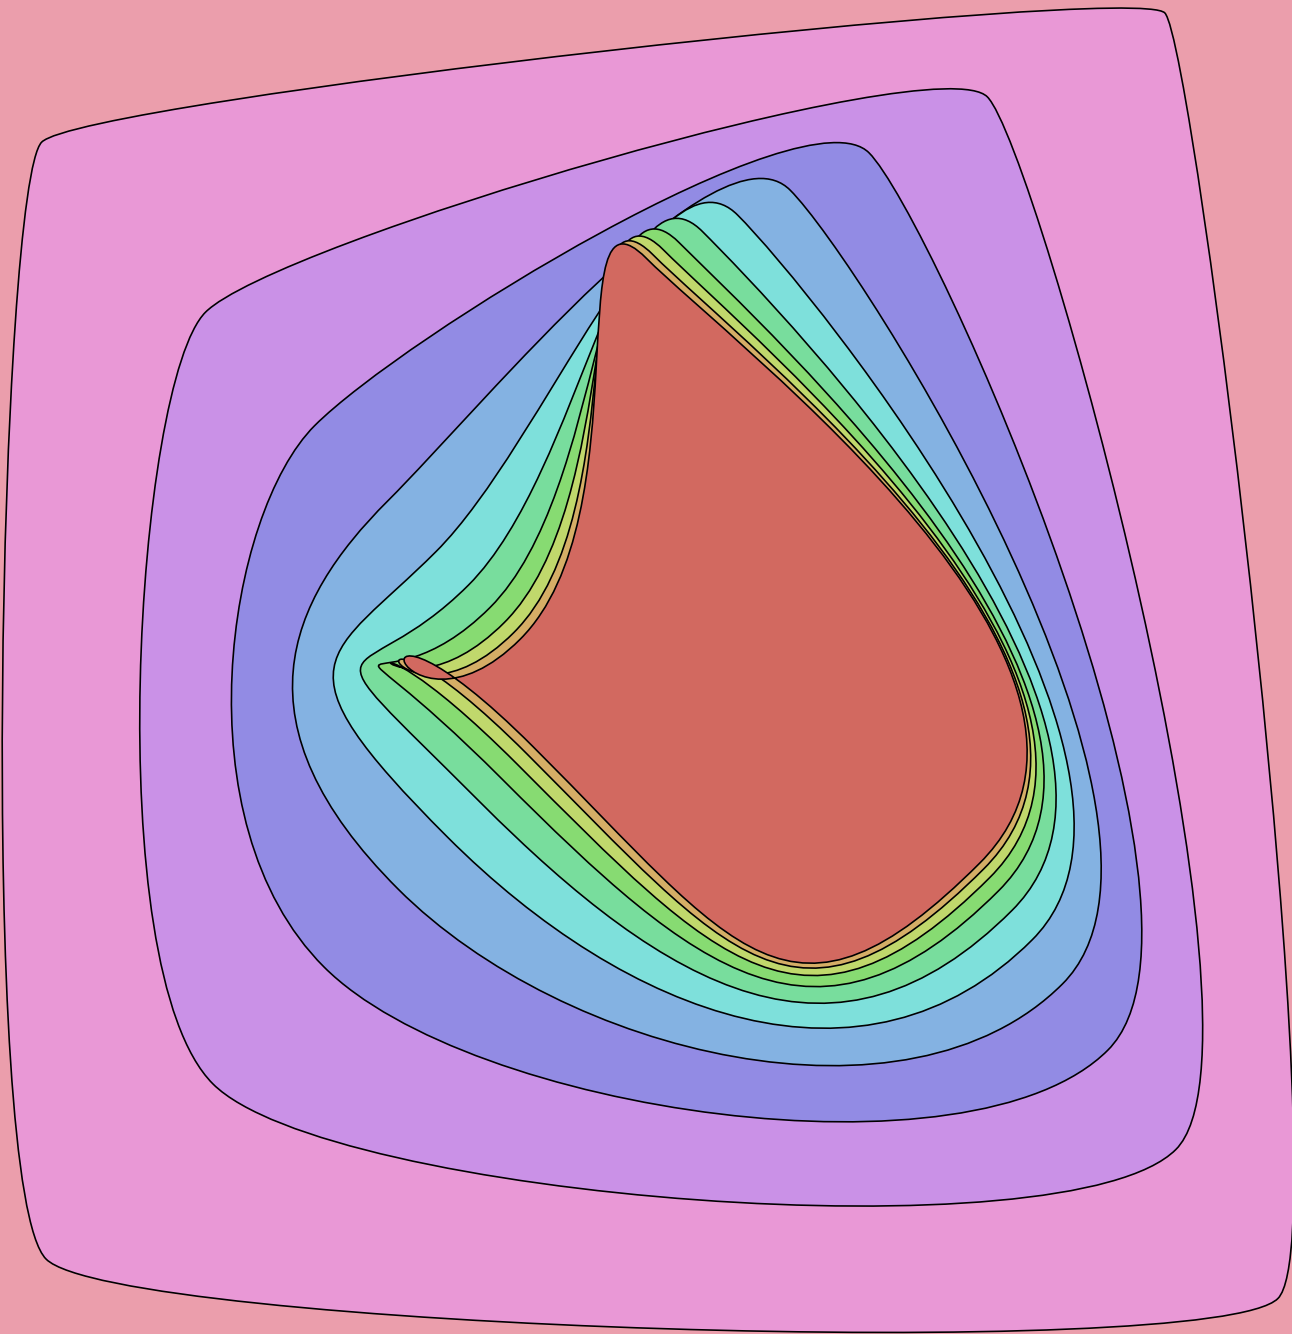

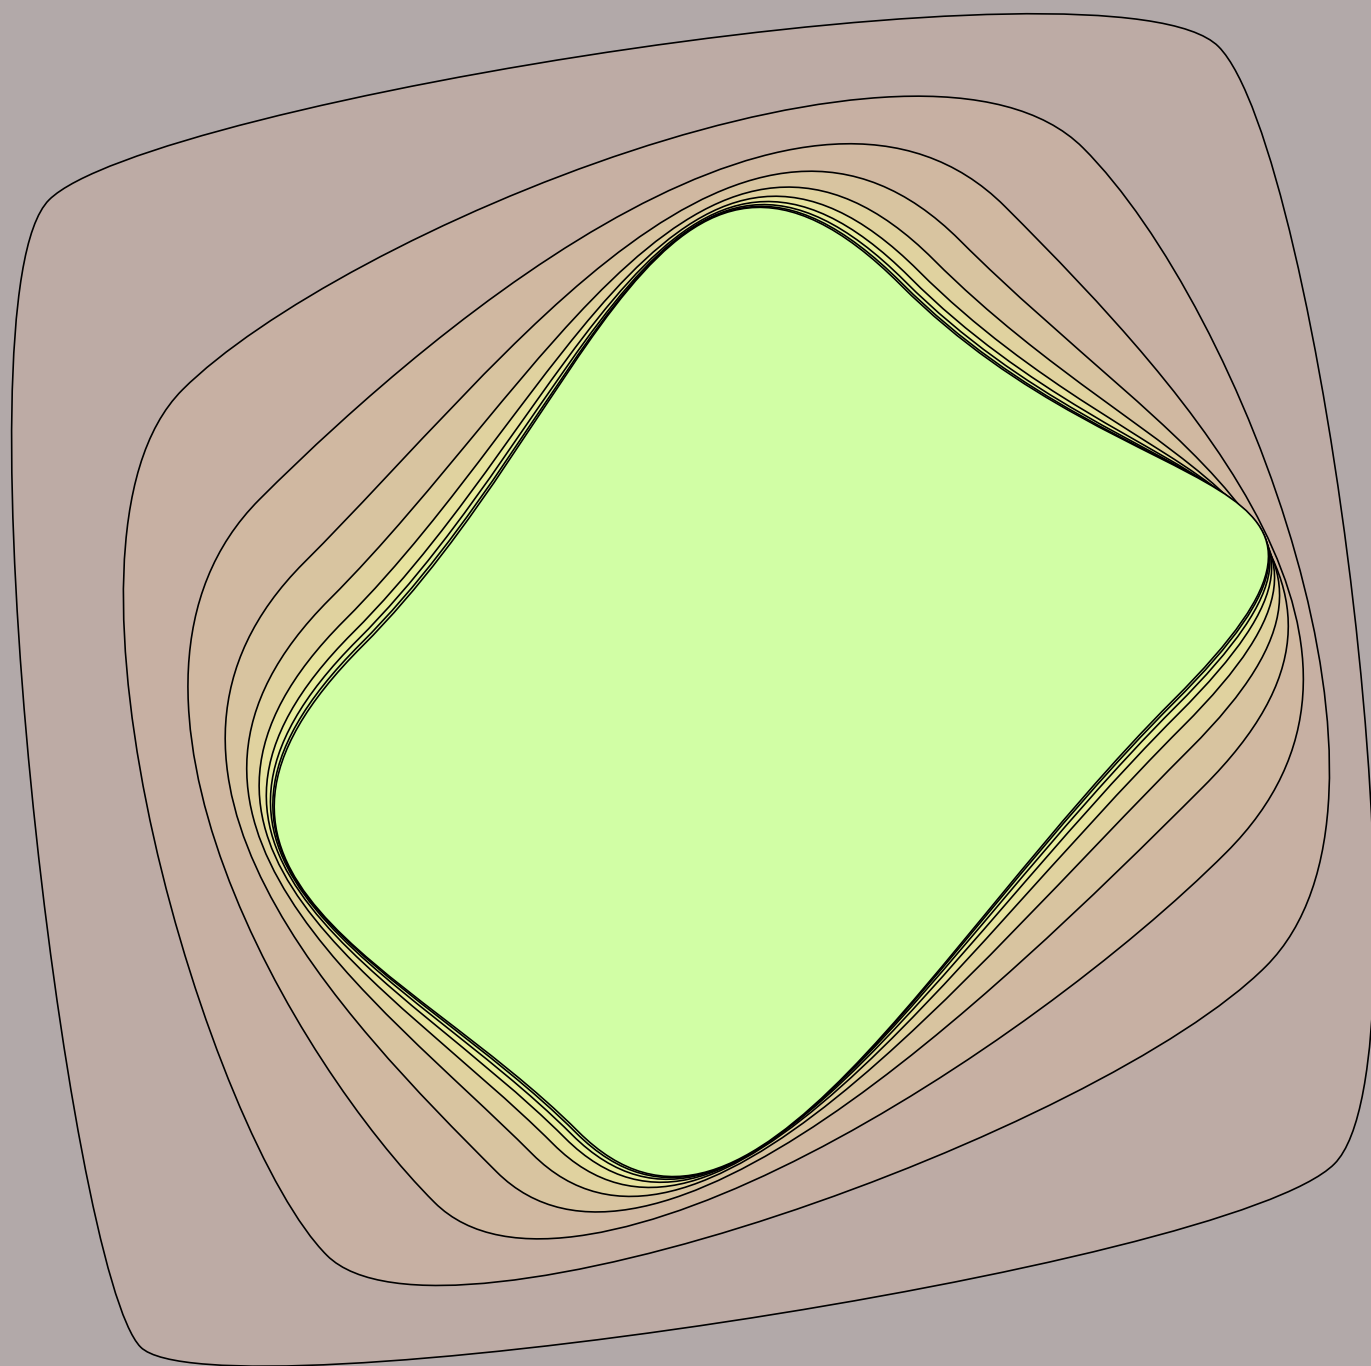

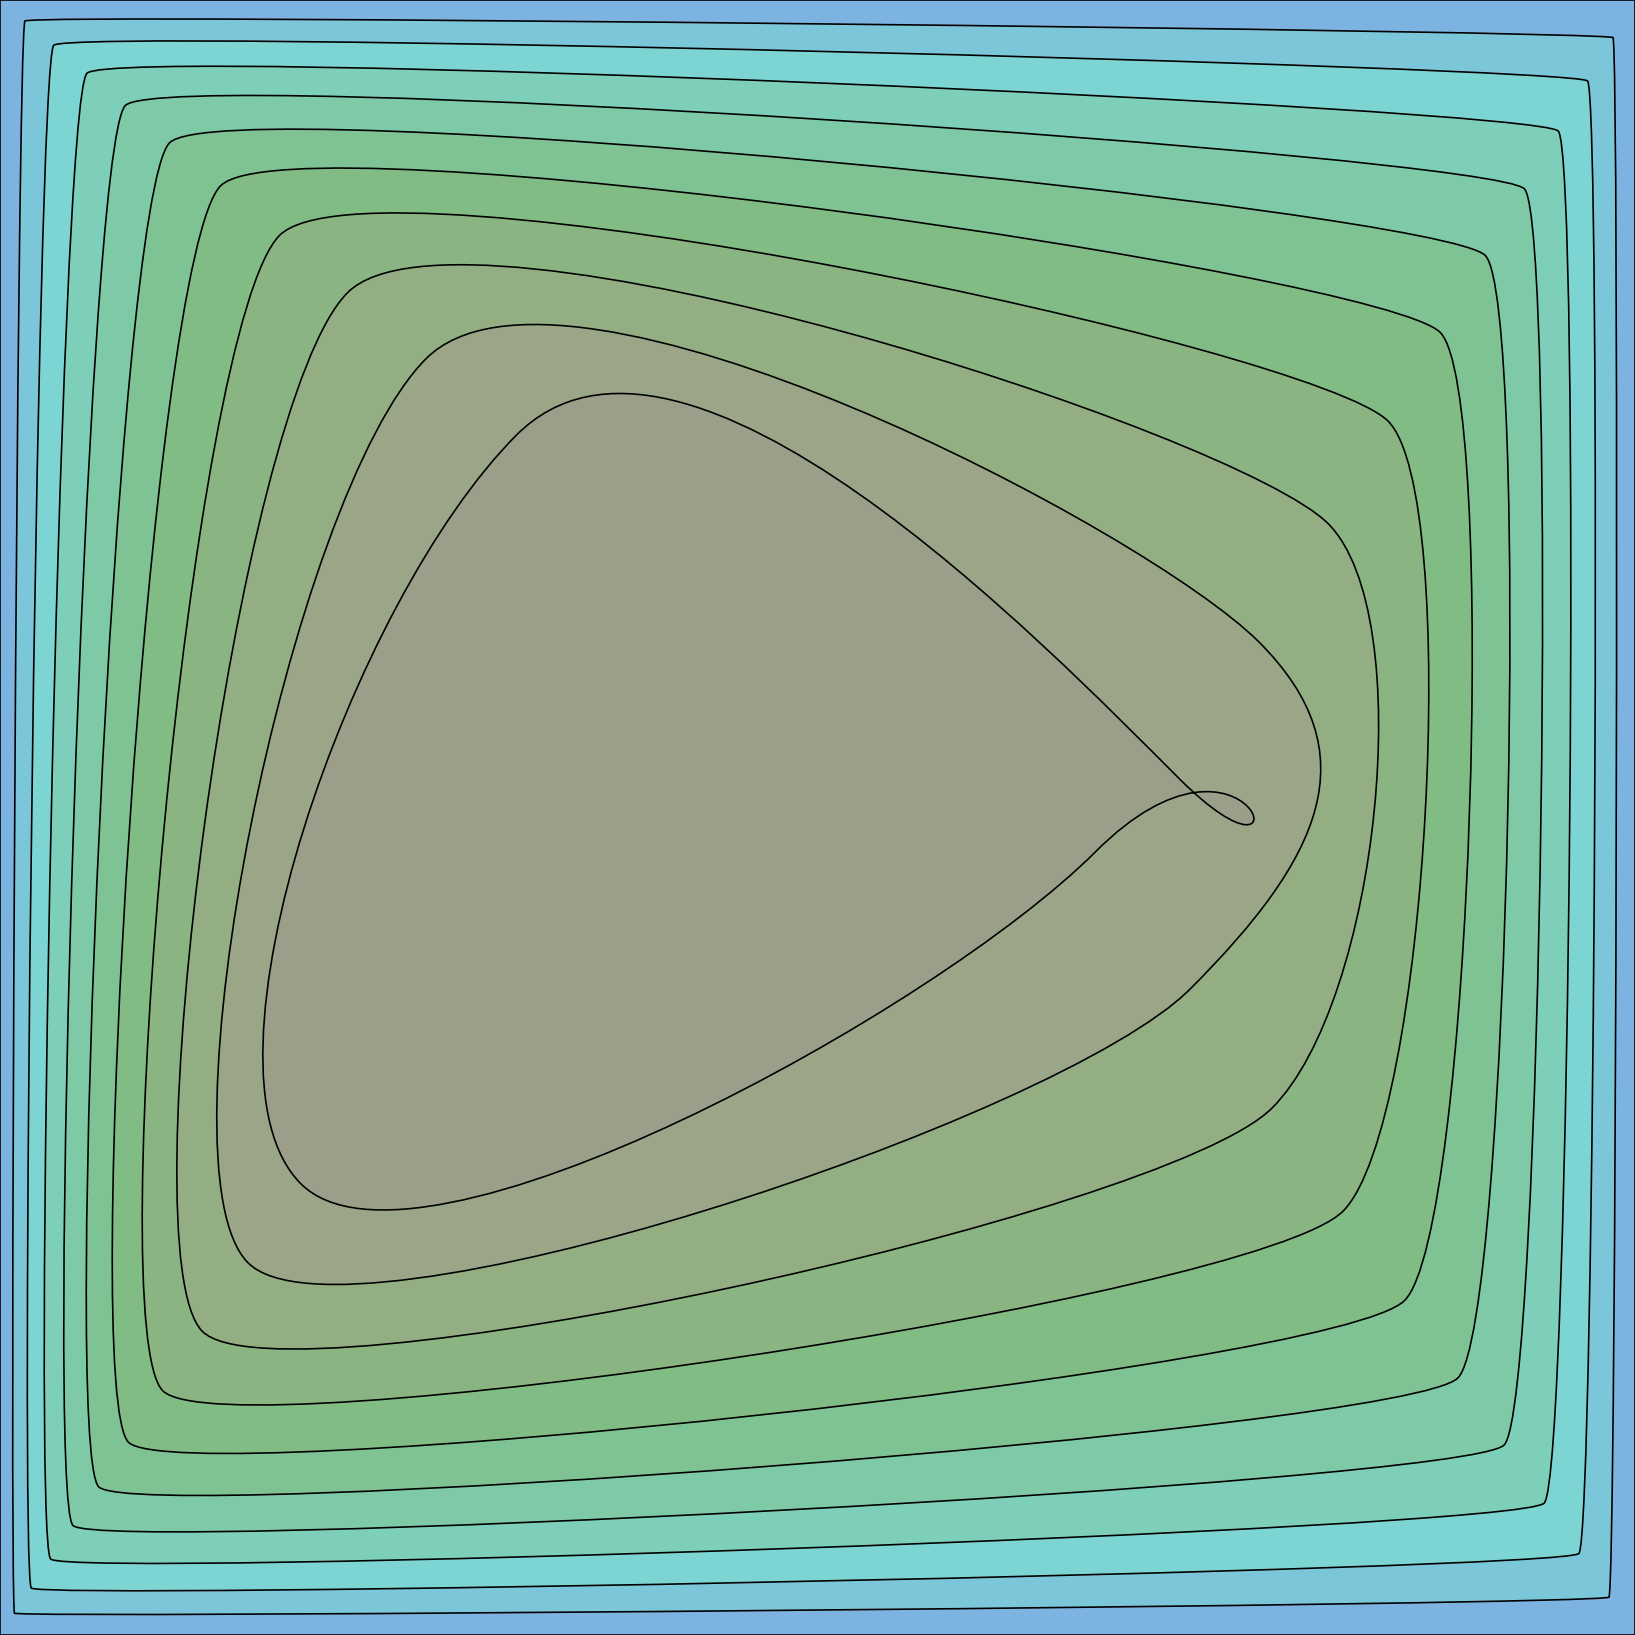

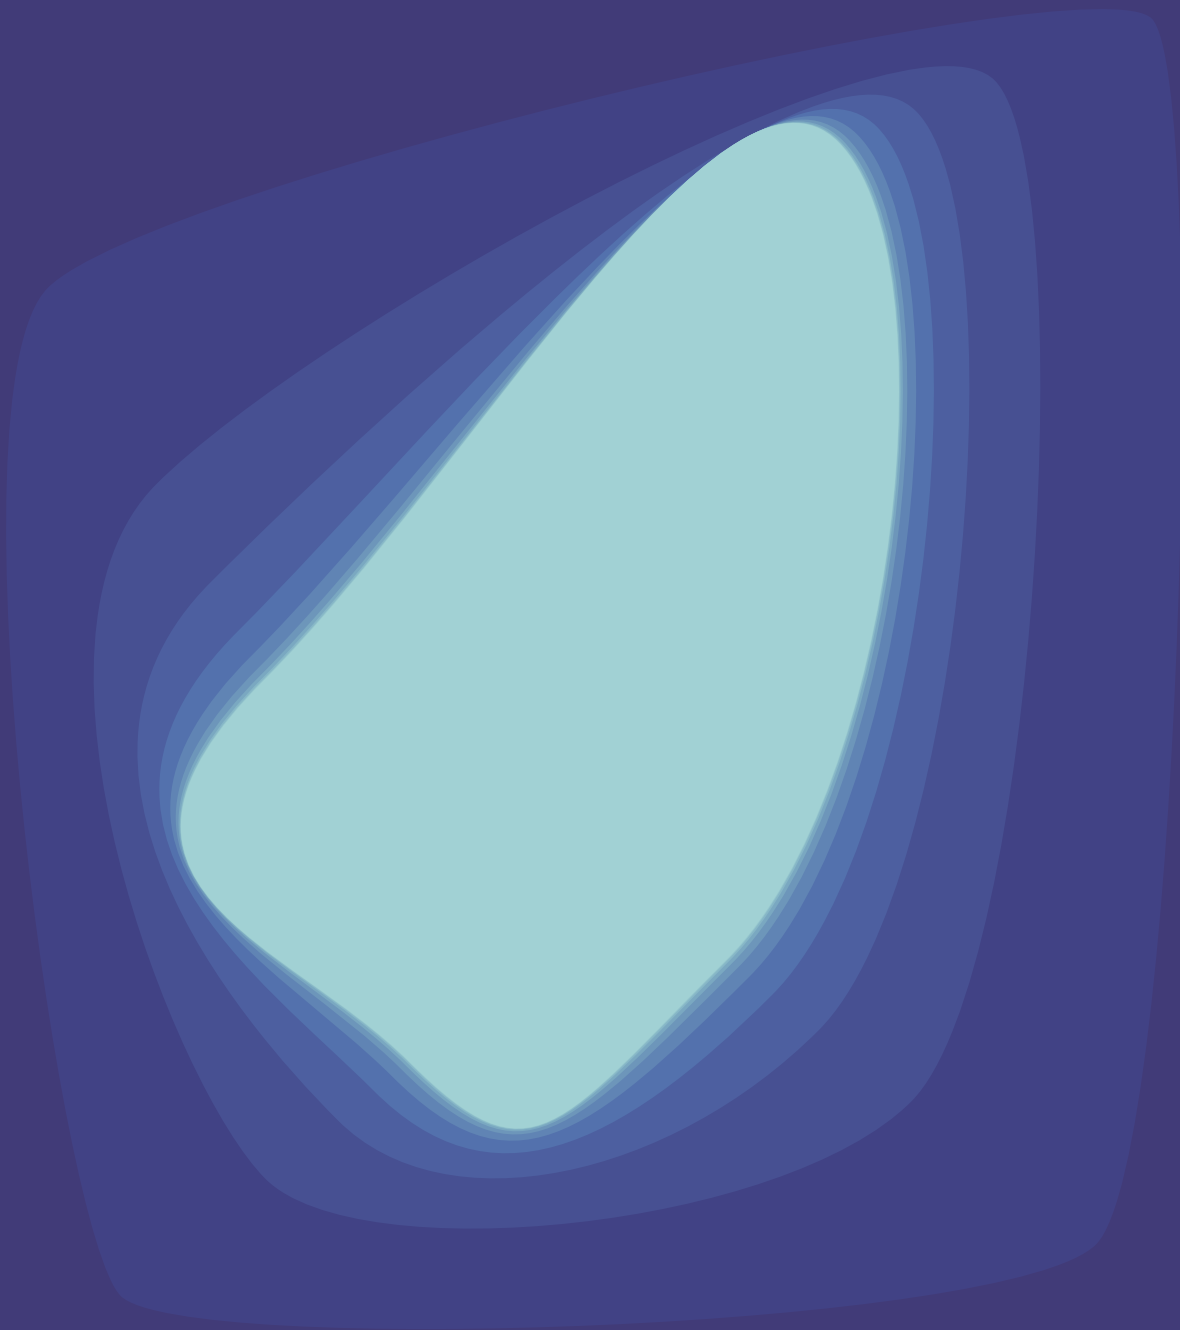

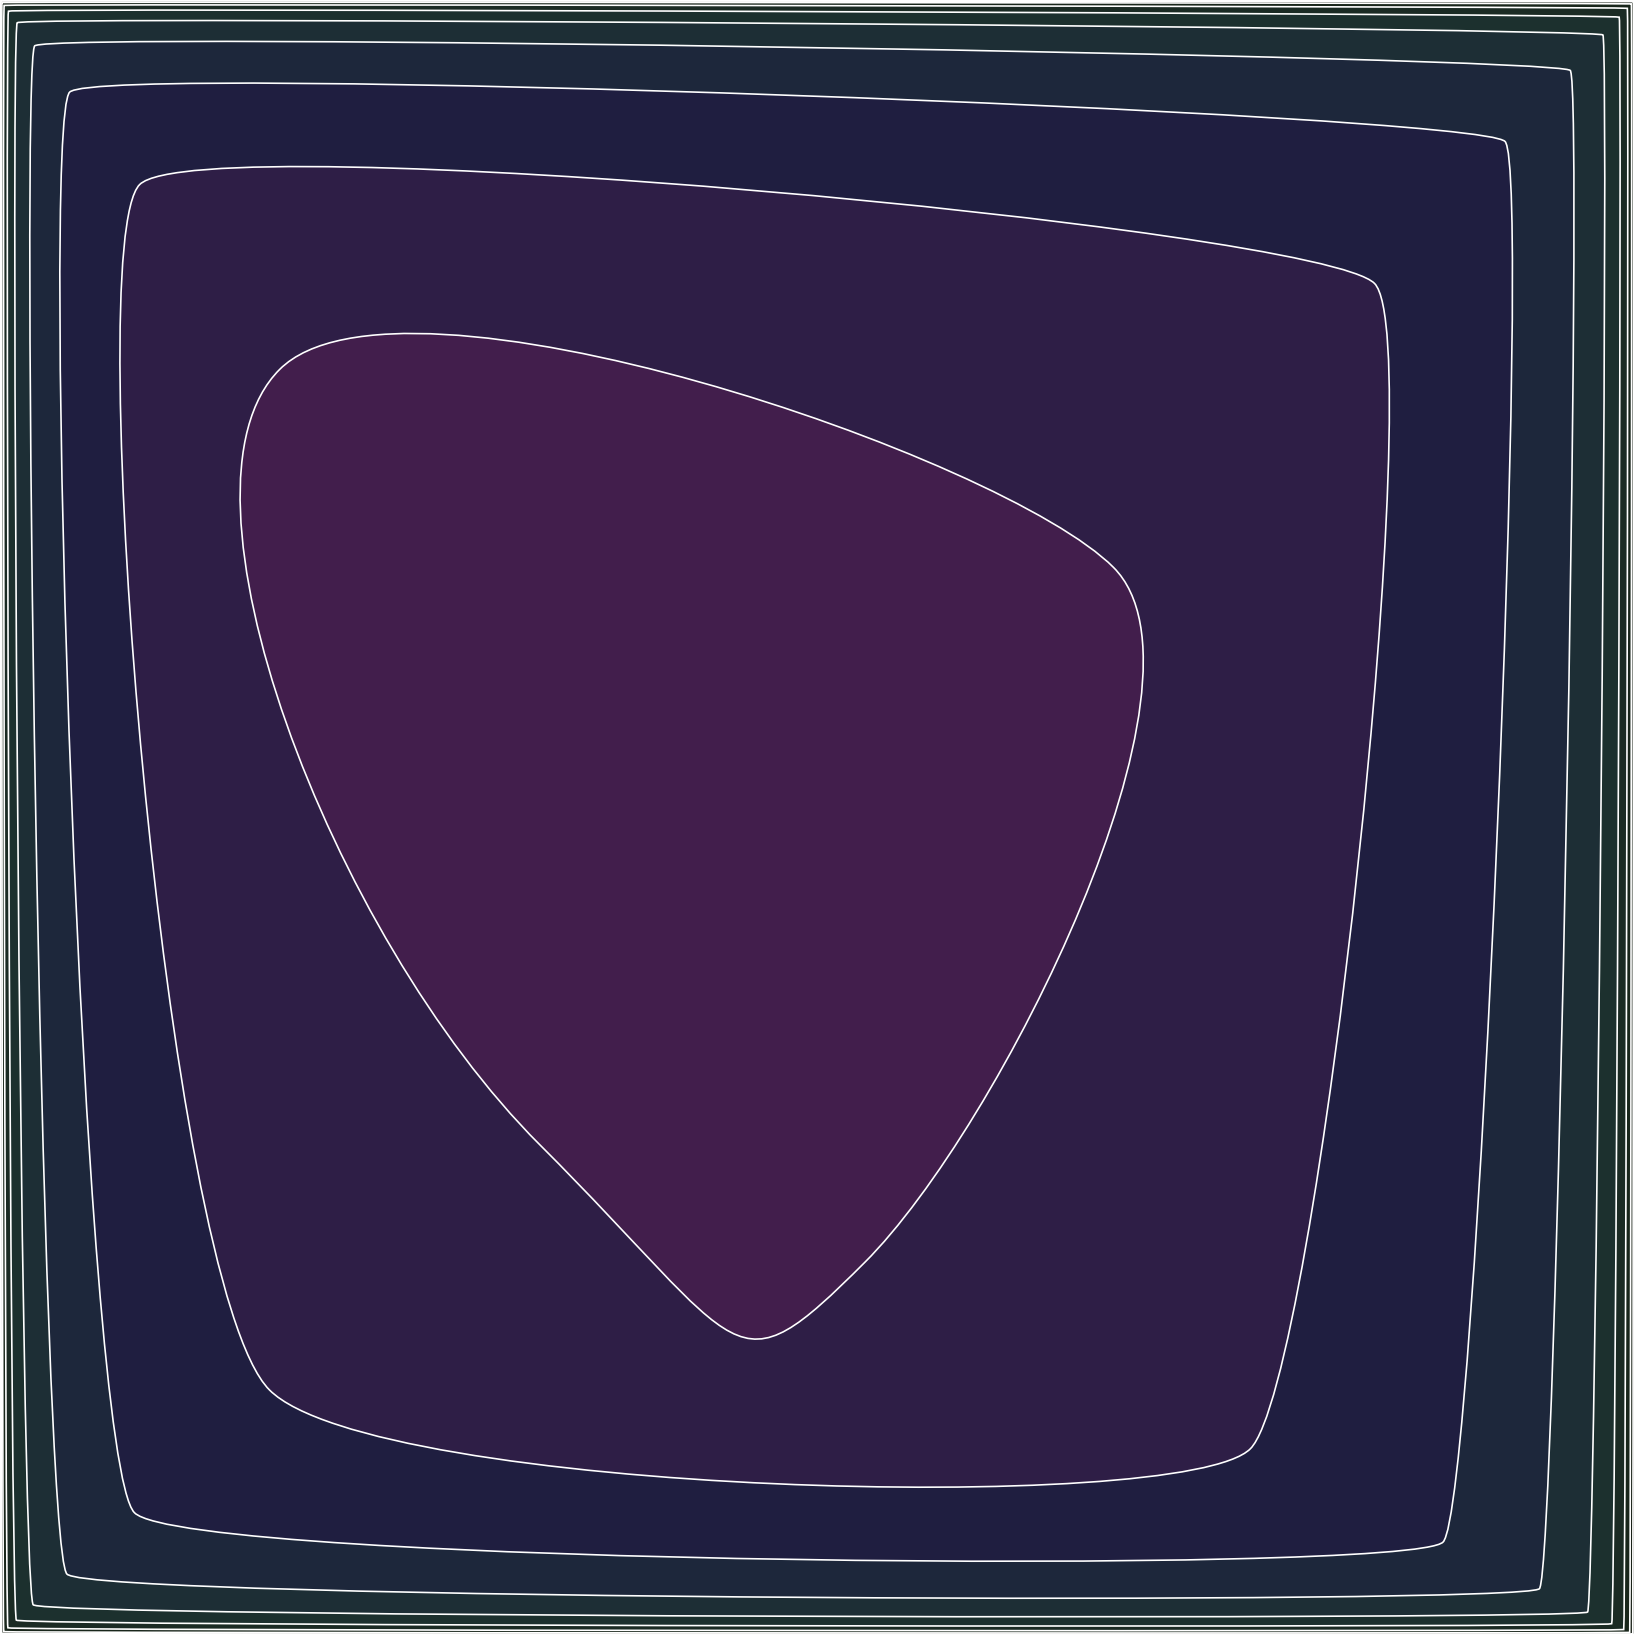

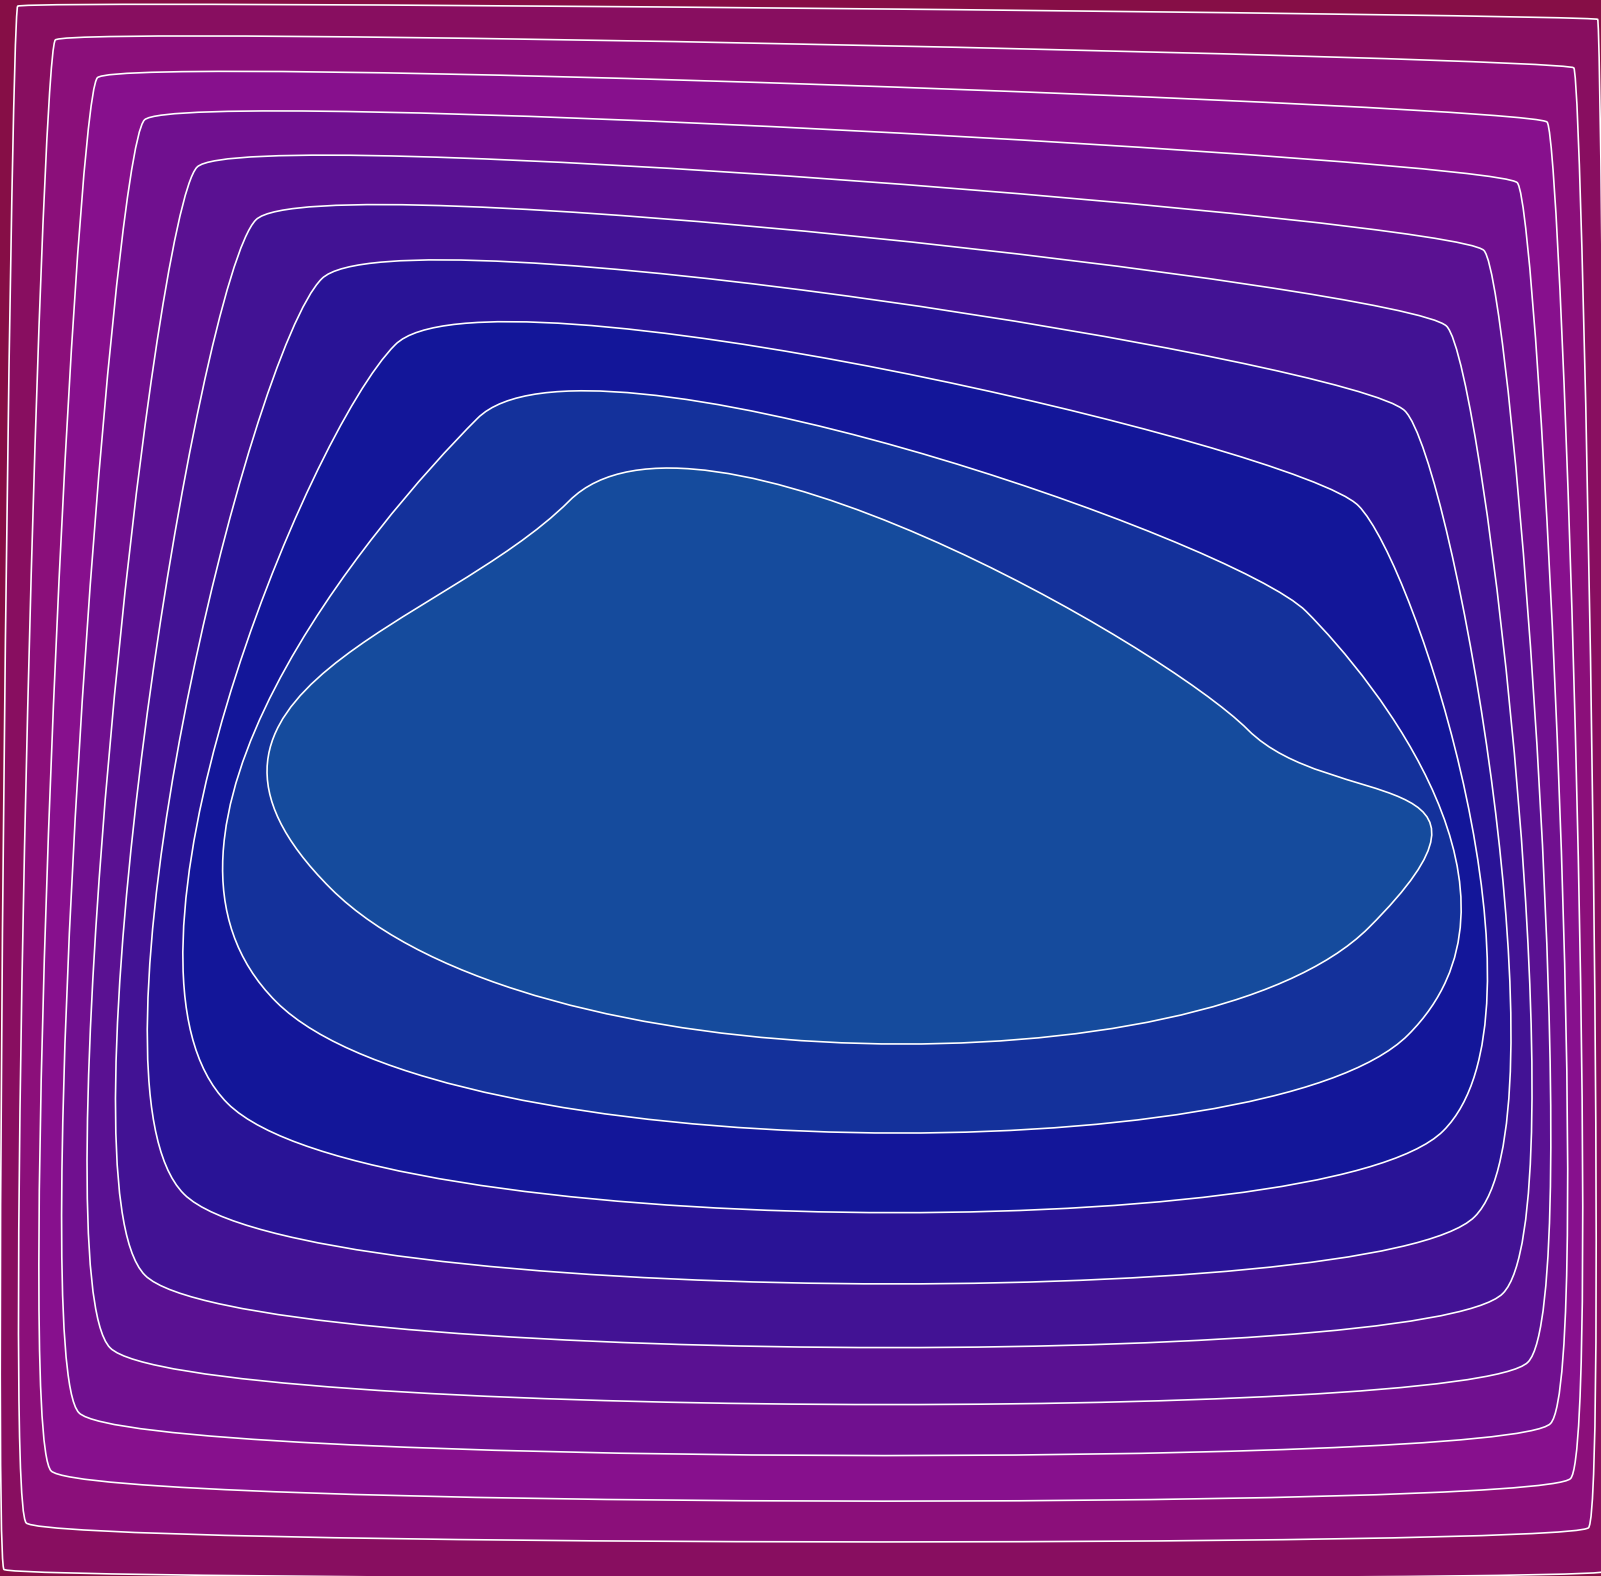

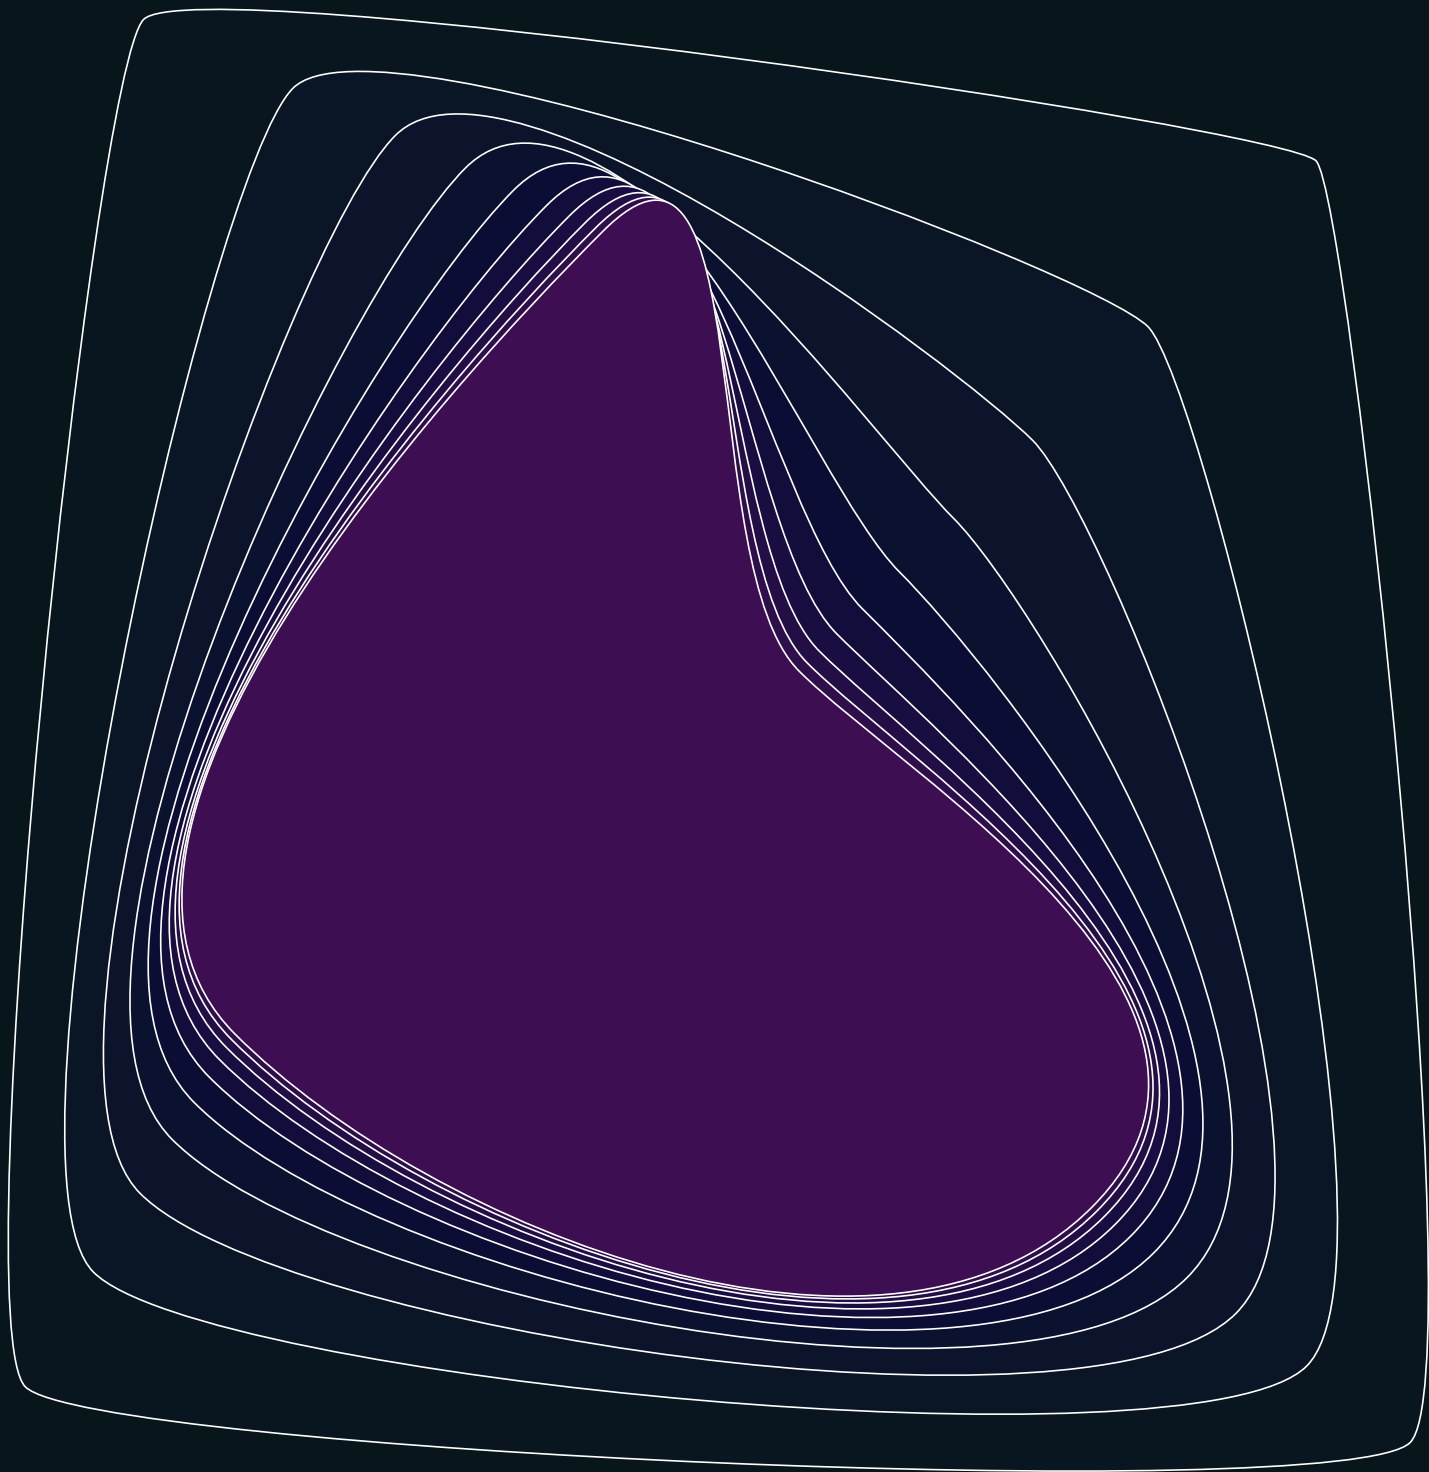

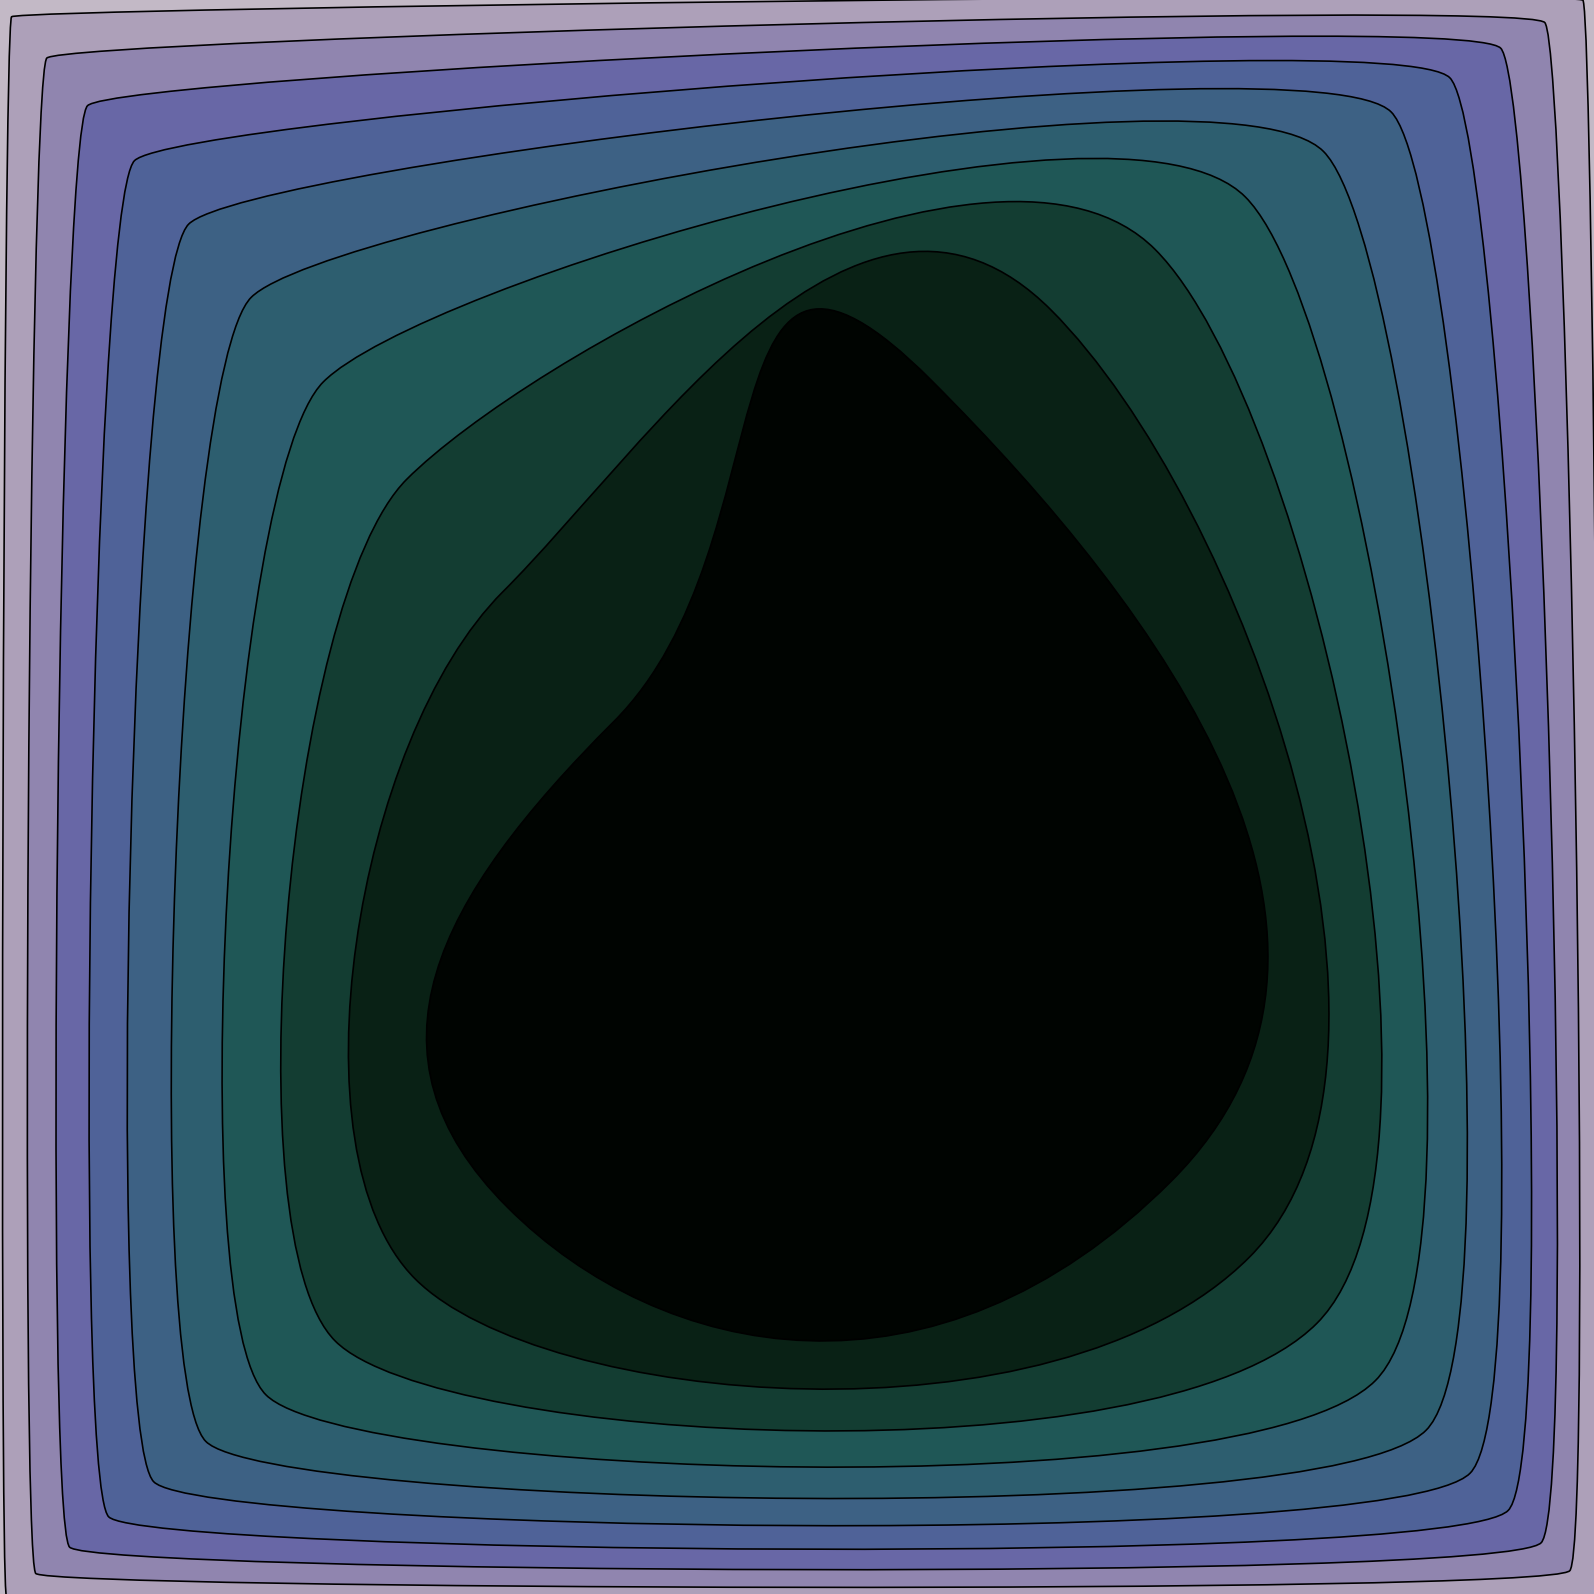

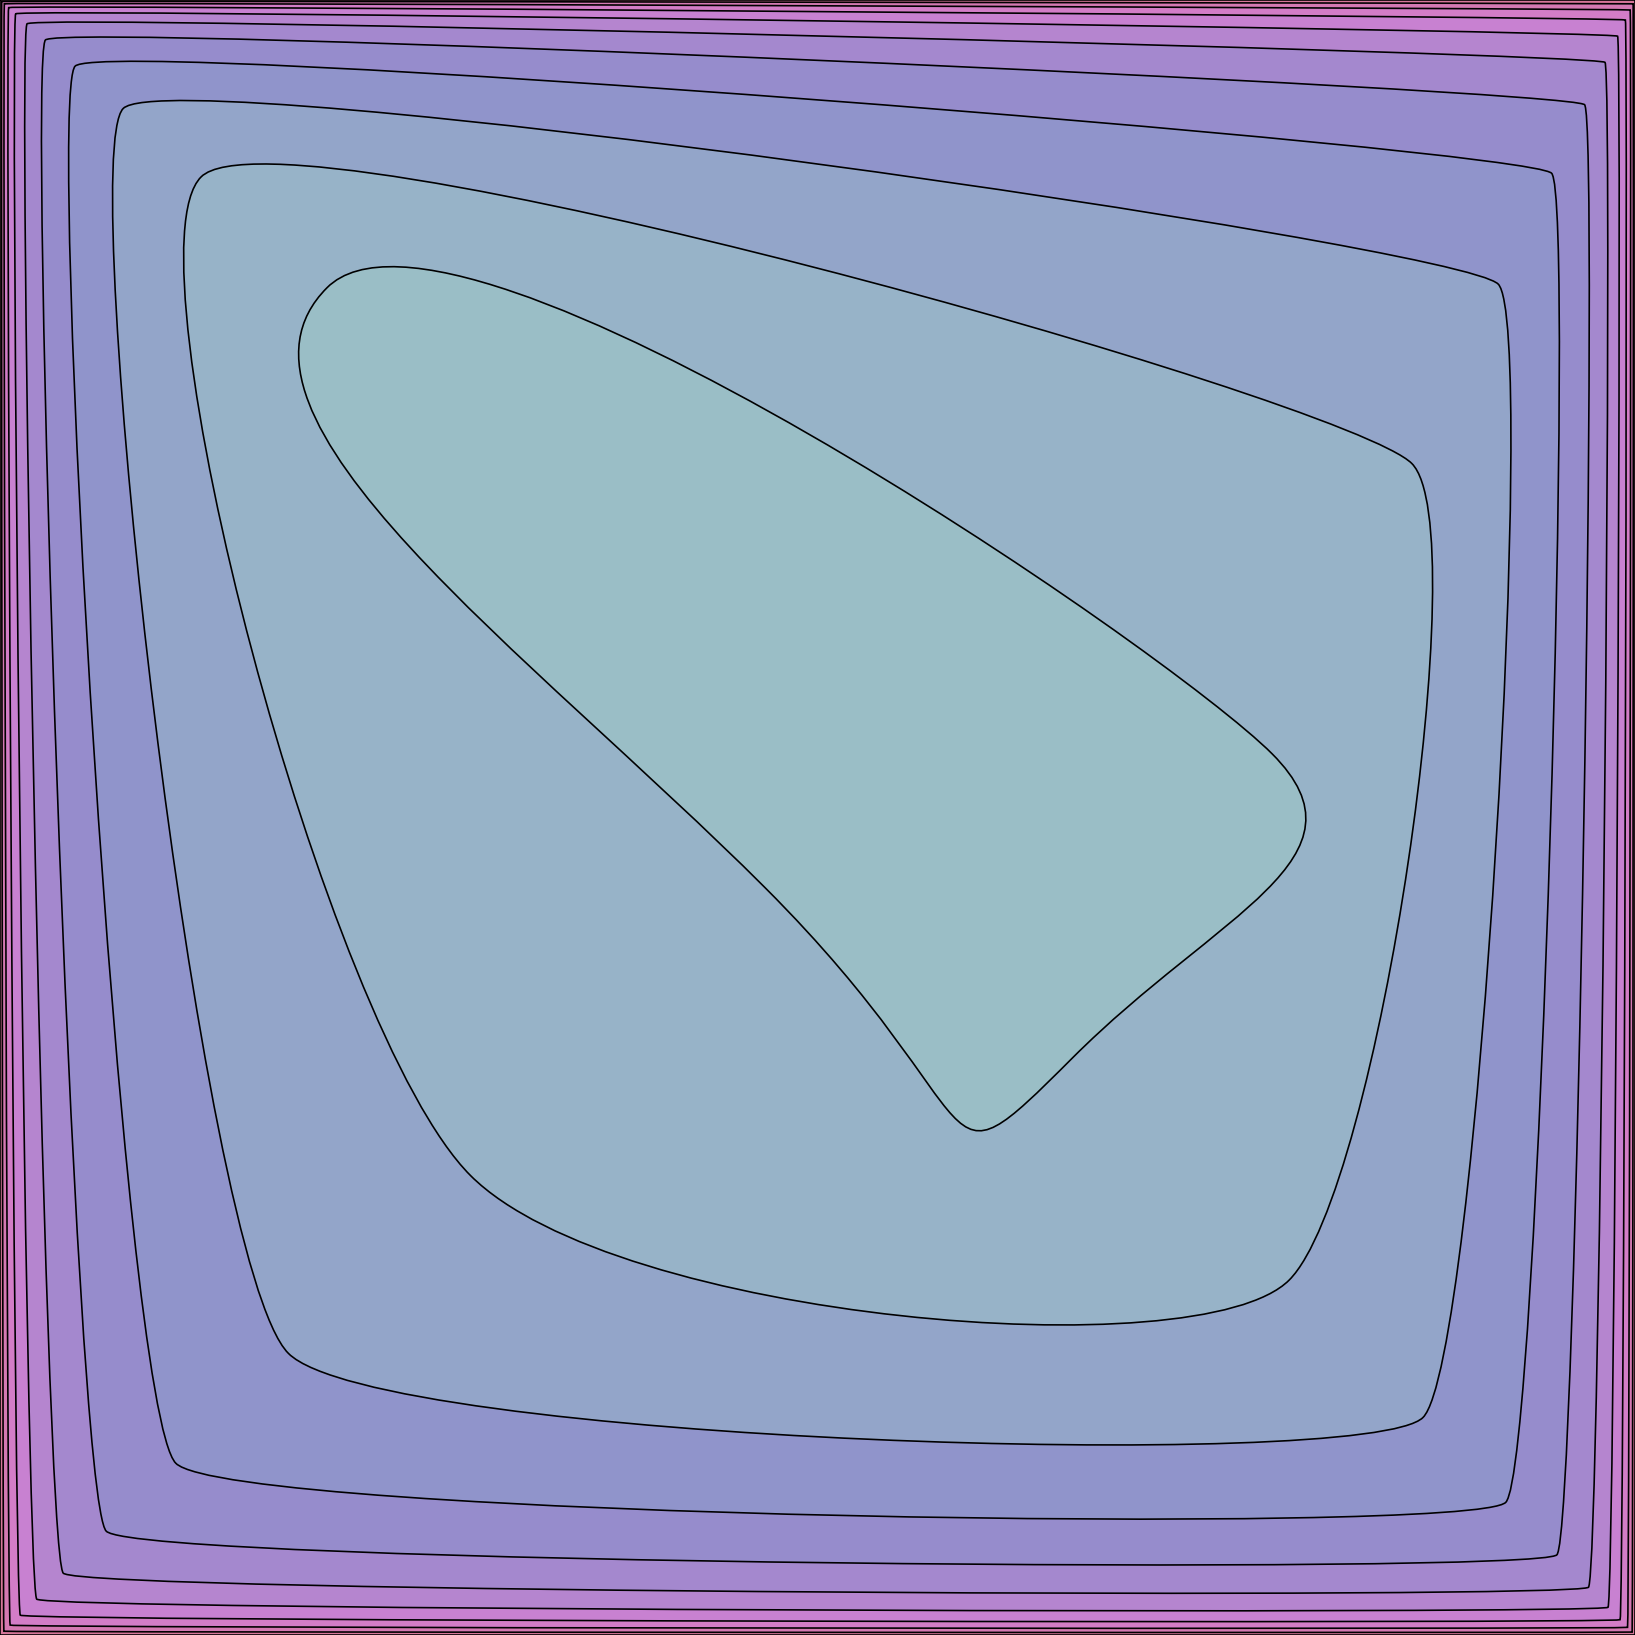

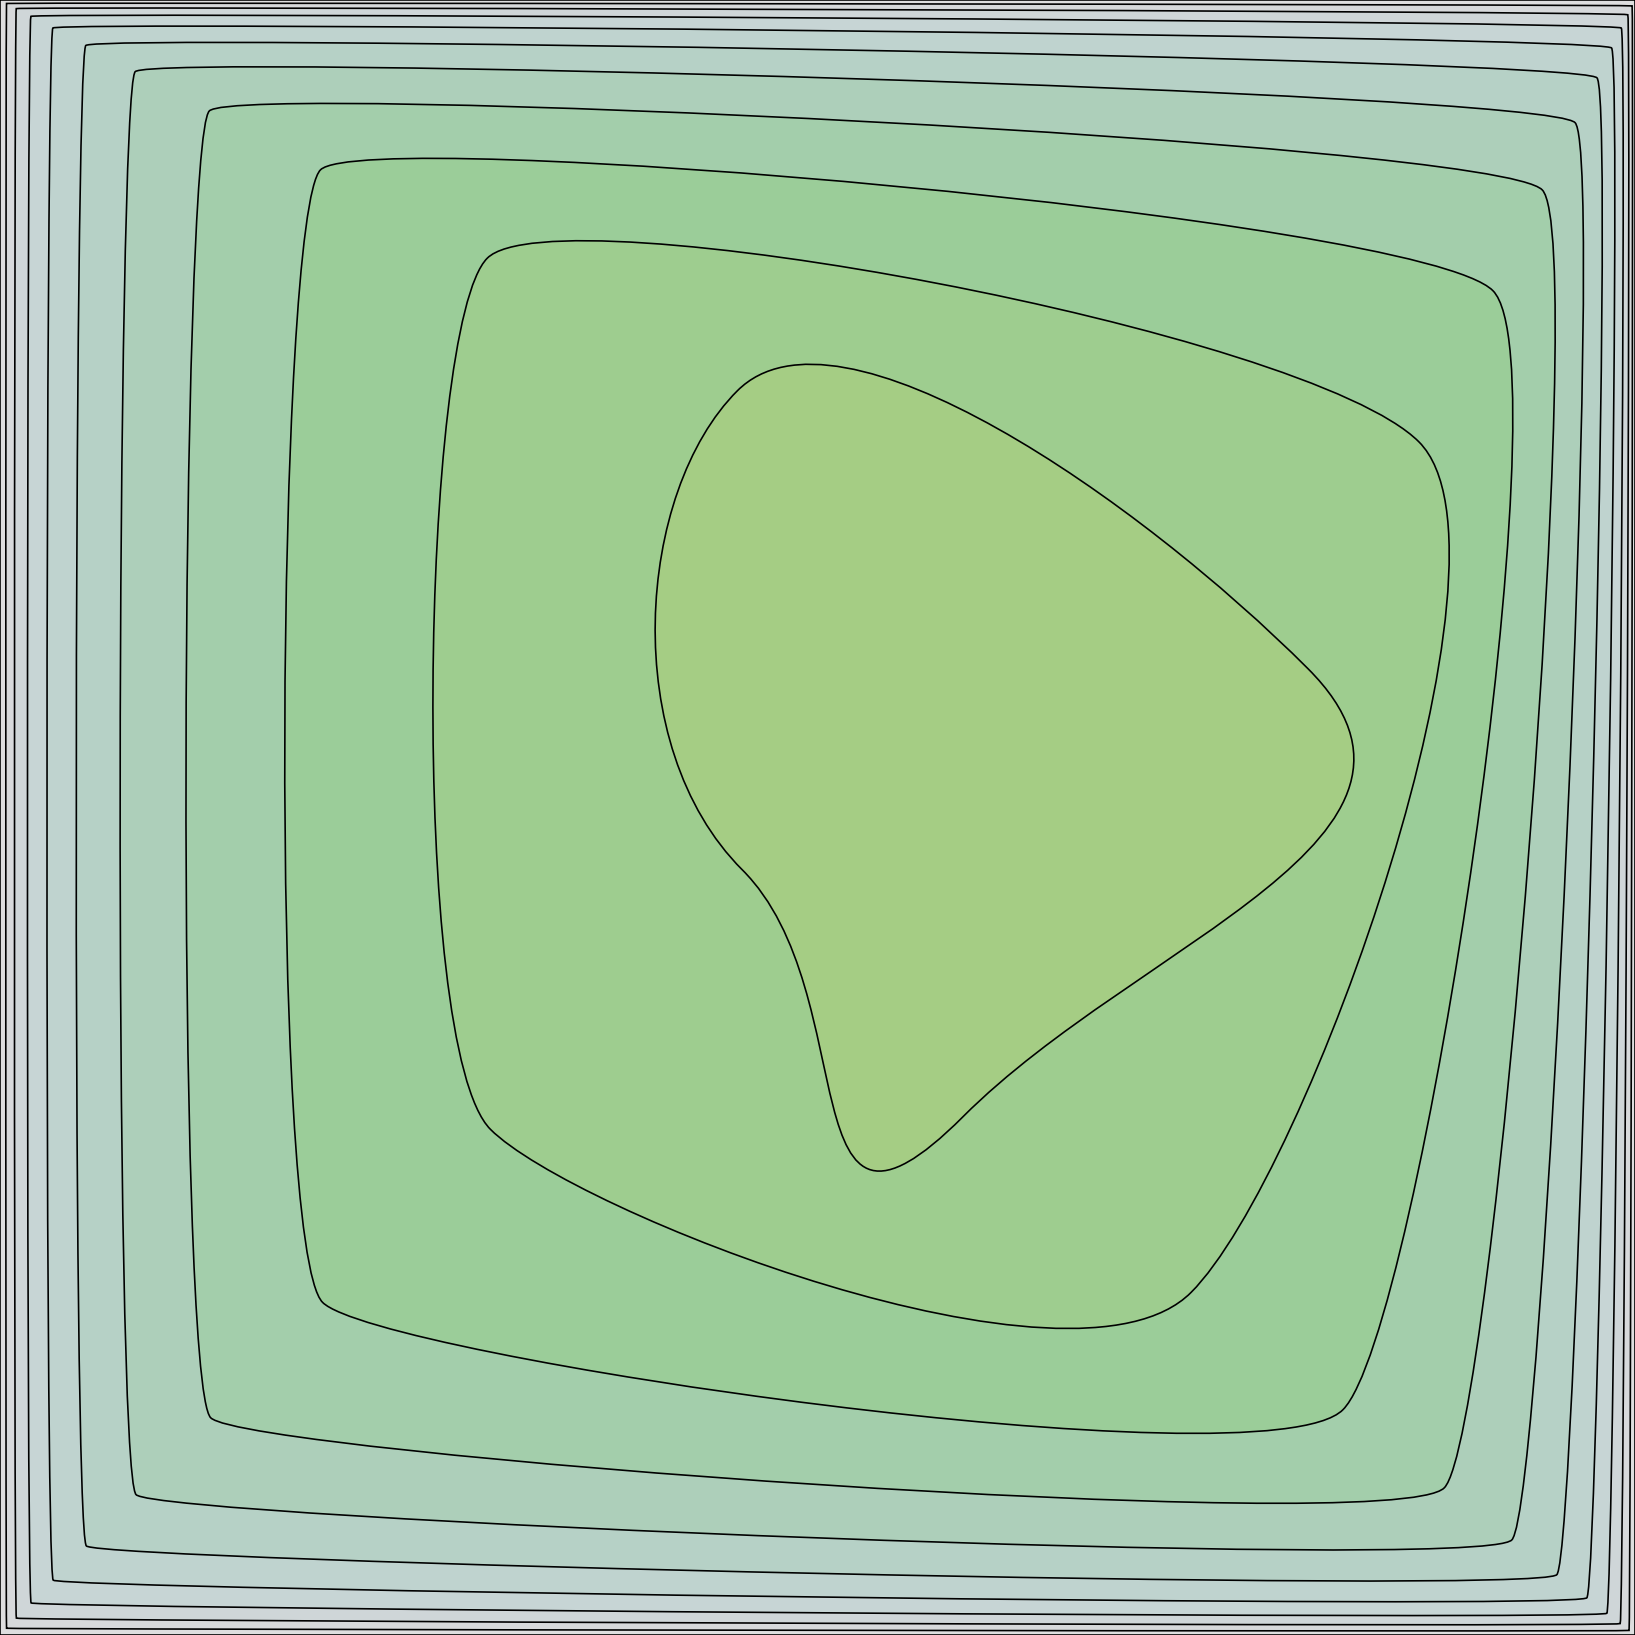

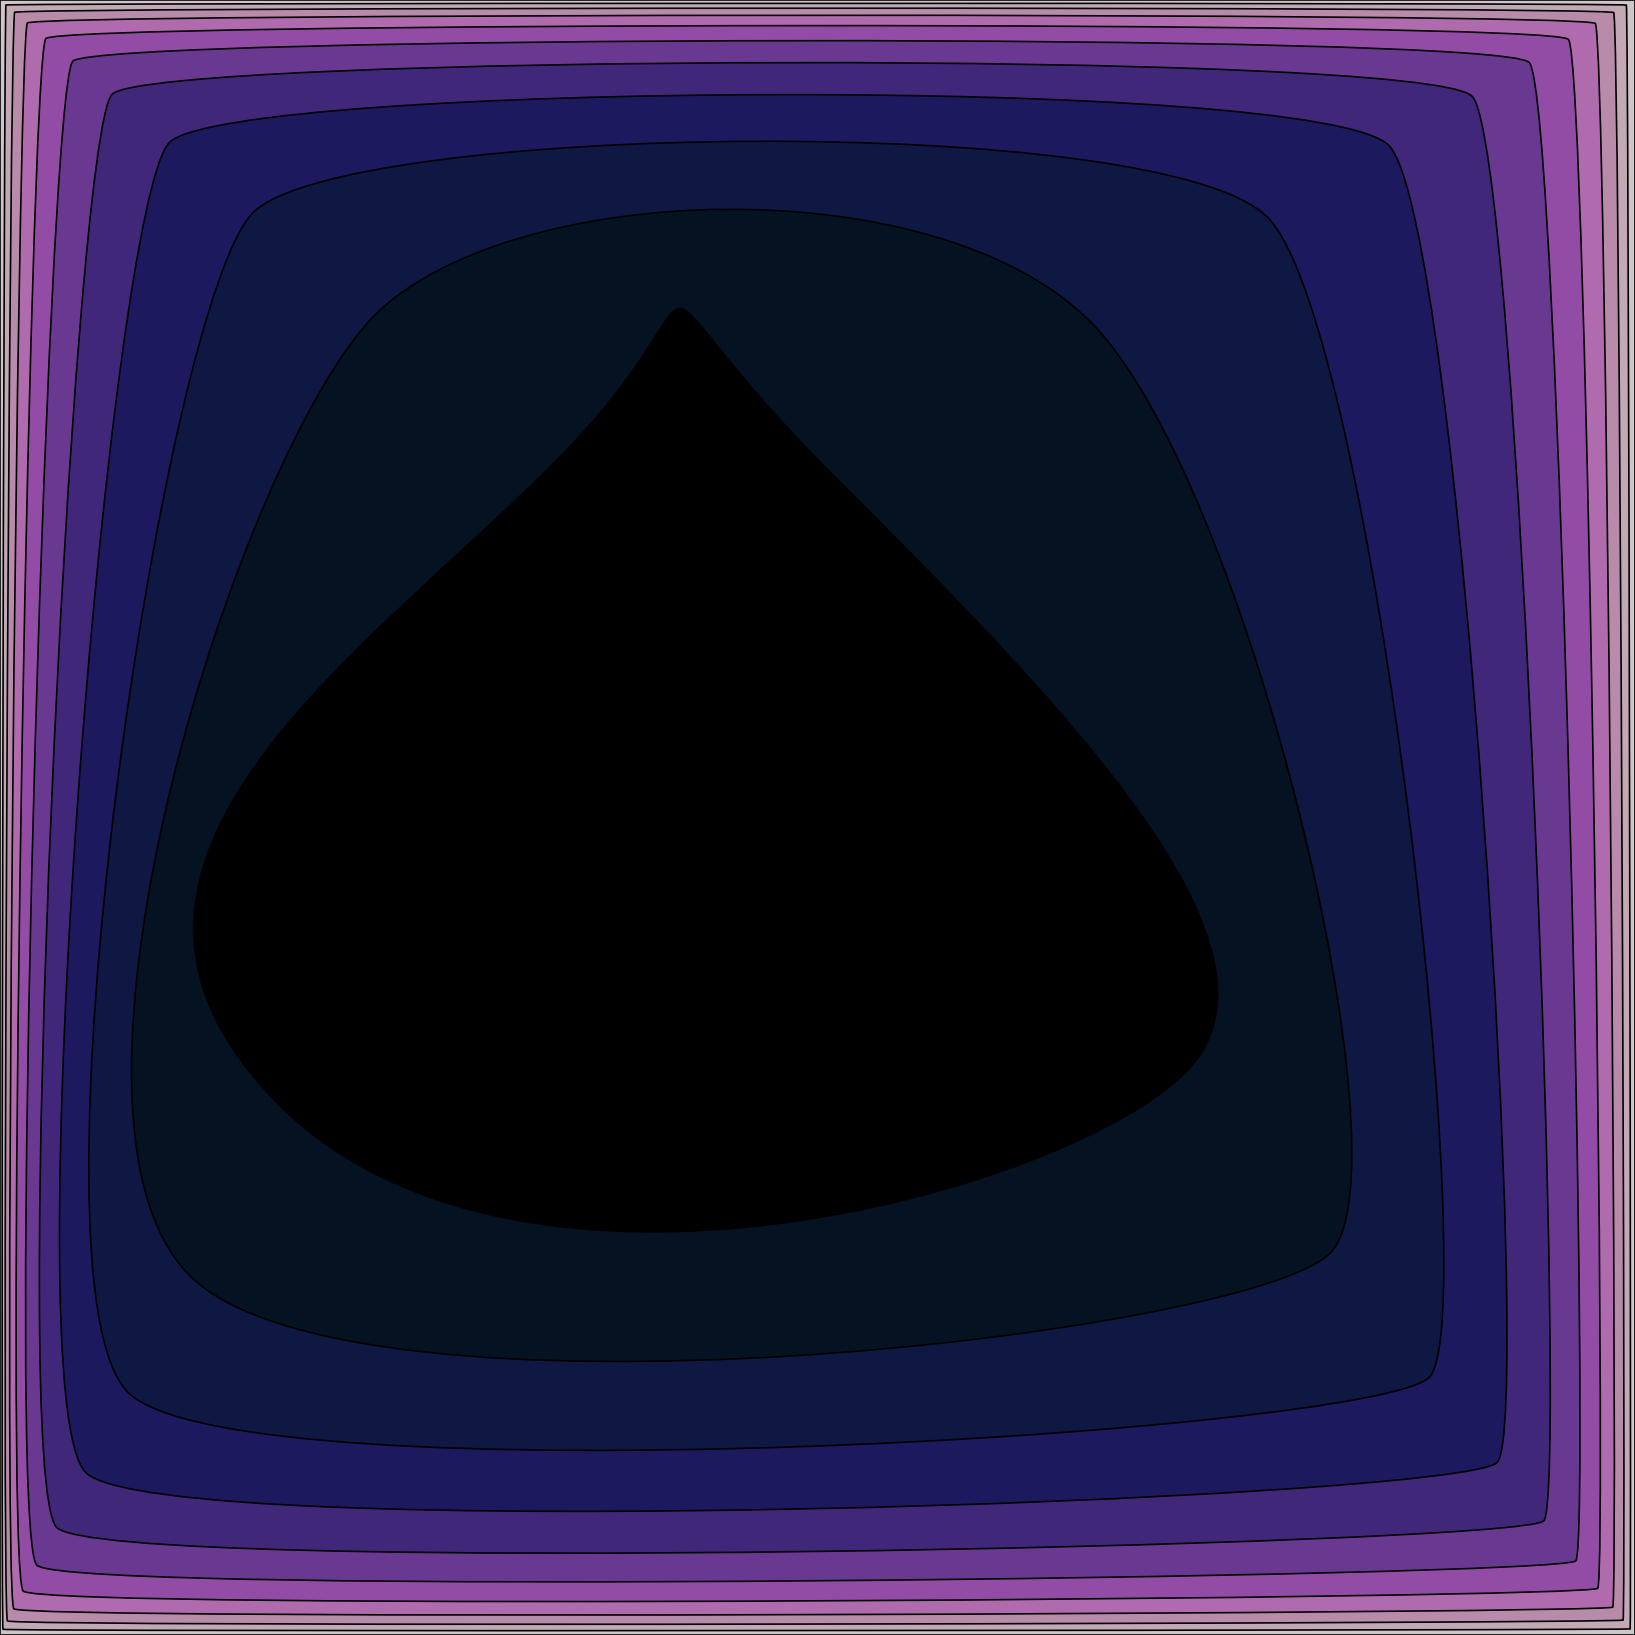

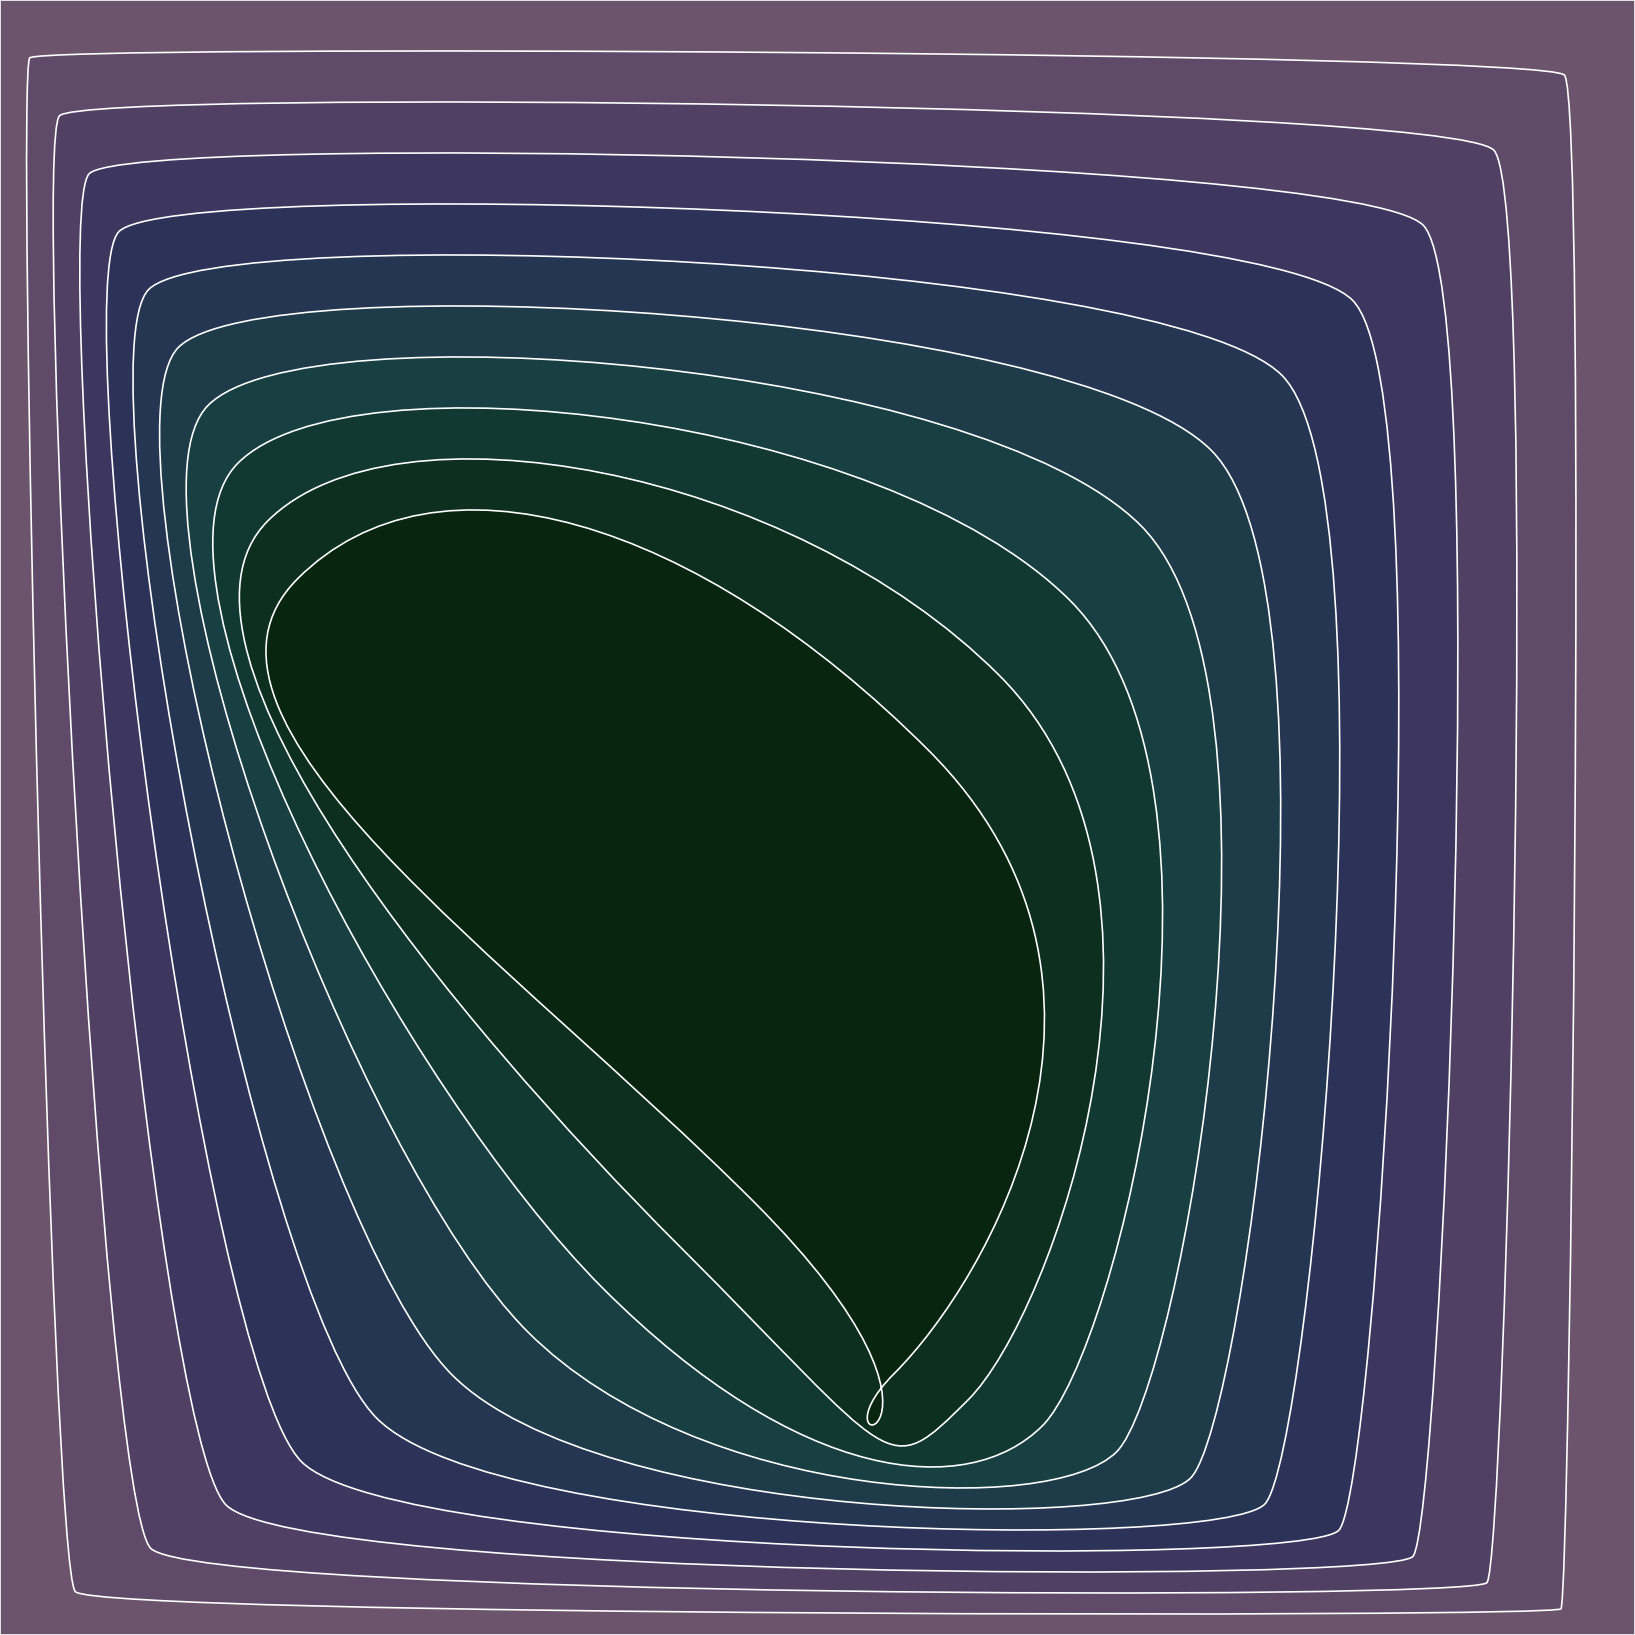

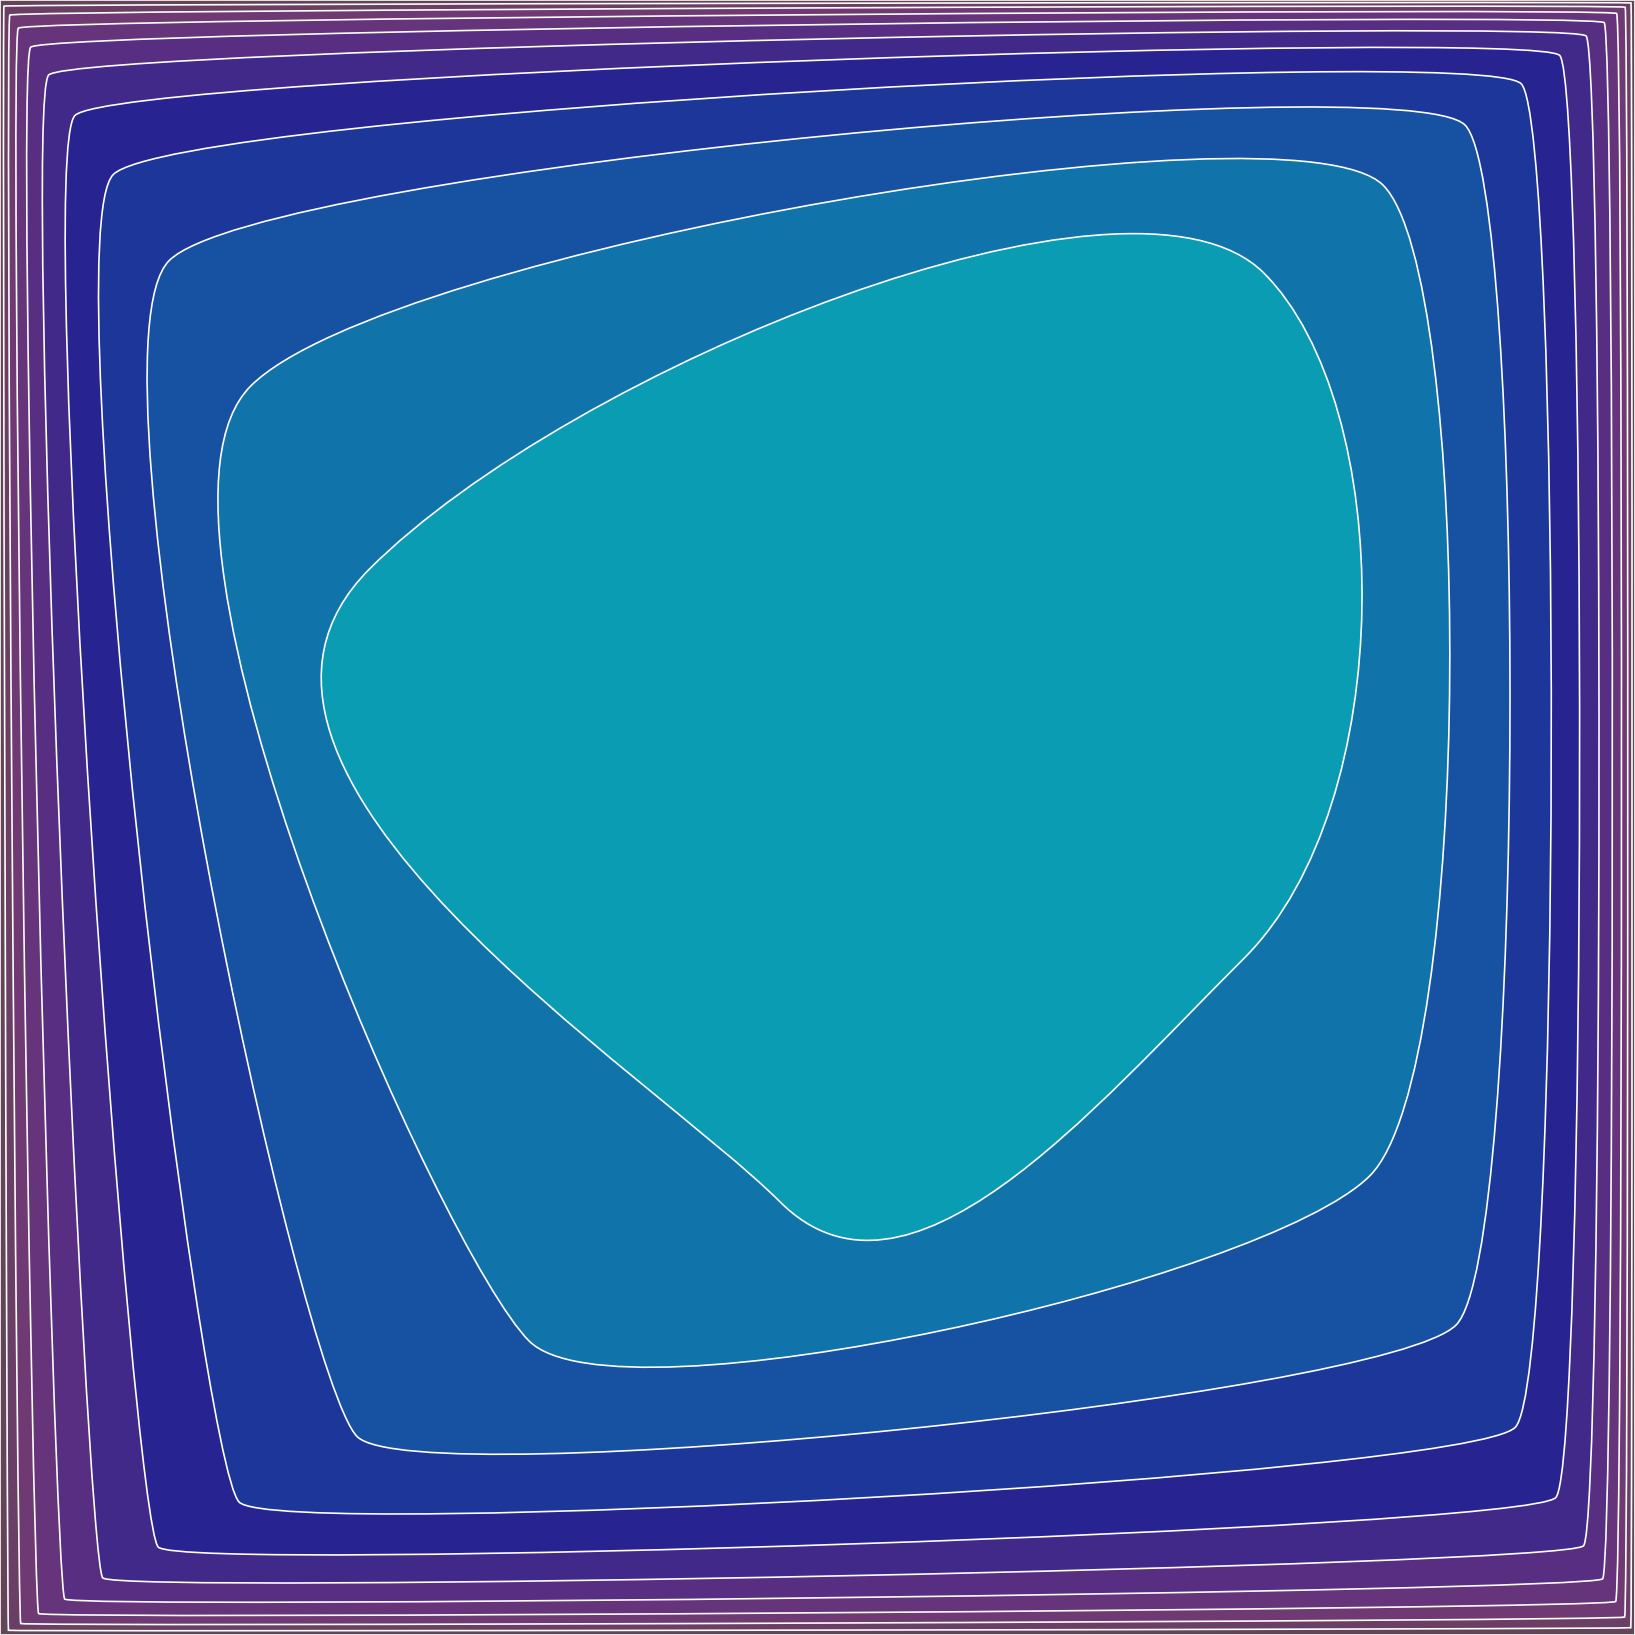

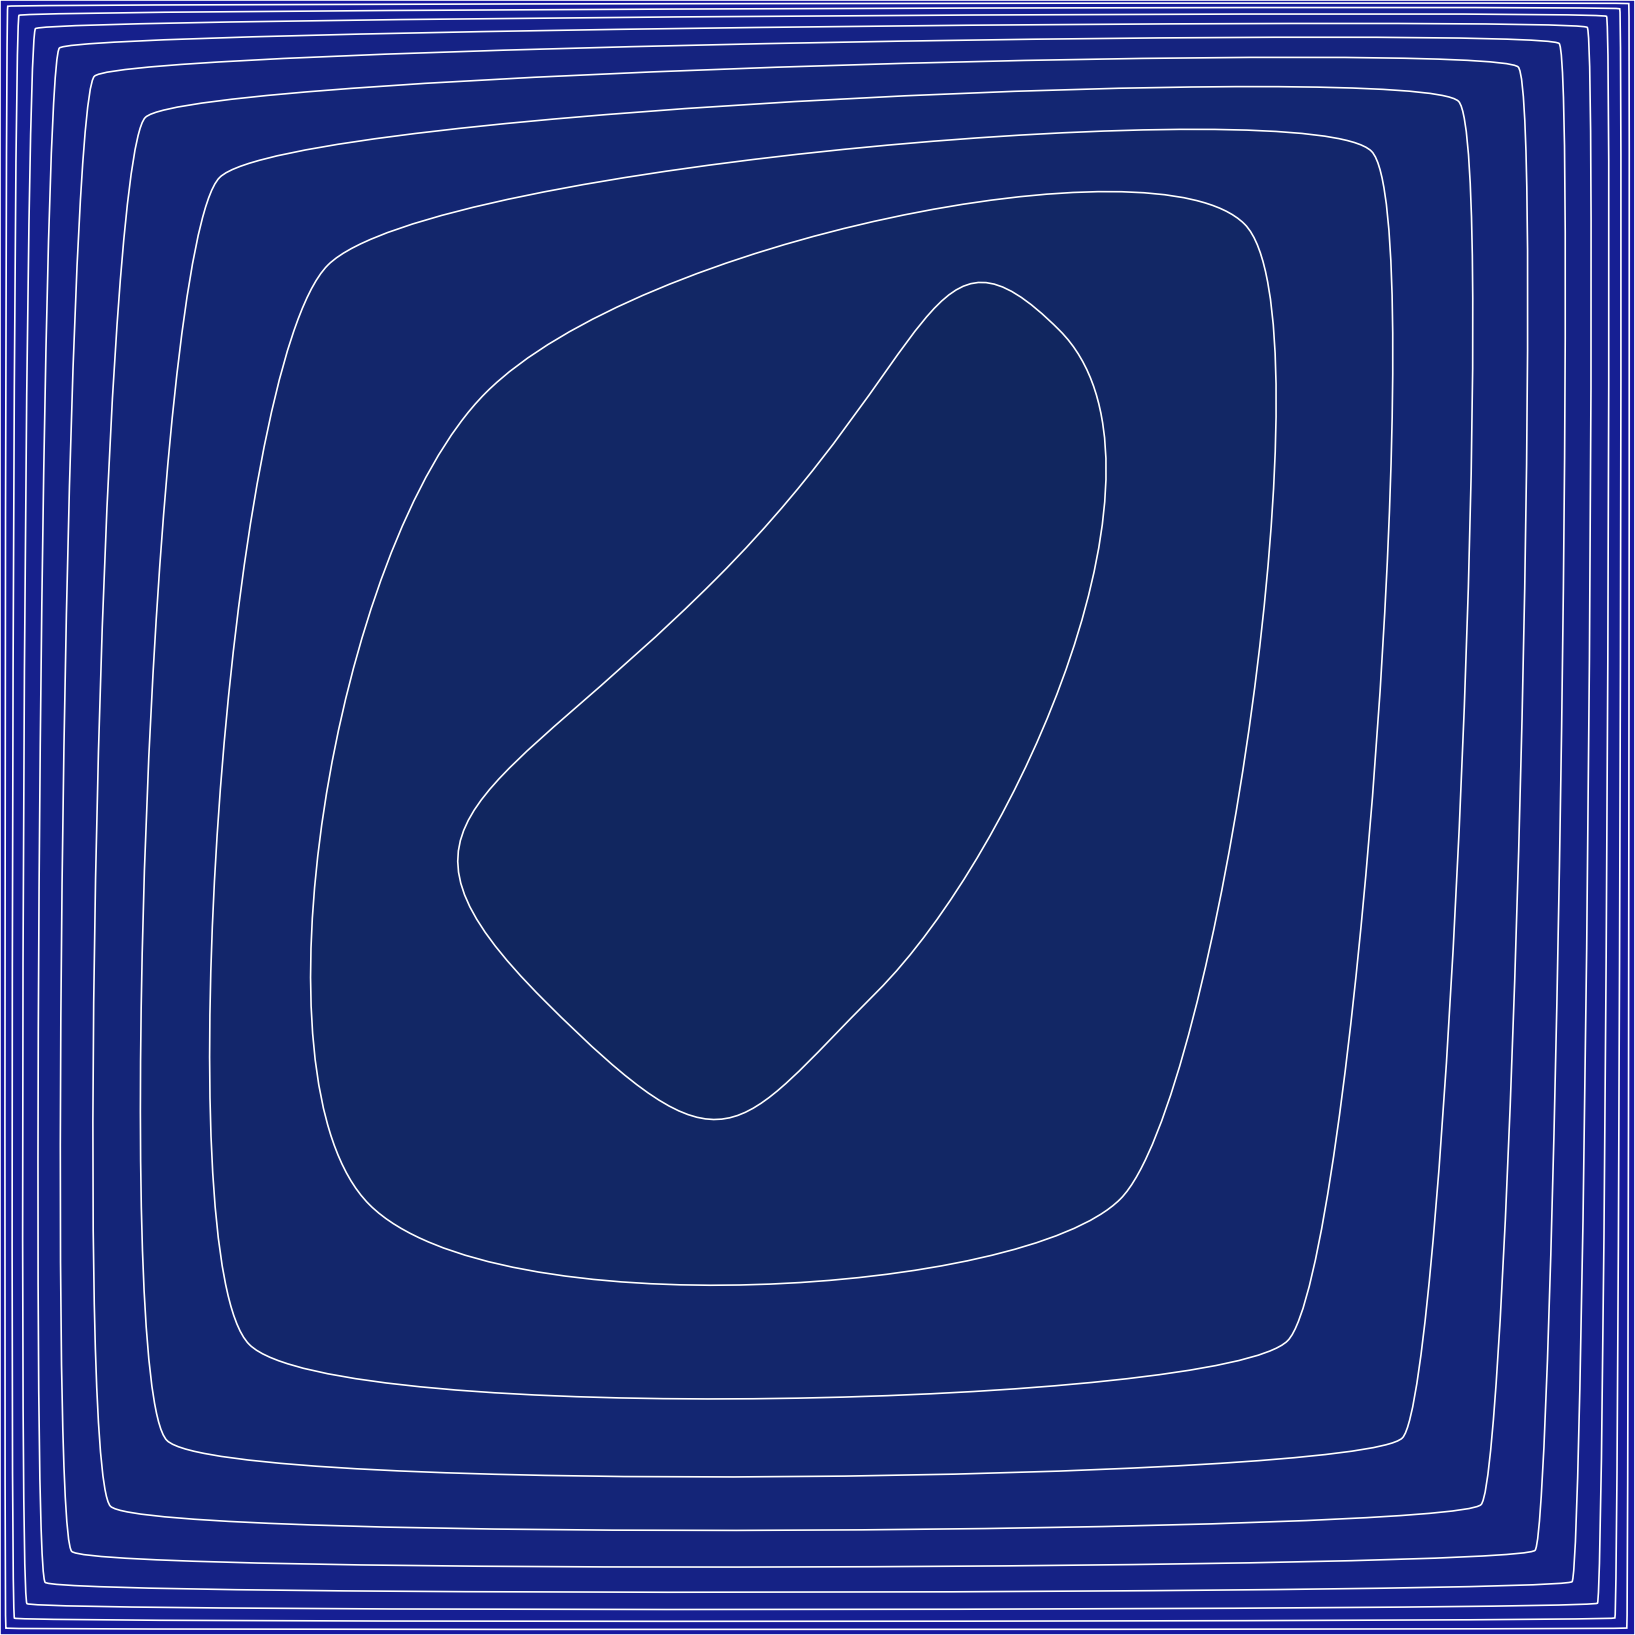

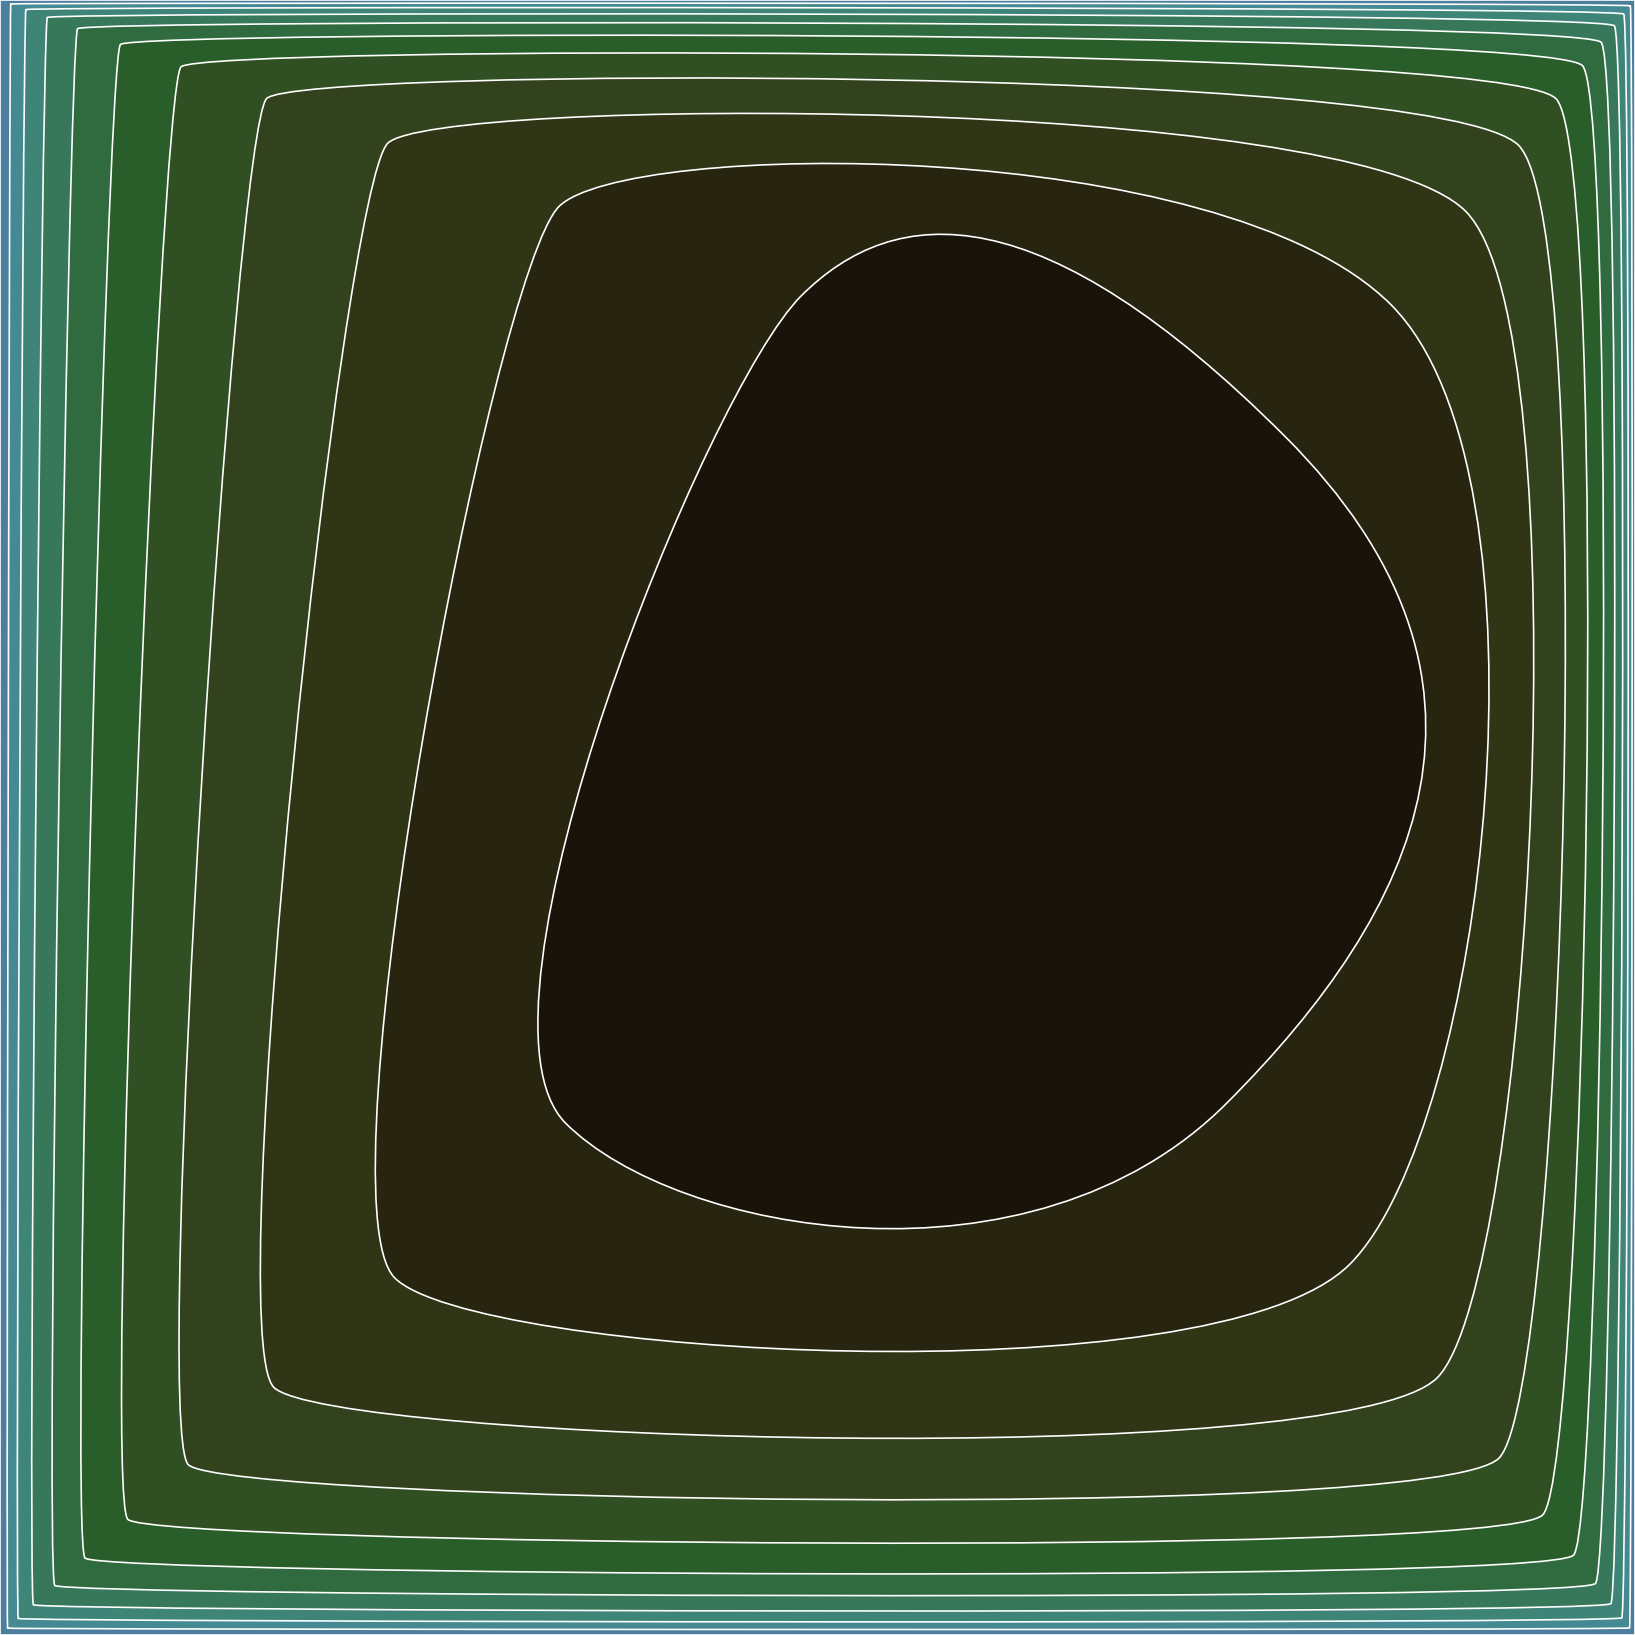

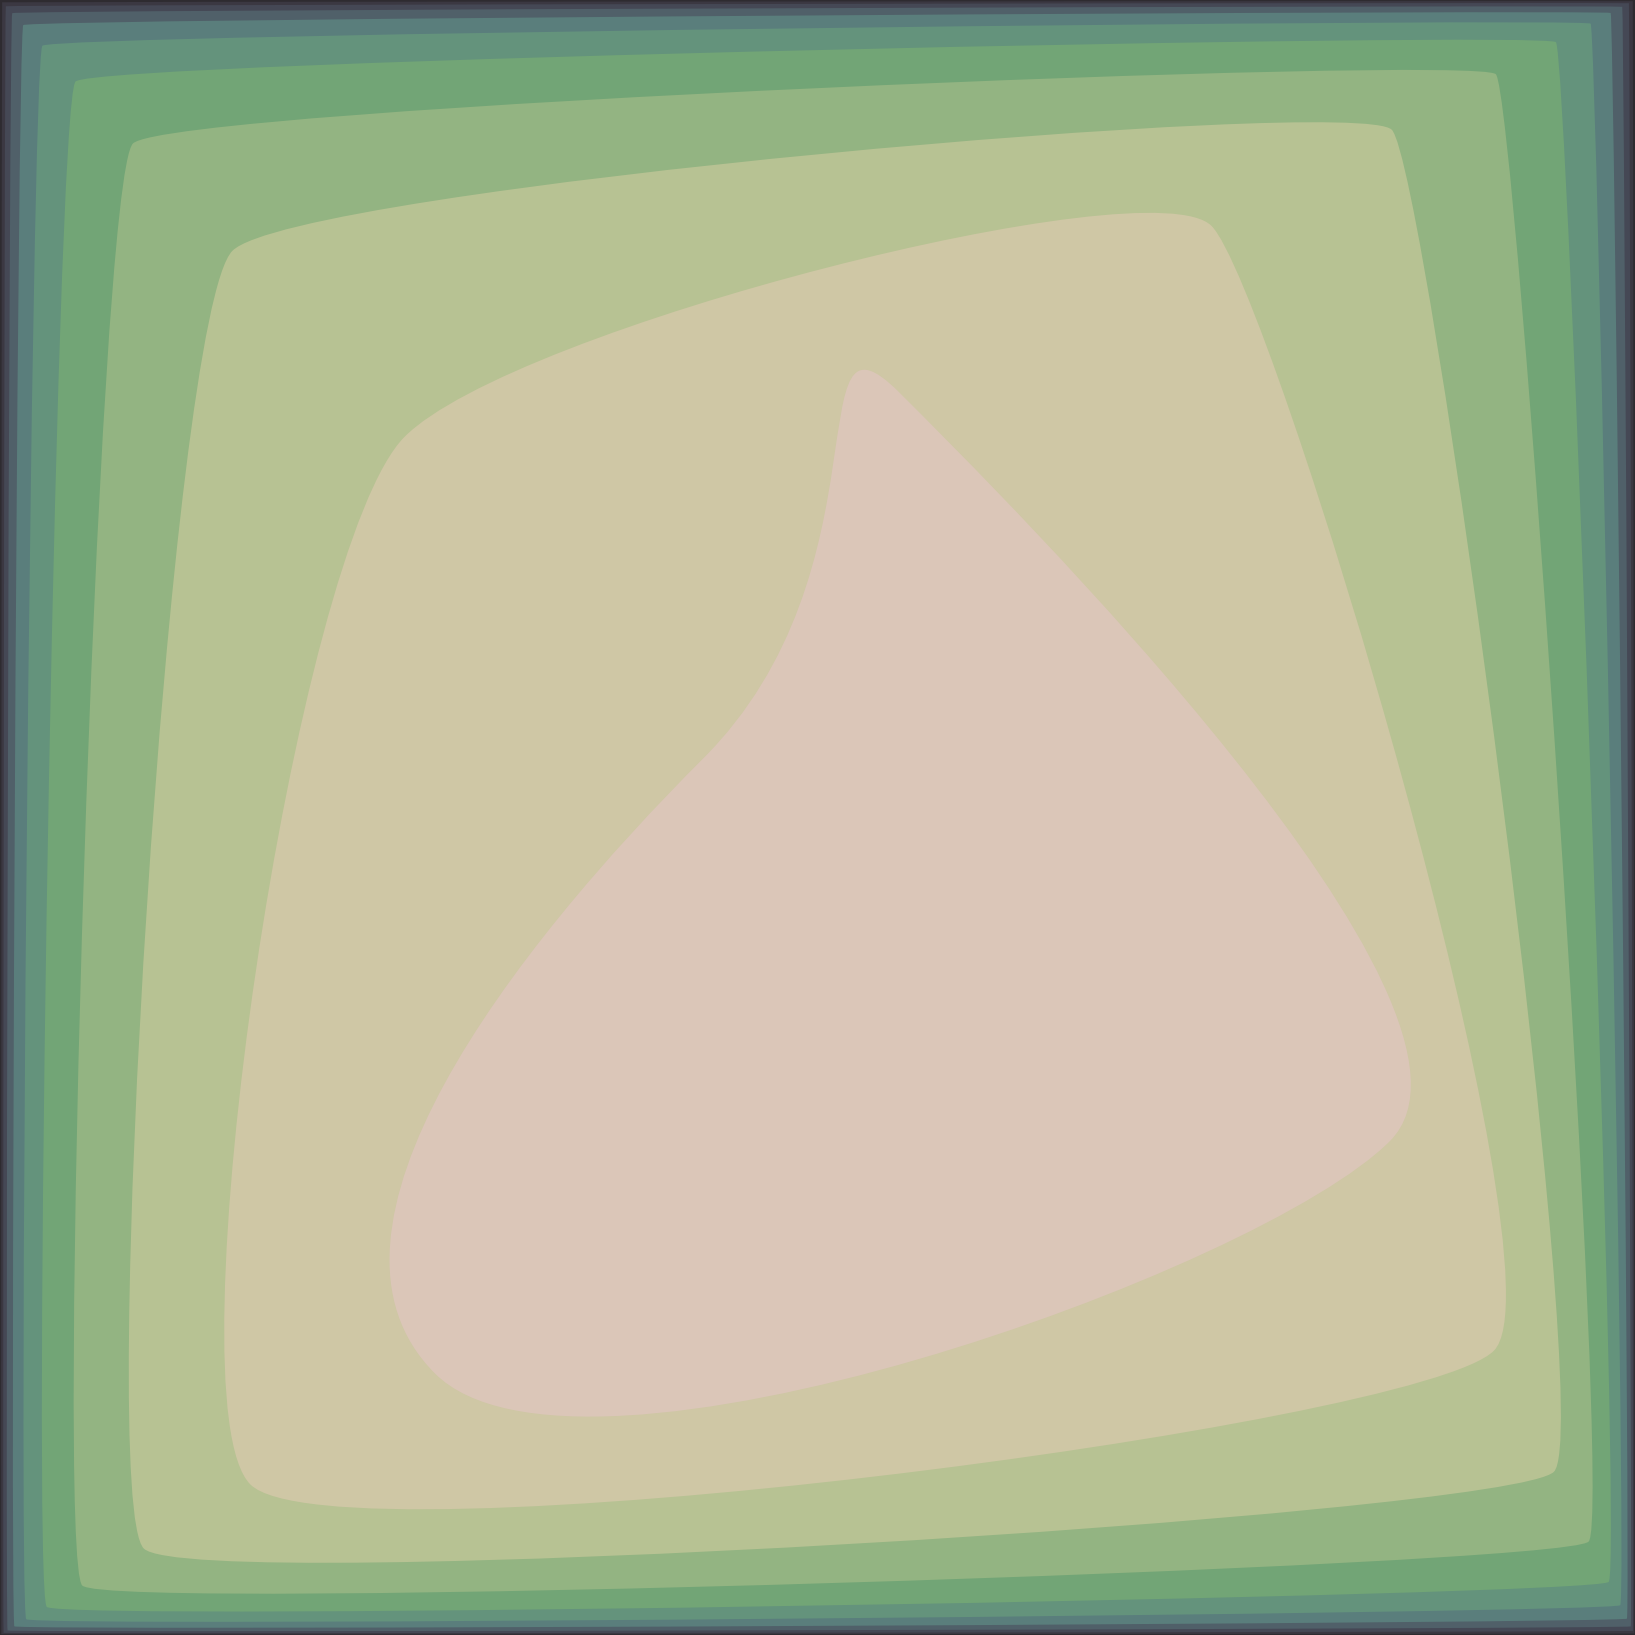

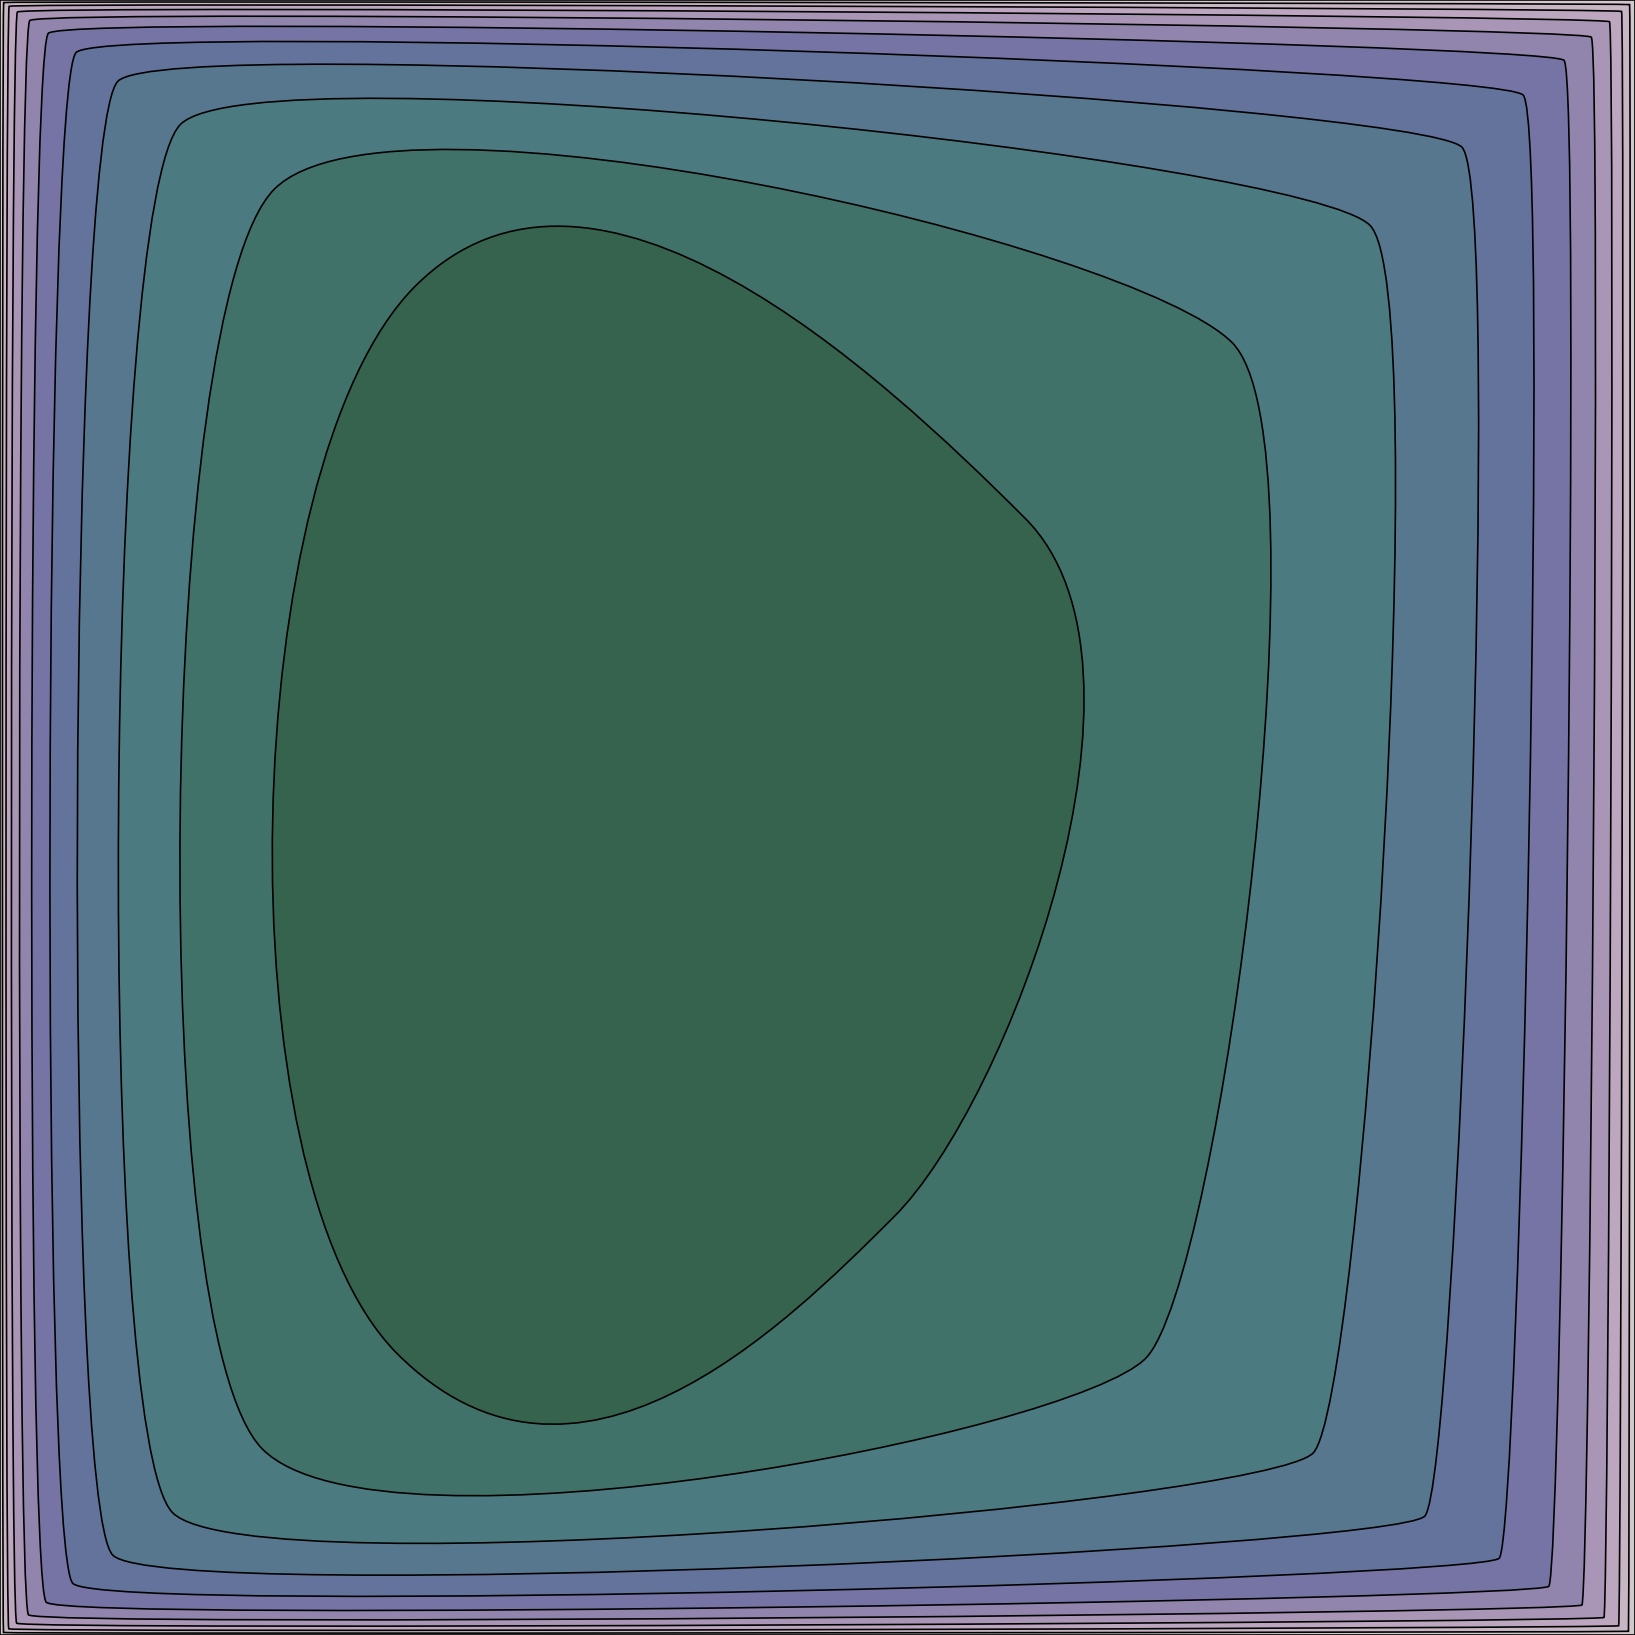

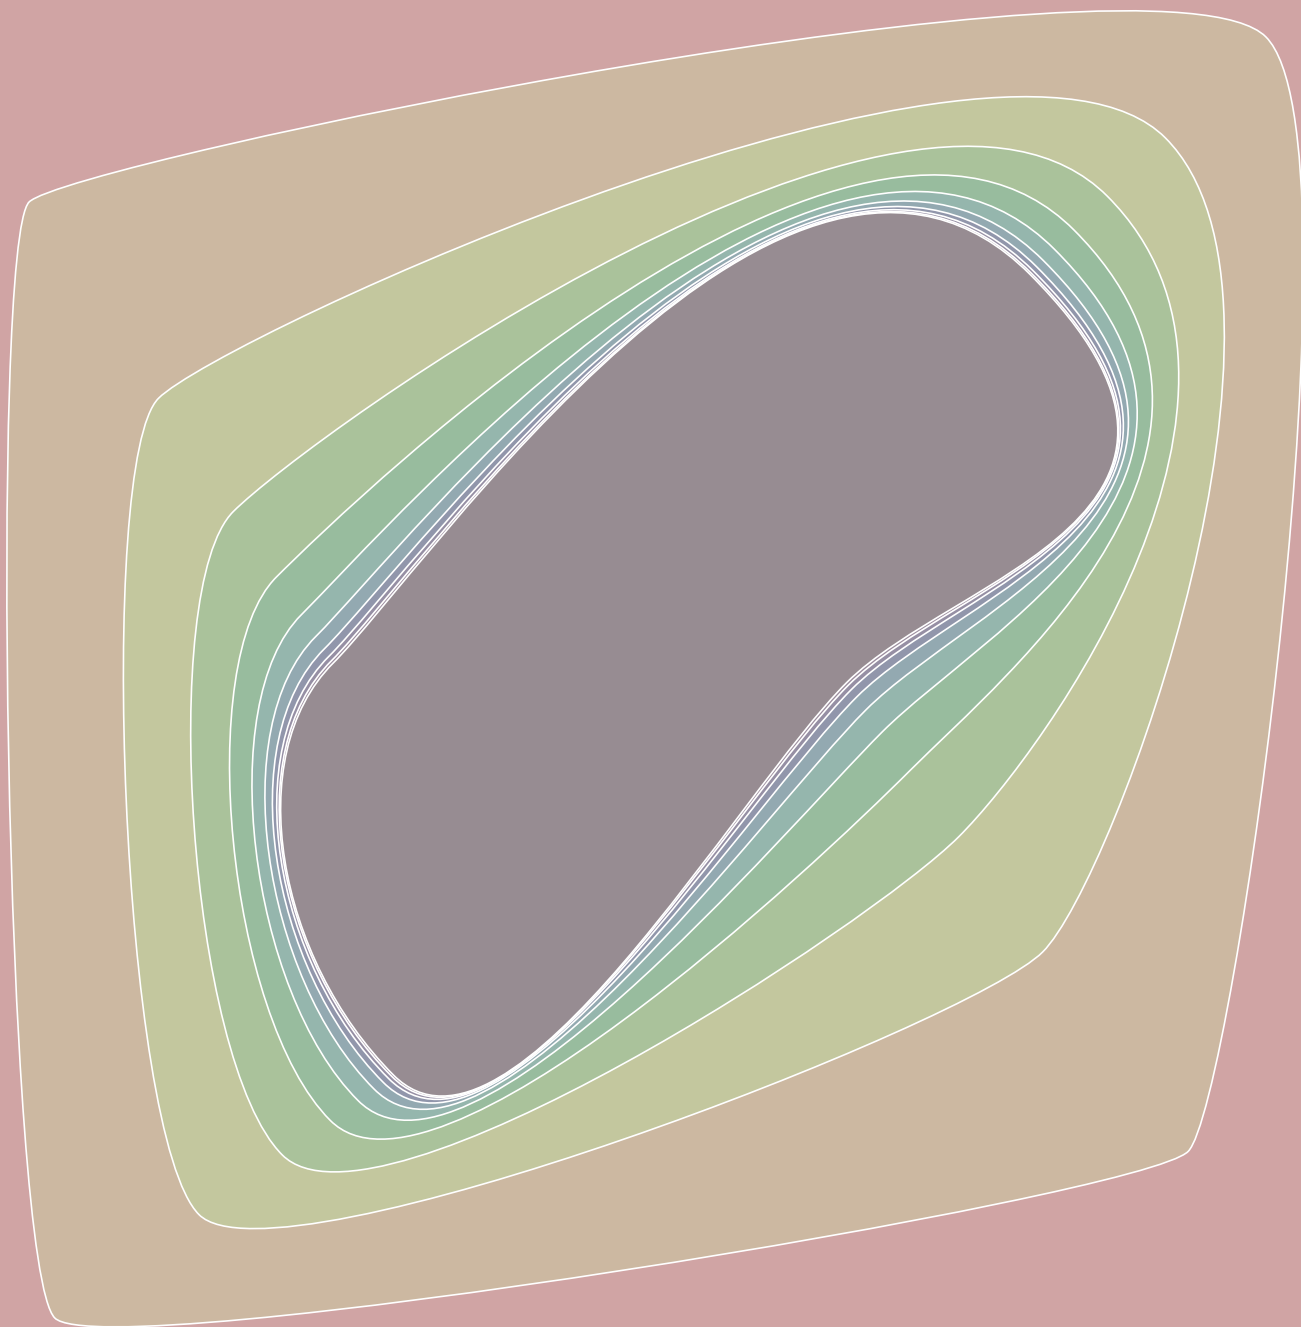

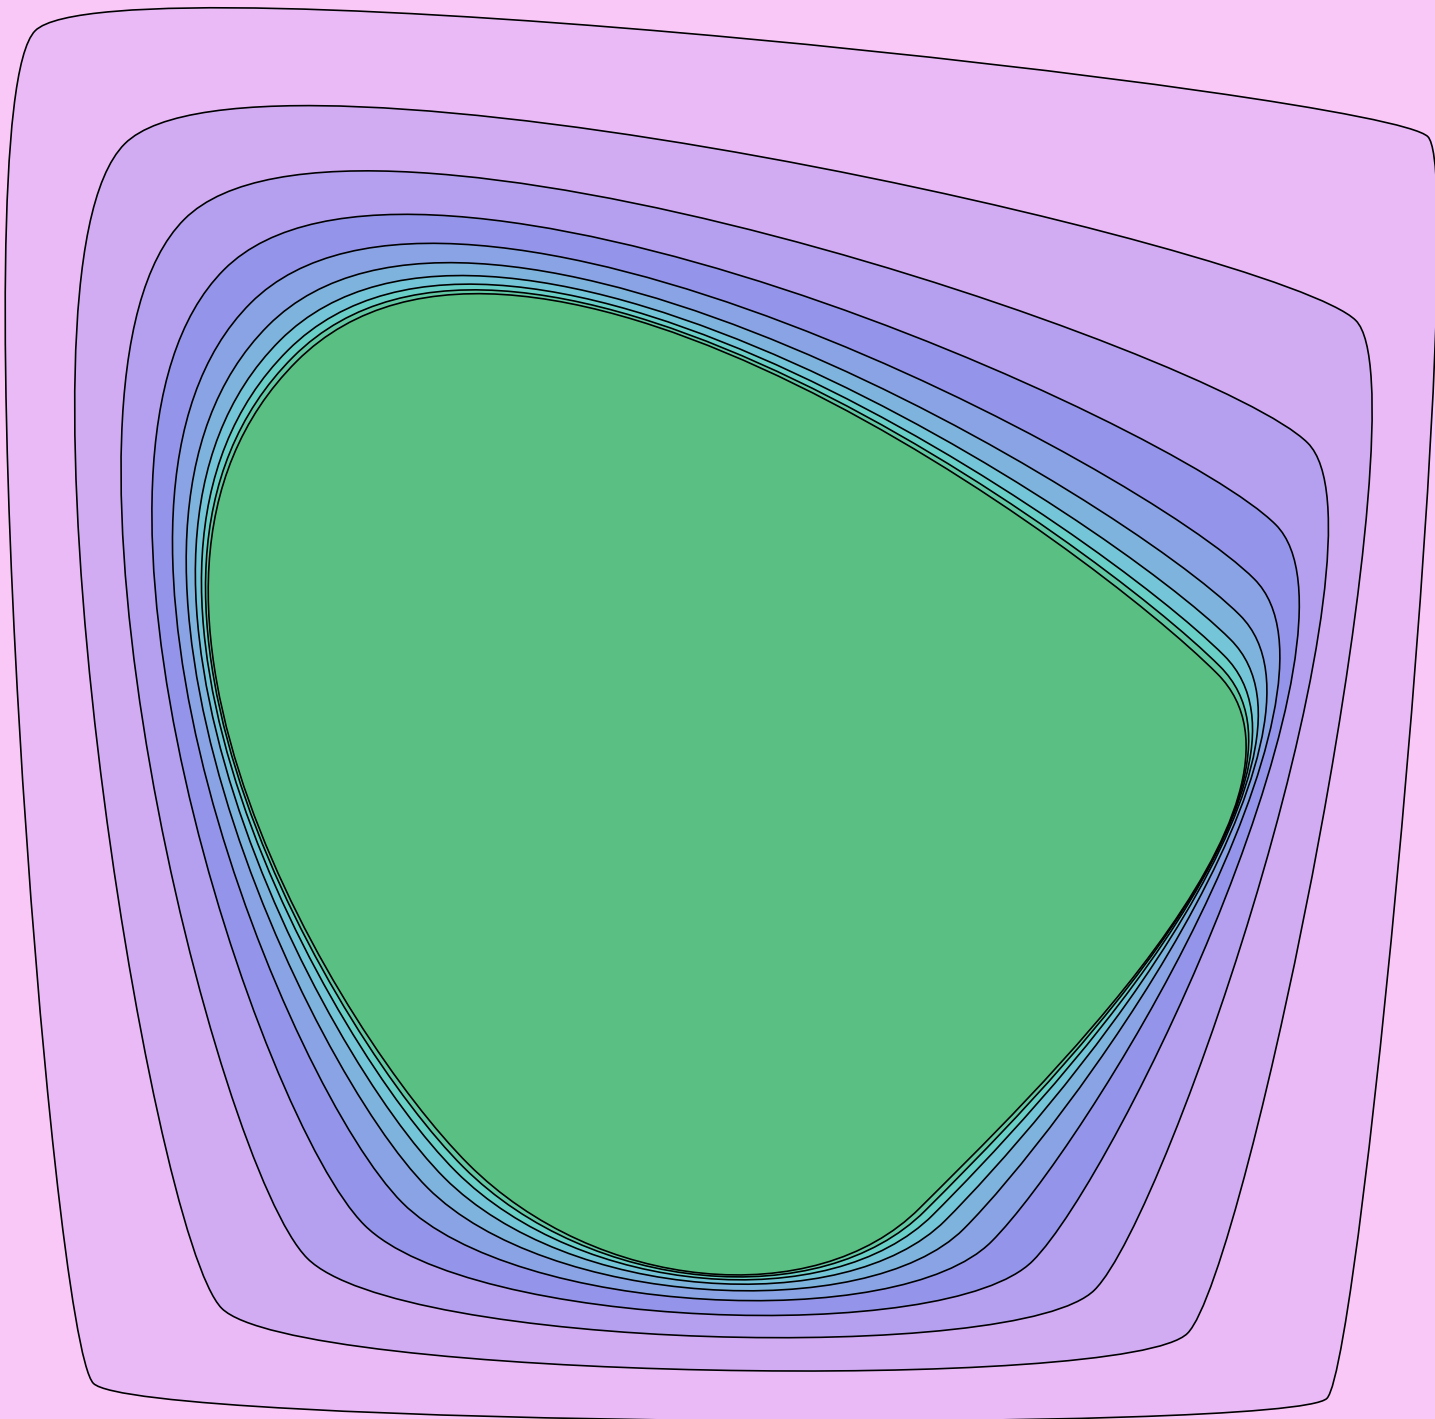

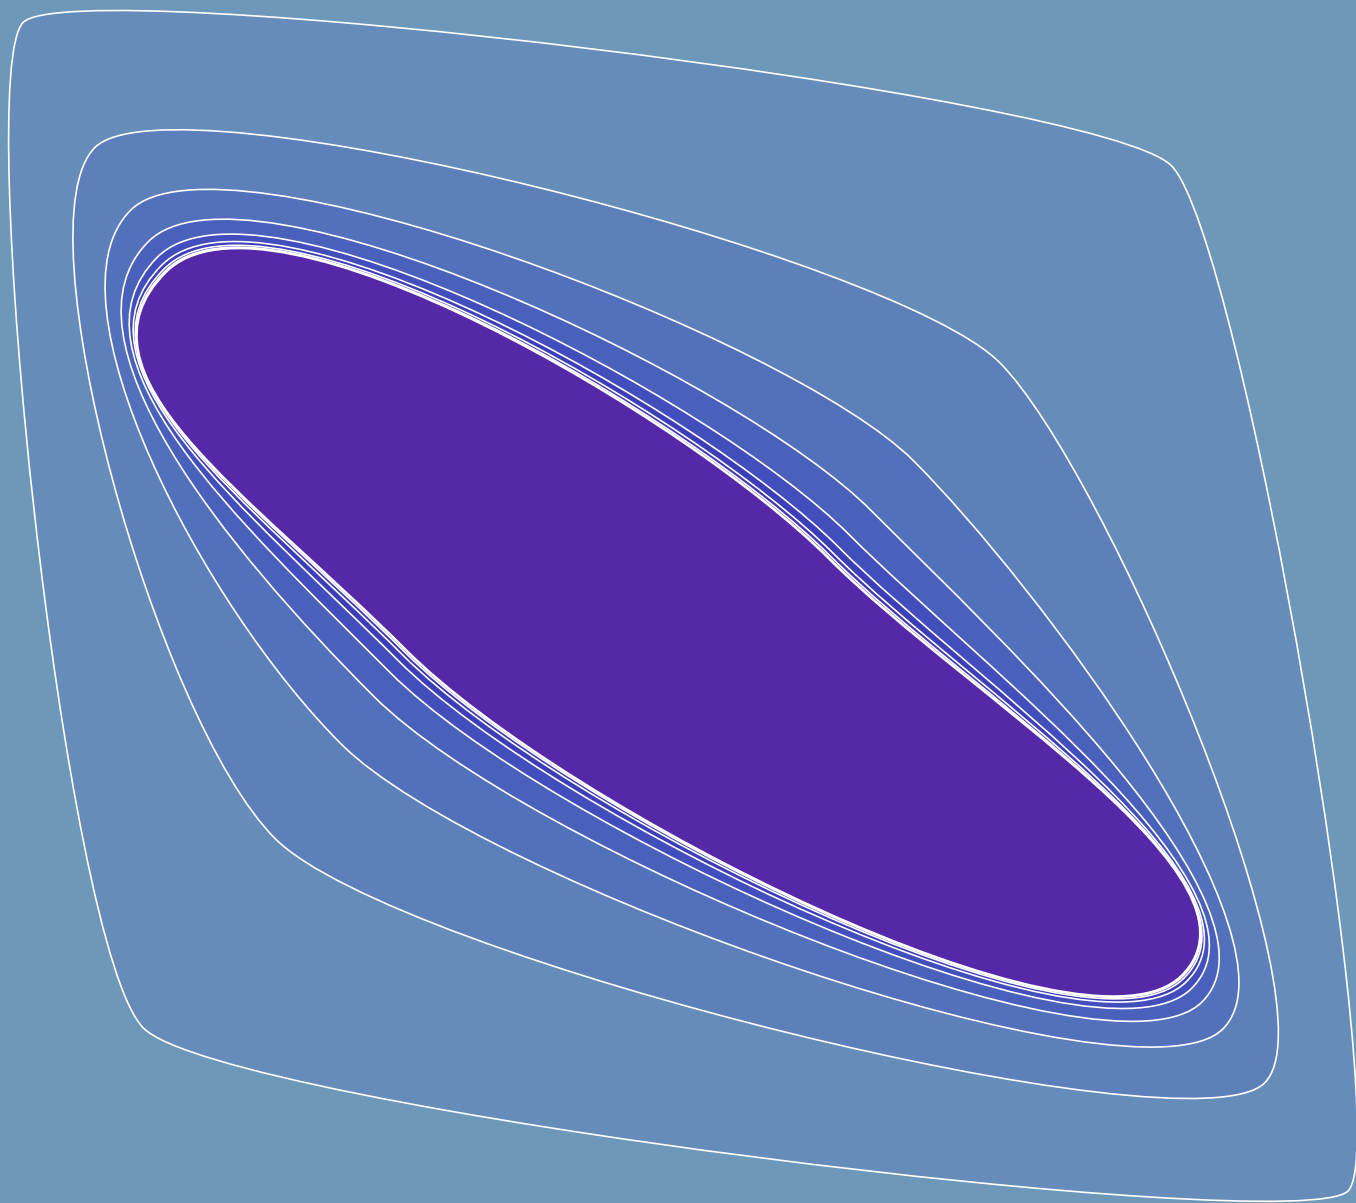

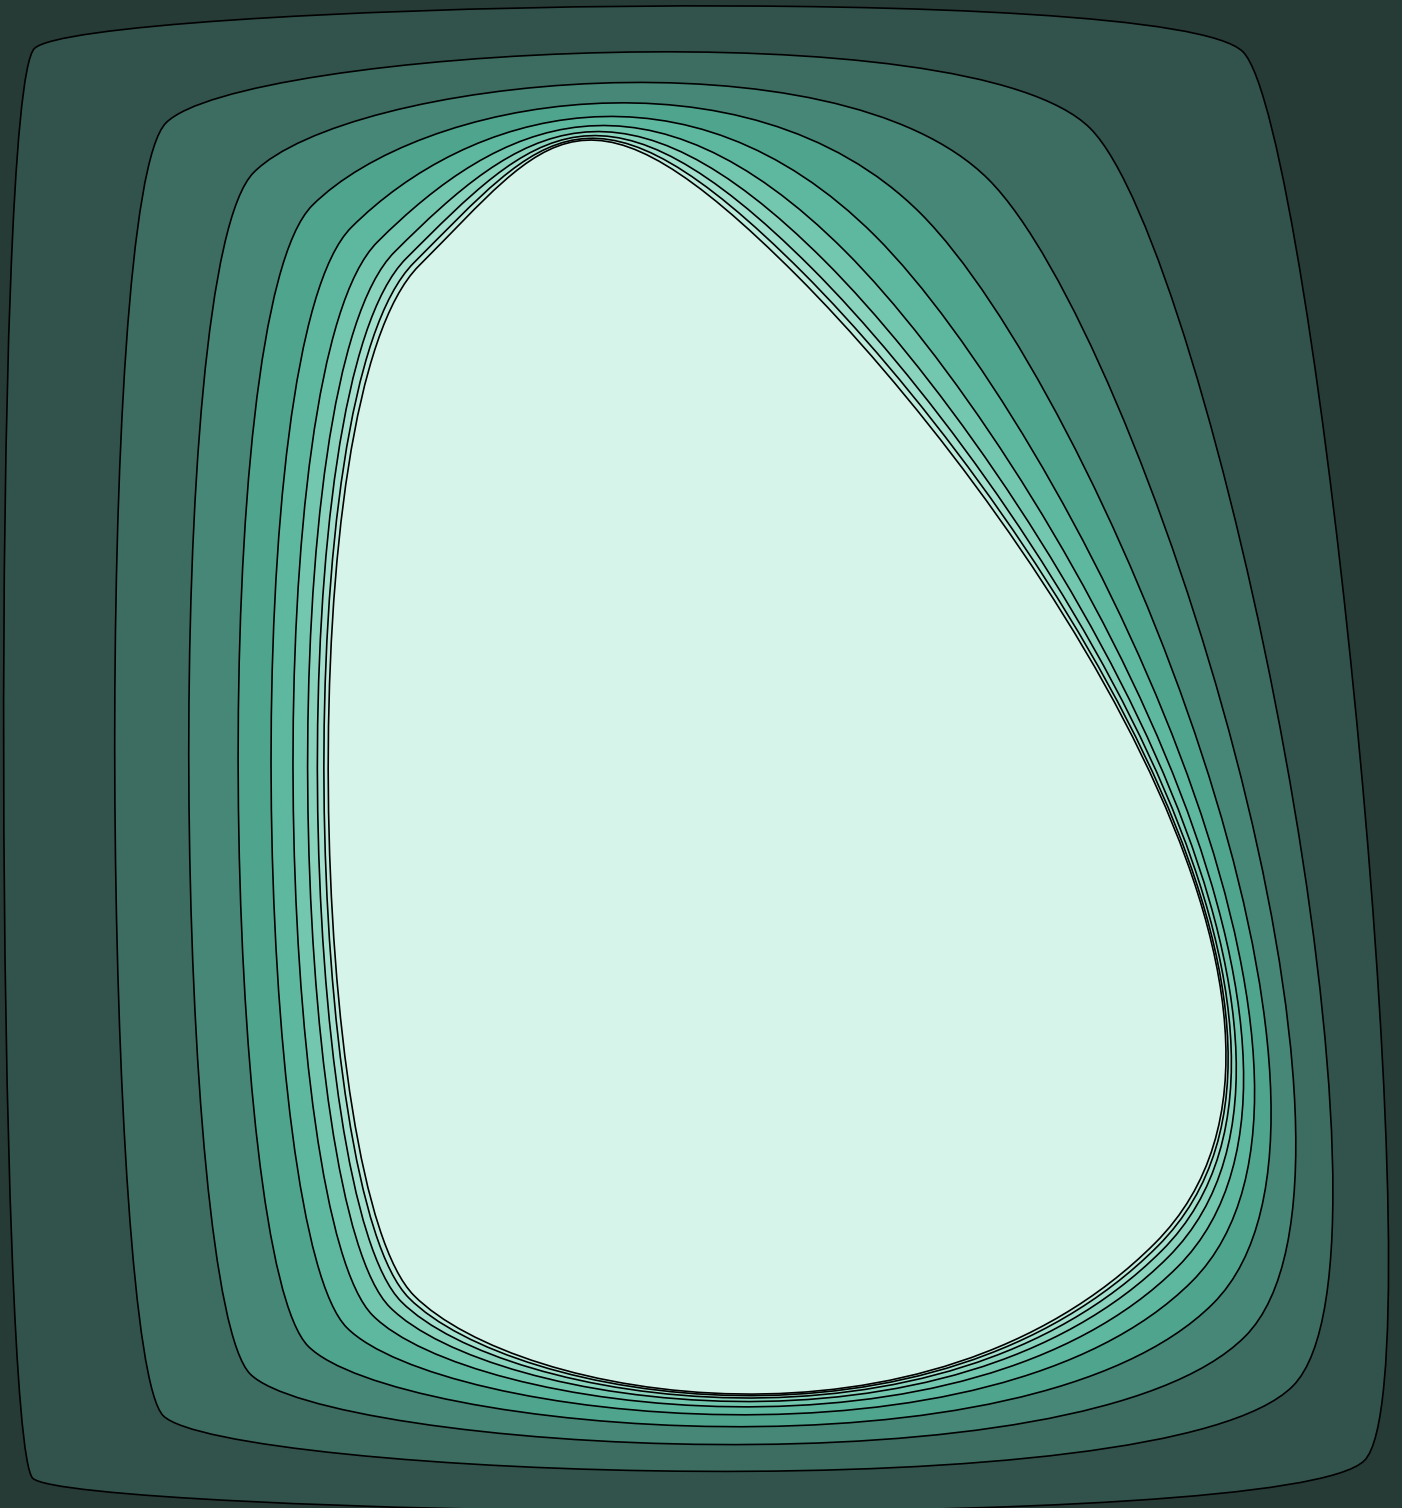

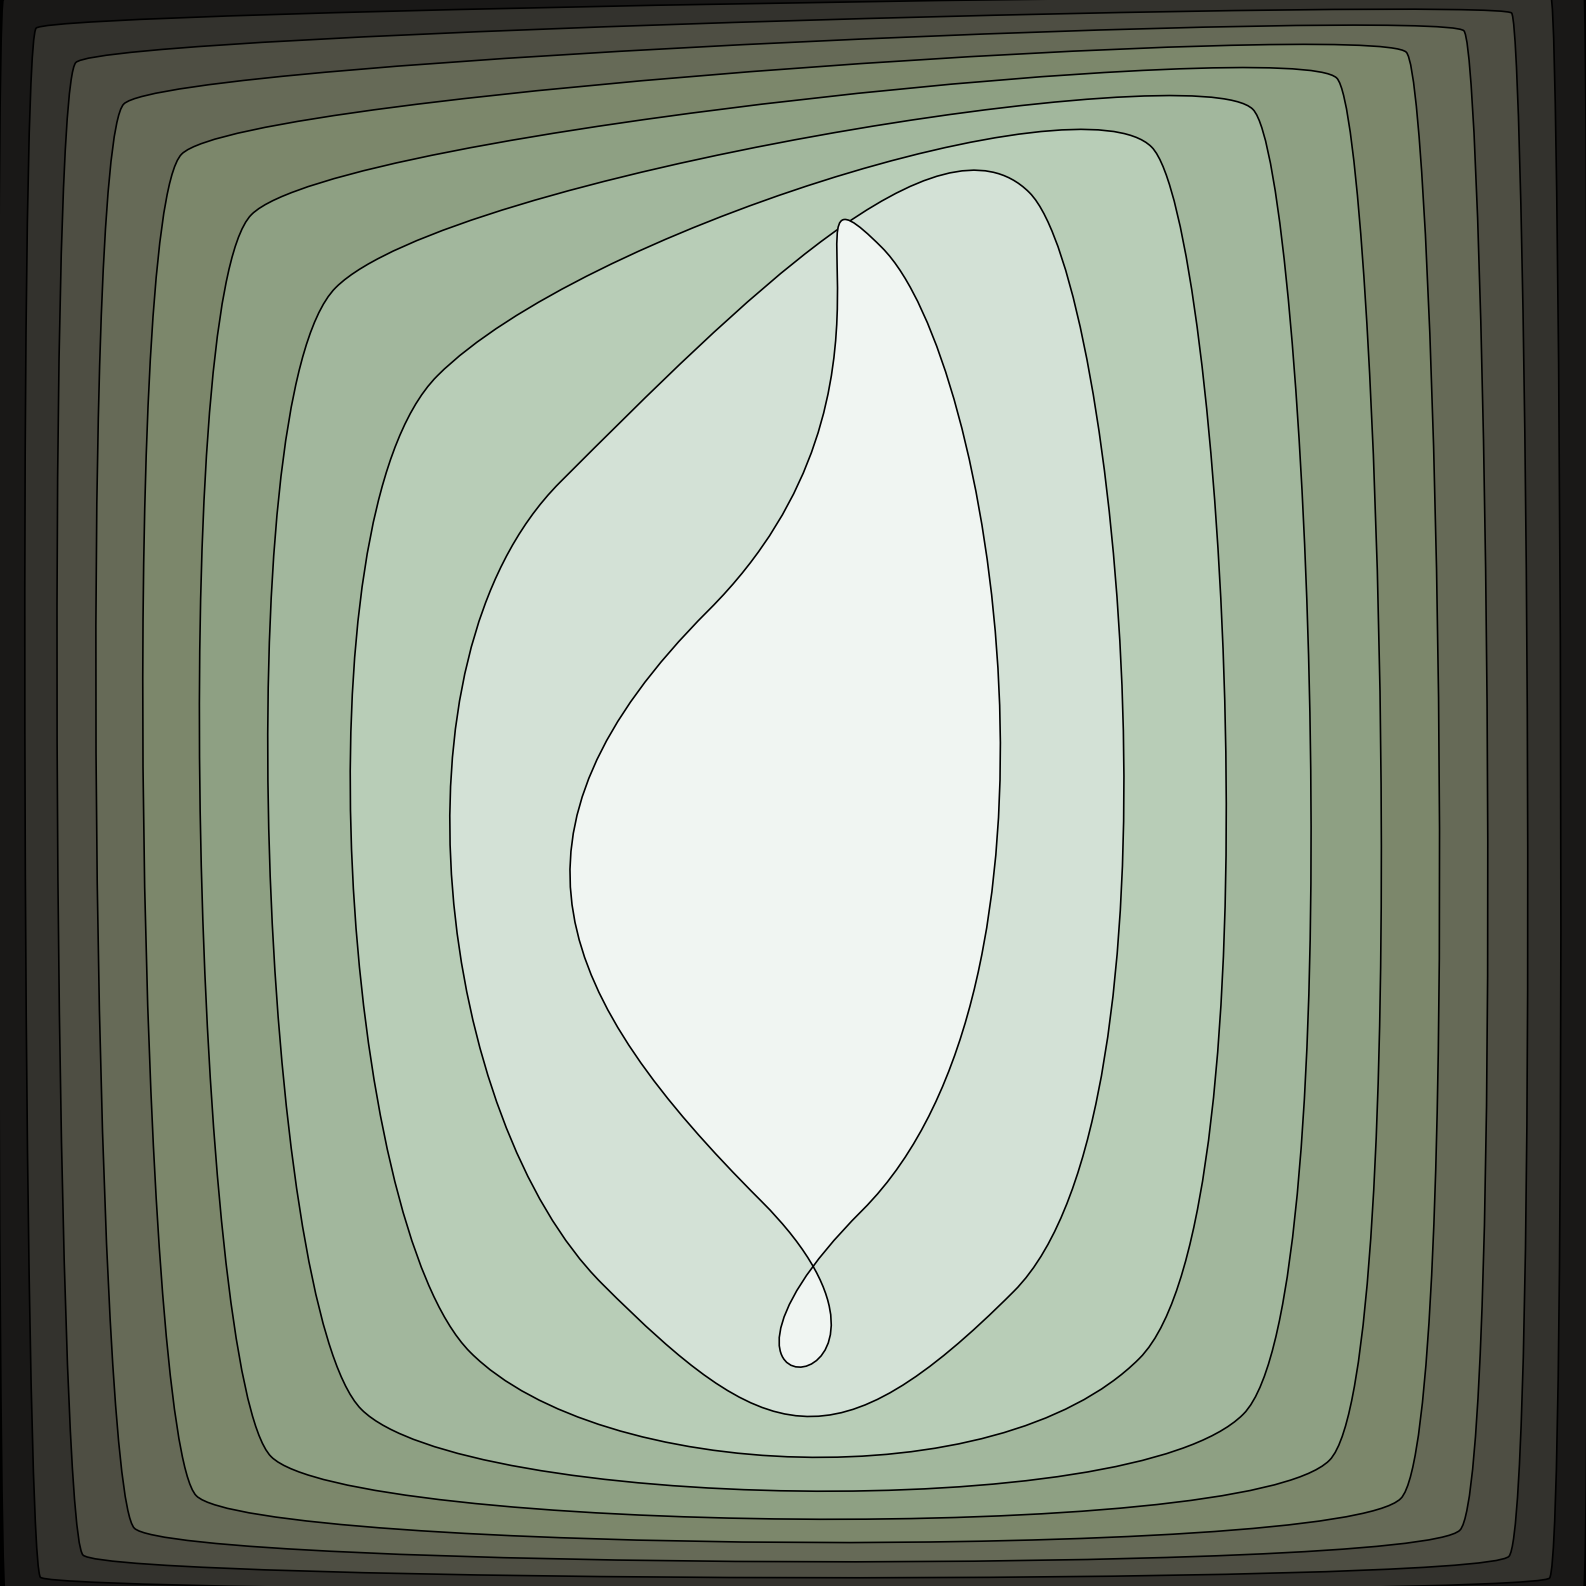

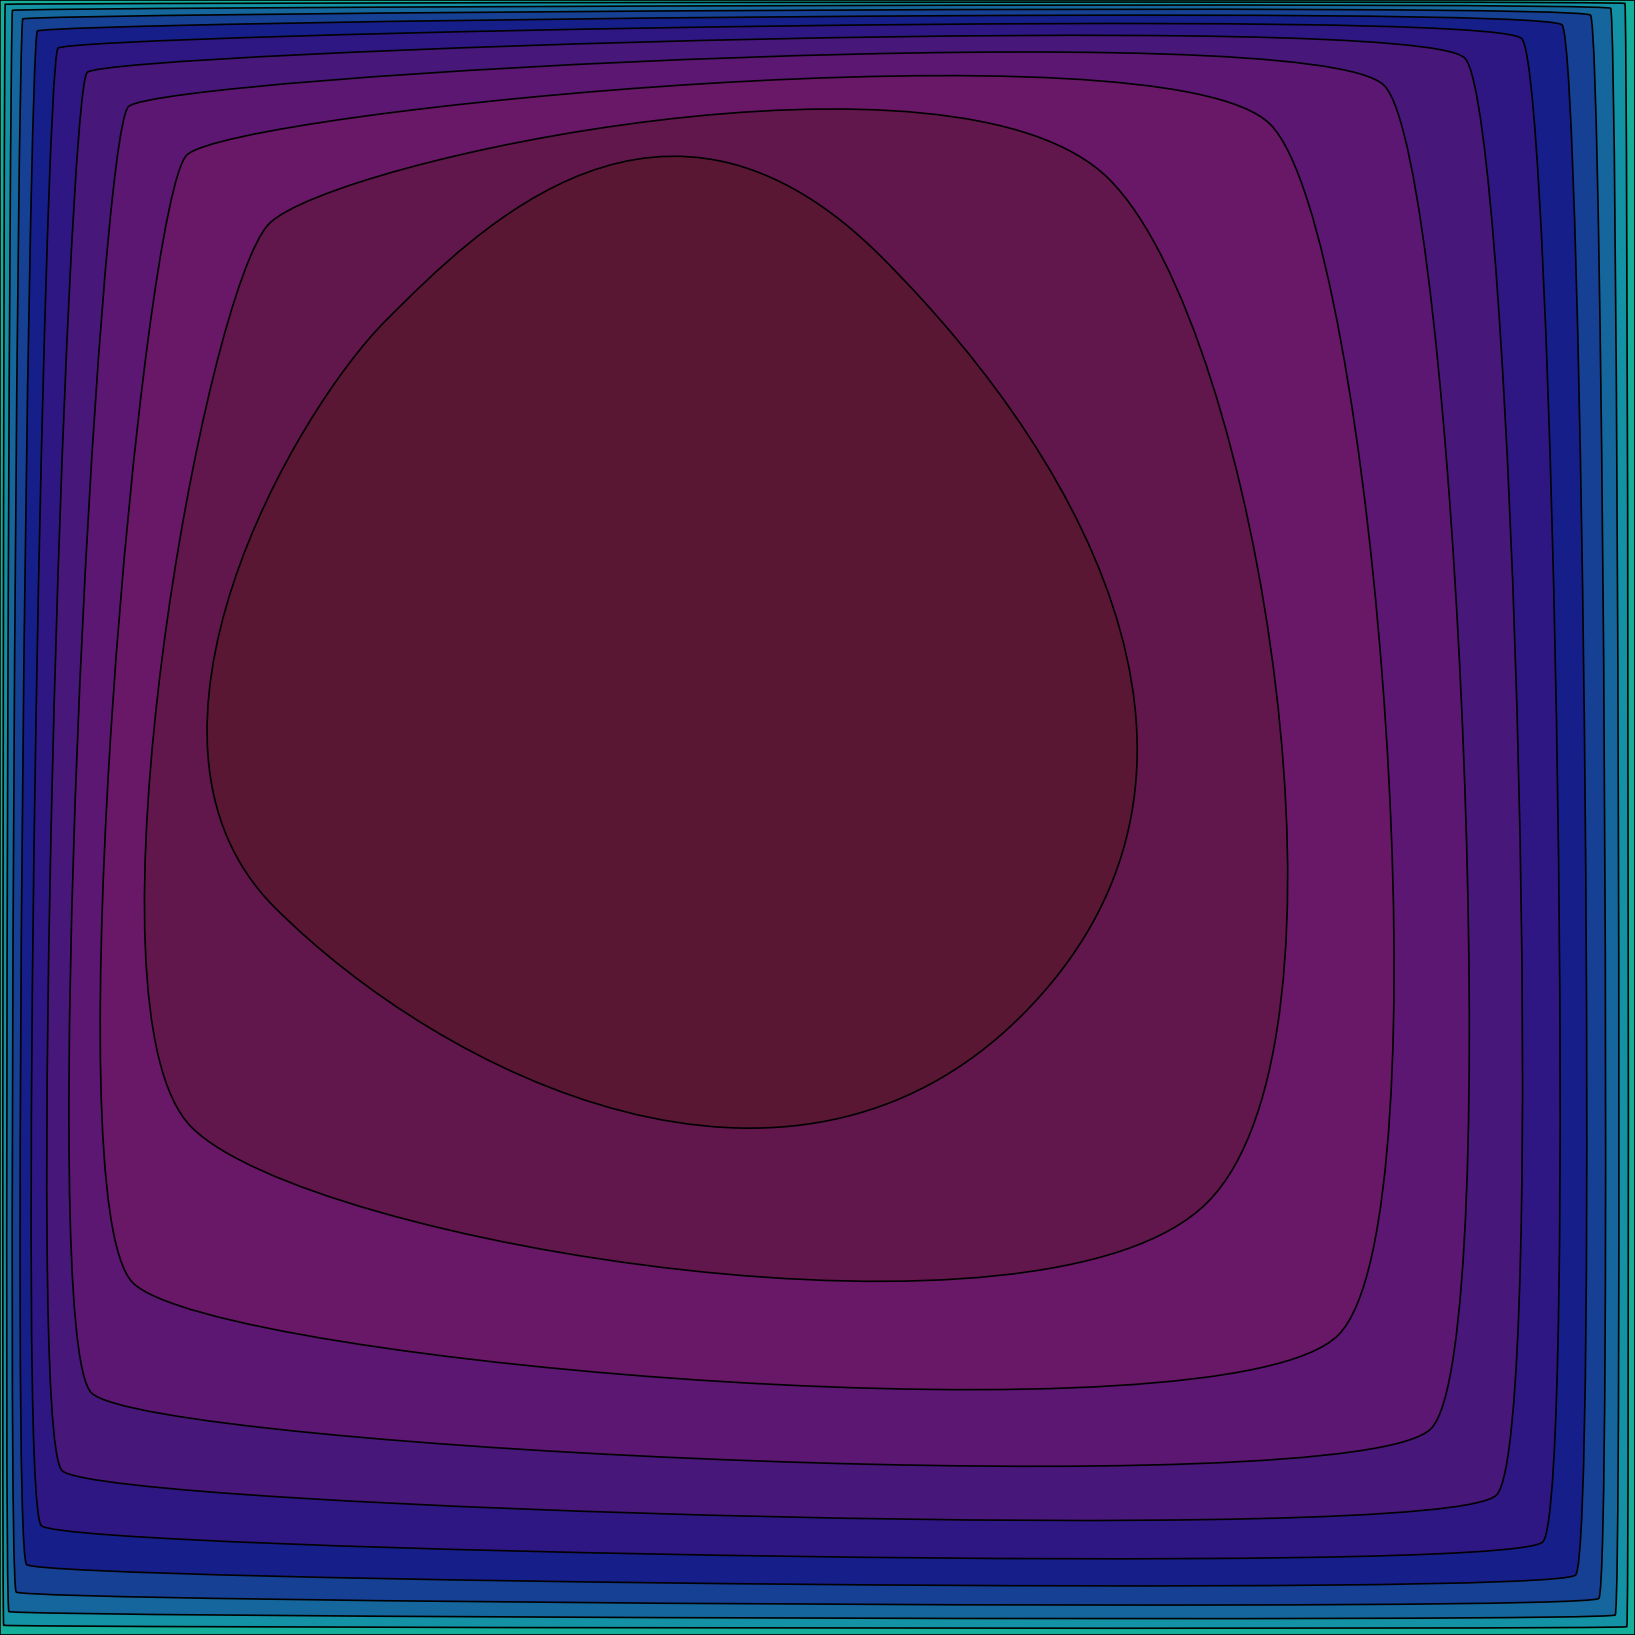

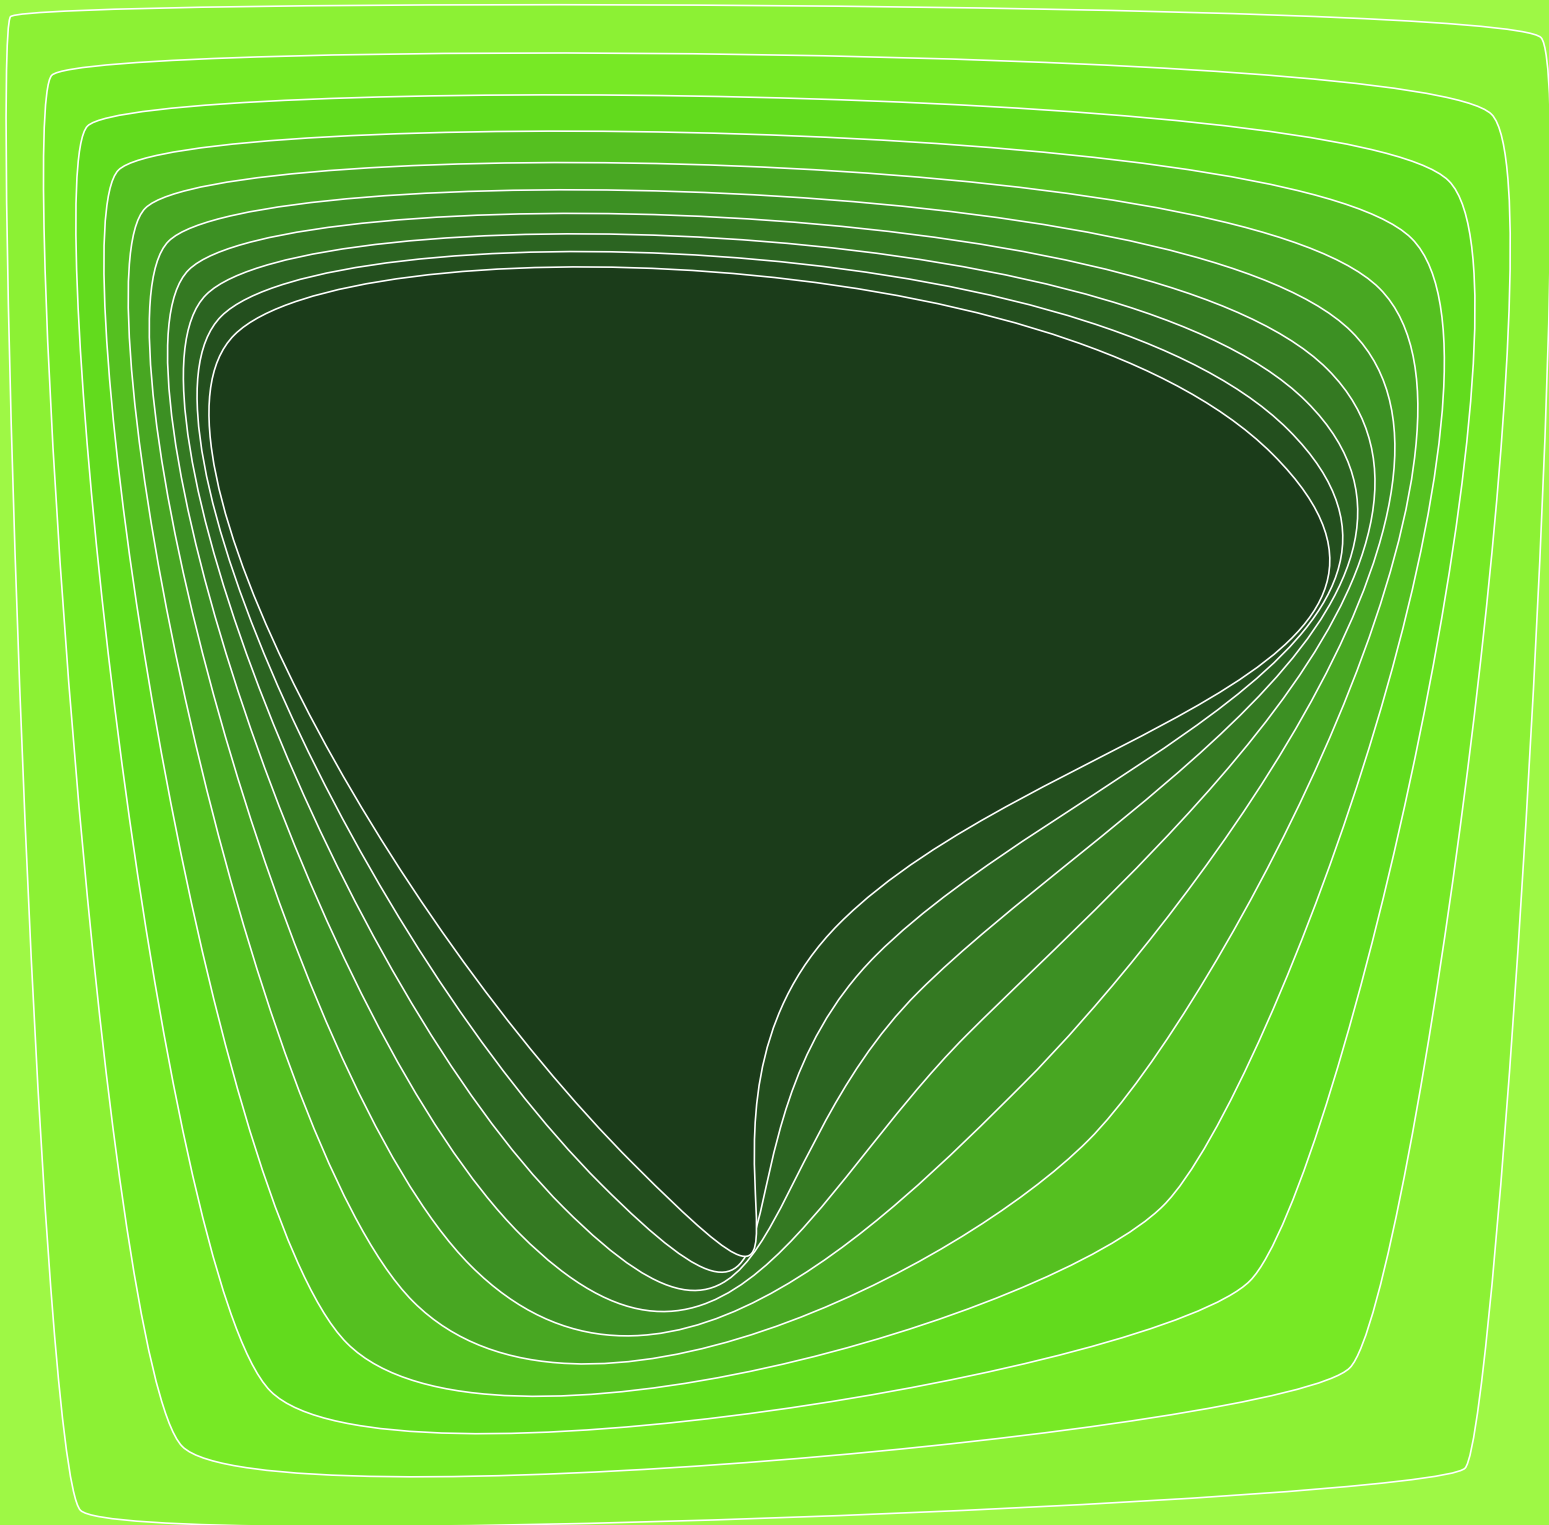

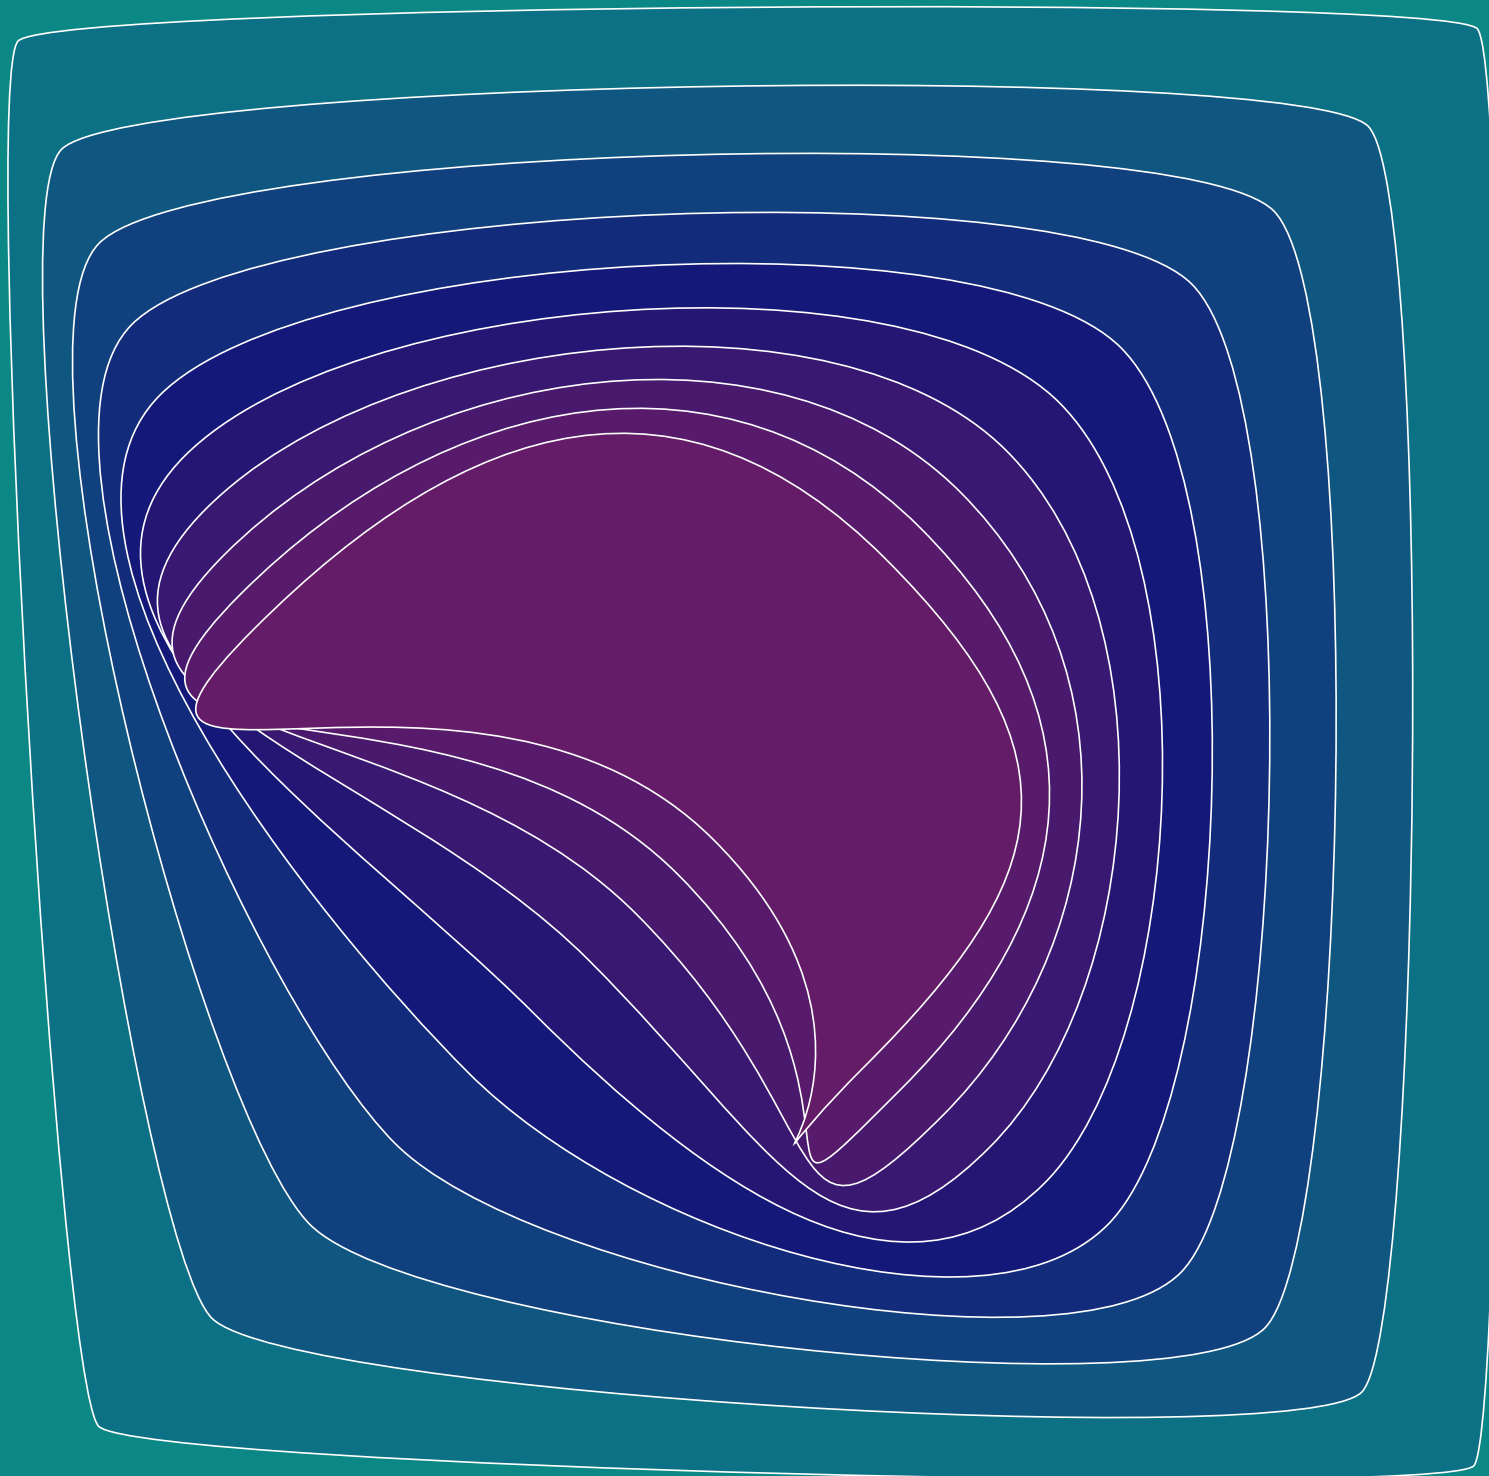

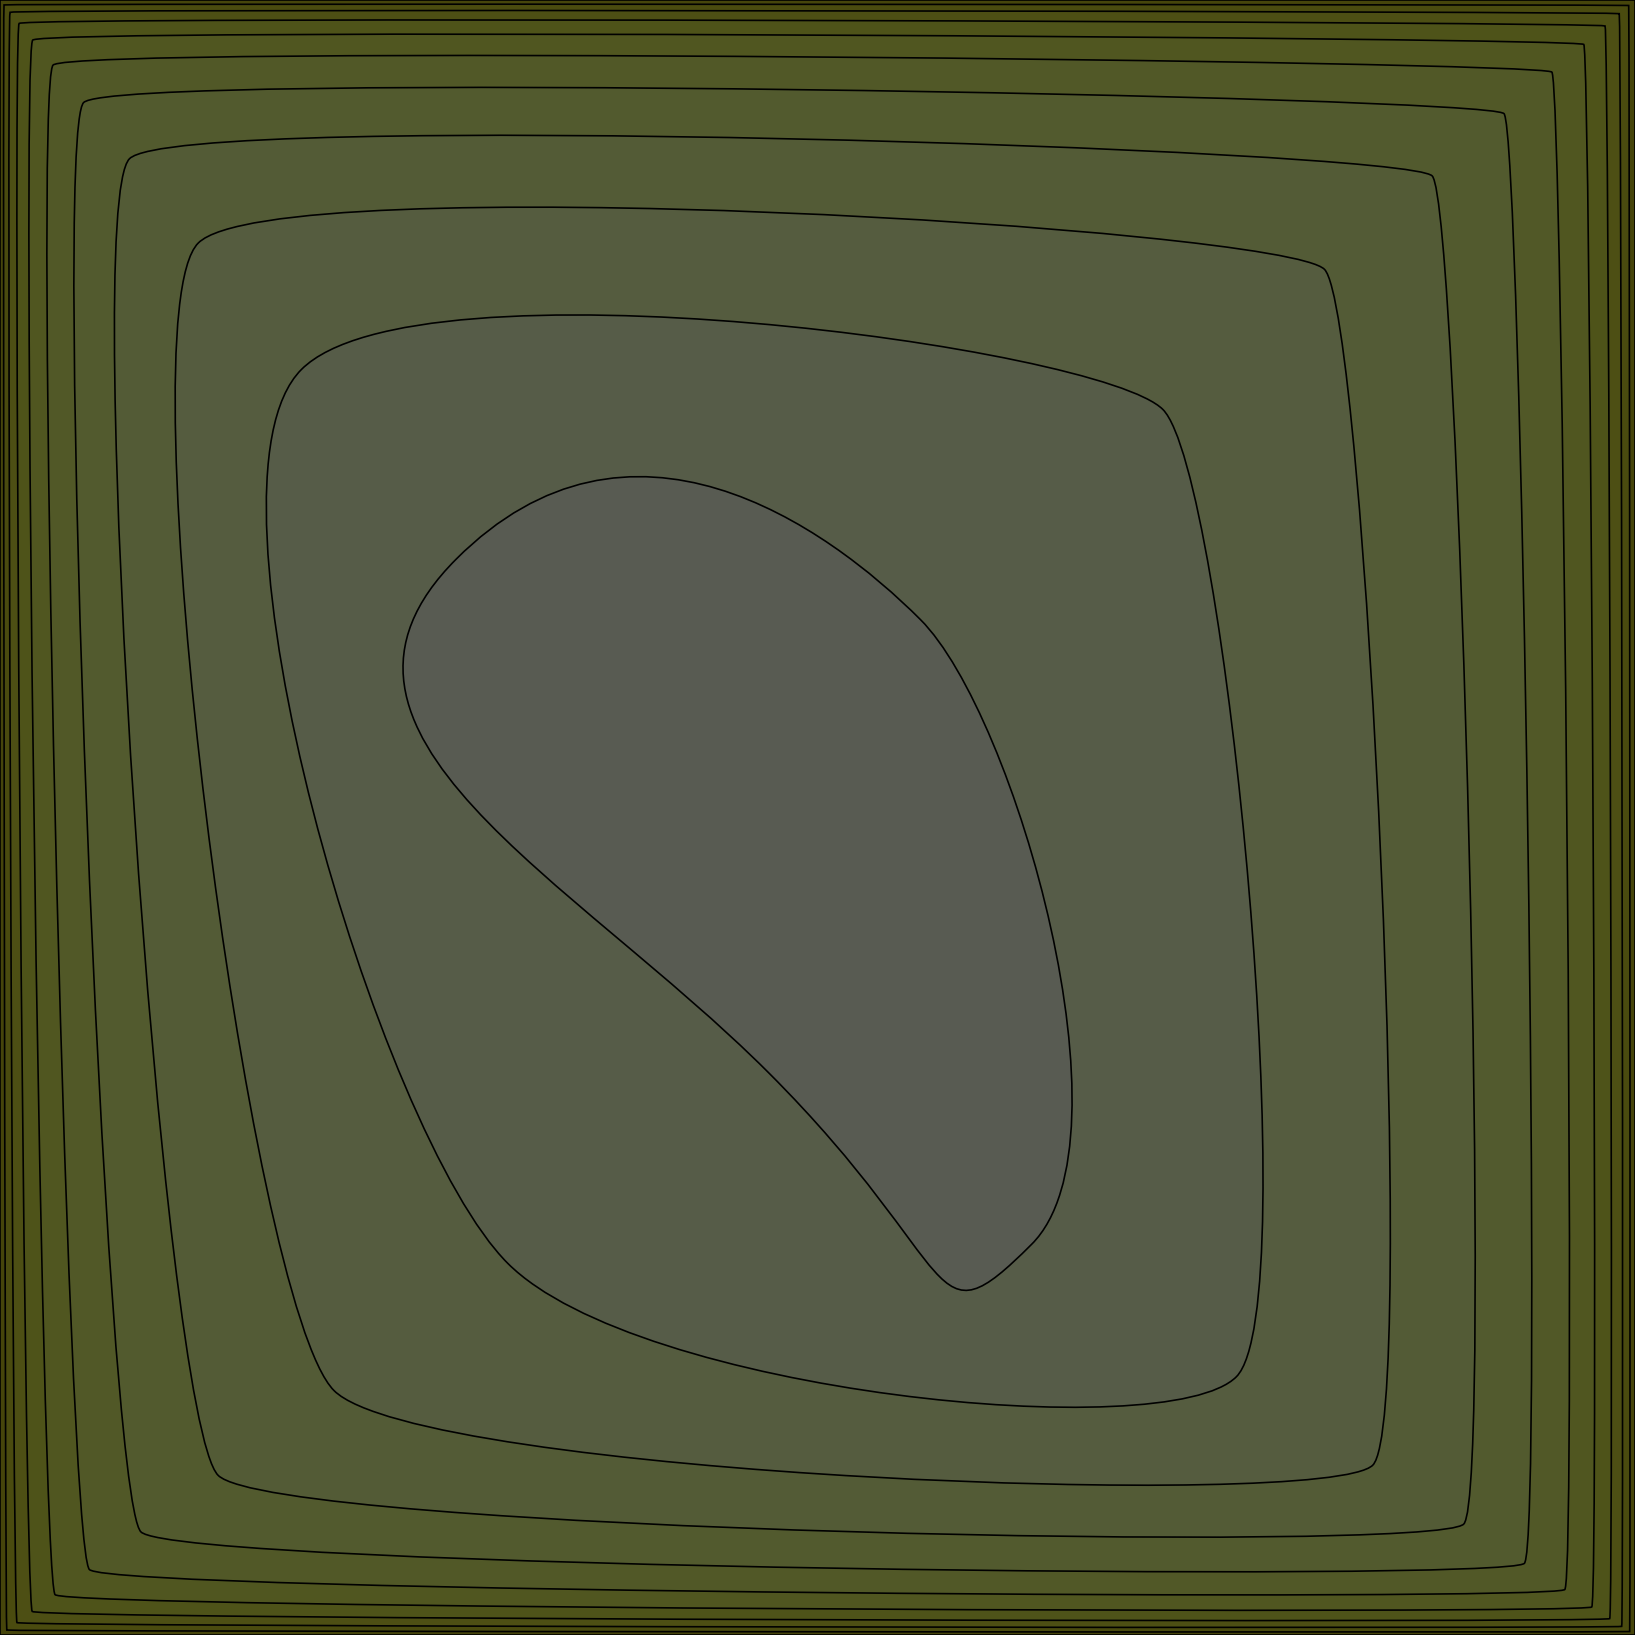

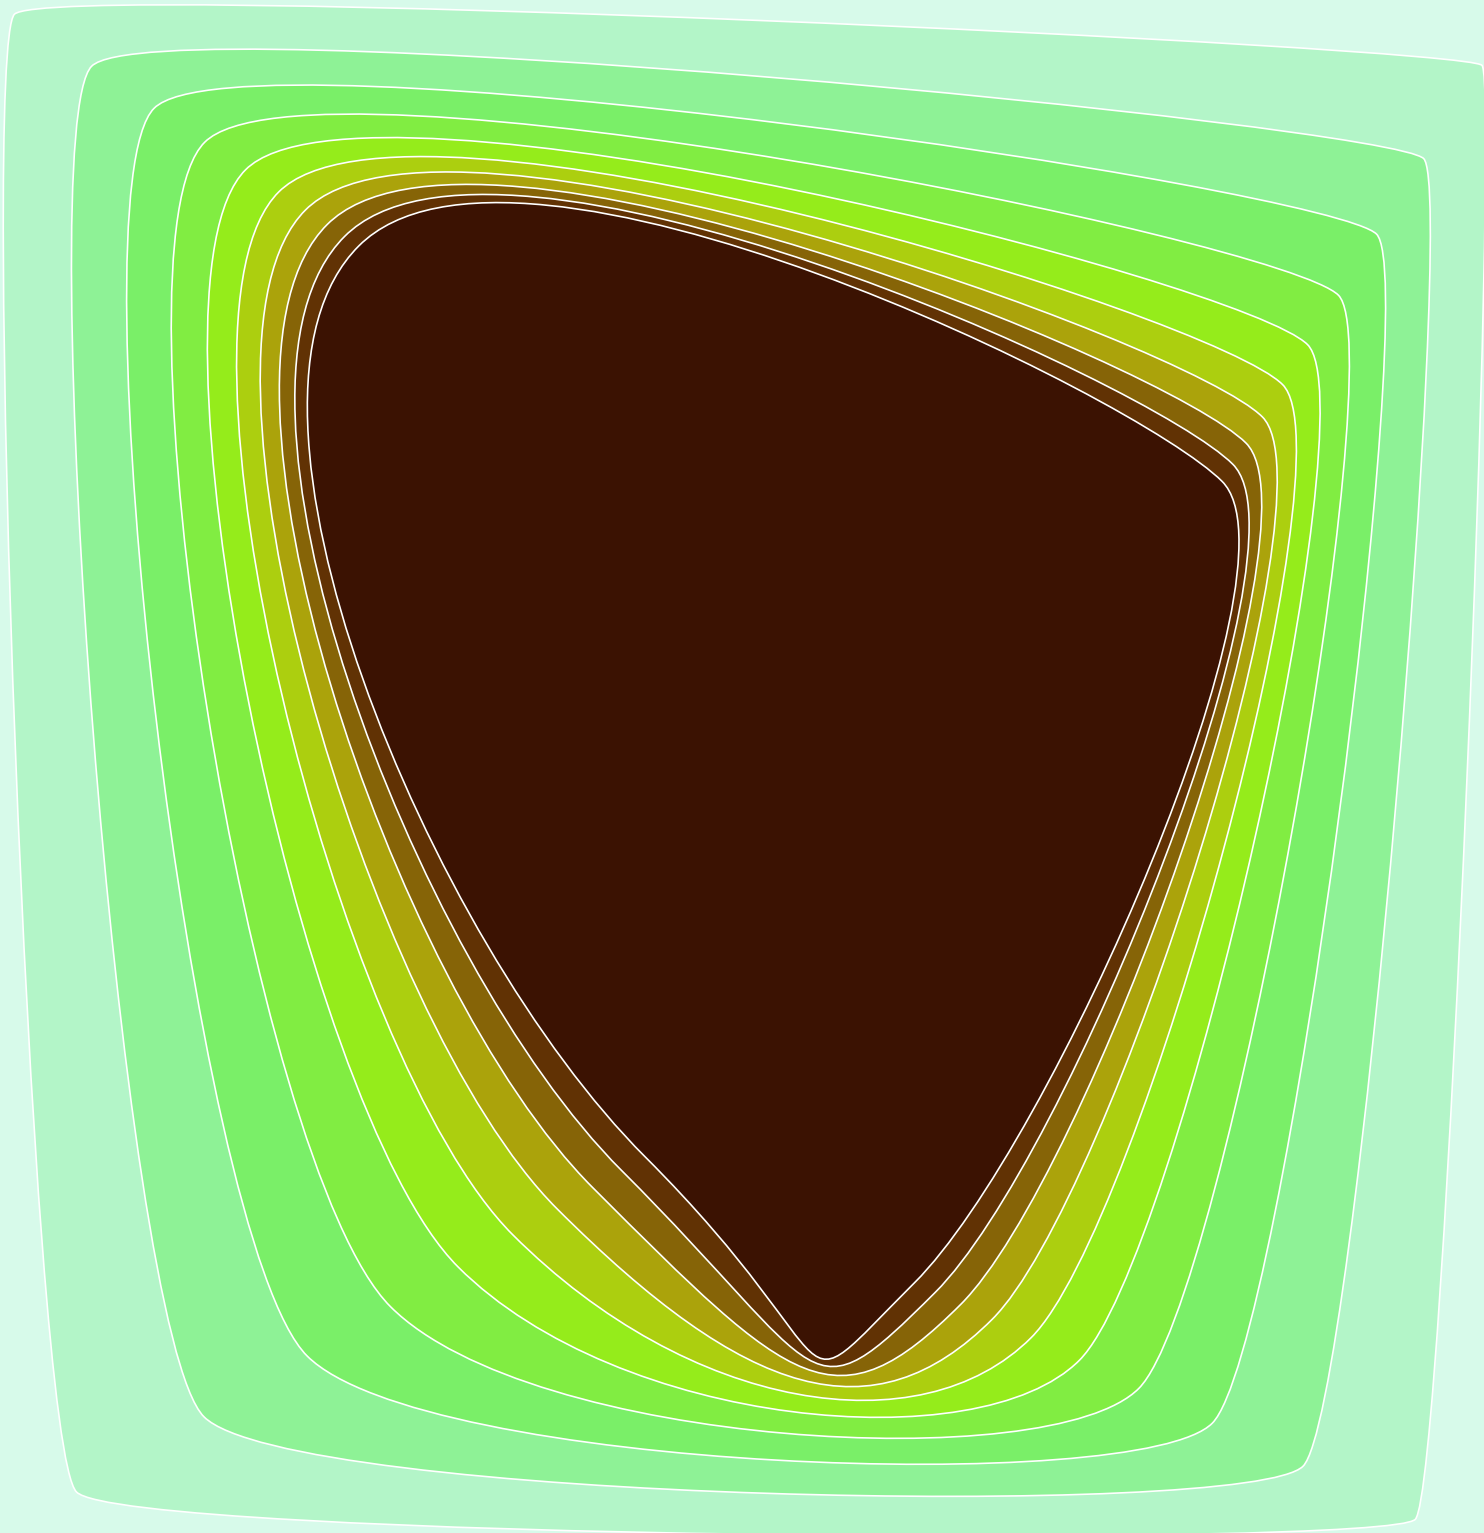

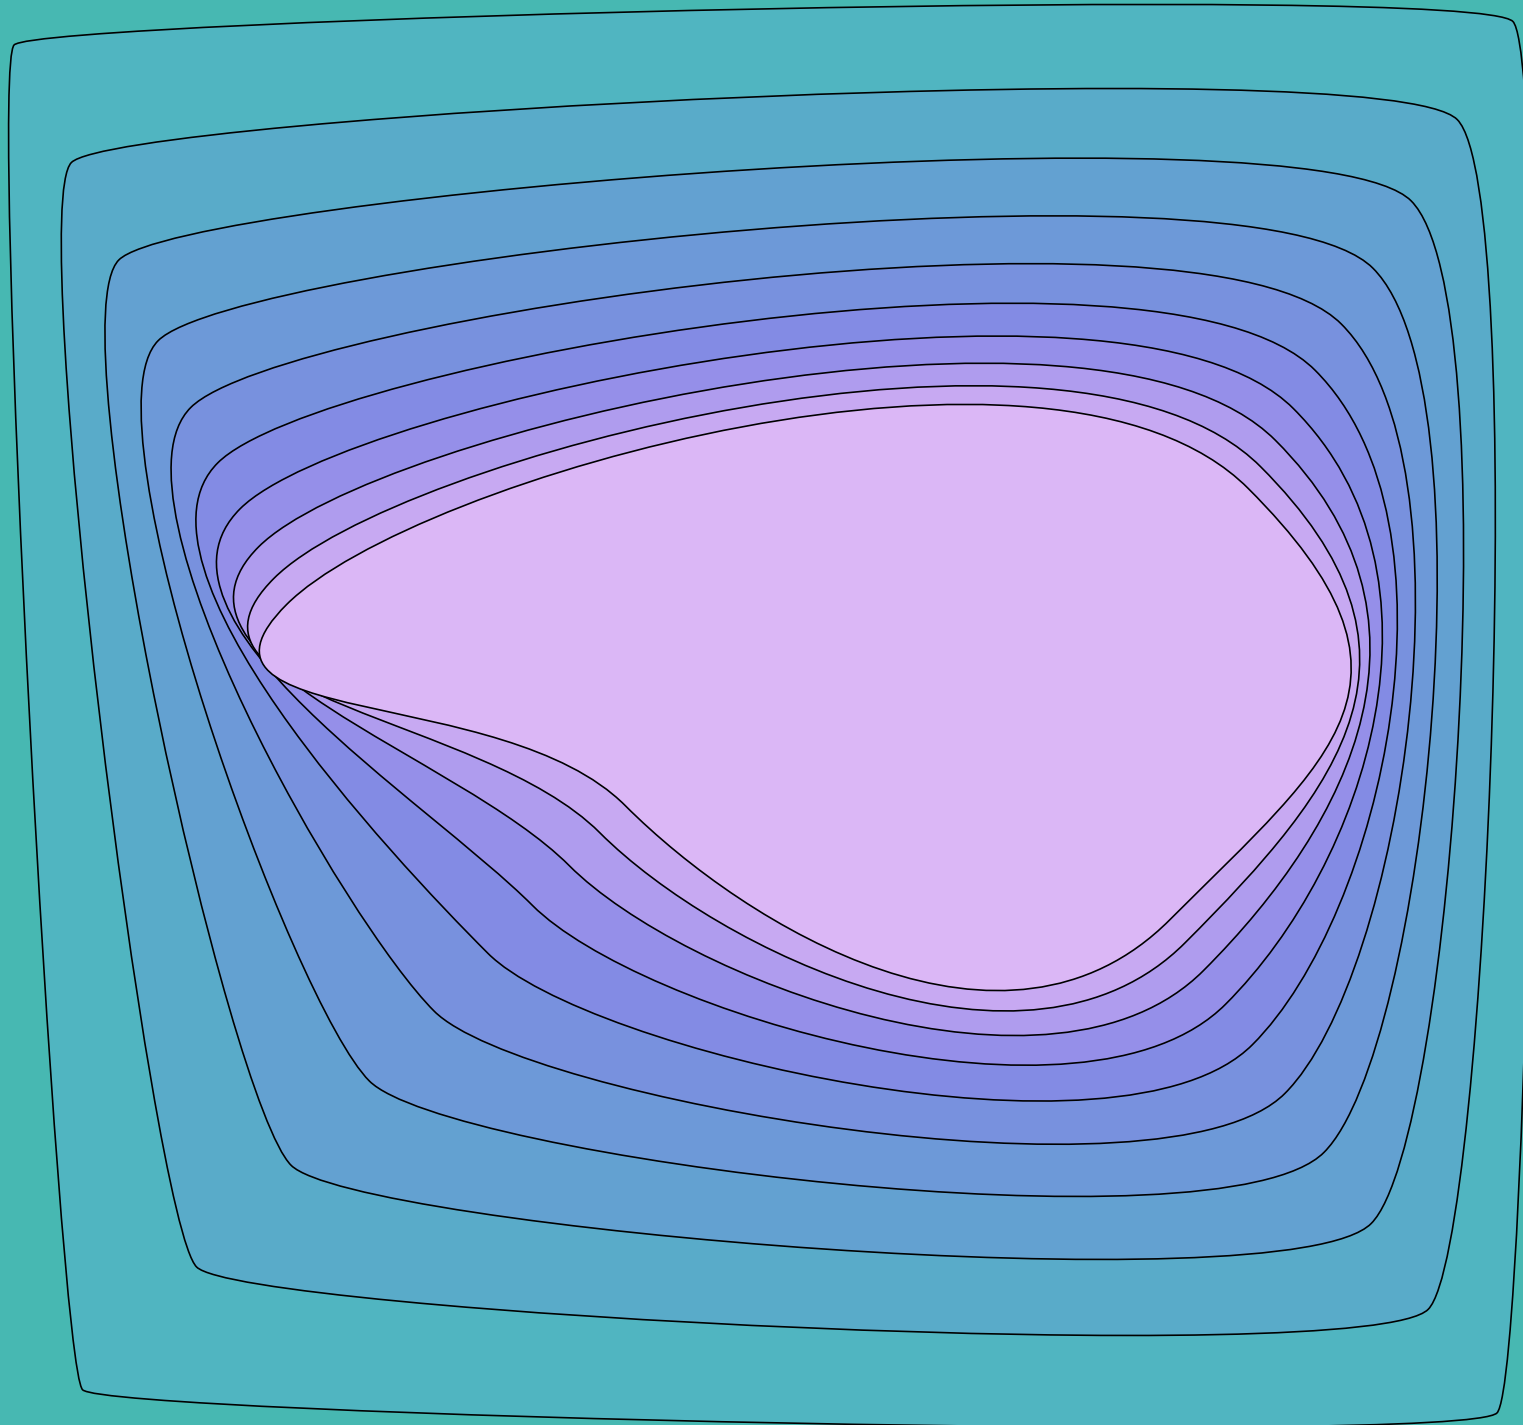

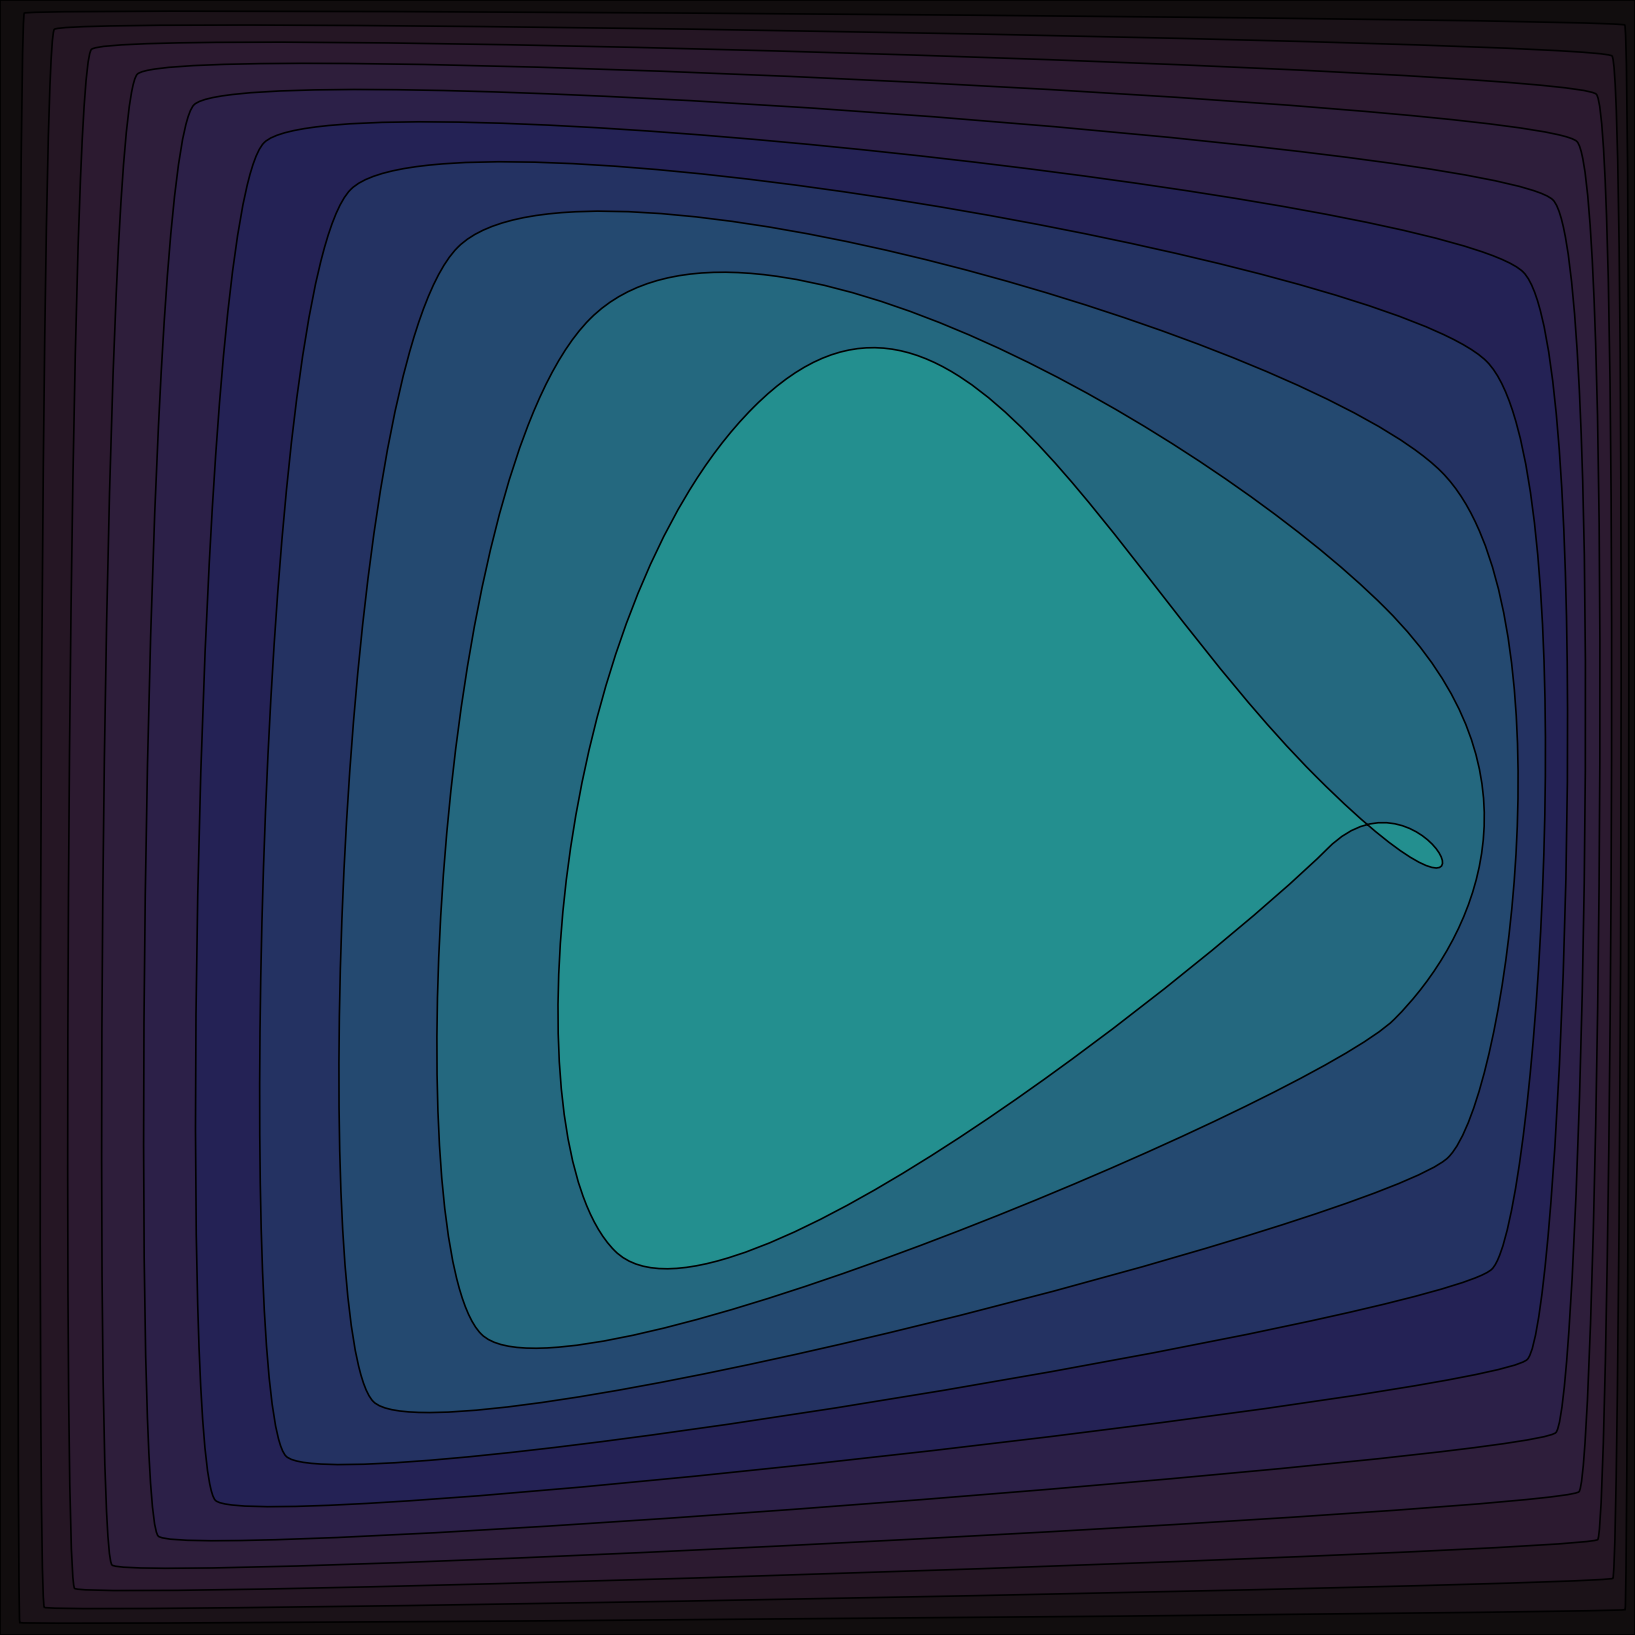

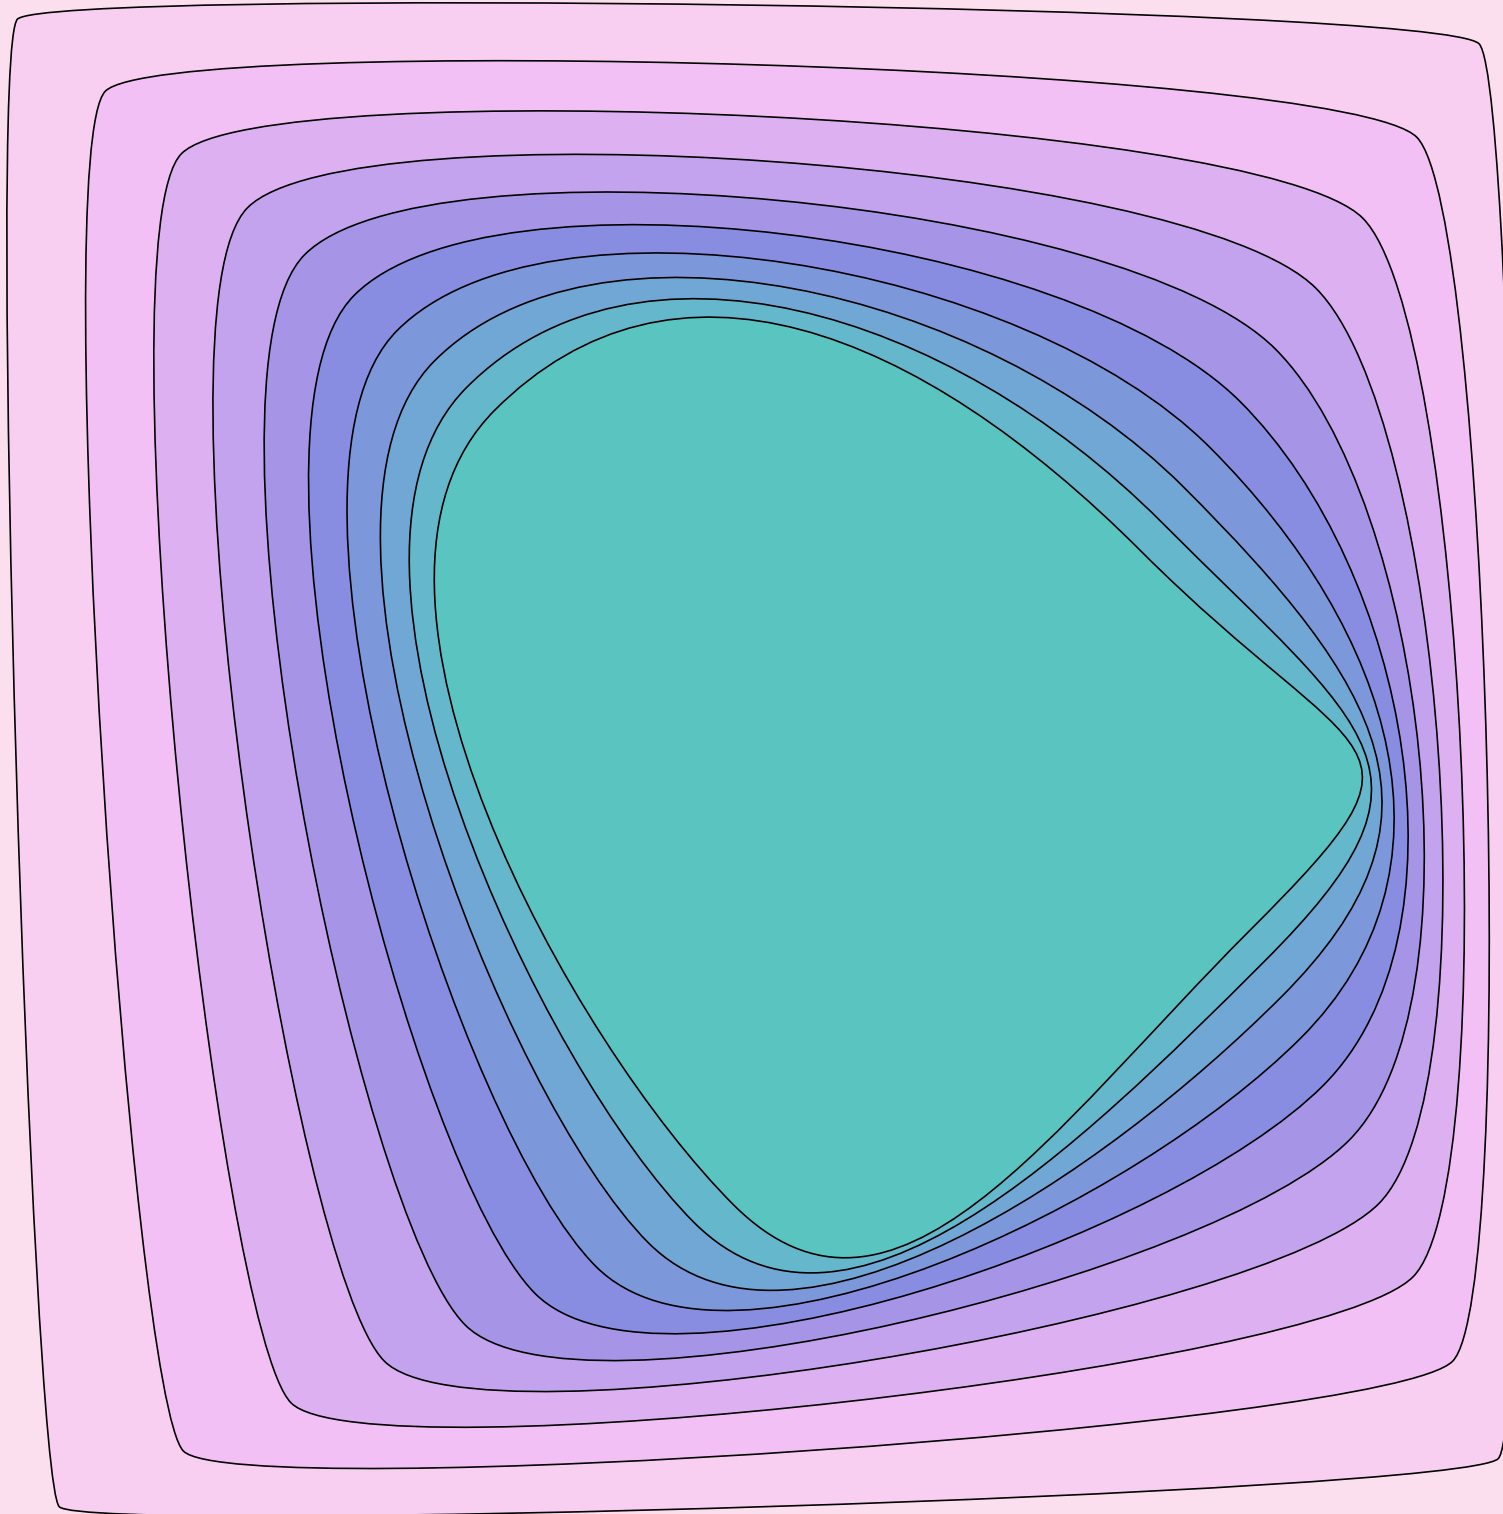

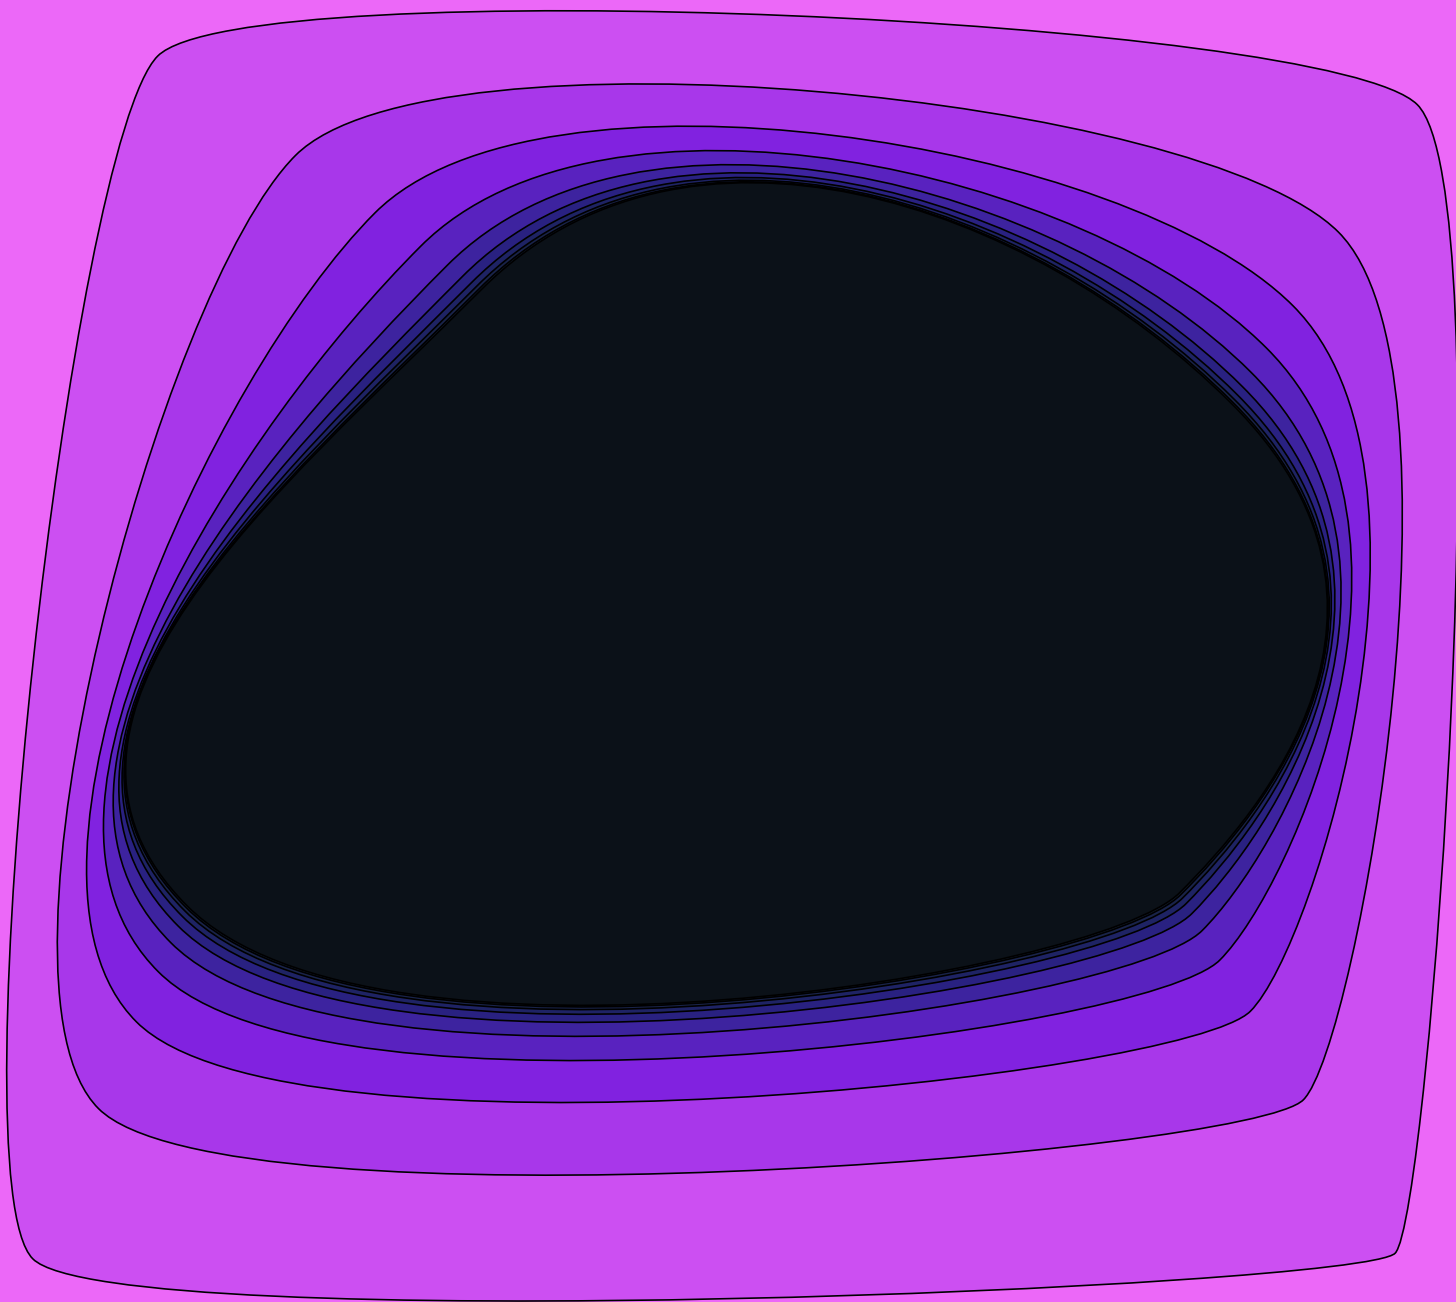

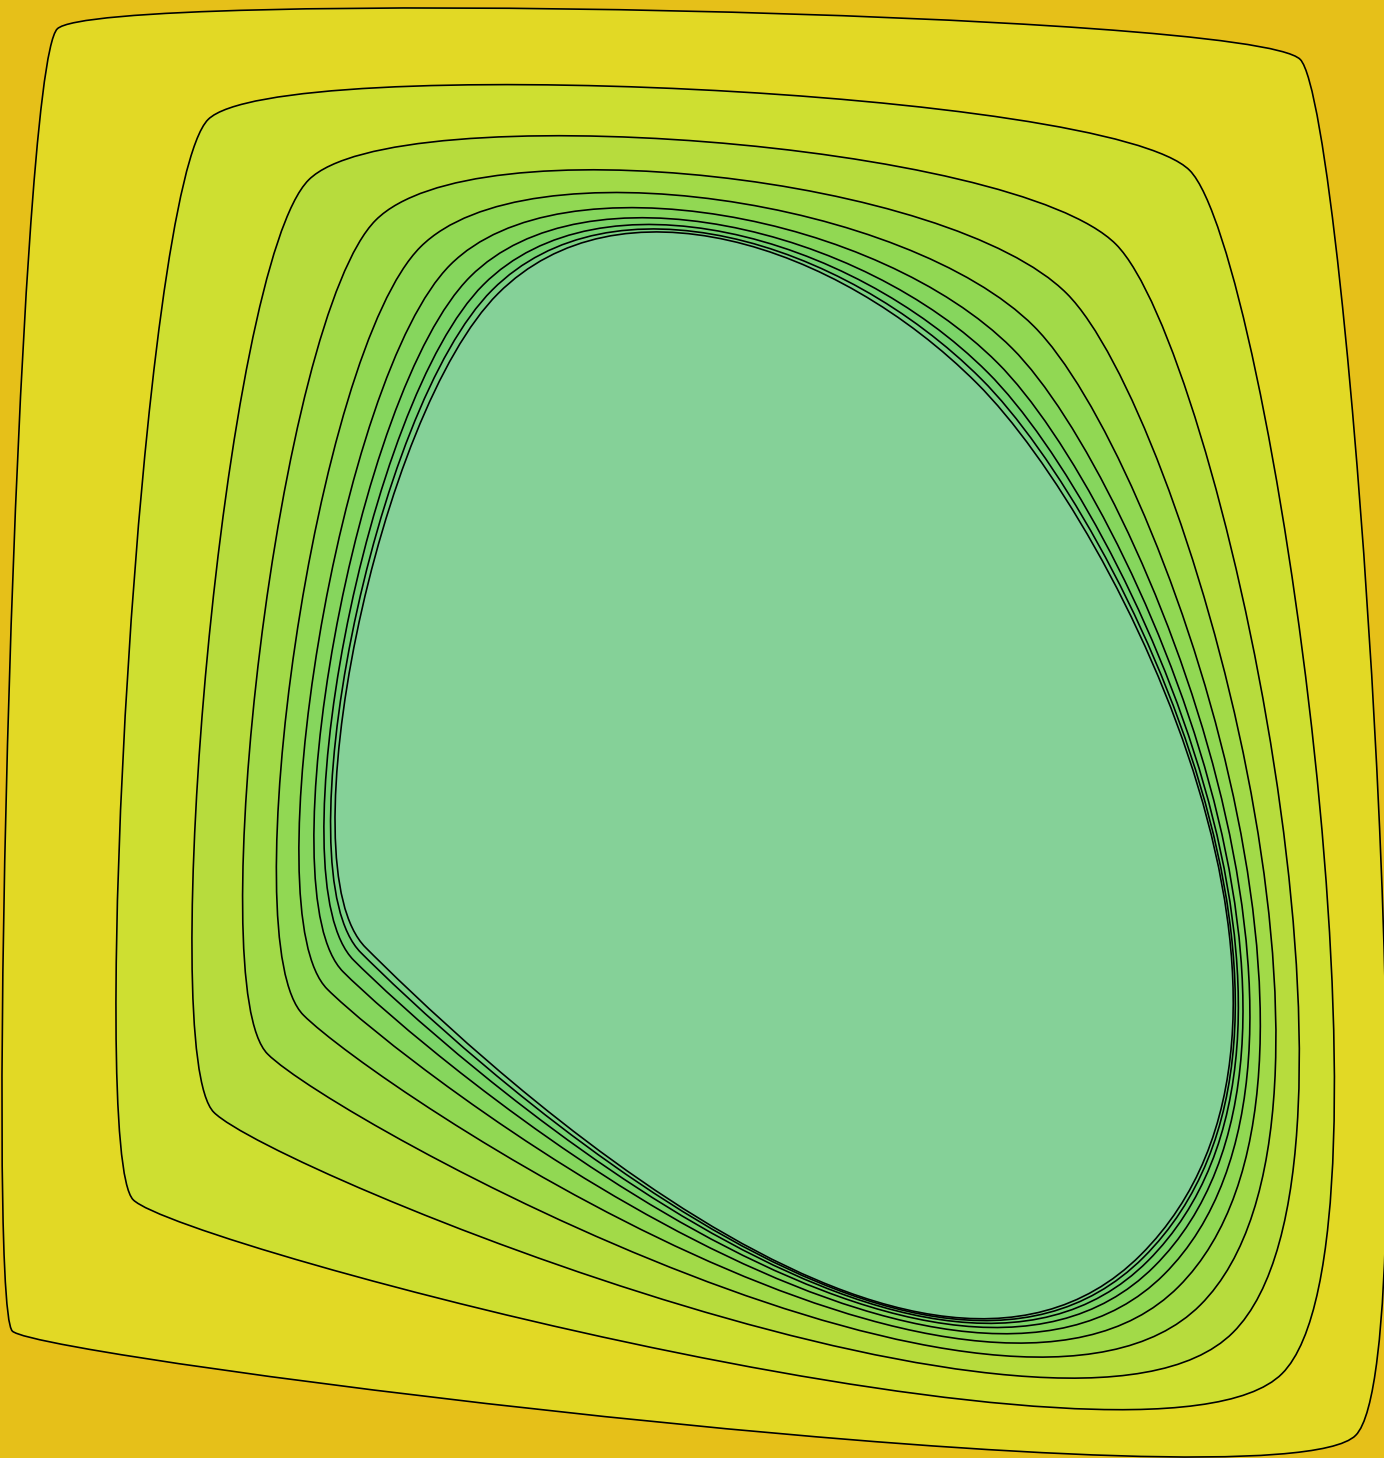

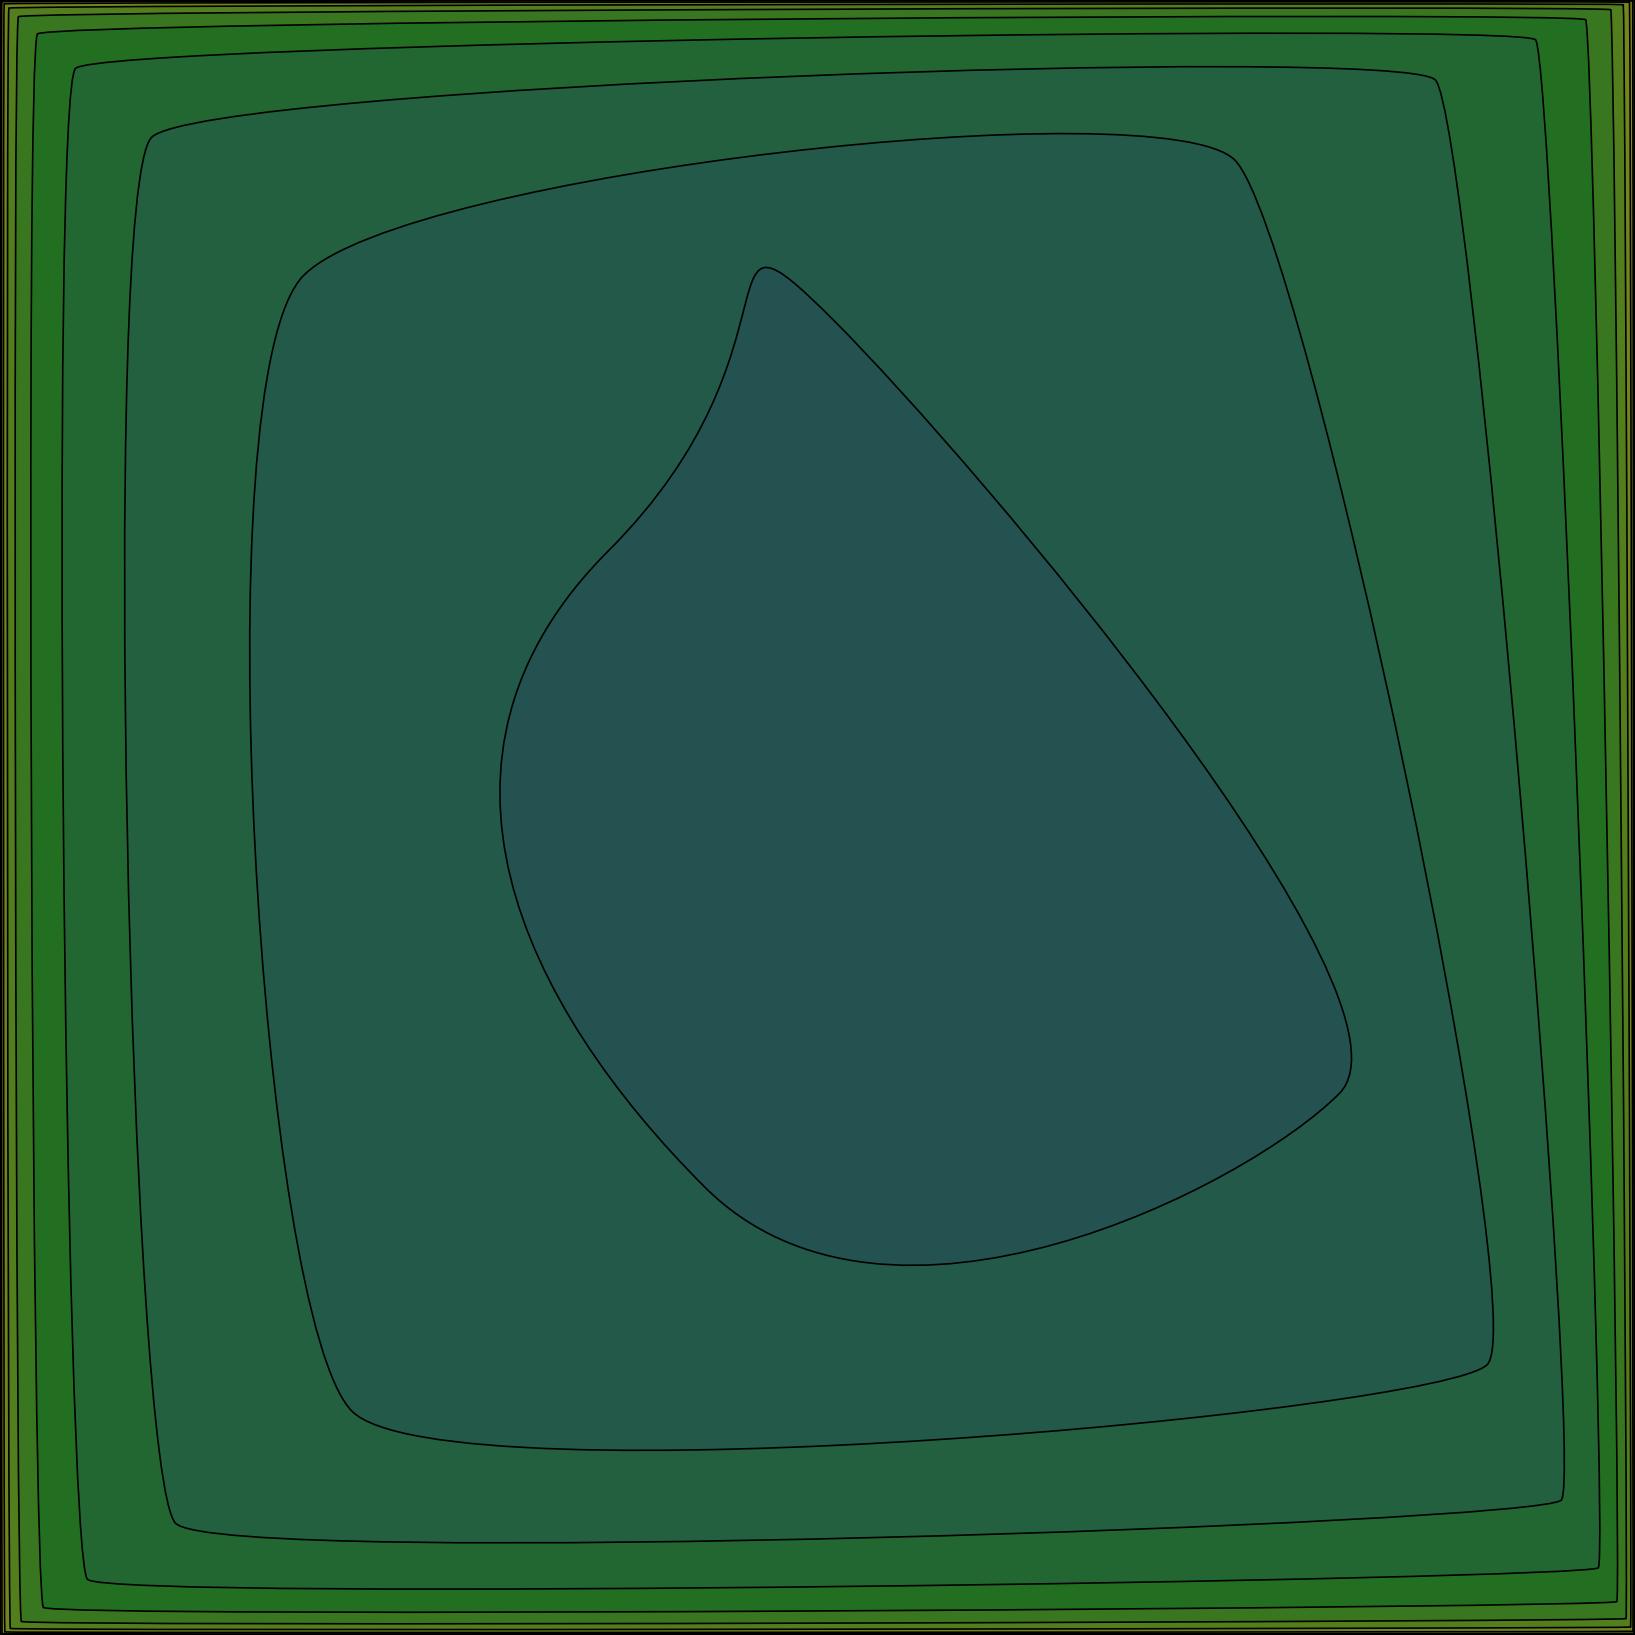

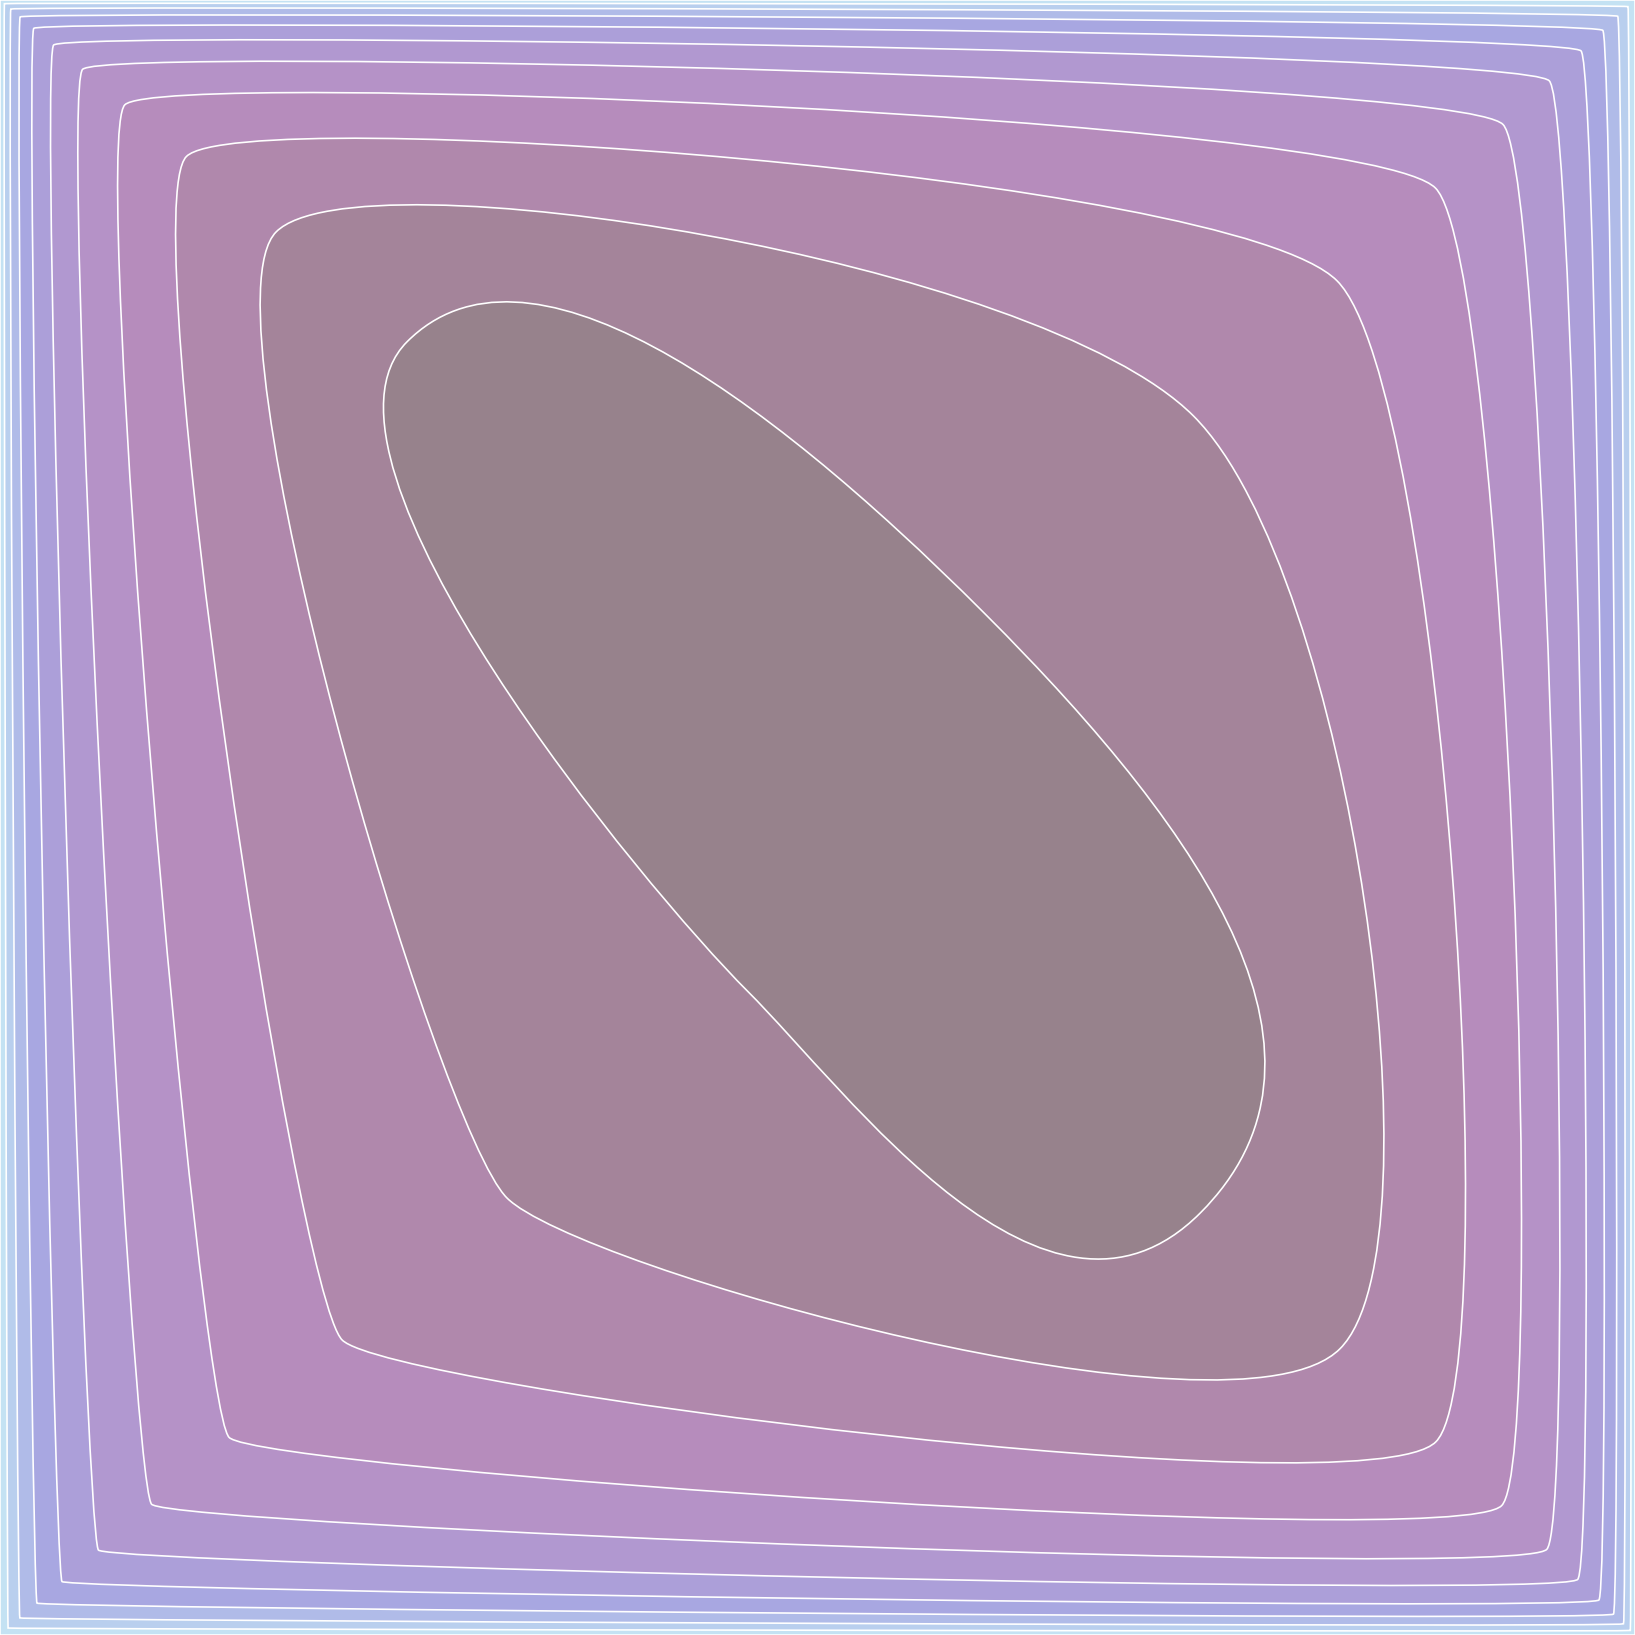

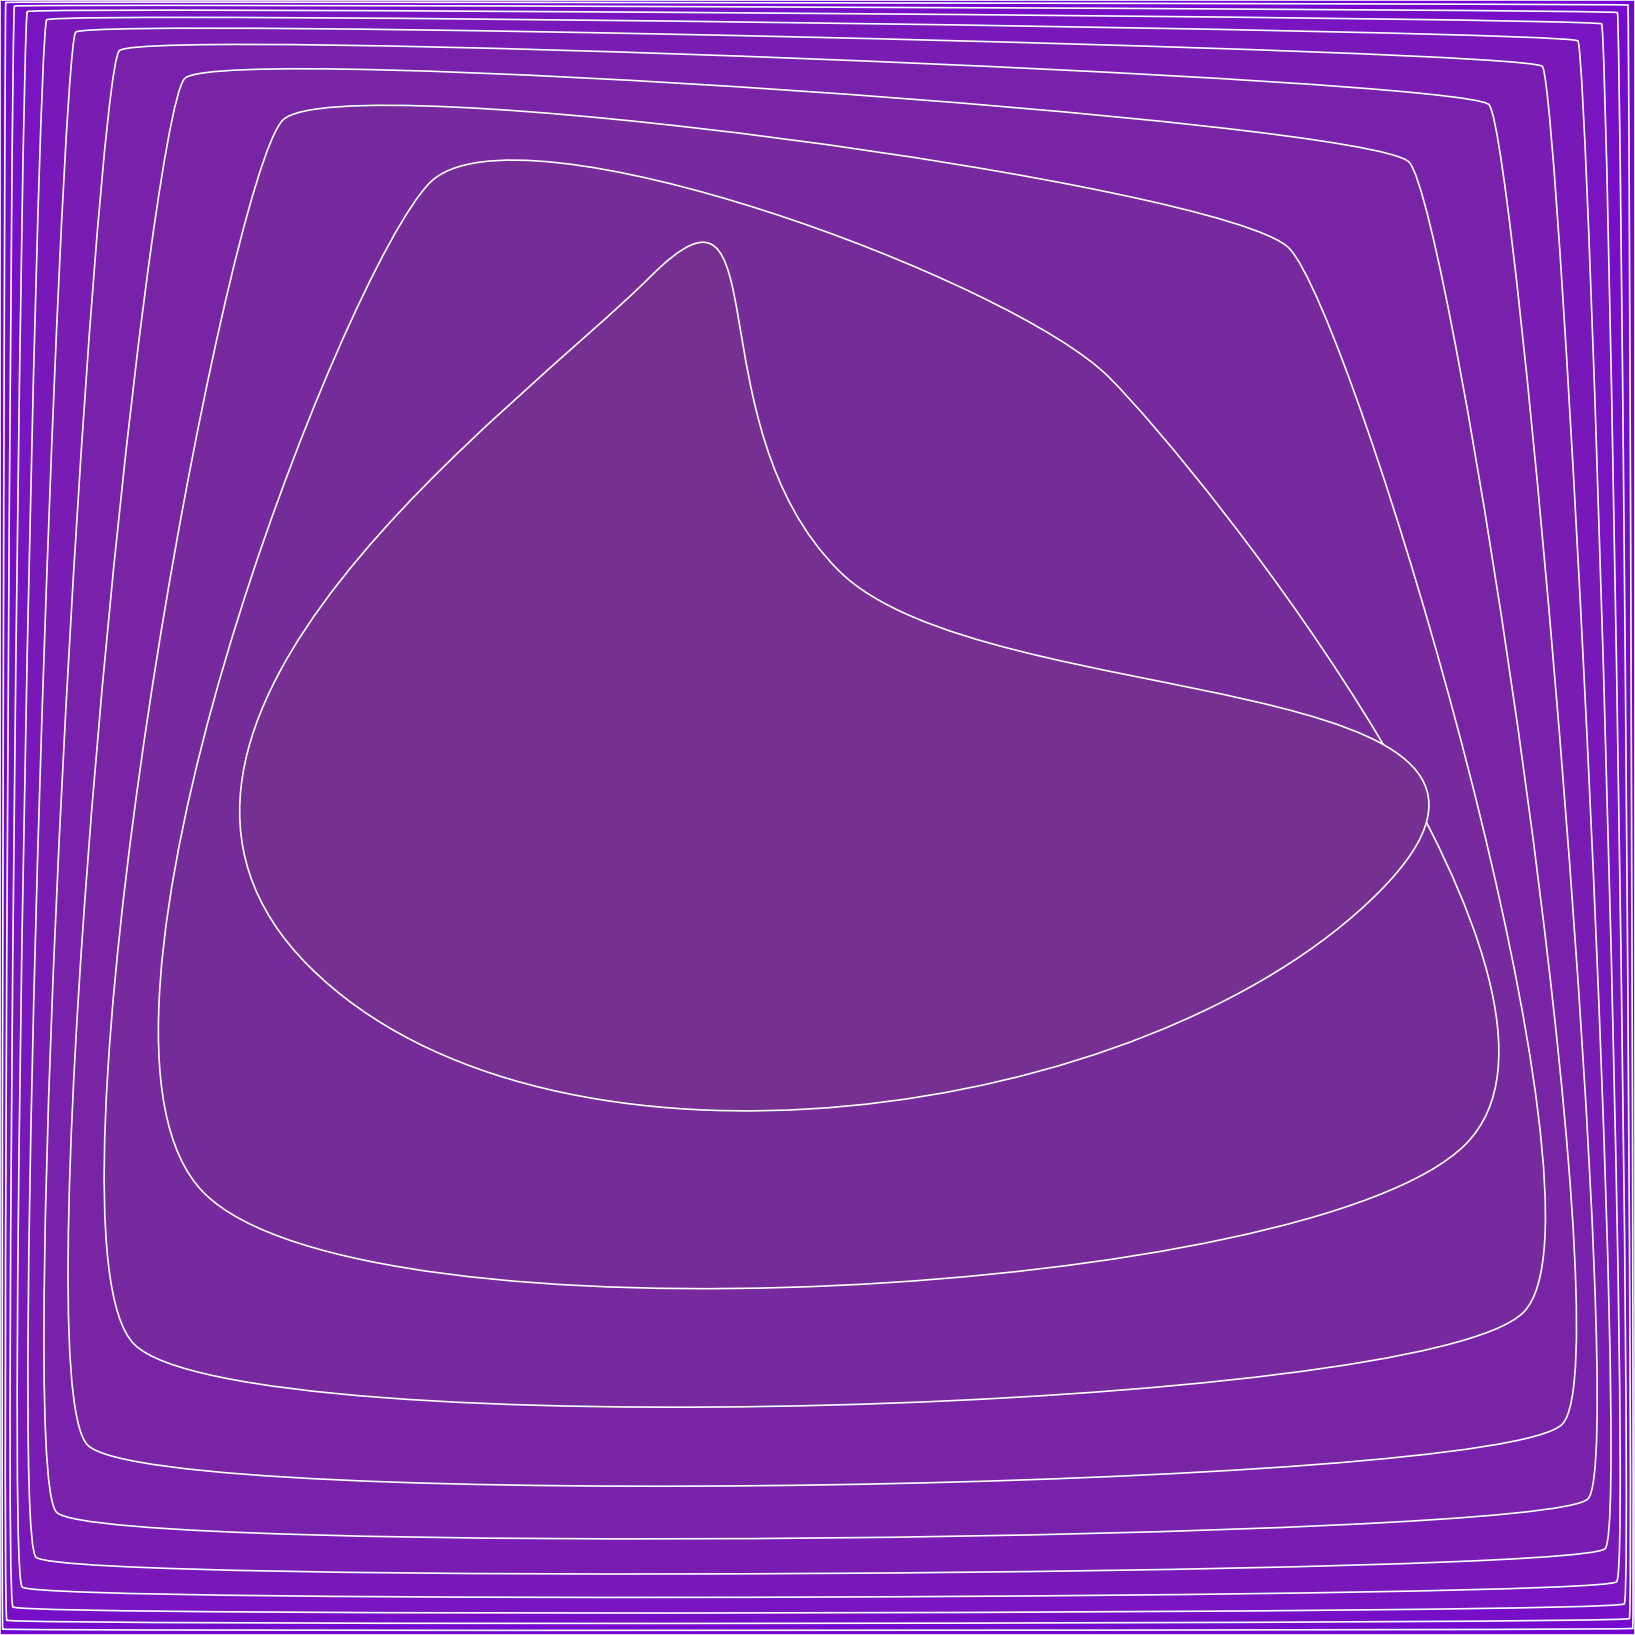

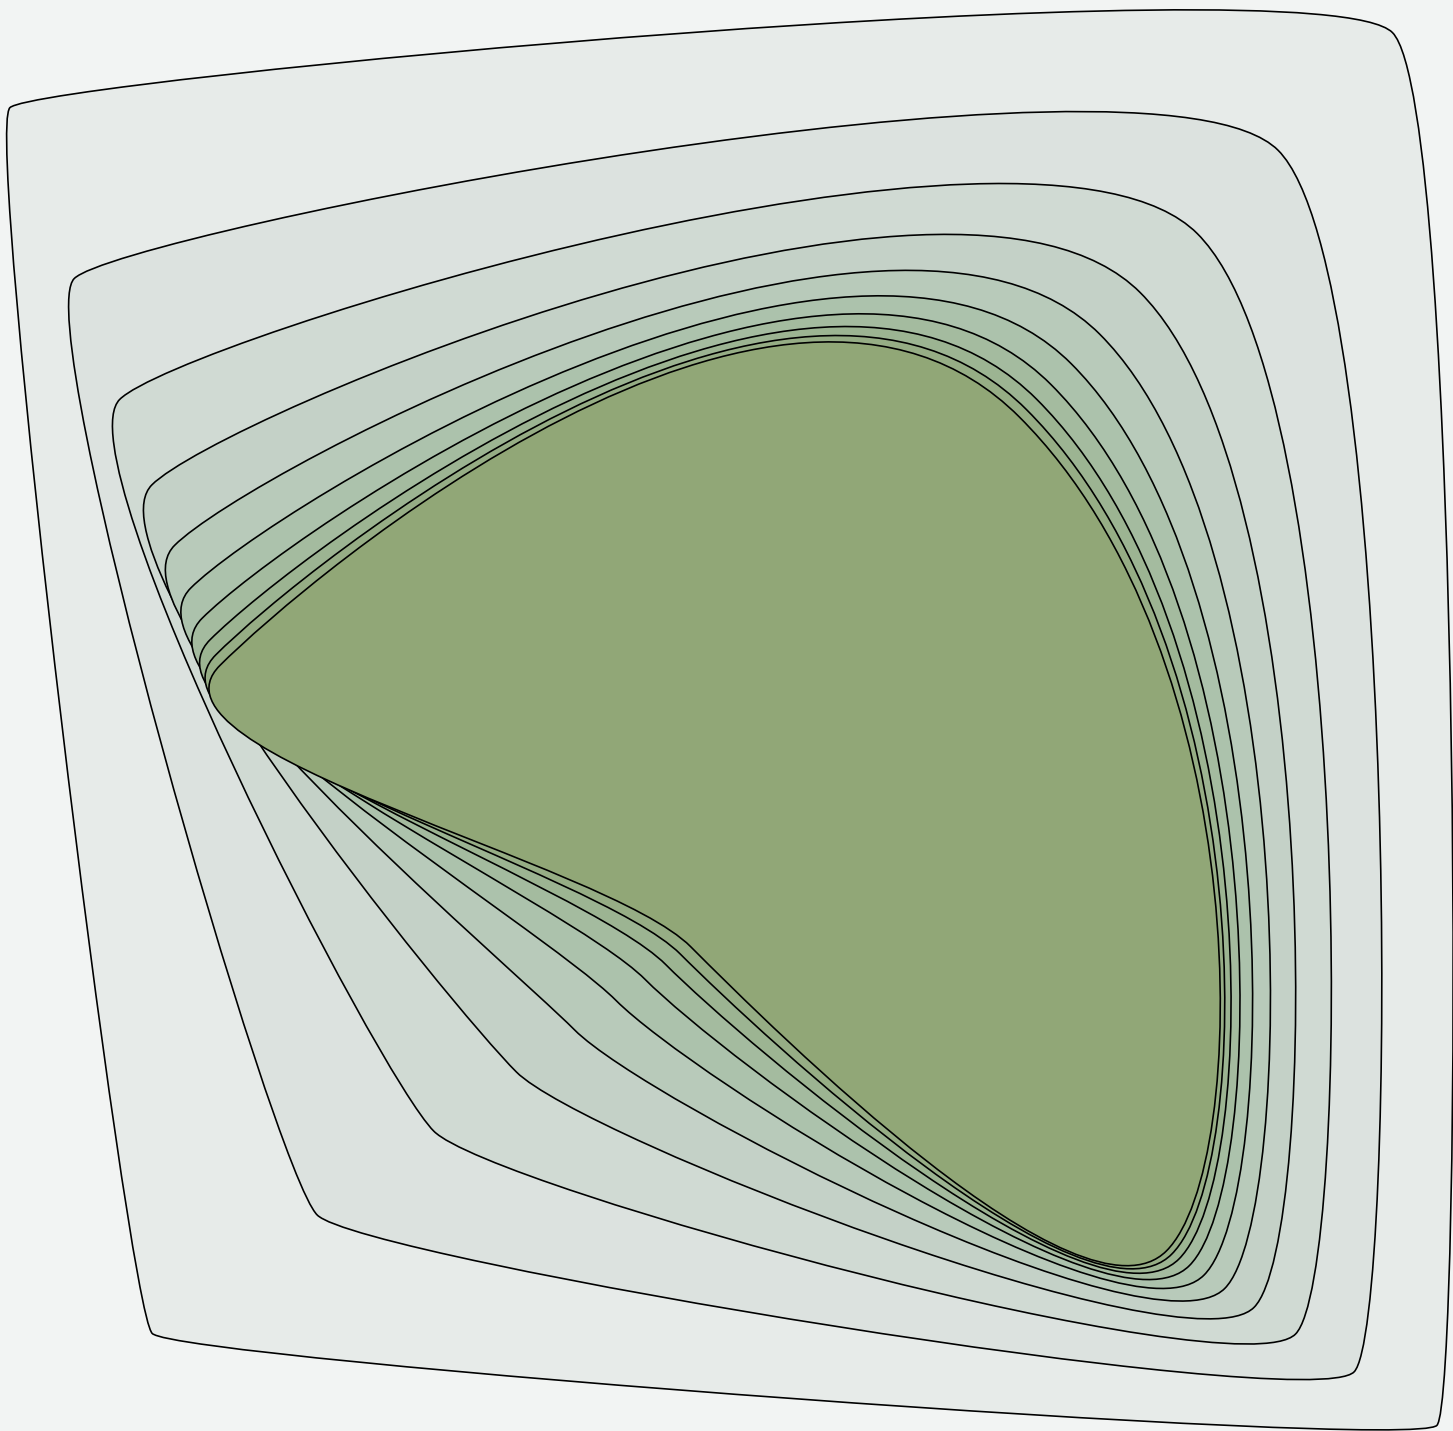

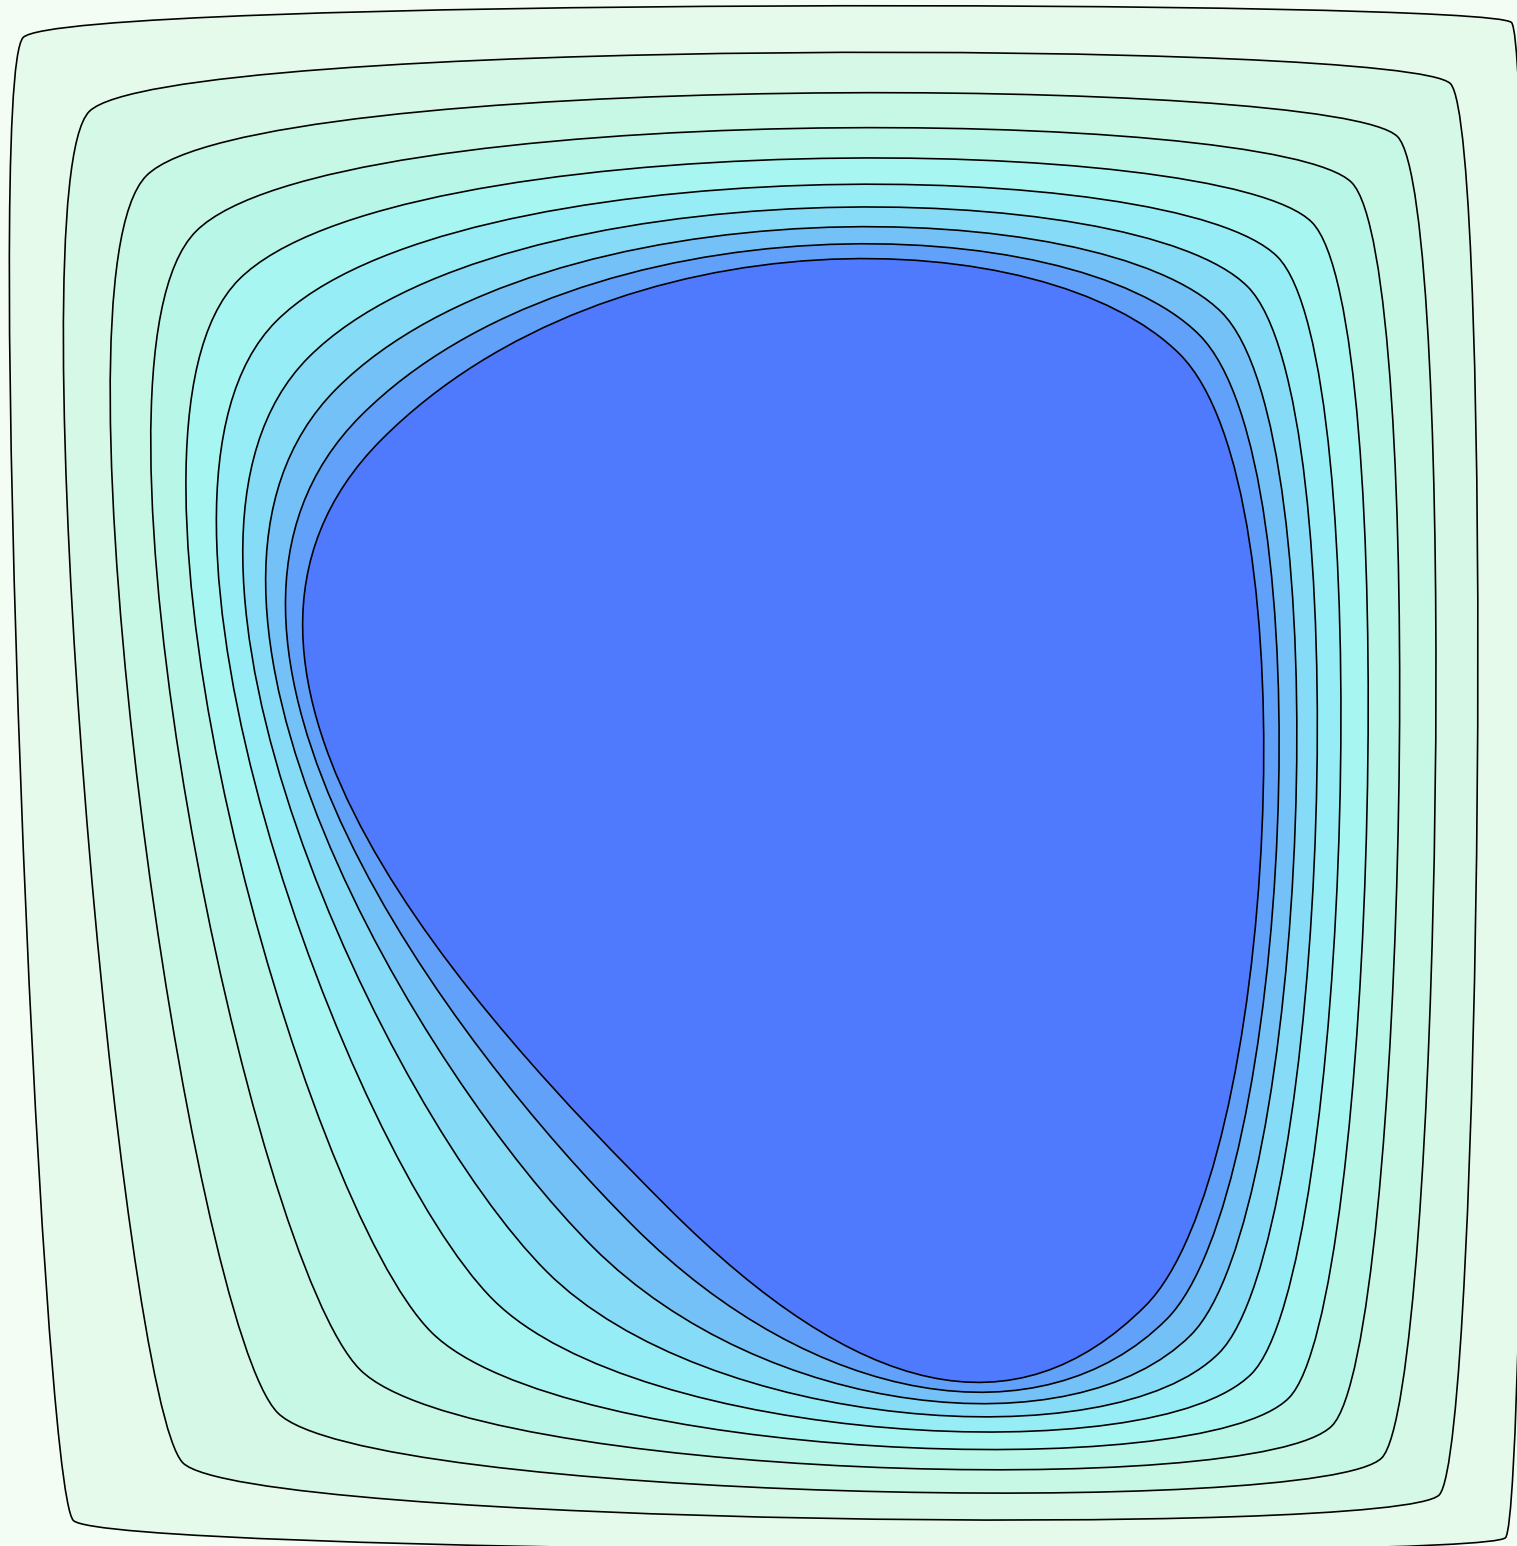

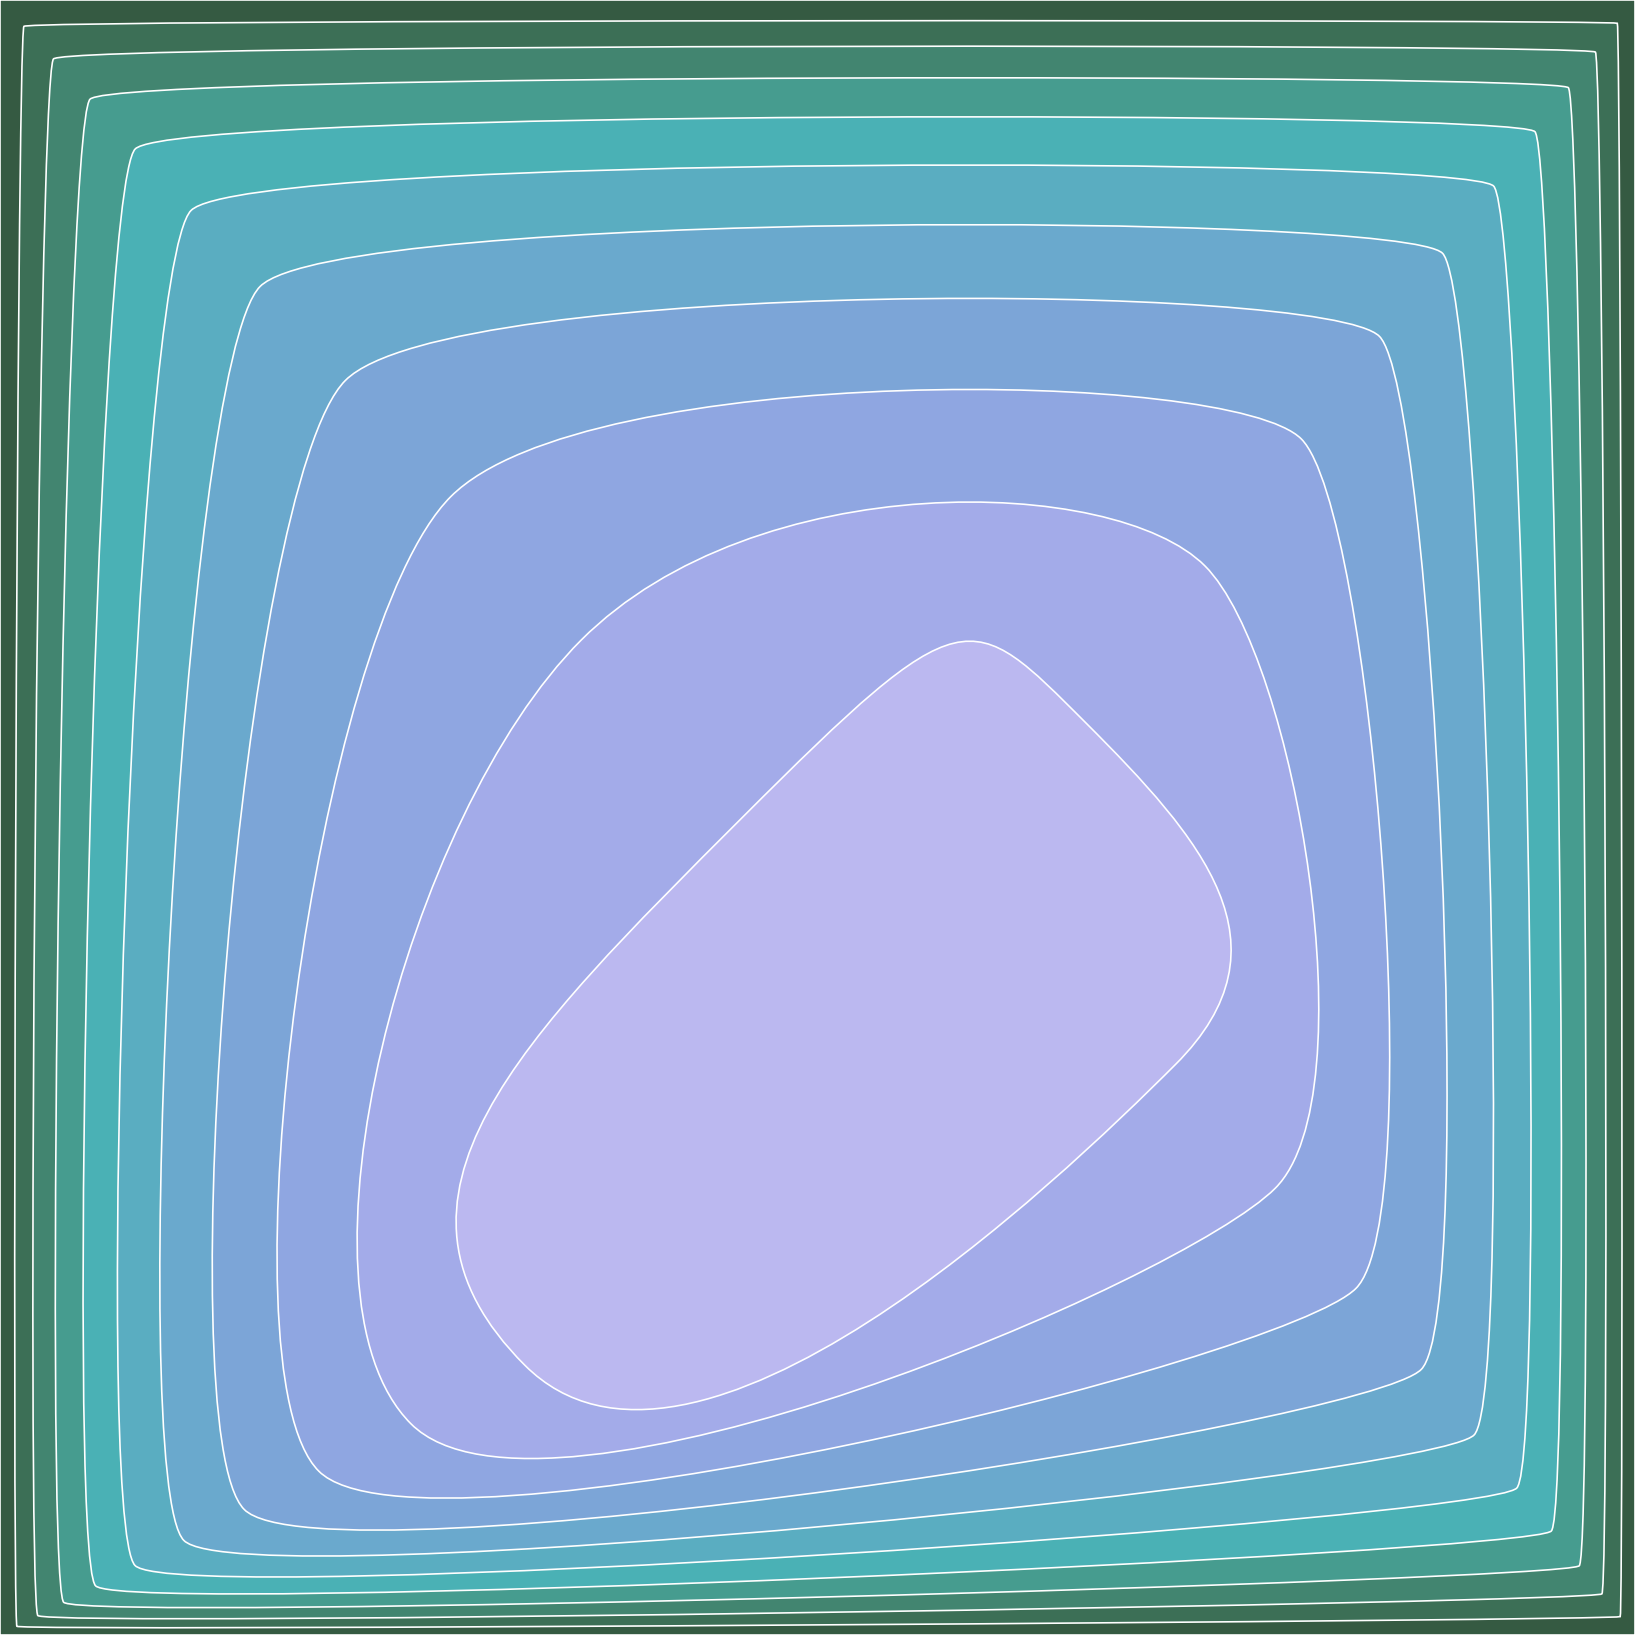

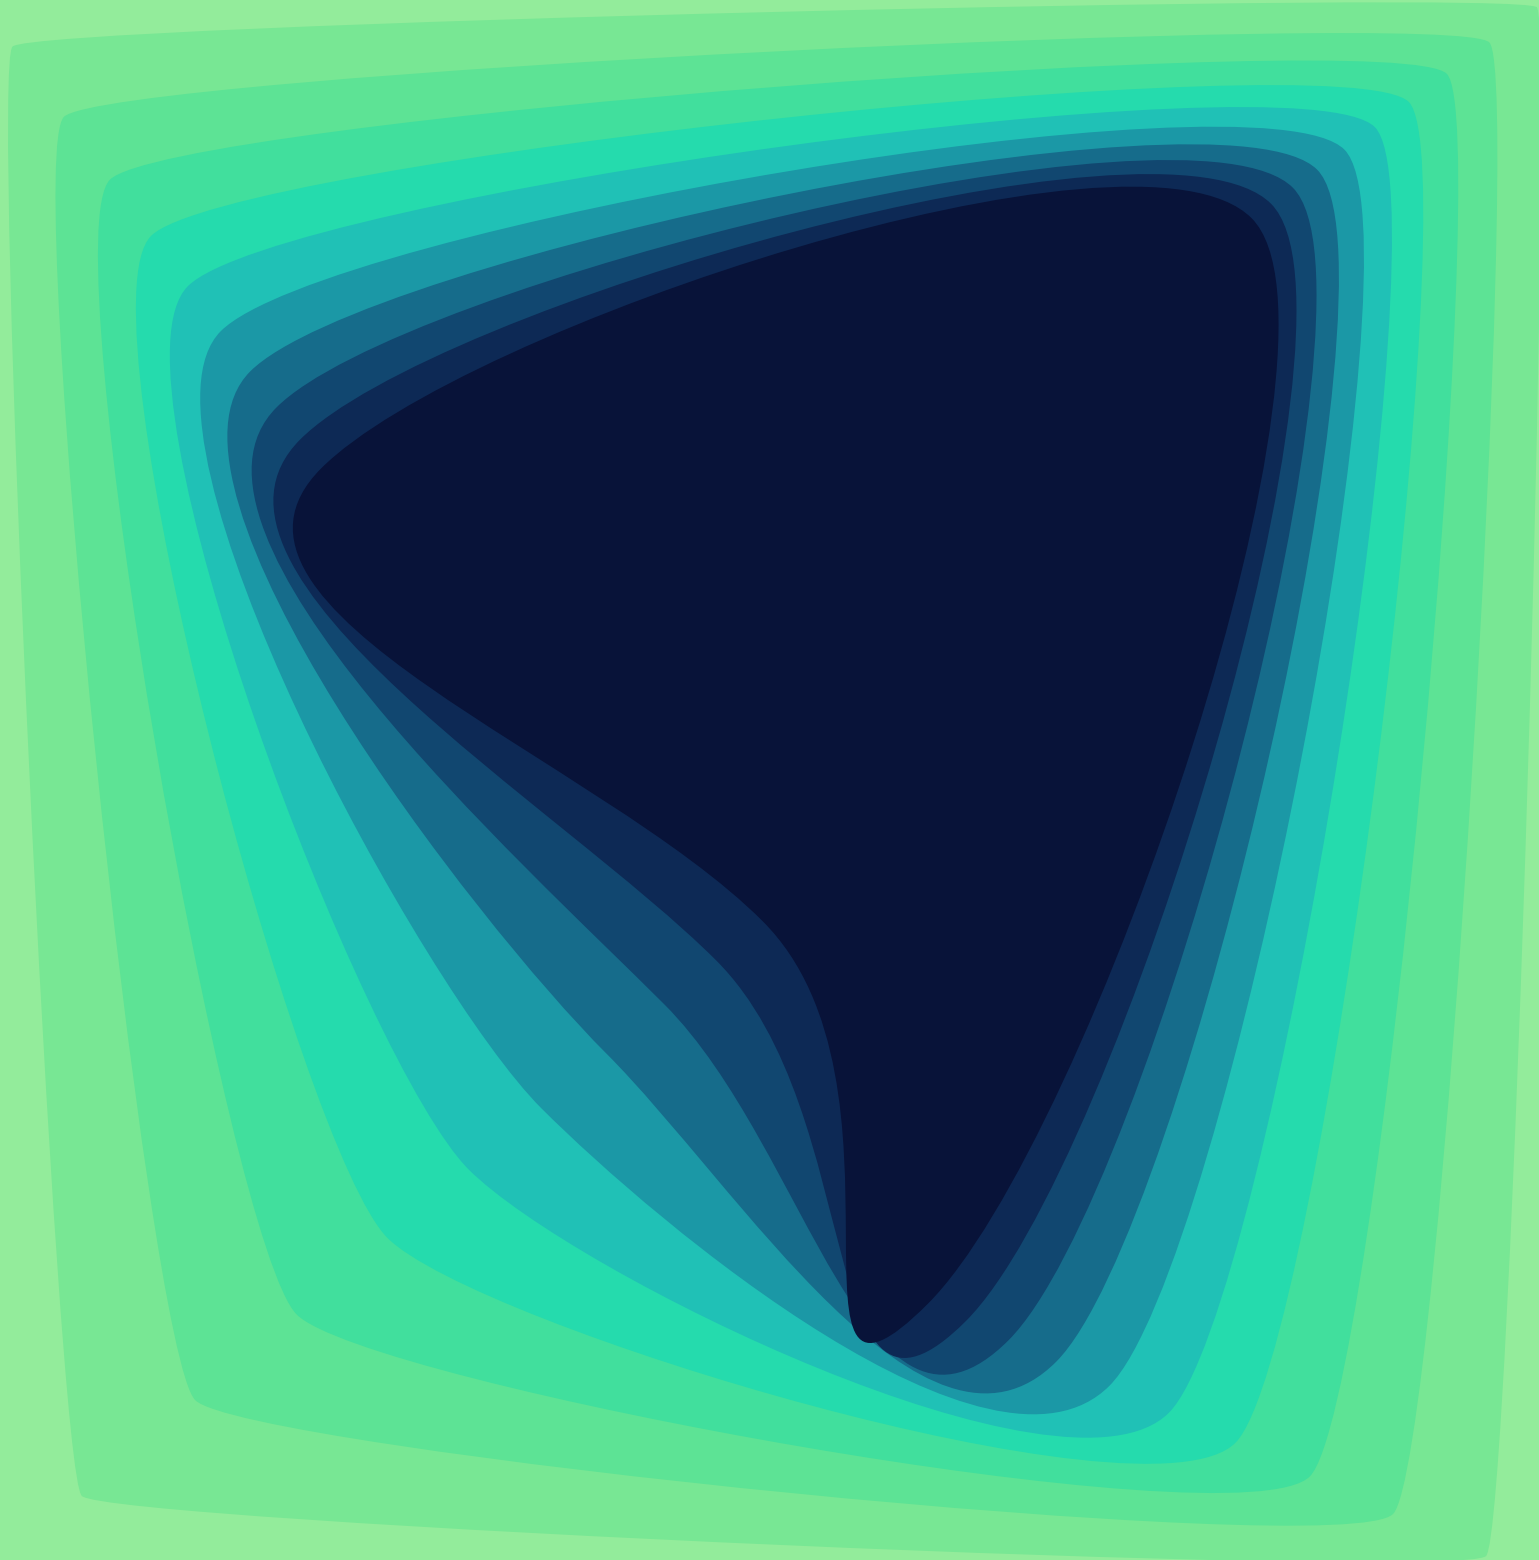

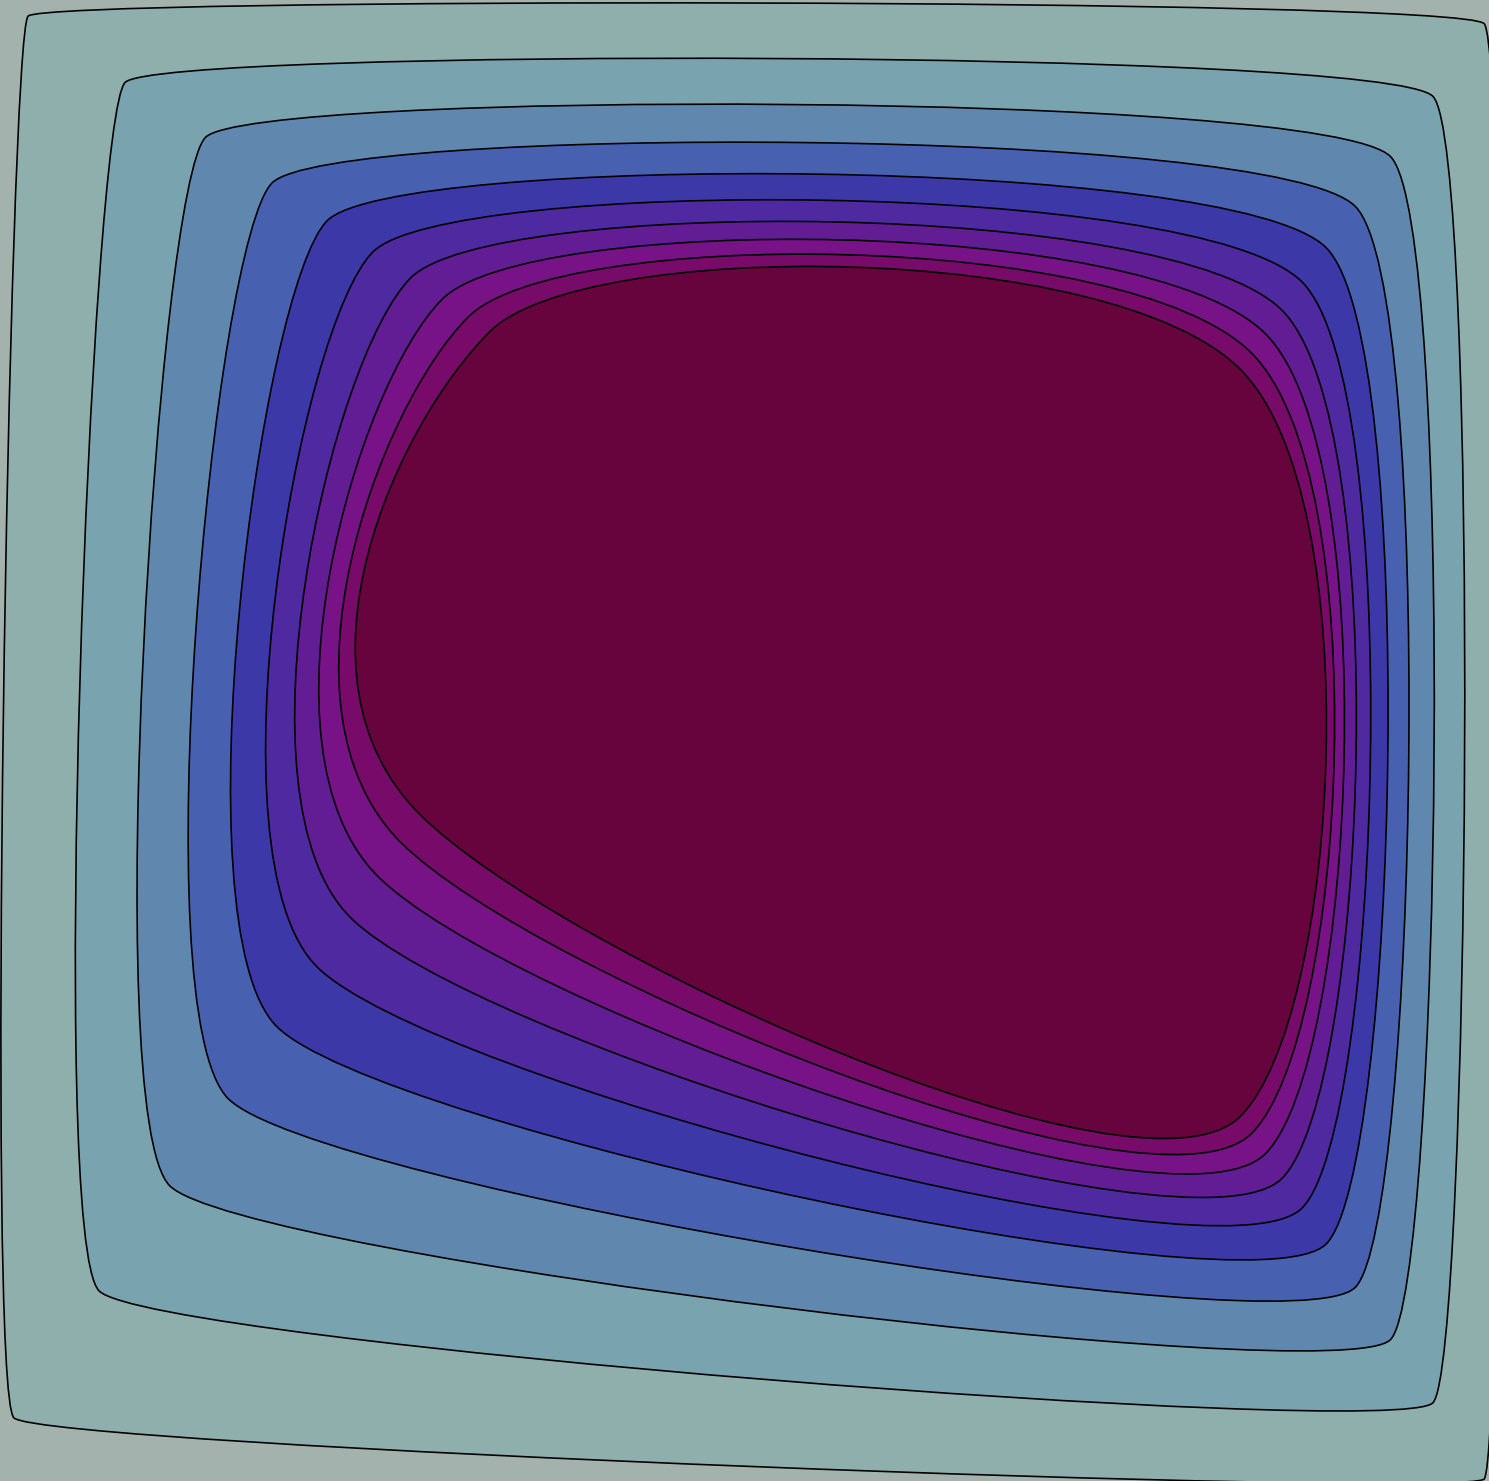

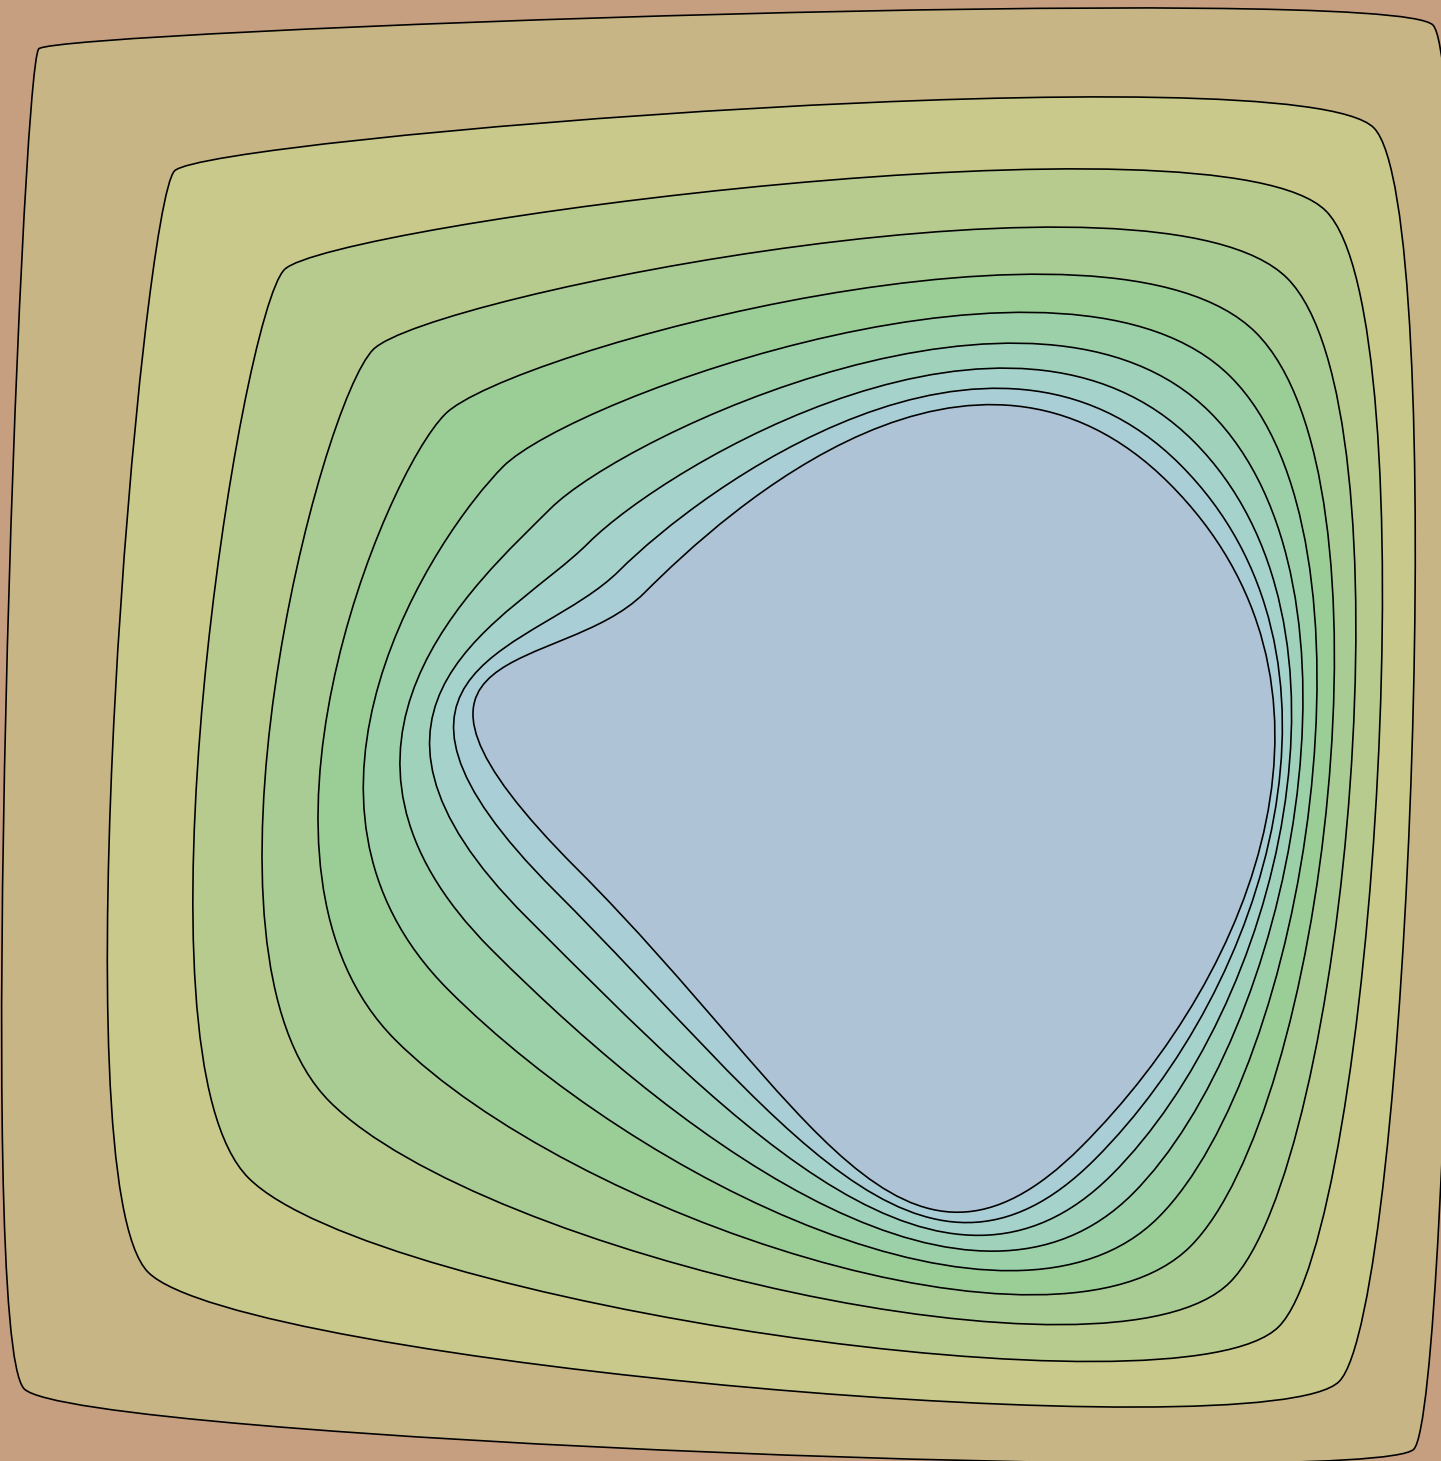

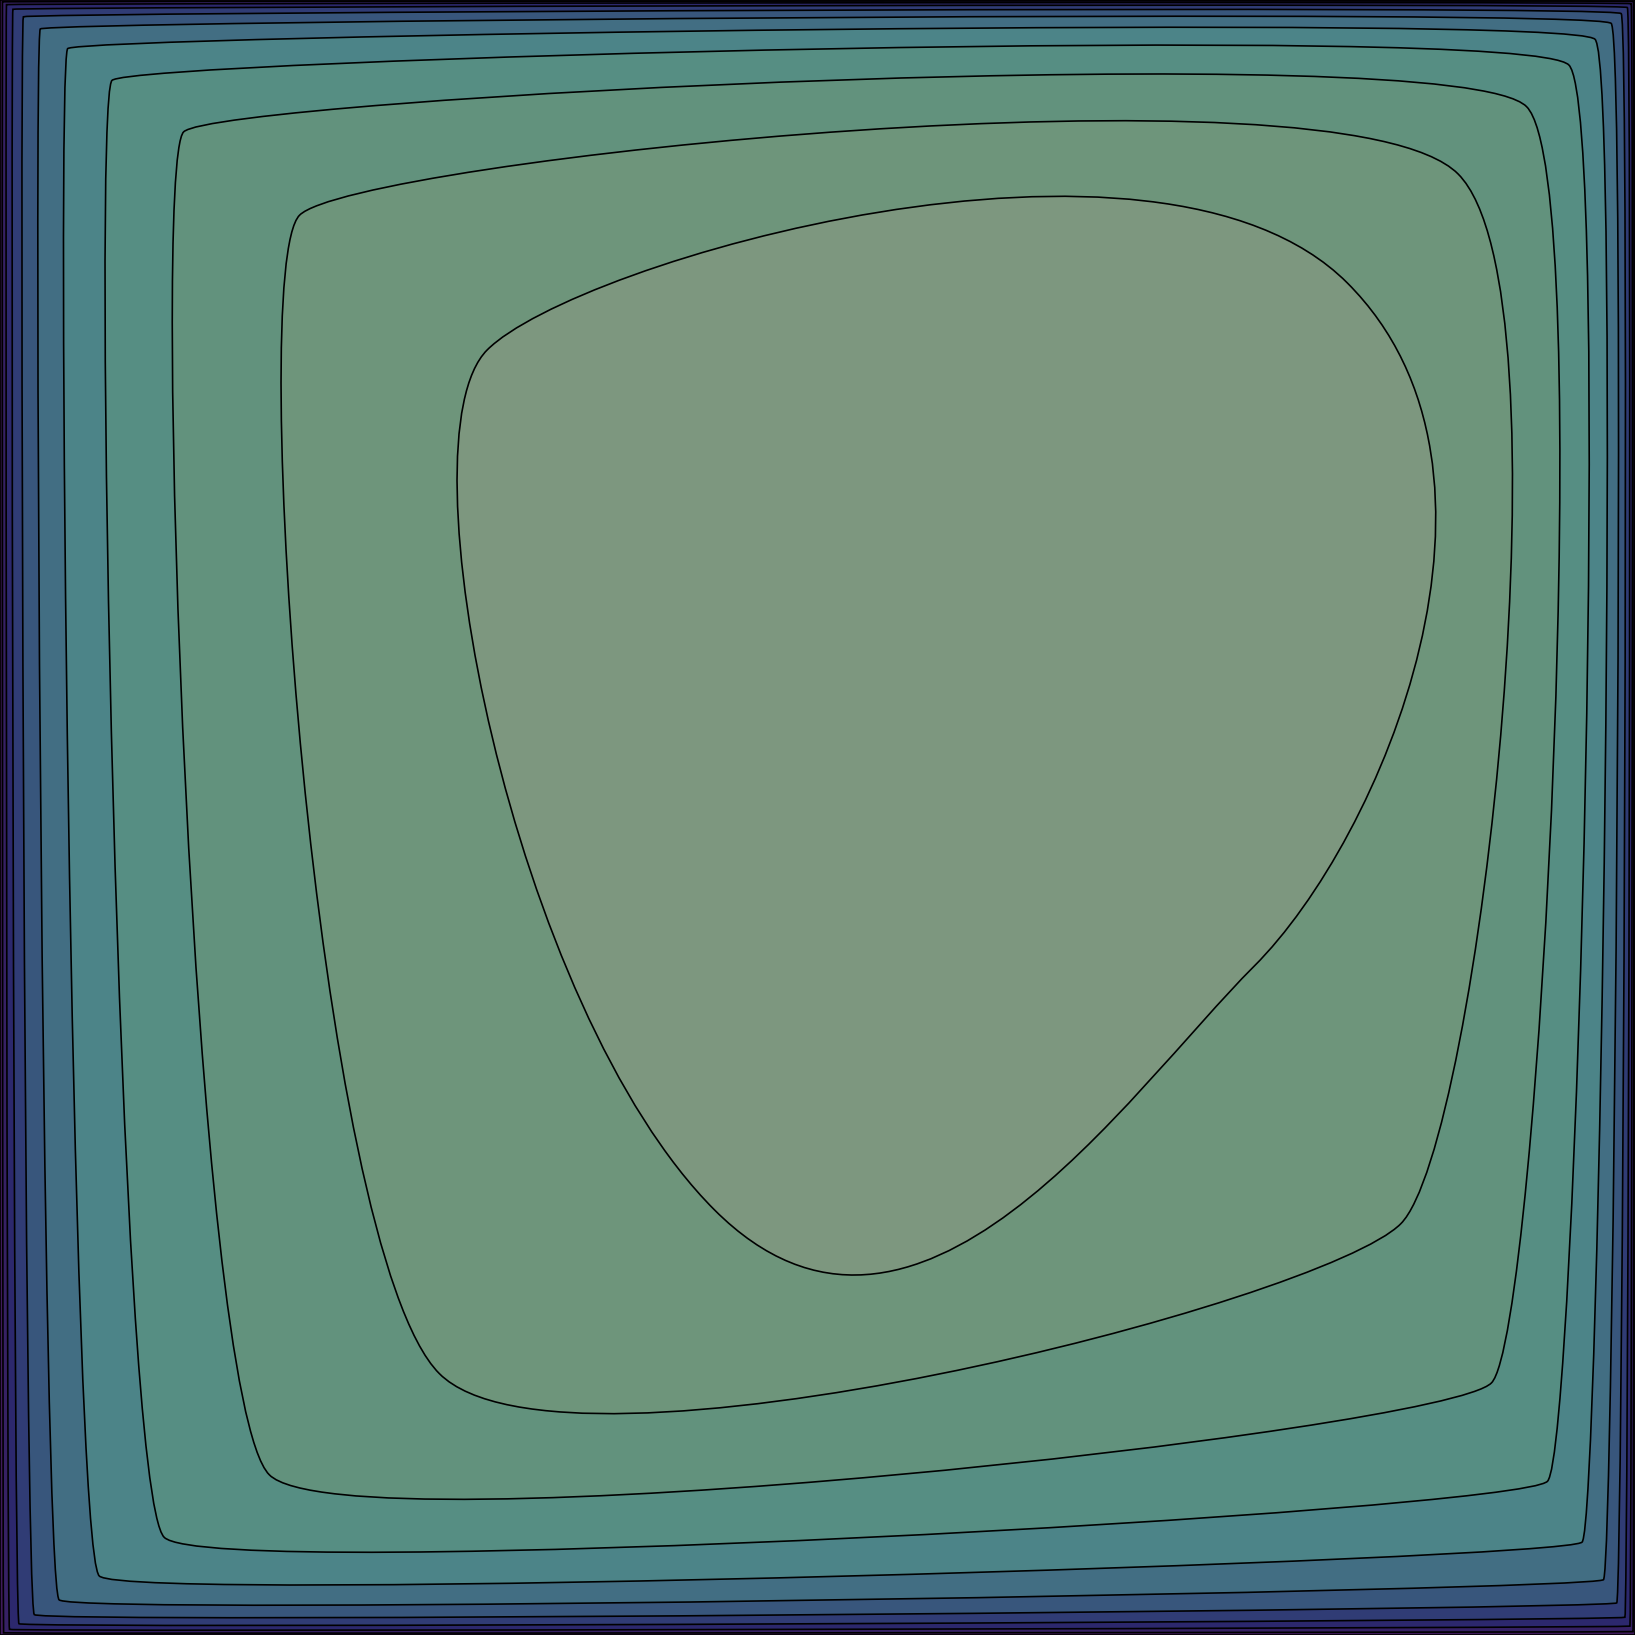

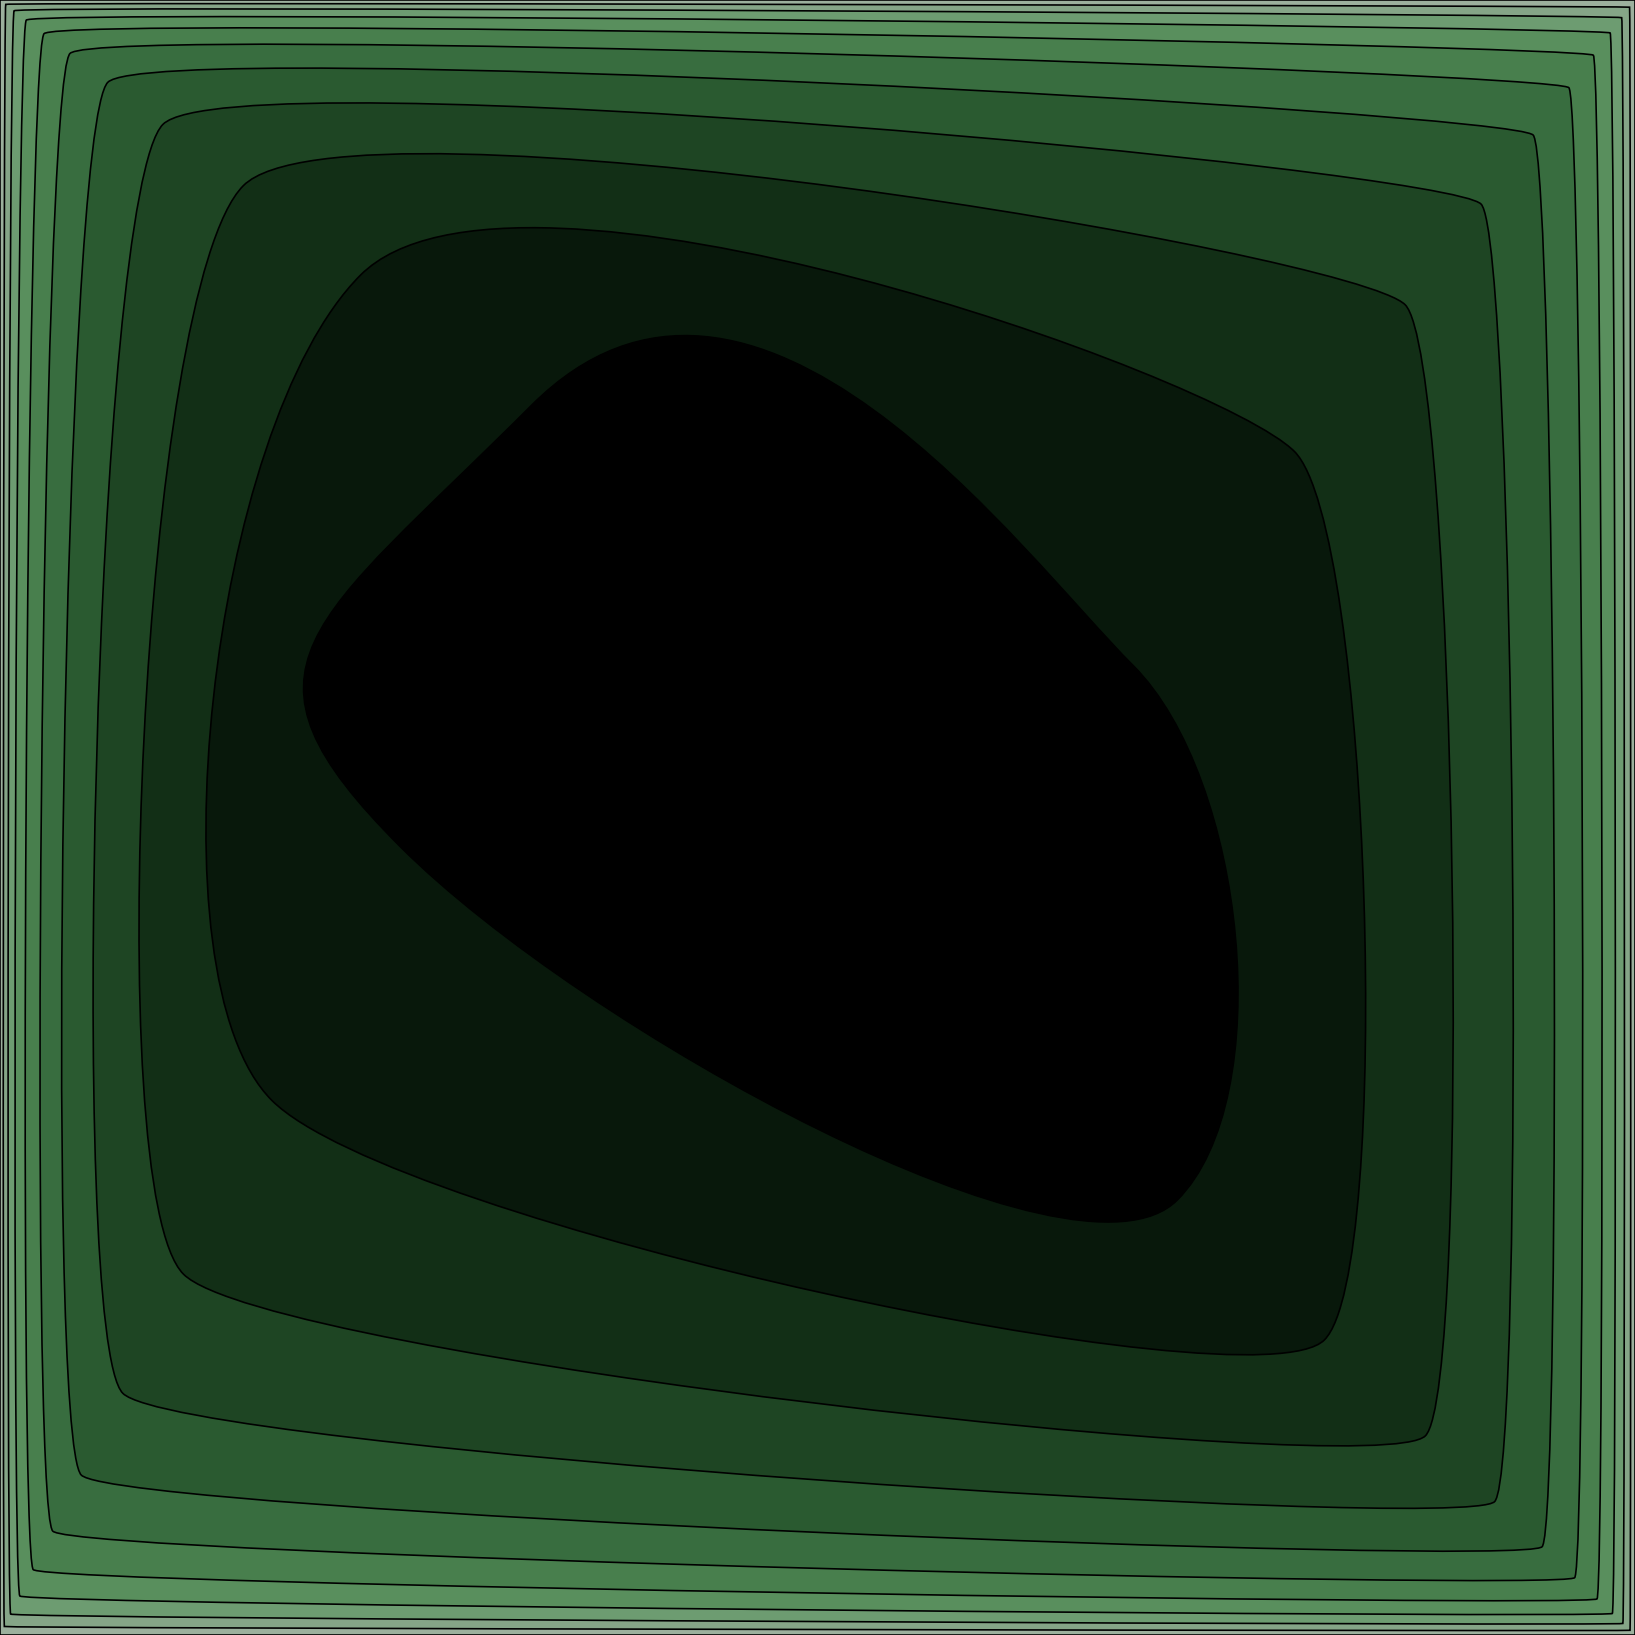

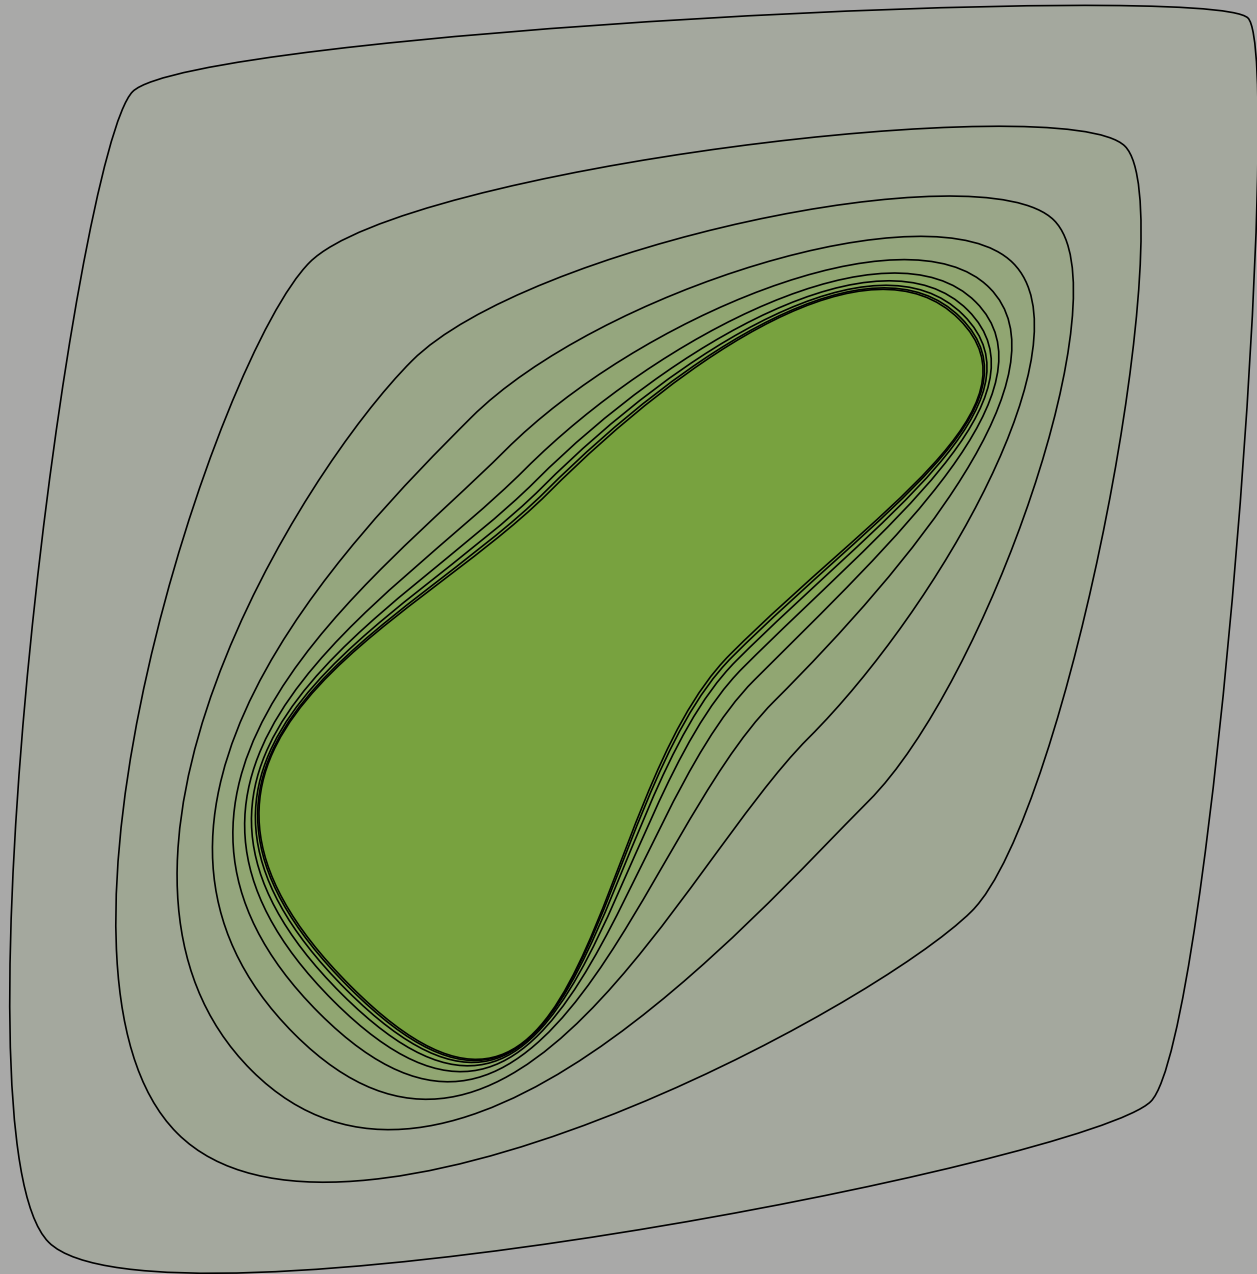

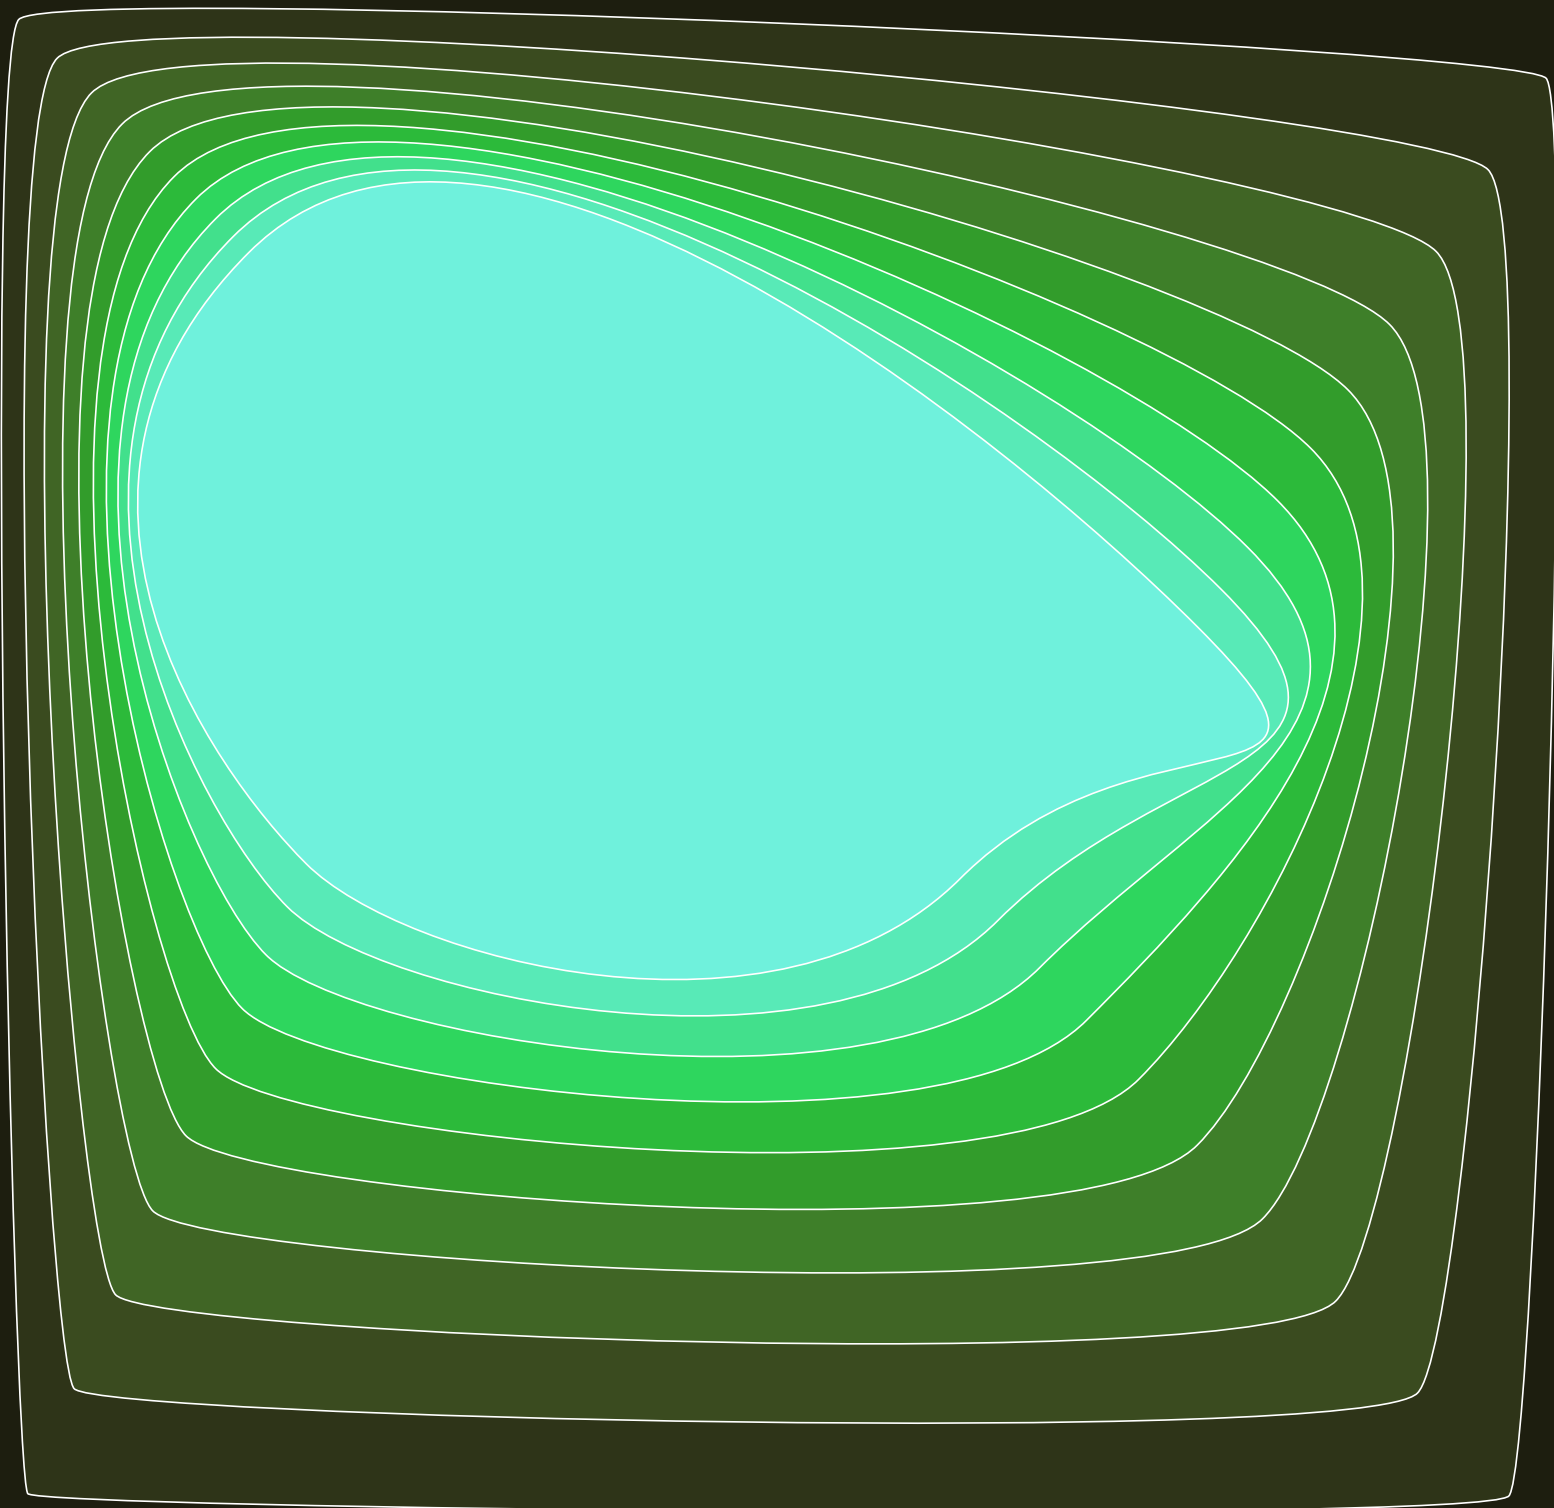

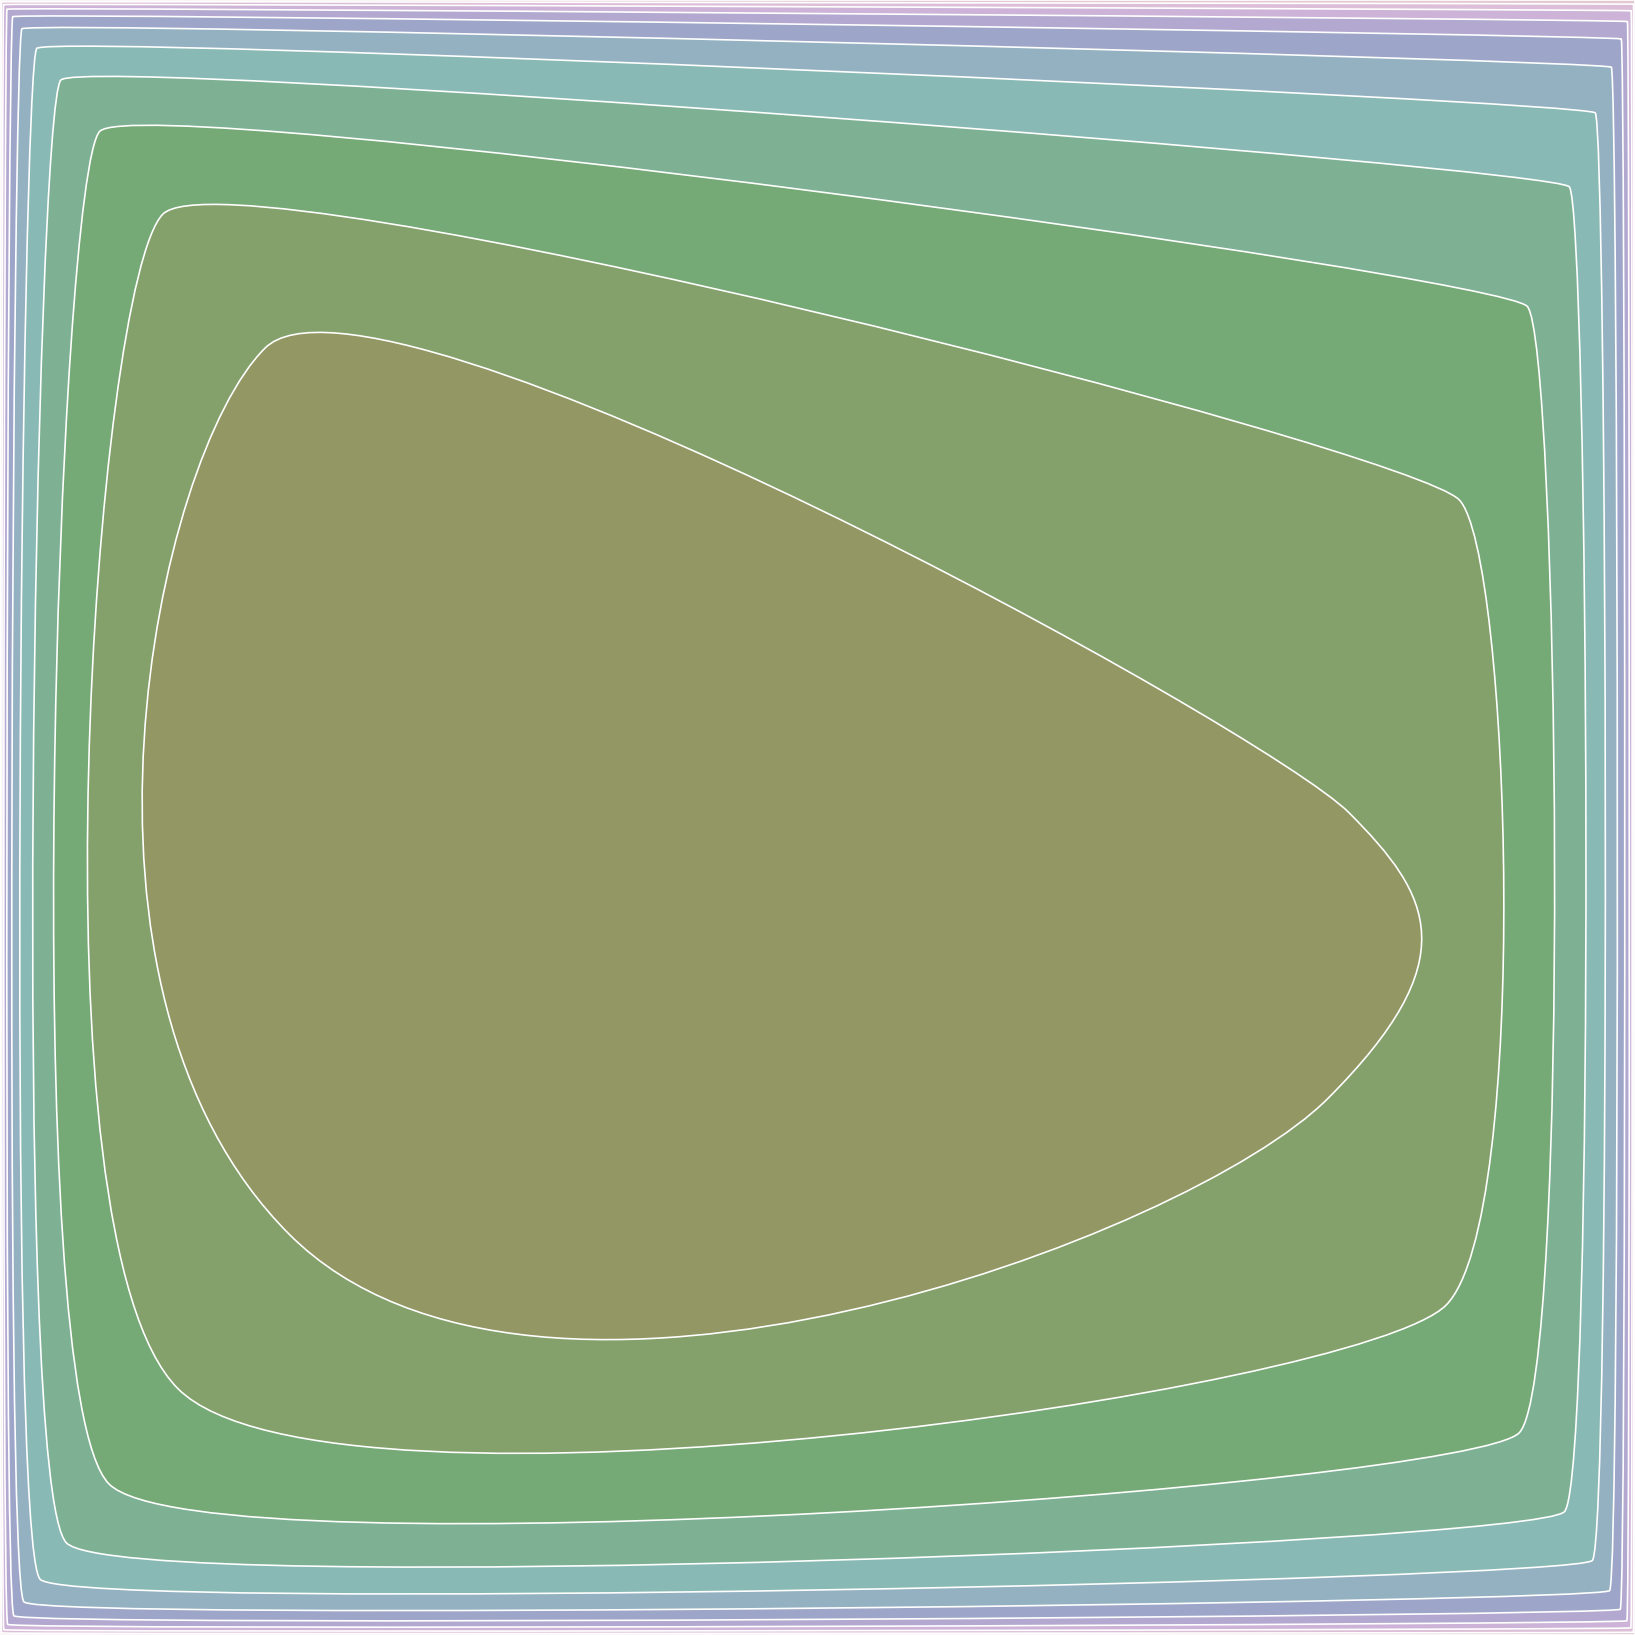

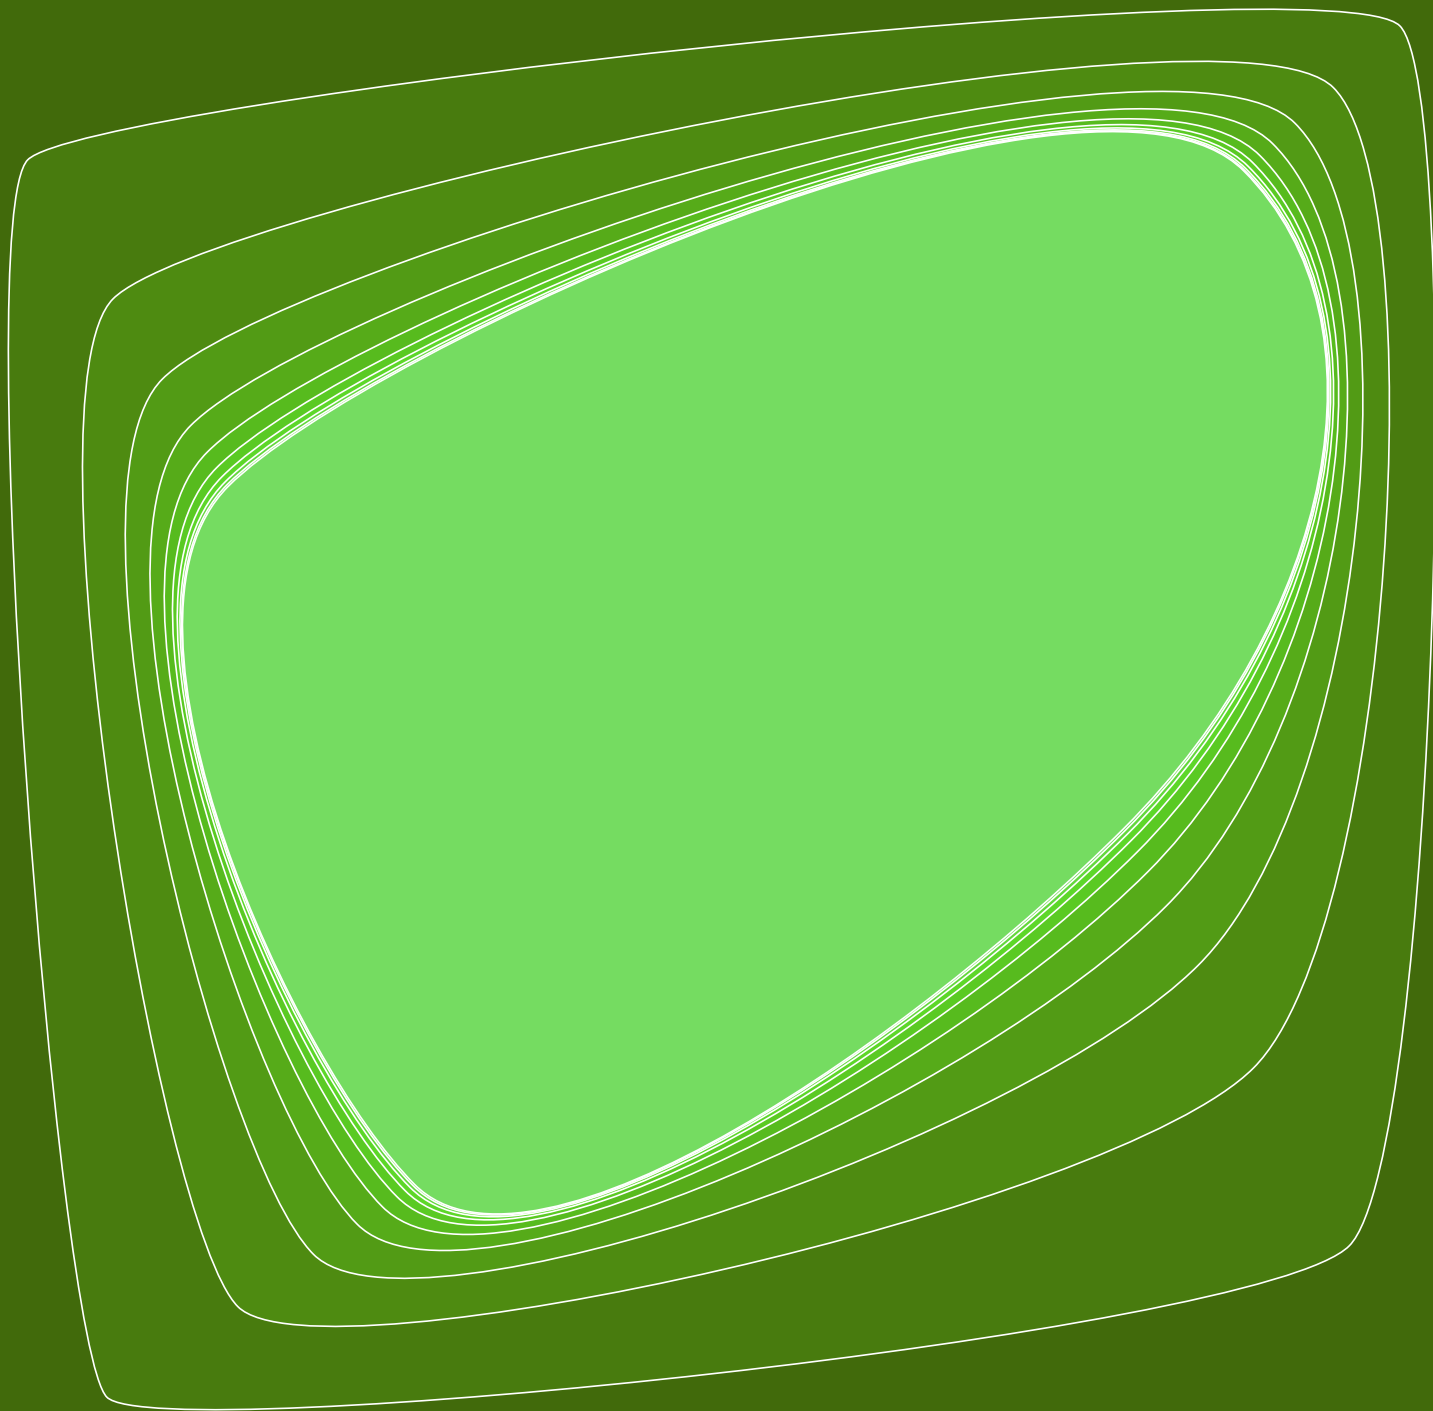

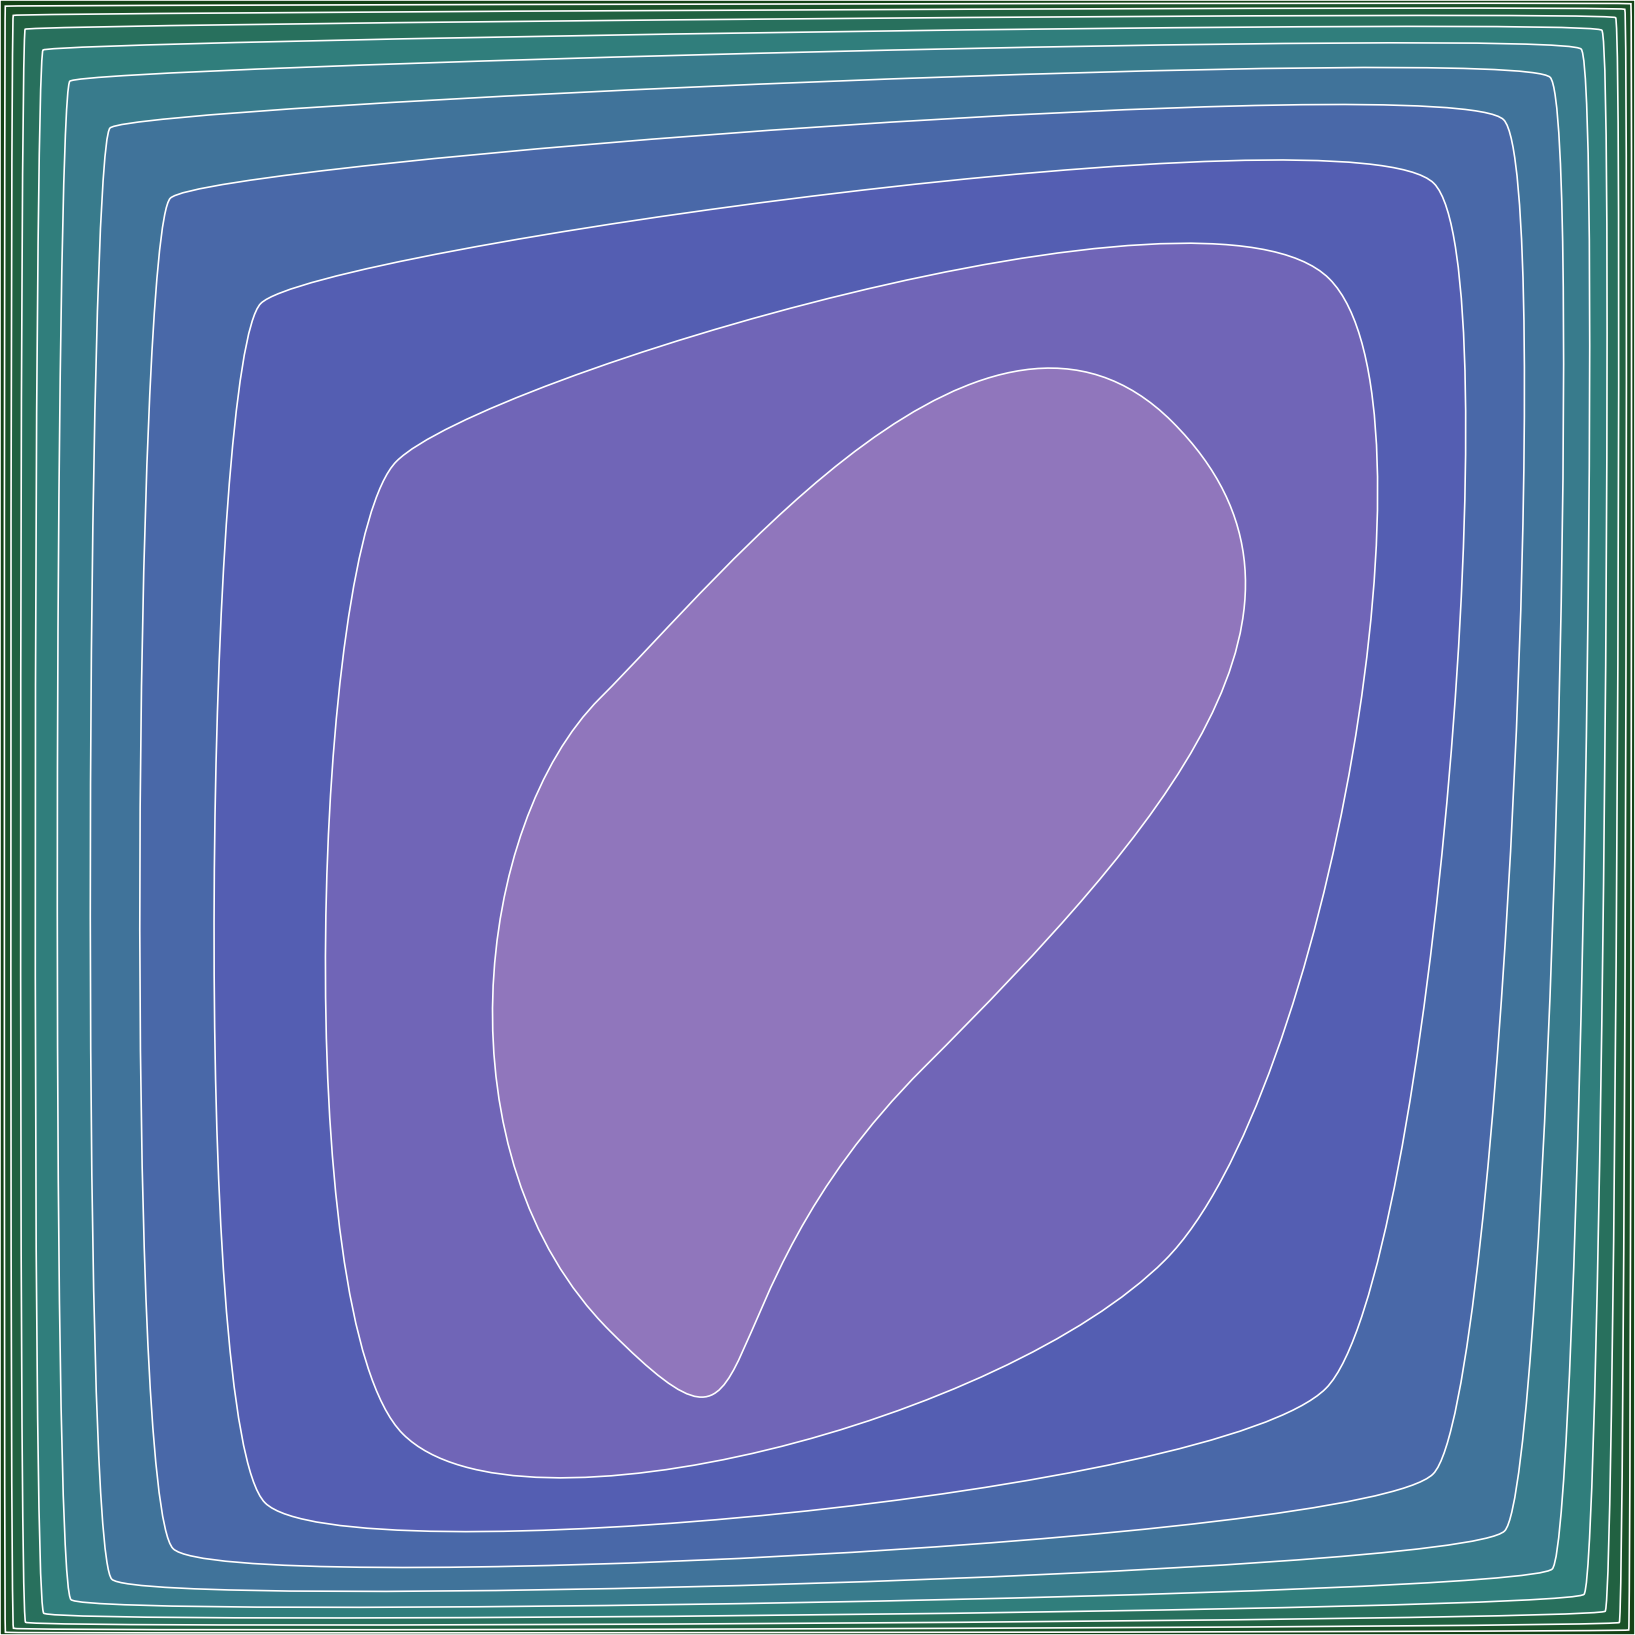

Every day my webserver generates a new book, filled with blobs of a random colour that turn into rectangles in ten steps. The blobs might have a border, and this border, if it exists, is either black or white. The ten steps follow a certain ratio. This ratio is one of the twelve so called excellent orthogons: The Quadrat, the Hemidiagon, the Trion, the Quadriagon, the Biauron, the Penton, the Diagon, the Bipenton, the Hemiolion, the Auron, the Hecton, and the Doppelquadrat.

Created for Vasilis van Gemert — and you — by his webserver.
